The following content is only applied to the monitor which is sold in Europe market and which needs to meet the ErP Directive:

* This monitor is set to be turned off automatically in 4 hours after you turned on display if there is no adjustment to display.

* To make this setting be disabled, change the option to 'Off' in OSD menu of "Automatic Standby".

ASSEMBLING AND PREPARING

Product Components

Please check whether all the components are included in the box before using the product. If there are missing components, contact the retail store where you purchased the product. Note that the product and components may look different from those shown here.

- Always use genuine components to ensure safety and product performance.
- The product warranty will not cover damage or injury caused by the use of counterfeit components.
- It is recommend that use the supplied components.
- If you use generic cables not certified by LG, the screen may not display or there may be image noises.

- Note that the components may look different from those shown here.
- Without prior notice, all information and specifications in this manual are subject to change to improve the performance of the product.
- To purchase optional accessories, visit an electronics store or online shopping site or contact the retail store where you purchased the product.

Supported Drivers and Software

You can download and install the latest version from the LGE website (www.lg.com).

| Drivers and Software | Installation Priority | 27UK850/27BK85U |

| Monitor Driver | Recommended | 0 |
| OnScreen Control | Recommended | 0 |
| Dual Controller | Optional | 0 |
| True Color Pro | Optional | 0 |

Component and Button Description

6

How to Use the Joystick Button

You can easily control the functions of the monitor by pressing the joystick button or moving it left/right with your finger.

Basic Functions

| -0- | Power on | Press the joystick button once with your finger to turn on the monitor. |
|---|-------------------|---|
| <u>ل</u> | Power off | Press and hold the joystick button once with your finger to turn off the monitor. |
| ▶</th <th>Volume Control</th> <th>You can control the volume by moving the joystick button left/right.</th> | Volume Control | You can control the volume by moving the joystick button left/right. |

• The joystick button is located at the bottom of the monitor.

Input Connector

Moving and Lifting the Monitor

When moving or lifting the monitor, follow these instructions to prevent the monitor from being scratched or damaged and to ensure safe transportation regardless of its shape or size.

- It is advisable to place the monitor in the original box or packing material before attempting to move it.
- Before moving or lifting the monitor, disconnect the power cord and all cables.
- Hold the top and bottom of the monitor frame firmly. Do not hold the screen itself.

• When holding the monitor, the screen should face away from you to prevent it being scratched.

- When moving the monitor, avoid any strong shock or vibrations to the product.
- When moving the monitor, keep it upright, never turn the monitor on its side or tilt it sideways.

• As far as possible, avoid touching the monitor screen. This may result in damage to the screen or some of the pixels used to create images.

• If you use the monitor panel without the stand base, its joystick button may cause the monitor to become unstable and fall, resulting in damage to the monitor or human injury. In addition, this may cause the joystick button to malfunction.

Installing the Monitor

Assembling the stand base

1 Please put a soft cloth on a low table or box to protect the screen of the monitor.

2 Please put the monitor on the soft cloth with the screen facing down.

3 1 Assemble the Head and Stand body.

2 Assemble the Stand body and Stand base .

4 Turn the screw clockwise to secure the **stand base**.

CAUTION

• To avoid injury to your fingers or feet when you Assembly the Stand Body and Base, you should hold the Stand Base firmly.

NOTE

• Press the stand until the button reaches the top.

- Illustrations in this document represent typical procedures, so they may look different from the actual product.
- Do not carry the monitor upside down by just holding the stand base. This may cause the monitor to fall off the stand and could result in personal injury.
- When lifting or moving the monitor, do not touch the monitor screen. The force applied to the monitor screen may cause damage to it.
- Do not apply foreign substances (oils, lubricants, etc.) to the screw parts when assembling the product. (Doing so may damage the product.)
- Applying excessive force when tightening screws may cause damage to the monitor. Damage caused in this way will not be covered by the product warranty.

• You can disassemble the stand in the reverse order of the assembly.

Using the cable holder

Arrange the cables using the cable holder as shown in the illustration.

Cable Holder

ENGLISH

Installing onto a table

1 Lift the monitor and place it on the table in an upright position.

Place at least **100 mm (3.94 inches)** away from the wall to ensure sufficient ventilation.

2 Connect the Power cord to the monitor, then plug the power cord into the wall outlet.

3 Press the joystick button on the bottom of the monitor to turn on the monitor.

• Unplug the power cord prior to moving or installing the monitor. There is risk of electric shock.

Cautions When Connecting Power Cord

- Make sure to use the power cord that is provided in the product package and connect it to a grounded power outlet.
- If you need another power cord, please contact your local dealer or the nearest retail store.

Adjusting the angle

- 1 Place the monitor in an upright position, mounted on the stand base.
- 2 Adjust the angle of the screen. The angle of the screen can be adjusted forwards or backwards for a comfortable viewing experience.

• To avoid injury to the fingers when adjusting the screen, do not hold the lower part of the monitor's frame as illustrated below.

• Be careful not to touch or press the screen area when adjusting the angle of the monitor.

Adjusting the Stand Height

1 Handle the monitor with both hands for safety.

2 The height can be adjusted up to 110.0 mm(4.33 inches).

110.0 mm(4.33 inches)

• Do not put your fingers or hand between the screen and the base (chassis) when adjusting the screen's height.

ENGLISH

Pivot Feature

The pivot feature allows the monitor to rotate 90° clockwise.

- To avoid scratching the stand base, make sure that when rotating the monitor using the pivot feature, the stand does not make contact with the monitor.
- 1 Raise the monitor to the maximum height.

2 Adjust the angle of the monitor in the direction of the arrow as shown in the figure.

3 Rotate the monitor clockwise as shown in the figure.

4 Complete the installation by rotating the monitor 90° as shown below.

- Auto Pivot feature of the display is not supported.
- The screen can be rotated easily using the screen pivot shortcut key provided with your Windows operating system. Note that some Windows versions and some graphics card drivers may use different settings for the screen pivot key or may not support the pivot key at all.

- Take care when rotating the monitor if the cable is connected.
- To avoid injury when rotating the display, do not place your fingers between the display and the stand base.

Using the Kensington lock

The Kensington security system connector is located at the back of the Monitor set.

For more information on installation and usage, refer to the Kensington lock user manual or visit the website at http://www.kensington.com.

Connect the Kensington security system cable between the Monitor set and a table.

• Use of the Kensington lock is optional. The accessories can be purchased at your local electronics store.

• The left or right side of the monitor head can be slightly rotated up or down (up to 3°). Adjust the horizontal level of the monitor head.

Detaching the Stand Body

- 1 Place the monitor's screen face down. To protect the screen from scratches, cover the surface with a soft cloth.
- 2 Remove the stand from the monitor by pressing the button on the bottom center of the back of the monitor.

Installing the wall mount plate

This monitor supports the specification of the standard wall mount plate or compatible device.

- 1 Place the screen face down. To protect the screen from scratches, cover the surface with a soft cloth.
- 2 Place the wall mount plate onto the monitor and align it with the screw holes.
- 3 Tighten the four screws to fix the plate to the monitor using a screwdriver.

- The wall mount plate is sold separately.
- For more information on installation, refer to the wall mount plate's installation guide.
- Be careful not to use excessive force when mounting the wall mount plate, as this can damage the monitor's screen.

Installing to a wall

Install the monitor at least 100 mm (3.94 inches) away from the wall and leave about 100 mm (3.94 inches) of space at each side of the monitor to ensure sufficient ventilation. Detailed installation instructions can be obtained from your local retail store. Please refer to the manual to install and set up a tilting wall mounting bracket.

To install the monitor to a wall, attach a wall mounting bracket (optional) to the back of the monitor. Make sure that the wall mounting bracket is securely fixed to the monitor and to the wall.

- 1 If you use screw longer than standard, the monitor might be damaged internally.
- 2 If you use improper screw, the product might be damaged and drop from mounted position.In this case, LG Electronics is not responsible for it.

| Wall Mount (A x B) | 100 x 100 |
|--------------------------------|-----------|
| Standard screw | M4 x L10 |
| Number of screws | 4 |
| Wall Mount Plate (Optional) | LSW 149 |

- ENGLISH
- Wall Mount (A x B)

- Unplug the power cord before moving or installing the monitor to avoid electric shocks.
- Installing the monitor on the ceiling or on a slanted wall may result in the monitor falling off, which could lead to injury. Please use the genuine LG wall mounting bracket. For more information, contact your local retail store or a qualified installer.
- Applying excessive force when fastening screws may cause damage to the monitor. Damage caused in this way will not be covered by the product warranty.
- Use the wall mounting bracket and screws that conform to the VESA standard. Damage caused by the use or misuse of inappropriate components will not be covered by the product warranty.
- Screw length from outer surface of back cover should be under Max. 8mm(0.31inches).

Wall mount Pad

- Use the screws specified by the VESA standard.
- The wall mount kit includes the installation guide and all necessary parts.
- The wall mounting bracket is optional. The accessories can be purchased at your local retail store.
- The length of the screw may differ for each wall mounting bracket. Ensure the correct length screw is used.
- For more information, please refer to the user manual for the wall mounting bracket.

USING THE MONITOR

Connecting to a PC

• This monitor supports the *Plug and Play feature. *Plug and Play: A feature that allows you to add a device to your computer without having to reconfigure anything or install any manual drivers.

HDMI connection

Transmits the digital video and audio signals from your PC and A/V devices to the monitor. Connect your PC and AV device to the monitor with the HDMI cable as illustrated below.

Press the menu button and then select the input option from the input menu.

- If you use HDMI PC, it can cause compatibility problem.
- Use a certified cable with the HDMI logo attached. If you do not use a certified HDMI cable, the screen may not display or a connection error may occur.
- Recommended HDMI cable types
- High-Speed HDMI[®]/[™] Cable
- High-Speed $\mathrm{HDMI}^{\mathrm{e}}/^{\mathrm{TM}}$ Cable with Ethernet

DisplayPort connection

Transmits the digital video and audio signals from your PC to the monitor. Connect your PC to the monitor using the Displayport cable as illustrated below. Press the menu button and then select the input option from the input menu.

- There may be no video or audio output depending on the DP version of the PC.
- If you use generic cables not certified by LG, the screen may not display or there may be image noises.
- For using Mini DP to DP (Mini DisplayPort to DisplayPort) cable, it is recommended that you use DisplayPort 1.2 cable.

USB-C connection

Transmits digital video and audio signals from your PC to the monitor.

Connect the monitor to your PC using the USB-C cable as shown in the illustration below.

Press the menu button and then select the input option from the input menu.

- PD(Power Delivery) and DP Alternate Mode(DP over USB-C) are supported via USB-C Port.
- Features may not work properly depending on the connected device's specifications and the environment.
- USB-C port is not for the Monitor Power source but for a PC power source. Connect Adapter to supply power to the Monitor

Connecting to AV Devices

HDMI connection

Transmits the digital video and audio signals from your PC and A/V devices to the monitor. Connect your PC and AV device to the monitor with the HDMI cable as illustrated below.

Press the menu button and then select the input option from the input menu.

- Use a certified cable with the HDMI logo attached. If you do not use a certified HDMI cable, the screen may not display or a connection error may occur.
- Recommended HDMI cable types
- High-Speed HDMI[®]/[™] Cable
- High-Speed $\mathrm{HDMI}^{\ast}/^{^{\mathrm{TM}}}$ Cable with Ethernet

Connecting Peripherals

USB Cable connection - PC

The USB port on the product functions as a USB hub.

Connecting to External Devices

Connecting Headphones

Connect peripherals to the monitor via the headphones port. Connect as illustrated.

| 1 | 'sold | separately) |
|---|-------|-------------|
| | Joiu | separately |

- Make sure to install the most recent Windows OS service pack before using the product.
- Peripheral devices are sold separately.
- A keyboard, mouse, or USB device can be connected to the USB port.
- To use USB Downstream port of monitor, user must connect Upstream port of monitor to Host PC using USB C-C or USB C-A cable.
- When the USB C-C cable is connected between Upstream port of monitor and Host PC, the Downstream port of monitor support USB 2.0 device.
- When the USB C-A cable is connected between Upstream port of monitor and Host PC, the Downstream port of monitor support USB 3.0 device.

However, Host PC must support USB 3.0 function.

Cautions When Using a USB Device

- A USB device with an automatic recognition program installed, or that uses its own driver, may not be recognized.
- Some USB devices may not be supported or may not work properly.
- It is recommended to use a USB hub or hard disk drive with power supplied. (If the power supply is not adequate, the USB device may not be recognized properly.)

- Peripheral devices are sold separately.
- If you use angled earphones, it may cause a problem with connecting another external device to the monitor. Therefore, it is recommended to use straight earphones.

• Depending on the audio settings of the PC and external device, headphones and speaker functions may be limited.

USER SETTINGS

Activating the Main Menu

- 1 Press the joystick button on the bottom of the monitor.
- 2 To view the settings menu, press the joystick button at the bottom of the monitor and then enter the **Settings**.
- 3 Move the joystick up/down (\blacktriangle/ ∇) and left/right $(\triangleleft/ \triangleright)$ to set the options.
- 4 Press the joystick button once more to exit the main menu.

| Button | Menu Status | | Description | | |
|--------|--------------------|--------------------|--|--|--|
| | Main menu disabled | | Enables the main menu. | | |
| | | menu enabled | Exits the main menu. (Holding down the button to turn off the monitor. You can turn off the monitor this way at any time, including when the OSD is on.) | | |
| | • | Main menu disabled | Adjusts the monitor volume level. | | |

| Settings > General | Description | | | | | |
|--------------------|--|---|--|--|--|--|
| Language | Sets the menu screen to the desired language. | | | | | |
| SMART ENERGY | High | Saves energy using the high-efficiency SMART ENERGY SAVING feature. | | | | |
| SAVING | Low | Saves energy using the low-efficiency SMART ENERGY SAVING feature. | | | | |
| | Off | Disables the SMART ENERGY SAVING feature. | | | | |
| Power LED | Turns the power LED on the bottom of the monitor on or off. | | | | | |
| | On | The power LED turns on automatically. | | | | |
| | Off | The power LED turns off. | | | | |
| Automatic Standby | | Feature that automatically turns off the monitor when there is no movement on the screen for a period of time. You can set a timer for the auto-off function. (Off, 4 H, 6 H, and 8 H) | | | | |
| DisplayPort 1.2 | Enables or | disables DisplayPort 1.2. | | | | |
| | Be sure | NOTE e to configure this option according to the DisplayPort version supported by your is card. Set this option to Disable if your graphics card does not support DisplayPort 1.2. | | | | |
| Buzzer | This feature lets you set the sound generated from Buzzer when your monitor powers on. | | | | | |
| | On | Enables your monitor's Buzzer . | | | | |
| | Off | Disables your monitor's Buzzer . | | | | |
| OSD Lock | This feature disables the configuration and adjustment of menus. | | | | | |
| | On | Enables OSD Lock. | | | | |
| | Off | Disables OSD Lock. | | | | |
| | NOTE All features are disabled except Brightness, Contrast, Volume, Input List, Aspect Ratio, OSD Lock and Information. | | | | | |
| OSD Size | User can se | lect OSD Size to Large or Small. | | | | |
| Deep Sleep Mode | When Deep sleep mode is enabled, power consumption is minimized while the monitor is in standby mode. | | | | | |
| | On | Enables Deep sleep Mode. | | | | |
| | Off | Disables Deep sleep Mode. | | | | |
| | NOTE USB HUB functions will not work in standby mode while Deep sleep Mode is enabled in standby mode. | | | | | |
| Information | The display | information will be shown the Model, Serial Number, Total Power On Time, Resolution. | | | | |
| Reset | Do you wa | nt to reset your settings? | | | | |
| | No | Cancel the select. | | | | |
| | Yes | Returns to the default settings. | | | | |

• Saving Data depends on the Panel. So, these values may be different from each panel and/or panel vendor. If the SMART EN-ERGY SAVING option is High or Low, monitor luminance become higher or lower depending on the source. ENGLISH

TROUBLESHOOTING

| Nothing is displayed on the screen. | |
|---|--|
| Is the monitor's power cord plugged in? | Check if the power cord is correctly plugged into the power outlet. |
| Is the power LED on? | Check the power cable connection and press the power button. |
| Is the power on and the power LED displaying white? | Check that the connected input is enabled (Settings > Input > Input list). |
| Is the OUT OF RANGE message being displayed? | This occurs when signals transferred from the PC (graphics card) are out of the horizontal or vertical frequency range of the monitor. Please see the Product Specification section of this manual to set the appropriate frequency. |
| Is the No Signal message being displayed? | • This is displayed when the signal cable between the PC and the monitor is missing or disconnected. Check the cable and reconnect it. |

| The OSD lock message is being displayed. | | | | |
|--|--|--|--|--|
| Are some functions not available when you press the Menu button? • The OSD is locked. Go to Settings > General and set OSD Lock to Off . | | | | |
| The screen retains an image. | | | | |
| Does image sticking occur even when the monitor is turned off? | Displaying a still image for a prolonged time may cause damage to the screen, resulting in the retention of the image.To extend the lifetime of the monitor, use a screensaver. | | | |

| Screen display is unstable and shaky / Images displayed on the monitor leave shadow trails. | | | |
|---|---|--|--|
| Did you select the appropriate resolution? | If the selected resolution is HDMI 1080i 60/50 Hz (interlaced), the screen may be flickering. Change the resolution to 1080P or the recommended resolution. | | |

- Vertical frequency In order to display an image, the screen must be refreshed dozens of times per second, like a fluorescent lamp. The number of times the screen is refreshed per second is called vertical frequency, or refresh rate, and is represented by Hz.
- **Horizontal frequency** The time it takes to display one horizontal line is called the horizontal cycle. If 1 is divided by the horizontal interval, the result is the number of horizontal lines displayed per second. This is called horizontal frequency and is represented by kHz.
- LED can be lighted with Set OSD Menu.

Settings > General > Power LED > On

- Check if the graphics card's resolution or frequency is within the range allowed by the monitor and set it to the recommended (optimal) resolution in **Control Panel > Display > settings**.
- Not setting the graphics card to the recommended (optimal) resolution may result in blurred text, a dimmed screen, a truncated display area, or misalignment of the display.
- The setting methods may be different depending on the computer or operating system, and some resolutions may not be available depending on the performance of the graphics card. If this is the case, contact the manufacturer of the computer or graphics card for assistance.
- Some graphics cards may not support 3840 x 2160 resolution. If the resolution cannot be displayed, contact the manufacturer of your graphics card.

| The display color is abnormal. | | | | |
|---|---|--|--|--|
| Does the display appear discolored (16 colors)? | Set the color to 24 bit (true color) or higher. In Windows, go to Control Panel > Display > Settings > Color Quality. | | | |
| Does the display color appear unstable or monochrome? | Check if the signal cable is connected properly. Reconnect the cable or reinsert the PC's graphics card. | | | |
| Are there spots on the screen? | When using the monitor, pixilated spots (red, green, blue, white, or black) may appear on the screen. This is normal for an LCD screen. It is not an error, nor is it related to the monitor's performance. | | | |

| Do you see an "Unrecognized monitor, Plug&Play (VESA DDC) monitor found" message? | | | | |
|--|--|--|--|--|
| Have you installed the display driver? • Be sure to install the display driver from our web site: http://www.lg.com. | | | | |
| Make sure to check if the video card supports Plug&Play function. | | | | |

| No sound from the headphone port or speaker. | | | | |
|--|---|--|--|--|
| Are images displayed using DisplayPort or HDMI input without sound? | Try increasing the volume using the button on the monitor. Set the audio output of the PC to the monitor you are using. On Microsoft Windows, go to Control Panel > Hardware and Sound > Sound > set the monitor as default device. | | | |

The specifications are subject to change without notice.

* The power consumption level can be different by operating condition and monitor setting.

* The On mode power consumption is measured with ENERGY STAR® test standard.

** The On mode power consumption is measured with LGE test standard (Full White pattern , Maximum resolution). *** In case of USB-C input, the power consumption of Sleep Mode may vary depending on the connected device.

Factory Support Mode (Preset Mode, PC)
