Dear Victor,

According to 2007 LG VLT model's user guide format , on the KG130 Romania Vodafone the english QRG should been included , so we will remain it as before.

**VLT user guide format is as below(for one language country) :**

local language + english QRG , A3 paper, folder .

Any questions, contact with me.

Hope your reply.

Many thanks,

Susie

Hi,

The manual is almost ok. At page 2 we have an english text which is the same with a part of text from page so, please put the romanian text there. The DoC is the same because we have the same type of DoC for all the phones (open, Vf, ORG) and the phone is the same with kg130 open so we use the same DoC.

I attached the english text and the romanian text. If you could replace english text with romanian then all it's ok

Thanks,  
Victor

Victor,

This is KG130 VDF user manual correction request, so plz follow up ASAP.

And.. China Lab says.. the DoC on the attached file is for OPEN, and it would be o.k to use that also on VDF KG130 ( I guess NOT).

If we should use another DoC for VDF KG130, plz let them know & have correct DoC data.

China Lab is requesting us to reply until 18<sup>th</sup>, and I think it's a bit too tight schedule but let's try ASAP anyhow.

Do Not forget this user manual is for KG130.AVDRTS(post-paid) & KG130GO.AVDRTS(Pre-paid)

Thx,
