

CE 0168

GB220 User Guide - English

This guide will help you understand your new mobile phone. It will provide you with useful explanations of features on your phone. Some of the contents in this manual may differ from your phone depending on the software of the phone or your service provider.

Disposal of your old appliance

- When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC.
- All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
- The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.
- For more detailed information about disposal of your old appliance, please contact your city office, waste disposal service or the shop where you purchased the product.

P/N: MMBB0346835 (1.0) H

Getting to know your phone

Volume key / Side keys

- In standby mode (Opened) : Volume adjustment
- In standby mode (closed): Short press - The sub LCD backlight on. Long press (Down key only) -Go to Self Camera mode and you can take a photo.
- During a call : Earpiece volume adjustment
- During playing MP3 music: Audio volume

Charger, cable slot, Handsfree connector

Memory card slot

Installing a memory card

Lift the memory card cover and insert a micro SD card with the golden contact area facing downwards. Close the memory card cover so that it clicks shut.

To remove the memory card, gently push it as shown in the diagram.

Note: A memory card is an optional accessory.

Formatting the memory card

Press **Menu** and **Select Settings**. Choose **Memory manager**, select **External memory** and press **Format**.

WARNING: When you format your memory card, all the content will be wiped. If you do not want to lose the data on your memory card, back it up first.

Installing the SIM Card and Charging the Battery

Installing the SIM Card

When you subscribe to a cellular network, you are provided with a plug-in SIM card loaded with your subscription details, such as your PIN, any optional services available and many others.

Important! The plug-in SIM card and its contacts can be easily damaged by scratches or bending, so be careful when handling, inserting or removing the card. Keep all SIM cards out of the reach of small children.

Illustrations

- Open battery cover
- Remove the battery
- Insert your SIM
- Insert the battery
- Close the battery cover
- Charge your battery

WARNING: Do not remove the battery when the phone is switched on, as this may damage the phone.

the key labeled with the required letter once, twice, three or four times until the letter is displayed.

123 mode

Type numbers using one keystroke per number. You can also add numbers while remaining in letter modes by pressing and holding the desired key.

Message folders

Press **Menu**, select **Messaging**. The folder structure used on your GB220 is fairly self-explanatory.

- Create message** - Allows you to create new messages.
- Inbox** - All the messages you receive are placed into your Inbox.
- My mailbox** - Contains all your email messages.
- Drafts** - If you don't have time to finish writing a message, you can save what you have done so far here.
- Outbox** - This is a temporary storage folder while messages are being sent.
- Sent items** - All the messages you send are placed into your **Sent folder**.

- Saved items** - A list of useful messages, already written for a quick reply.
- Emoticons** - Liven up your messages using emoticons.

Music

Your GB220 has a built-in Music player so you can play all your favourite music.

Playing a song

- Press **Menu** and select **Media**, then choose **Music**.
- Choose **All tracks** then select the song you want to play.
- Select **||** to pause the song.
- Select **▶▶** to skip to the next song.
- Select **◀◀** to skip to the previous song.
- Select **Back** to stop the music and return to the Music player menu.

Creating a playlist

You can create your own playlists by choosing a selection of songs from the **All songs** folder.

- Press **Menu** and select **Media**.
- Choose **Music**, then select **playlist**.

Calls

Making a call

- Key in the number using the keypad. To delete a digit press **CLR**.
- Press **OK** to initiate the call.
- To end the call, press **End**.

TIP! To enter + when making an international call, press and hold 0.

Making a call from your contacts

- Select **Names** from **Contacts**.
- Using the keypad, enter the first letter of the contact you want to call. For example, for **Office**, Press 6 three times to select the first character, "O"
- Select **Call** or press **Call** to initiate the call.

Answering and rejecting a call

When your phone rings, press **Accept** or press **End** to answer the call.

You can control the volume by pressing the side keys.

Press **End** or select **Reject** to reject the incoming call.

TIP! You can change the settings on your phone to

answer your calls in different ways. Press **Menu**, select **Settings**, and choose **Call**. Select **Answer mode** and choose from **Press send key**, **Open flip** and **Press any key**.

Speed dialling

You can assign a speed dial number to a contact you call frequently.

Viewing your Call history

You can check the record of missed, received, and dialled calls only if the network supports the Calling Line Identification (CLI) within the service area.

Changing the call settings

You can set the menu relevant to a call. Press **Menu**, select **Settings** and choose **Call**.

- Call divert** - Choose whether to divert your calls.
- Call barring** - Select when you would like calls to be barred.
- Fixed dial number** - Choose a list of numbers that can be called from your phone. You'll need your PUK2 code from your operator. Only numbers included in the fixed dial list can be called from your phone.

- Press **Add** enter the playlist name and press **Save**.
- The **All tracks** folder will show. Select all of the songs that you would like to include in your playlist by scrolling to them and selecting **☑**.
- Select **Done** to store the playlist.

Camera

Taking a quick photo

- Select **Menu** Select **Media** to open the viewfinder.
- Holding the phone and, point the lens towards the subject of the photo.
- Position the phone so you can see the subject of your photo.
- Press **Centre** key to take a photo.

Video camera

Shooting a quick video

- In standby screen, select **Menu** and select **Media**.
- Choose **Video**.
- Point the camera lens towards the subject of the video.

- Press **Rec** to start recording.
- Rec will appear in the bottom left corner of the viewfinder and a timer will show the length of your video.
- Select stop to stop recording.

FM radio

Using the FM radio

Your LG GB220 has an FM radio feature so you can tune into your favourite stations and listen on the move.

Listening to the radio

- Press **Menu** and select **Media**, then choose **FM radio**.
- Select the channel number of the station you would like to listen to.

Recording the Radio

- Press center key during listening to the **FM Radio**.
- The recording time is displayed on your phone. If you want to stop the recording, press the **Centre** key. If recording is done, the recorded contents will be saved in **Gallery** as mp3 file.

- Call waiting** - Be alerted when you have a call waiting. (Depends on your network provider.)
- Call reject** - Set the rejected call list.
- Send my number** - Choose whether your number will be displayed when you call someone. (Depends on your network provider.)
- Auto redial** - Choose **On** or **Off**.
- Answer mode** - Choose whether to answer the phone using any key or send key only.
- Free call timer** - Choose whether it shows or not.
- Minute minder** - Select On to hear a tone every minute during a call.
- BT answer mode** - Set Hands-free or Handset.
- Save new number** - Choose **Yes** or **No**.

Contacts

Searching for a contact

- Select **Names** from **Contacts**.
- Using the keypad enter the first letter of the contact you want to call.
- To scroll through the contacts use the up and down arrows.

- When the recording is done, select **Option** and then choose from **Play**, **Delete**, **Sound edit File** or **Send via**.

Note: If you stay in an area with bad radio reception, you may find difficulty in listening to the **Radio**. So, we recommend you insert Ear-mic into Handsfree connector in order to listen to the **Radio** and keep the good radio reception.

Voice recorder

Use your **Voice recorder** to record voice memos or other sounds.

Gallery

You can store any **Media files** into your phone's memory so that you have easy access to all of your images, sounds, videos, others and games. You can also save your files to a memory card. The advantage of using a memory card is that you can free up space on your phone's memory. All your multimedia files will be saved in **Gallery**. Press **Menu** then select **Gallery** to open a list of folders.

My images

Images contains a folder of default images on your phone, images downloaded by you, and

Adding a new contact

- Press **Contacts** and choose **Names**. Then press **Options-Add new contact**.
- Enter all the information you have in the fields provided and select **Options-Done**.

Adding a contact to a group

You can save your contacts into groups, for example, keeping your work colleagues and family separate. There are a number of groups including **Family**, **Friends**, **Colleague**, **VIP**, **Group1**, **Group2** and **Group3** already set up on the phone.

Messaging

Your GB220 includes functions to send text messages and multimedia messages and **Email**, as well as the network's service messages.

Sending a message

- Press **Menu**, select **Messaging**, and choose **Create message - Message**.
- A new message editor will open. The message editor combines **Text message** and **Multimedia messages** into one intuitive and easy to switch between editor. The default

- setting of the message editor is text messages.
- Enter your message.
- Choose **Options-Insert** to add an **Image**, **Video clip**, **Sound clip**, **Schedule**, **Business card**, **Note**, **Text field**, **To do**, or a **Text template**.
- Press **Options - Send key**.

Setting up your email

You can stay in touch on the move using email on your GB220. It's quick and simple to set up a POP3 or IMAP4 email account.

- Press **Menu**, select **Messaging**, and choose **Message Settings**.
- Select **Email** then **Email accounts**.
- Press **Add** then set the **Email** account.

Sending an email using your new account

To send/receive an email, you should set up an email account.

- Select **Menu**, select **Messaging** and choose **Create message**.
- Choose **Email** and a new email will open.
- Write a subject.
- Enter your message.
- Press options, select **Insert** to add an **Image**,

Video Clip, **Sound Clip**, **Business card**, **Schedule** or a **Note**.

- Press **Send** to and enter the recipient's address or press **Options** and select **Insert-Contact** to open your contacts list.
- Press **Send** and your email will be sent.

Entering text

You can enter alphanumeric characters using the phone's keypad. The following text input methods are available in the phone: T9 predictive mode, ABC manual mode and 123 mode.

Note: Some fields may allow only one text input mode (e.g. telephone number in address book fields).

T9 predictive mode

T9 predictive mode uses a built-in dictionary to recognise words you're writing based on the key sequences you press. Simply press the number key associated with the letter you want to enter, and the dictionary will recognise the word once all the letters are entered.

ABC manual mode

This mode allows you to enter letters by pressing

Converting a unit

This converts many measurements into a unit you want.

Adding a city to your world time

You can add a required city to the list of world clock. You can also check the current time of Greenwich Mean Time (GMT) and major cities around the world.

Go to

It helps you to go the directly you search for. You can set the item as Go to.

SIM services

This feature depends on SIM and the network services. In case the SIM card supports SAT (i.e. SIM Application Toolkit) services, this menu will be the operator specific service name stored on the SIM card.

Web

Accessing the Web

You can launch the wap browser and access the homepage of the activated profile on Web settings. You can also manually enter an URL

address and access the associated wap page.

- Press **Menu** and select **Web**.
- To access the Web homepage directly, select **Home**. Alternately, select **Go to address** and type in your desired URL.

Phone Software update

LG Mobile Phone Software upgrade in web site

For more information and using this function, Please visit Lgmobile.com site

path: http://www.lgmobile.com - select country – Products menu - Manual & software menu

This Feature allows you to upgrade your software to the latest version and conveniently on the internet without needing to visit our service center.

As the mobile phone software upgrade requires the user’s full attention for the duration of the upgrade process, please be sure to check any instructions and notes that appear at each step before proceeding. Please note that removing the USB data communication cable or battery during

Guidelines for safe and efficient use (Continued)

contain metal and should position the product at least 1.5 cm away from your body. In order to transmit data files or messages, this device requires a quality connection to the network. In some cases, transmission of data files or messages may be delayed until such a connection is available. Ensure the above separation distance instructions are followed until the transmission is completed.

The highest SAR value for this device when tested for use when worn on the body is 0.757 W/kg. * The SAR limit for mobile devices used by the public is 2.0 watts/kilogram (W/kg) averaged over ten grams of body tissue.

The guidelines incorporate a substantial margin of safety to give additional protection for the public and to account for any variations in measurements.

SAR values may vary depending on national reporting requirements and the network band. For SAR information in other regions please look under product information at www. lgmobile. com.

Guidelines for safe and efficient use (Continued)

Avoid damage to your hearing

Damage to your hearing can occur if you are exposed to loud sound for long periods of time. We therefore recommend that you do not turn on or off the handset close to your ear. We also recommend that music and call volumes are set to a reasonable level.

Glass Parts

Some parts of your mobile device are made of glass. This glass could break if your mobile device is dropped on a hard surface or receives a substantial impact. If the glass breaks, do not press or attempt to remove. Stop using your mobile device until the glass is replaced by an authorized service provider.

Blasting area

Do not use the phone where blasting is in progress. Observe restrictions, and follow the rules and regulations.

Potentially explosive atmospheres

- Do not use the phone at a refueling point.
- Do not use near fuel or chemicals.

the upgrade may seriously damage you mobile phone.

As the manufacturer takes no responsibility for loss of data during the upgrade process, you are advised to note down any important information in advance for safekeeping.

Connectivity

Changing your connectivity settings

Your connectivity settings have already been set up by your network operator, so you can enjoy your new phone from switch on. If you want to change any settings, use this menu. You can configure the network setting and data access profiles in this menu.

- Bluetooth** - Setup your GB220 for Bluetooth® use. You can adapt your visibility to other devices or search through devices your phone is paired with.
- USB connection** - Choose **Data service** and synchronise your GB220 using the LG PC Suite software to copy files from your phone. If you have a memory card inserted, select **Mass storage** to use your phone in the same way as you would use a USB stick. Connect to your

computer and drag and drop files to the GB220 removable device folder.

Note: To use the USB mass storage function, you will need to insert an external memory card in your phone.

Changing your Bluetooth settings

- Press **Menu** and select **Settings - Connectivity**. Choose **Bluetooth**.
- Choose **Settings**. Make changes to your :
 - My phone’s visibility** - Choose whether to Show or Hide your device to others.
 - My phone’s name** - Enter a name for your LG GB220.
 - Supported services** - Shows what it supports.
 - My address** - View your Bluetooth address.

Pairing with another Bluetooth device

By pairing your GB220 and another device, you can set up a passcode protected connection. This means your pairing is more secure.

- Check your Bluetooth is **On** and **Visible**. You can change your visibility in the **Bluetooth settings** menu, by selecting **My visibility**, then **Show**.
- Select **Active device** from the **Bluetooth** menu and choose **New**.

Guidelines for safe and efficient use (Continued)

FCC Notice & Caution Notice!

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device must not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution!

Changes or Modifications that are not expressly approved by the manufacturer could invalidate the user’s authority to operate the equipment.

Product care and maintenance

⚠ WARNING

Only use batteries, chargers and accessories approved for use with this particular phone model. The use of any other types may invalidate any approval or warranty applying to the phone, and may be dangerous.

Guidelines for safe and efficient use (Continued)

Battery information and care

- You do not need to completely discharge the battery before recharging. Unlike other battery systems, there is no memory effect that could compromise the battery’s performance.
- Use only LG batteries and chargers. LG chargers are designed to maximize the battery life.
- Do not disassemble or short-circuit the battery pack.

- Keep the metal contacts of the battery pack clean.
- Replace the battery when it no longer provides acceptable performance. The battery pack maybe recharged hundreds of times until it needs replacing.
- Recharge the battery if it has not been used for a long time to maximize usability.
- Do not expose the battery charger to direct sunlight or use it in high humidity, such as in the bathroom.
- Do not leave the battery in hot or cold places, this may deteriorate the battery performance.

3 Your GB220 will search for devices. When the search is completed **Add** and **Refresh** will appear on screen.

- Choose the device you want to pair with, select **Add** and enter the passcode then choose OK key.
- Your phone will then connect to the other device, on which you should enter the same passcode.
- Your passcode protected Bluetooth connection is now ready.

Installing LG PC Suite on your computer

- Go to www.lgmobile.com and choose Europe first and then your country.
- Choose Products menu, select Manual & Software and click Go to Manual & S/W download section. Click Yes andLG PC Suite installer will then appear. (Windows XP, Windows Media Player and more).
- Select the language you would like the installer to run in and click OK.
- Follow the instructions on screen to complete the LG PC Suite Installer wizard.
- Once installation is complete, the LG PC Suite icon will appear on your desktop.

Settings

Changing your date & time

You can set functions relating to the date and time.

Changing the Profiles

You can personalise each profile setting.

- Choose the profile you want and select **Personalize**.
- For the Silent and Vibrate only profiles, you can activate only.

Using flight mode

Use this function to switch the flight mode On or Off. You will not be able to make calls, connect to the internet, send messages when Flight mode is switched On.

Changing your display settings

You can change the settings for the phone display.

Changing your shortcuts settings

You can change the shortcuts of 4 navigation keys.

Changing your security settings

Change your security settings to keep your GB220

and the important information it holds protected.

- PIN code request** - Choose a PIN code to be requested when you turn your phone on.
- Handset lock** - Choose a security code to lock your phone **When switching on, If SIM changed, Immediate** or **None**.
- Change codes** - Change your Security code, PIN2 code, or ATMT code.

Resetting your phone

Use **Restore factory settings** to reset all the settings to their factory definitions. You need the security code to activate this function.

Viewing memory status

You can use the memory manager to determine how each memory is used and see how much space is available: **Common, Reserved, SIM card, and External memory**.

Please read these simple guidelines. Not following these guidelines may be dangerous or illegal.

Guidelines for safe and efficient use (Continued)

Road safety

Check the laws and regulations on the use of mobile phones in the area when you drive.

- Do not use a hand-held phone while driving.
- Give full attention to driving.
- Use a hands-free kit, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.
- RF energy may affect some electronic systems in your vehicle such as car stereos and safety equipment.
- When your vehicle is equipped with an air bag, do not obstruct with installed or portable wireless equipment. It can cause the air bag to fail or cause serious injury due to improper performance.
- If you are listening to music whilst out and about, please ensure that the volume is at a reasonable level so that you are aware of your surroundings. This is particularly imperative when near roads.
- Do not charge the phone when it is on soft furnishings.

- The phone should be charged in a well ventilated area.
- Do not subject this unit to excessive smoke or dust.
- Do not keep the phone next to credit cards or transport tickets; it can affect the information on the magnetic strips.
- Do not tap the screen with a sharp object as it may damage the phone.
- Do not expose the phone to liquid, moisture or humidity.
- Use the accessories like earphones cautiously. Do not press the antenna unnecessarily.
- Do not use the phone or accessories in places with high humidity such as pools, greenhouses, solariums or tropical environments. It may cause damage to the phone and invalidation of warranty.

Efficient phone operation

Electronic and medical devices

All mobile phones may get interference, which could affect performance.

Guidelines for safe and efficient use

Please read these simple guidelines. Not following these guidelines may be dangerous or illegal.

Exposure to radio frequency energy THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO RADIO WAVES

Your mobile device is a radio transmitter and receiver. It is designed and manufactured not to exceed the limits for exposure to radio frequency (RF) recommended by international guidelines (ICNIRP). These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population.

The guidelines were developed by independent scientific organisations through periodic and thorough evaluation of scientific studies. The guidelines include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for mobile devices employs a unit of measurement known as the Specific Absorption Rate, or SAR.

The SAR limit stated in the international guidelines is 2.0 W/kg*.

Guidelines for safe and efficient use (Continued)

- Do not use your mobile phone near medical equipment without requesting permission. Please consult your doctor to determine if operation of your phone may interfere with the operation of your medical device.
- Some hearing aids might be disturbed by mobile phones.
- Minor interference may affect TVs, radios, PCs, etc.

Pacemakers

Pacemaker manufacturers recommend that a minimum separation of 15cm is maintained between a mobile phone and a pacemaker to avoid potential interference with the pacemaker. To ensure this, use the phone at the opposite ear to your pacemaker and do not carry it in a breast pocket.

Hospitals

Switch off your wireless device when requested to do so in hospitals, clinics or health care facilities. These requests are designed to prevent possible interference with sensitive medical equipment.
