

OWNER'S MANUAL

WIRELESS SOUND BAR

Please read this manual carefully before operating your set and retain it for future reference.

LAS655K (LAS655K, S55A1-D)

Safety Information

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT REMOVE COVER (OR BACK) NO USER-SERVICEABLE PARTS INSIDE REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

WARNING: TO PREVENT FIRE OR ELECTRIC SHOCK HAZARD, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

CAUTION: The apparatus shall not be exposed to water (dripping or splashing) and no objects filled with liquids, such as vases, shall be placed on the apparatus.

WARNING: Do not install this equipment in a confined space such as a book case or similar unit.

CAUTION: Do not use high voltage products around this product. (ex. Electrical swatter) This product may malfunction due to electrical shock.

CAUTION: Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.

Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the product and to protect it from over heating. The openings shall be never be blocked by placing the product on a bed, sofa, rug or other similar surface. This product shall not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instruction has been adhered to.

CAUTION concerning the Power Cord

Most appliances recommend they should be placed upon a dedicated circuit;

That is, a single outlet circuit which powers only that appliance and has no additional outlets or branch circuits. Check the specification page of this owner's manual to be certain. Do not overload wall outlets. Overloaded wall outlets, loose or damaged wall outlets, extension cords, frayed power cords, or damaged or cracked wire insulation are dangerous. Any of these conditions could result in electric shock or fire. Periodically examine the cord of your appliance, and if its appearance indicates damage or deterioration, unplug it, discontinue use of the appliance, and have the cord replaced with an exact replacement part by an authorized service center. Protect the power cord from physical or mechanical abuse, such as being twisted, kinked, pinched, closed in a door, or walked upon. Pay particular attention to plugs, wall outlets, and the point where the cord exits the appliance. The Power Plug is the disconnecting device. In case of an emergency, the Power Plug must remain readily accessible.

This device is equipped with a portable battery or accumulator.

Safety way to remove the battery from the equipment: Remove the old battery or battery pack, follow the steps in reverse order than the assembly. To prevent contamination of the environment and bring on possible threat to human and animal health, the old battery or the battery put it in the appropriate container at designated collection points. Do not dispose of batteries or battery together with other waste. It is recommended that you use local, free reimbursement systems batteries and accumulators. The battery should not be exposed to excessive heat such as sunshine, fire or the like.

Disposal of your old appliance

1. All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
2. The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.
3. For more detailed information about disposal of your old appliance, please contact your city office, waste disposal service or the shop where you purchased the product.

Disposal of waste batteries/accumulators

Pb

1. This symbol may be combined with chemical symbols for mercury(Hg), cadmium(Cd) or lead(Pb) if the battery Contains more that 0.0005% of mercury,0.002% of cadmium or 0.004% of lead.
2. All batteries/accumulators should be disposed separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
3. The correct disposal of your old batteries/accumulators will help to prevent potential negative consequences for the environment, animal and human health.
4. For more detailed information about disposal of your old batteries/accumulators, please contact your city office, waste disposal service or the shop where you purchased the product.

Declaration of Conformity

CE 0197

Hereby, LG Electronics European Shared Service Center B.V., declares that this Wireless Sound Bar is compliant with the essential requirements and other relevant provisions of Directive 1999/5/EC. The complete Declaration of Conformity may be requested through the following postal address:

LG Electronics European Shared Service Center B.V.
Krijgsman 1
1186 DM Amstelveen
The Netherlands

or can be requested at our dedicated DoC website:
<http://www.lg.com/global/support/cedoc/cedoc#>

This device is a 2.4 GHz and 5 GHz wideband transmission system, intended for use in all EU member states and EFTA countries, with indoor use restriction for 5 GHz band. (5150 – 5250 MHz)
For consideration of the user, this device should be installed and operated with a minimum distance of 20 cm between the device and the body.

Main Features

LG Sound Sync

Controls volume level of this unit by the remote control of your LG TV that is compatible with LG Sound Sync.

Bluetooth®

Listens to music stored on your **Bluetooth** device.

LG AV Remote

You can control this player with your iPhone or Android phone via your home network.

Introduction

Term	Symbol	Description
Note		Indicates special notes and operating features.
Caution		Indicates cautions for preventing possible damages from abuse.

About the "⊘" symbol display

"⊘" may appear on your TV display during operation and indicates that the function explained in this owner's manual is not available on that specific media.

Front Panel

1 ⏻/⏻ (Standby/On)

2 F (Function)

Press it repeatedly to select other function.

3 -/+ (Volume)

Adjusts speaker volume.

4 USB Port

Note

Open USB cover by using your finger to connect USB.

5 Remote sensor

6 Display window

7 Speakers

8 MIC 1/2

Caution

Precautions in using the touch buttons

- Use the touch buttons with clean and dry hands.
 - In a humid environment, wipe out any moisture on the touch buttons before using.
- Do not press the touch buttons hard to make it work.
 - If you apply too much strength, it can damage the sensor of the touch buttons.
- Touch the button that you want to work in order to operate the function correctly.
- Be careful not to have any conductive material such as metallic object on the touch buttons. It may cause the unit to malfunction.

Rear Panel

1 FM ANTENNA : Antenna Connector

2 OPT. IN : Optical input

3 HDMI OUT : HDMI output

4 LAN : LAN connector

Remote Control

Replacement of battery

Remove the battery cover on the rear of the Remote Control, and insert two R03 (size AAA) battery with $+$ and $-$ matched correctly.

1

Power (Power): Switches the unit ON or OFF.

OPTICAL/TV SOUND:

Changes input mode to optical directly.

FUNCTION (Function): Changes input mode.

0-9 numerical buttons: Selects numbered options in a menu.

CLEAR: Removes a mark on the search menu or a number when setting the password.

REPEAT (Repeat): Repeats a desired section or sequence.

2

Left/Right (SCAN): Searches backward or forward.

Left/Right/Left/Right (SKIP): Goes to the next or previous chapter/title/file.

Stop (Stop): Stops playback.

Play (Play): Starts playback.

Pause (Pause): Pauses playback.

SPEAKER LEVEL: Sets the sound level of desired speaker.

SOUND EFFECT: Selects a sound effect mode.

VOL +/-: Adjusts speaker volume.

MIC/ECHO:

Selects the microphone's volume, echo mode or sound mode.

MUTE (Mute): Mute the unit.

3

HOME (Home): Displays or exits the [Home Menu].

Night mode (Night mode): Turns on or off Night mode.

SUBTITLE: Selects a subtitle language.

INFO/MENU (Info/Menu): Displays or exits On-Screen Display.

PRESET +/-: Selects programme of Radio.

TUNING +/-: Tunes in the desired radio station.

Direction buttons (Up/Down/Left/Right): Selects an option in the menu.

ENTER (Enter): Acknowledges menu selection.

BACK (Back): Exits the menu or resumes playback.

POP UP: Displays a pop-up menu, if available.

SLEEP: Sets the system to turn off automatically at a specified time.

4

Colored (R, G, Y, B) buttons:

- They are used as shortcut buttons for specific menus.

- B button: Selects mono/ stereo in FM mode.

RDS: Radio Data System.

PTY: Views the programme type of the RDS.

PTY SEARCH: Searches programme type.

TV Control Buttons: See page 49.

Installing the sound bar

You can hear the sound by connecting the unit to the other device : TV, Blu-ray disc player, DVD player, etc.

Place the unit in front of the TV and connect it to the device you want. (Refer to pp. 14 - 16.)

Caution

- For best performance of wireless connection such as **Bluetooth** or wireless subwoofer, do not install the unit on Metallic furniture because wireless connection communicates through a module positioned on the bottom of the unit.
- Do not pull connected external input cable (Mic, etc.), it can cause the unit or TV to fall down.

Mounting the main unit on a wall

You can mount the main unit on a wall. Prepare screws and bracket.

- Match the TV's BOTTOM EDGE of Wall Mount Bracket Installation Guide with the bottom of TV and attach to the position.

- When you mount it on a wall (concrete), use the wall plugs (Not supplied). You should drill some holes. A guide sheet (Wall Mount Bracket Installation Guide) is supplied to drill. Use the sheet to check the point to drill.

! Note

Screws and Wall Plugs are not supplied for mounting the unit. We recommend the Hilti (HUD-1 6 x 30) for the mounting.

- Remove the Wall Mount Bracket Installation Guide.
- Fix it with screws (not supplied) as shown in the illustration below.

- Hang the main unit onto the bracket as shown below.

! Caution

- Do not install this unit upside down. It can damage the parts of this unit or be the cause of personal injury.
- Do not hang onto the installed unit and avoid any impact to the unit.
- Secure the unit firmly to the wall so that it does not fall off. If the unit falls off, it may result in an injury of a person or damage to the product.
- When the unit is installed on a wall, please make sure that a child does not pull any of connecting cables, as it may cause it to fall.

! Note

Detach the unit from the bracket as shown below.

Wireless Subwoofer Connection

Pairing wireless subwoofer

LED indicator of wireless subwoofer

LED Color	Status
Yellow-green (Blink)	The connection is trying.
Yellow-green	The connection is completed.
Red	The wireless subwoofer is in standby mode or the connection is failed.
Off (No display)	The power cord of wireless subwoofer is disconnected.

Setting up the wireless subwoofer for the first time

1. Connect the power cord of the Wireless subwoofer to the outlet.
2. Turn on the main unit : The main unit and wireless subwoofer will be automatically connected.

Manually pairing wireless subwoofer

When your connection is not completed, you can see the red LED or the blinking of yellow-green LED on the wireless subwoofer and the subwoofer does not make sound. To solve the problem, follow the below steps.

1. Adjust volume level of the main unit to minimum.
 - "VOL MIN" appears on the display window.
2. Press and hold **MUTE**() on the remote control for about 3 seconds.
 - "WL RESET" appears on the display window briefly.

3. If the LED of the wireless subwoofer already blinks in yellow-green continually, you can skip this step.

Press and hold **PAIRING** on the back of the wireless subwoofer for more than 5 seconds.

- The LED of the wireless subwoofer lights up alternately in red and yellow-green.

4. Disconnect the power cord of the main unit and the wireless subwoofer.
5. Connect them again after the LED of the main unit and the wireless subwoofer is fully turned off.

The main unit and the wireless subwoofer will be paired automatically when you turn on the main unit.

- When the connection is completed, you can see the yellow-green LED on the subwoofer.

Note

- It takes a few seconds (and may take longer) for the main unit and the subwoofer to communicate with each other and make sounds.
- The closer the main unit and the subwoofer, the better sound quality. It is recommended to install the main unit and the subwoofer as close as possible (within 5 m) and avoid the cases below.
 - There is a obstacle between the main unit and the subwoofer.
 - There is a device using same frequency with this wireless connection such as a medical equipment, a microwave or a wireless LAN device.

Connecting to Your TV

HDMI Connection

If you have a HDMI TV or monitor, you can connect it to this unit using a HDMI cable (Type A, High speed HDMI™ cable with Ethernet). Connect the HDMI jack on the unit to the HDMI jack on a HDMI compatible TV or monitor.

Set the TV's source to HDMI (refer to TV's Owner's manual).

Note

- If a connected HDMI device does not accept the audio output of the unit, the HDMI device's audio sound may be distorted or may not output.
- When you use HDMI connection, you can change the resolution for the HDMI output. (Refer to "Resolution Setting" on page 15)
- Select the type of video output from the HDMI OUT jack using [HDMI Color Setting] option on the [Settings] menu (see page 26).
- Changing the resolution when the connection has already been established may result in malfunctions. To solve the problem, restart the unit.
- When the HDMI connection with HDCP is not verified, TV screen is changed to black screen. In this case, check the HDMI connection, or disconnect the HDMI cable.
- If there are noises or lines on the screen, please check the HDMI cable (length is generally limited to 4.5 m(15 ft.)).

Additional Information for HDMI

- When you connect a HDMI or DVI compatible device, make sure of the followings:
 - Try switching off the HDMI/DVI device and this unit. Next, switch on the HDMI/DVI device and leave it for around 30 seconds, then switch on this unit.
 - The connected device's video input is set correctly for this unit.
 - The connected device is compatible with 720 x 576p, 1280 x 720p, 1920 x 1080i or 1920 x 1080p video input.
- Not all HDCP-compatible HDMI or DVI devices will work with this unit.
 - The picture will not be displayed properly with non-HDCP device.

What is SIMPLINK?

Some functions of this unit are controlled by the TV's remote control when this unit and LG TV's with SIMPLINK are connected through HDMI connection.

Controllable functions by LG TV's remote control :
Power on/off, volume up/down, etc.

Refer to the TV owner's manual for the details of SIMPLINK function.

LG TV's with SIMPLINK function has the logo as shown above.

Note

Depending on the state of the unit, some SIMPLINK operation may differ from your purpose or not work.

ARC (Audio Return Channel) function

The ARC function enables an HDMI capable TV to send the audio stream to HDMI OUT of the unit.

To use this function:

- Your TV must support the HDMI-CEC and ARC function and the HDMI-CEC and ARC must be set to On.
- The setting method of HDMI-CEC and ARC may differ depending on the TV. For details about ARC function, refer to your TV manual.
- You must use the HDMI cable (Type A, High Speed HDMI™ cable with Ethernet).
- You must connect the HDMI OUT on the unit with HDMI IN of the TV that supports ARC function using an HDMI cable.
- You can connect only one Sound bar to TV compatible with ARC.

Note

To active [SIMPLINK/ARC] function, set this option to [On]. (page 28)

Resolution Setting

The unit provides several output resolutions for HDMI OUT jack. You can change the resolution using [Settings] menu.

1. Press **HOME** (🏠).
2. Use **</>** to select the [Settings] and press **ENTER** (⏻). The [Settings] menu appears.
3. Use **^/v** to select [DISPLAY] option then press **>** to move to the second level.
4. Use **^/v** to select the [Resolution] option then press **ENTER** (⏻) to move to the third level.

5. Use **^/v** to select the desired resolution then press **ENTER** (⏻) to confirm your selection.

Note

- If your TV does not accept the resolution you have set on the unit, you can set resolution to 576p as follows:
 1. Press **HOME** (🏠) to disappear the HOME menu.
 2. Press **■** (Stop) for more than 5 seconds.
- If you select a resolution manually and then connect the HDMI jack to TV and your TV does not accept it, the resolution setting is set to [Auto].
- If you select a resolution that your TV does not accept, the warning message will appear. After resolution change, if you cannot see the screen, please wait 20 seconds and the resolution will automatically revert back to the previous resolution.

OPTICAL IN connection

You can enjoy the sound from your TV with a optical digital audio connection.

Connect the optical output jack of your TV into the OPT. IN jack on the unit. And then select the [OPTICAL] option by pressing **FUNCTION** (↺). Or press **OPTICAL/TV SOUND** to select directly.

Connections with external device

OPTICAL IN connection

You can enjoy the sound from your component with a digital optical connection through the speakers of this system.

To the digital optical output jack of your component

Connect the optical output jack of your component into the OPT. IN jack on the unit. And then select the [OPTICAL] option by pressing **FUNCTION** (↺). Or press **OPTICAL/TV SOUND** to select directly. You can also use the **F** (Function) button on the front panel to select the input mode.

Antenna connection

Connect the supplied antenna for listening to the radio.

! Note

After connecting the FM wire antenna, be sure to fully extend it.

Connecting to your Home Network

This unit can be connected to a local area network (LAN) via the LAN port on the rear panel or the internal wireless module.

By connecting the unit to a broadband home network, you have access to services such as software updates.

Wired network connection

Using a wired network provides the best performance, because the attached devices connect directly to the network and are not subject to radio frequency interference.

Please refer to the documentation for your network device for further instructions.

Connect the unit's LAN port to the corresponding port on your Modem or Router using a commercially available LAN or Ethernet cable.

! Note

- When plugging or unplugging the LAN cable, hold the plug portion of the cable. When unplugging, do not pull on the LAN cable but unplug while pressing down on the lock.
- Do not connect a modular phone cable to the LAN port.
- Since there are various connection configurations, please follow the specifications of your telecommunication carrier or internet service provider.
- If you want to access content from DLNA servers, this unit must be connected to the same local area network through a router.
- To set your PC as a DLNA server, install SmartShare PC Software on your PC. (page 33)

Wired network setup

If there is a DHCP server on the local area network (LAN) via wired connection, this unit will automatically be allocated an IP address. After making the physical connection, a small number of home networks may require the unit's network setting to be adjusted. Adjust the [NETWORK] setting as follow.

Preparation

Before setting the wired network, you need to connect the broadband internet to your home network.

1. Select [Connection Setting] option in the [Settings] menu then press **ENTER** (⓪).

2. Read the preparations for the network settings and then press **ENTER** (⓪) while [Start] is highlighted.

Network will automatically be connected to the unit.

Advanced Setting

If you want to set the network settings manually, use **▲/▼** to select [Advanced Setting] on the [Network Setting] menu and press **ENTER** (⓪).

1. Use **▲/▼** to select [Wired] and press **ENTER** (⓪).

- Use **Λ/V/</>** to select the IP mode between [Dynamic] and [Static]. Normally, select [Dynamic] to allocate an IP address automatically.

Note

If there is no DHCP server on the network and you want to set the IP address manually, select [Static] then set [IP Address], [Subnet Mask], [Gateway] and [DNS Server] using **Λ/V/</>** and numerical buttons. If you make a mistake while entering a number, press **CLEAR** to clear the highlighted part.

- Select [Next] and press **ENTER (⊙)** to apply network settings.

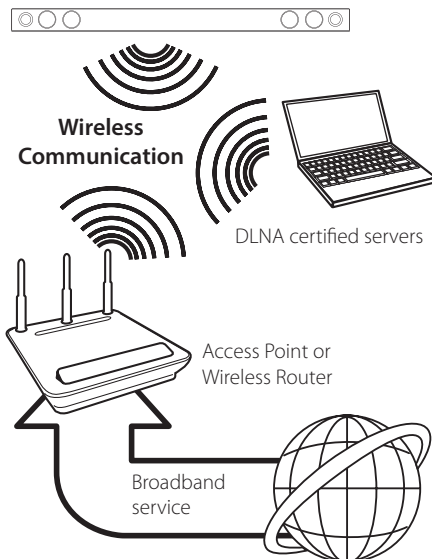

Network connection status is displayed on the screen.

- Press **ENTER (⊙)** while [OK] is highlighted to finish the wired network settings.

Wireless network connection

Another connection option is to use an Access Point or a wireless router. The network configuration and connection method may vary depending on the equipment in use and the network environment.

Refer to the setup instructions supplied with your access point or wireless router for detailed connection steps and network settings.

For best performance, a direct wired connection from this unit to your home network's router or cable/DSL modem is always the best option. If you choose to use the wireless option, please note that performance can sometimes be affected by other electronic devices in the home.

Wireless network setup

For the wireless network connection, the unit needs to be set up for network communication. This adjustment can be done from the [Settings] menu. Adjust the [NETWORK] setting as follow. Setting up the access point or the wireless router is required before connecting the unit to the network.

Preparation

Before setting the wireless network, you need to:

- connect the broadband internet to the wireless home network.
- set the access point or wireless router.
- note the SSID and security code of the network.

1. Select [Connection Setting] option in the [Settings] menu then press **ENTER** (⊙).
2. Read the preparations for the network settings and then press **ENTER** (⊙) while [Start] is highlighted.

If wired network is not connected to the unit, all available networks are displayed on the screen.

3. Use **▲/▼** to select a desired SSID of wireless network and press **ENTER** (⊙).

If you have security on your access point, you need to input the security code as necessary.

Note

If you use other characters than the english alphabet or digits for the SSID name of your access point or wireless router, it may be displayed differently.

Note

- WEP security mode generally have 4 keys available on an access point setting. If your access point or wireless router use WEP security, enter the security code of the key "No.1" to connect on your home network.
- An Access Point is a device that allows you to connect to your home network wirelessly.

4. Use **▲/▼/◀/▶** to select the IP mode between [Dynamic] and [Static]. Normally, select [Dynamic] to allocate an IP address automatically.

Note

If there is no DHCP server on the network and you want to set the IP address manually, select [Static] then set [IP Address], [Subnet Mask], [Gateway] and [DNS Server] using **▲/▼/◀/▶** and numerical buttons. If you make a mistake while entering a number, press **CLEAR** to clear the highlighted part.

5. Select [Next] and press **ENTER** (⊙) to apply network settings.

Network connection status is displayed on the screen.

6. Select [OK] and press **ENTER** (⊙) to complete the network connection.

Advanced Setting

If you want to set the network settings manually, use **Λ/V** to select [Advanced Setting] on the [Network Setting] menu and press **ENTER** (⊙).

1. Use **Λ/V** to select [Wireless] and press **ENTER** (⊙).

[AP List] - Scans all available access points or wireless routers within range and display them as a list.

[Network name (SSID)] - Your access point may not be broadcasting its network name (SSID). Check your access point settings through your computer and either set your access point to broadcast SSID, or manually enter the network name in [Network name(SSID)].

[PBC] - If your access point or wireless router that supports the PBC (Push Button Configuration) method, select this option and press the Push Button on your access point within 120 counts. You do not need to know the network name (SSID) and security code of your access point.

[PIN] - If your access point supports the PIN Code configuration method based on WPS(Wi-Fi Protected Setup), select this option and note the code number on the screen. And then, enter the PIN number on a setting menu of your access point to connect. Refer to the documentation for your network device.

2. Follow the instructions of each connection method on the screen.

Note

To use PBC and PIN network connection, security mode of your access point must be set to OPEN or AES.

Notes on network connection

- Many network connection problems during set up can often be fixed by re-setting the router or modem. After connecting the unit to the home network, quickly power off and/or disconnect the power cable of the home network router or cable modem. Then power on and/or connect the power cable again.
- Depending on the internet service provider (ISP), the number of devices that can receive internet service may be limited by the applicable terms of service. For details, contact your ISP.
- Our company is not responsible for any malfunction of the unit and/or the internet connection feature due to communication errors/malfunctions associated with your broadband internet connection, or other connected equipment.
- Some internet content may require a higher bandwidth connection.
- Even if the unit is properly connected and configured, some internet content may not operate properly because of internet congestion, the quality or bandwidth of your internet service, or problems at the provider of the content.
- Some internet connection operations may not be possible due to certain restrictions set by the Internet service provider (ISP) supplying your broadband Internet connection.
- Any fees charged by an ISP including, without limitation, connection charges are your responsibility.
- A 10 Base-T or 100 Base-TX LAN port is required for wired connection to this unit. If your internet service does not allow for such a connection, you will not be able to connect the unit.
- You must use a Router to use xDSL service.
- A DSL modem is required to use DSL service and a cable modem is required to use cable modem service. Depending on the access method of and subscriber agreement with your ISP, you may not be able to use the internet connection feature contained in this unit or you may be limited to the number of devices you can connect at the same time. (If your ISP limits subscription to one device, this unit may not be allowed to connect when a PC is already connected.)

- The use of a “Router” may not be allowed or its usage may be limited depending on the policies and restrictions of your ISP. For details, contact your ISP directly.
- The wireless network operate at 2.4 GHz radio frequencies that are also used by other household devices such as cordless telephone, **Bluetooth** devices, microwave oven, and can be affected by interference from them.
- Turn off all unused network equipment in your local home network. Some devices may generate network traffic.
- For better reception, place the unit from the access point as close as possible.
- In some instances, placing the access point or wireless router at least 0.45 m (1.5 ft.) above the floor may improve the reception.
- The reception quality over wireless depends on many factors such as type of the access point, distance between the unit and access point, and the location of the unit.
- Set your access point or wireless router to Infrastructure mode. Ad-hoc mode is not supported.

Initial Setup

When you turn on the unit for the first time, the initial setup wizard appears on the screen. Set the display language and network settings on the initial setup wizard.

1. Press **⏻** (Power).

The initial setup wizard appears on the screen.

2. Use **⬆/⬆/⬆/⬆** to select a display language and press **ENTER** (⊙).

3. After checking the Terms of Service, select [Agree] to use the SW Updates.

Read and prepare the preparations for the network settings and then press **ENTER** (⊙) while [Start] is highlighted.

If wired network is connected, the network connection setting will automatically be finished.

4. All available networks are displayed on the screen. Use **⬆/⬆** to select [Wired Network] or desired SSID of wireless network and press **ENTER** (⊙).

If you have security on your access point, you need to input the security code as necessary.

5. Use **⬆/⬆/⬆/⬆** to select the IP mode between [Dynamic] and [Static]. Normally, select [Dynamic] to allocate an IP address automatically.

6. Select [Next] and press **ENTER** (⊙) to apply network settings.

Network connection status is displayed on the screen.

For details on network settings, refer to "Connecting to your Home Network" on page 17.

7. Select [Next] and press **ENTER** (⊙).
8. You can listen to TV sound through HTS Speaker automatically when TV is turned on. TV and HTS should be connected with optical cable. Press **⬆** to move and press **⬆/⬆** to select [On] or [Off]. Select [Next] and press **ENTER** (⊙).

- Check all the settings that you have set in the previous steps.

Press **ENTER** (⊙) while [Finish] is highlighted to finish the initial setup settings. If there is any settings to be changed, use **Λ/V/</>** to select **↶** and press **ENTER** (⊙).

- Displays private sound mode guide. Press **ENTER** (⊙).

Settings

Adjust the setup settings

You can change the settings of the unit in the [Settings] menu.

- Press **HOME** (🏠).

- Use **</>** to select the [Settings] and press **ENTER** (⊙). The [Settings] menu appears.

- Use **Λ/V** to select the first setup option, and press **>** to move to the second level.

- Use **Λ/V** to select a second setup option, and press **ENTER** (⊙) to move to the third level.

- Use **Λ/V** to select a desired setting, and press **ENTER** (⊙) to confirm your selection.

[NETWORK] menu

The [NETWORK] settings are needed to use the software update.

Connection Setting

If your home network environment is ready to connect, the unit needs to be set up via wireless or wired connection for network communication. (See "Connecting to your Home Network" on page 17.)

Connection Status

If you want to check the network status on this unit, select the [Connection Status] options and press **ENTER** (⊙) to check whether a connection to the network and the internet have been established.

Device Name

You can make a network name using virtual keyboard. This unit will be recognised by the name you are entering on your home network.

Network Play

This function allows you to control the playback of media streamed from DLNA media server by a DLNA certified smartphone. Most DLNA certified smartphone has a function to control the playback media on your home network. Set this option to [On] for allowing your smartphone to control this unit. Refer to instructions of your DLNA certified smartphone or the application for more detailed information.

! Note

- This unit and the DLNA Certified Smartphone must be connected to the same network.
- To use the [Network Play] function using a DLNA certified smartphone, press **HOME** (🏠) to display the home menu before connecting to this unit.
- While controlling the unit using the [Network Play] function, the remote control may not work.
- Available file formats described on page 52 are not always supported on [Network Play] function.

[DISPLAY] menu

TV Aspect Ratio

Select a TV aspect ratio option according to your TV type.

[4:3 Letter Box]

Select when a standard 4:3 TV is connected. Displays theatrical images with masking bars above and below the picture.

[4:3 Pan Scan]

Select when a standard 4:3 TV is connected. Displays pictures cropped to fill your TV screen. Both sides of the picture are cut off.

[16:9 Original]

Select when a 16:9 wide TV is connected. The 4:3 picture is displayed with an original 4:3 aspect ratio, with black bars appearing at the left and right sides.

[16:9 Full]

Select when a 16:9 wide TV is connected. The 4:3 picture is adjusted horizontally (in a linear proportion) to fill the entire screen.

! Note

You cannot select [4:3 Letter Box] and [4:3 Pan Scan] option when the resolution is set to higher than 720p.

Resolution

Sets the output resolution of the HDMI video signal. Refer to page 15 for details about the resolution setting.

[Auto]

If the HDMI OUT jack is connected to TVs providing display information (EDID), automatically selects the resolution best suited to the connected TV.

[576p]

Outputs 576 lines of progressive video.

[720p]

Outputs 720 lines of progressive video.

[1080i]

Outputs 1080 lines of interlaced video.

[1080p]

Outputs 1080 lines of progressive video.

HDMI Color Setting

Select the type of output from the HDMI OUT jack. For this setting, please refer to the manuals of your display device.

[YCbCr]

Select when connecting to a HDMI display device.

[RGB]

Select when connecting to a DVI display device.

Home Menu Guide

This function allows you to display or delete the guide bubble on the [HOME] menu. Set this option to [On] for displaying guide.

[LANGUAGE] menu

Display Menu

Select a language for the [Settings] menu and on-screen display.

[AUDIO] menu

Each file has a variety of audio output options. Set the unit's Audio options according to the type of audio system you use.

! Note

Since many factors affect the type of audio output, see "Audio Output Specifications" on page 55 for details.

Digital Output

[Auto]

Select if you connect this unit's HDMI OUT jack to a device with LPCM, Dolby Digital, Dolby Digital Plus, Dolby TrueHD, DTS, DTS-HD decoder or digital decoder.

[PCM]

Select if you connect this unit's HDMI OUT jack to a device with digital decoder.

! Note

- When [Digital Output] option is set to [Auto], the audio may output as bitstream. If the bitstream information is not detected from HDMI device with EDID, the audio may output as PCM.
- This setting is not available on the input signal from an external device.

DRC (Dynamic Range Control)

This function allows you to listen to a movie at a lower volume without losing clarity of sound.

[Auto]

The dynamic range of the Dolby Digital and Dolby Digital Plus are operated as same as the [On] mode.

[On]

Compress the dynamic range of the Dolby Digital, Dolby Digital Plus audio output.

[Off]

Turns off this function.

HD AV Sync

Sometimes Digital TV encounters a delay between picture and sound. If this happens you can compensate by setting a delay on the sound so that it effectively 'waits' for the picture to arrive: this is called HD AV Sync. Use **<>** to scroll up and down through the delay amount, which you can set at anything between 0 and 300 ms.

Auto Volume

With Auto Volume function on, the unit automatically adjusts the outputted volume level to make it raised or lowered if the sound is too loud or small. So you can enjoy the sound at comfortable level not too loud or small.

[OTHERS] menu

Quick Start

This player can stay in standby mode with low power consumption, so that the player can instantly boot without delay when you turn on this unit. Set this option to [On] for activating [Quick Start] function.

! Note

- If [Quick Start] option is set to [On] and an AC power is accidentally re-connected to the player by power failure etc., the player automatically boots itself to be the standby status. Before operating the player, wait for a while until the player is in standby status.
- When [Quick Start] is set to [On], power consumption will be higher than when [Quick Start] is set to [Off].

Auto Power Off

The screen saver appears when you leave the unit in Stop mode for about five minutes. If you set this option to [On], the unit automatically turns off within 15 minutes since the Screen Saver is displayed. Set this option to [Off] to leave the screen saver until the unit is operated by the user.

! Note

When you set [Auto Power Off] function in setting menu on, this unit will be off itself to save electronic consumption in the case main unit is not connected to external device and is not used for 20 minutes.

How to disconnect the wireless network connection or the wireless device

Turn off the unit.

TV Sound Connecting

You can listen to TV sound through this unit's speaker automatically when TV is turned on. TV and this unit should be connected with optical cable.

Press **▲** to move and press **</>** to select [On] or [Off]. Select [OK] and press **ENTER** (⓪).

! Note

When [TV Sound Connecting] and [Quick Start] functions are on and this unit is turned off, if a previously paired **Bluetooth** device tries to pair with this unit, this unit turns on automatically.

Initialize

[Factory Set]

You can reset the unit to its original factory settings.

! Note

If you reset the unit to its original factory settings using [Factory Set] option, you have to set all the activation and network settings again.

Software

[Information]

Displays the current software version.

[OSS Notice]

LGE Open Source Software Notice is displayed.

[Update]

You can update the software by connecting the unit directly to the software update server (page 50).

SIMPLINK/ARC

- The SIMPLINK function allows you to control this unit with LG TV's remote control.
- The ARC function enables an HDMI capable TV to send the audio stream to HDMI OUT of this player.

Set this option to [On] for activating [SIMPLINK/ARC] function. (page 15)

Terms of Service

Privacy Policy for the unit is displayed. To use the SW Updates, select [Agree].

Sound Effect

Setting the sound mode

You can select a sound mode that suits you and the contents you are playing. Press **SOUND EFFECT** repeatedly until the desired mode appears on the front panel display or the TV screen. The displayed items for the equalizer maybe different depending on sound sources and effects.

[Standard]: You can enjoy optimized sound.

[Music]: You can enjoy comfortable and natural sound.

[Cinema]: You can enjoy more immersive and cinematic surround sound.

[Flat]: Provides balanced sound.

[Boost]: Boosts the mid-range for sound reinforcement.

[Treble / Bass]: Reinforces the treble and bass.

[User EQ]: You can adjust the sound by raising or lowering the level of specific frequency.

Setting the [User EQ]

1. Use **Λ/V** to select the desired frequency.
2. Use **</>** to select the desired level.

Select [Cancel] option then press **ENTER (⊙)** to cancel the setting.

Select [Reset] option then press **ENTER (⊙)** to reset the all adjustments.

Note

You can't change sound effect and that is fixed to [Standard] when a microphone is connected to the unit.

Using Microphone

Connect your microphone to the microphone jack. You can adjust the microphone's volume, echo mode or sound mode.

Adjusting the microphone's volume and echo mode

Select the MIC or ECHO by pressing the **MIC/ECHO** and adjust microphone's volume or echo volume by using the **VOL. +/-**.

Setting the microphone's sound mode

Select the desired microphone's sound mode by pressing **MIC/ECHO**.

[KARAOKE] : Improves bass sound and echo for singing a song.

[VOICE] : This mode makes voice sound clear, improving the quality of voice sound.

Night mode

This function is useful when you want to watch movies at low volume late at night.

Press **★** button on the remote control. So you can activate Night mode. To cancel it, press **★** button again.

Home Menu Display

Using [HOME] menu

The home menu appears when you press **HOME** (🏠). Use **▲/▼/◀/▶** to select a category and press **ENTER** (⊙).

- | | |
|----------|--|
| 1 | [Movie] - Plays video content. |
| 2 | [Photo] - Plays photo content. |
| 3 | [Music] - Plays audio content. |
| 4 | [Input] - Changes input mode. |
| 5 | [Settings] - Adjusts the system settings. |

Playing the Linked Devices

Playing a USB device

MOVIE **MUSIC** **PHOTO**

This unit can play video, audio and photo files contained on a USB device.

1. Connect a USB device on the unit.

Note

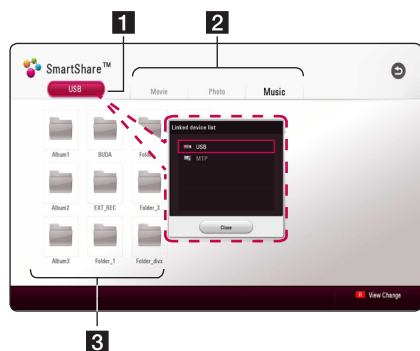

You can connect a USB device more easily by using USB gender changer supplied as an accessory.

When you connect the USB device on the HOME menu, the unit plays an audio file contained in the USB storage device automatically. If the USB storage device is containing various types of files, a menu for the file type selection will appear.

File loading may take few minutes depending on the number of content stored in the USB storage device. Press **ENTER** (⊙) while [Cancel] is selected to stop loading.

2. Press **HOME** (🏠).
3. Select [Movie], [Photo] or [Music] using **◀/▶**, and press **▼**.
4. Select the desired linked device in the category.

- 1** Displays all linked devices.
- 2** Displays video, photo or audio content.
- 3** Displays the file or folder on linked device.

5. Select a file using $\wedge/\vee/</>$, and press \blacktriangleright (Play) or **ENTER** (\odot) to play the file.

Notes on USB device

- This unit supports USB flash drive/external HDD formatted in FAT32 and NTFS when accessing files (music, photo, movie).
- This unit can support up to 4 partitions of the USB device.
- Do not extract the USB device during operation (play, etc.).
- A USB device which requires additional program installation when you have connected it to a computer, is not supported.
- USB device: USB device that supports USB1.1 and USB2.0.
- Video, audio and photo files can be played. For details of operations on each file, refer to relevant pages.
- Regular back up is recommended to prevent data loss.
- If you use a USB extension cable, USB HUB or USB Multi-reader, the USB device may not be recognized.
- Some USB device may not work with this unit.
- Some digital cameras and mobile phones are not supported.
- USB Port of the unit cannot be connected to PC. The unit cannot be used as a storage device.

Playing a file on Android device

This player can play video, audio and photo files contained in the Android device.

1. Connect the Android device to the unit with USB cable. Make sure that MTP is activated on Android device.

2. Press **HOME** (🏠).
3. Select [Movie], [Photo] or [Music] using **</>**, and press **V**.
4. Select [MTP] and press **ENTER** (⊙).

File loading may take few minutes depending on the number of content stored in the Android device.

5. Select a file using **^/V/</>**, and press **▶(Play)** or **ENTER** (⊙) to play the file.

Notes on Connecting Android device

- This unit can support only the MTP (Media Transfer Protocol) Android device.
- Do not extract the Android device during operation (play, etc.).
- Video, audio and photo files can be played. For details of playing each file type, refer to the relevant pages.
- Regular back up is recommended to prevent data loss.
- If you use a USB extension cable, USB HUB or USB Multi-reader, the Android device may not be recognized.
- Some Android devices may not work with this unit.
- When you use MTP, playing some music, photo, movie, or subtitle files may not work depending on the Android device.

Playing a file on a network server

MOVIE MUSIC PHOTO

This unit can play video, audio and photo files located in a DLNA server through your home network.

1. Check the network connection and settings (page 17).
2. Press **HOME** (🏠).
3. Select [Movie], [Photo] or [Music] using **</>**, and press **V**.

4. Select DLNA media server in the category using **</>** and press **ENTER** (⊙).

5. Select a file using **△/▽/←/→**, and press **▶** (Play) or **ENTER** (⊙) to play the file.

! Note

- The file requirements are described on page 52.
- Thumbnails of files with unsupported format will be displayed, but cannot be played on this unit.
- The subtitle file name and video file name have to be the same and located at the same folder.
- The playback and operating quality may be affected by your home network condition.
- You may experience connection problems depending on your server's environment.
- To set your PC as a DLNA server, install SmartShare PC Software on your PC. (page 33)

Using Home Network Server for PC

Before connecting to PC to play a file, SmartShare PC software should be installed on your PC.

About SmartShare PC Software

SmartShare PC Software is for sharing video, audio and photo files stored on your computer to this unit as a digital media server.

Downloading SmartShare PC Software

! Note

If the SmartShare PC Software disc is supplied, you can install SmartShare PC Software on your PC by the disc.

1. Start up your computer, visit <http://www.lg.com>. If necessary, select your region.
2. Click support tab.
3. Fill your model name on the cover of owner's manual in search bar.
4. Find and download the "SmartShare PC Software" file.

Installing SmartShare PC Software

1. Before installation, close all running programs including firewall and Anti-Virus programs.
2. Unzip and double-click "Setup.exe" to install SmartShare PC Software. The installation is prepared and the installation wizard appears.
3. Follow the directions of the installation wizard displayed on the screen.
4. Click the [Exit] button to complete the installation.

! Note

- SmartShare PC software is not supported with Mac OS.
- The SmartShare PC software is a customized software edition only for sharing files and folders to this player.
- This manual explains operations with the English version of SmartShare PC software as examples. Follow the explanation referring to the actual operations of your language version.

Sharing files and folders

On your computer, you must share the folder containing video, audio and/or photo content to play them on this player.

This part explains the procedure for selecting the shared folders on your computer.

1. Double-click the "SmartShare" icon.
2. Click [Movie], [Photo] or [Music] icon on the center, and then click [Settings] on the top right corner of the SmartShare PC software. The [Settings] menu appears on the screen.
3. Click [My Shared Contents] tab, and then click  icon. The [Add/Remove Shared Folders] menu appears on the screen.
4. Click the folder containing the files you want to share and then click the [OK]. The checked folder is added to the [My Shared Contents] and then click the [OK] at the bottom of the [Settings] menu.
5. Make sure that the SmartShare service turns on at the [Service] tab.

! Note

- If the shared folders or files are not displayed on the player, click the [My Shared Contents] on the [Settings] menu, and then click  icon.
- For more information, click [HELP] on the [Settings] menu.

System requirements

Minimum System

- CPU : Intel® 2.0 GHz or AMD Sempron™ 2000+ processors
- Memory : 1 GB of free RAM
- Graphics card : 64 MB video memory, minimum resolution of 1024 x 768 pixels, and 16 bit color settings
- Free Disk Space : 200 MB
- Windows® XP (Service Pack 2 or higher), Windows Vista®, Windows® 7 or higher
- Windows® Media Player® 11.0 or higher
- Network environment: 100 Mb Ethernet, WLAN

Recommended System

- CPU : Intel® Core™ Duo or AMD Athlon™ 64X2, 1.7 GHz or better
- Memory : 2 GB of free RAM
- Graphics card : 128 MB video memory, minimum resolution of 1024 x 768 pixels, and 16 bit color settings
- Free Disk Space : 200 MB
- Windows® XP (Service Pack 2 or higher), Windows Vista®, Windows® 7 or higher
- Windows® Media Player® 11.0 or higher
- Network environment: 100 Mb Ethernet, WLAN

General Playback

Basic operations for video and audio content

To stop playback

Press ■ (Stop) during playback.

To pause playback

Press || (Pause) during playback.

Press ► (Play) to resume playback.

To play frame-by-frame (Video)

Press || (Pause) during video playback.

Press || (Pause) repeatedly to play Frame-by-Frame playback.

To scan forward or backward

Press ◀◀ or ▶▶ to play fast forward or fast reverse during playback.

You can change the various playback speeds by pressing ◀◀ or ▶▶ repeatedly.

To slow down the playing speed (Video)

While the playback is paused, press ▶▶ repeatedly to play various speeds of slow motion.

You can adjust the playing speed and check it by the symbol (||||▶-▶) on the screen.

To skip to the next/previous title/file

During playback, press ◀◀ or ▶▶ to go to the next title/file or to return to the beginning of the current title/file.

Press ◀◀ twice briefly to step back to the previous title/file.

In the file list menu of a server, there may have many types of content in a folder together. In this case, press ◀◀ or ▶▶ to go to the previous or next content with same type.

Basic operations for photo content

To play a slide show

Press ► (Play) to start slide show.

To stop a slide show

Press ■ (Stop) while slide show.

To pause a slide show

Press || (Pause) while slide show.

Press ► (Play) to re-start the slide show.

To skip to the next/previous photo

While viewing a photo in full screen, press < or > to go to the previous or next photo.

Resume playback

MOVIE MUSIC

The unit records the point where you pressed the ■ (Stop) depending on a file.

If "||■ (Resume Stop)" appears on the screen briefly, press ► (Play) to resume playback (from the scene point).

If you press ■ (Stop) twice, "■ (Complete Stop)" appears on the screen. The unit will clear the stopped point.

! Note

The resume point may be cleared when a button is pressed (for example ⏻ (Power)).

On-Screen Display

You can display and adjust various information and settings about the content.

To control video playback

MOVIE

You can control playback and set options while watching videos.

During playback, press **INFO/MENU** (□).

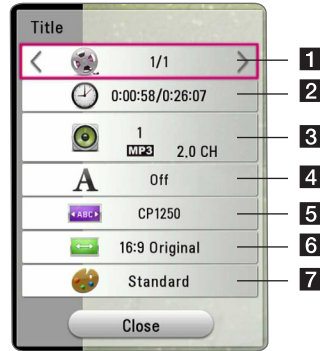

- 1 Progress bar** - Displays the current position and total playing time.
- 2 [Title/Popup]** - Displays the title or the pop-up menu, if available.
- 3 [Option]** - Displays playback information.
- 4 [Repeat]** - Repeats a desired section or sequence. (page 38)

Displaying content information on-screen

MOVIE

- During playback, press **INFO/MENU** (□).
- Select an [Option] using **</>**, and press **ENTER** (⊙).

- 1 Title** – Current title number/total number of titles
- 2 Time** – Elapsed playing time/total playback time
- 3 Audio** – Selected audio language or channel
- 4 Subtitle** – Selected subtitle.
- 5 Code Page** – Selected subtitle code.
- 6 TV Aspect Ratio** – Selected TV aspect ratio
- 7 Picture Mode** – Selected picture mode

! Note

- If no button is pressed for a few seconds, the on-screen display disappears.
- A title number cannot be selected on some files.
- Available items may differ depending on titles.

To control photo view

Controls playback and sets options while viewing pictures in full screen.

You can control playback and set options while viewing pictures in full screen.

While viewing pictures, press **INFO/MENU** (□).

- 1 [Slideshow]** - Starts or pause slide show.
- 2 [Music]** - Select the background music for the slide show (page 41).
- 3 [Option]** - Displays slide show options.
- 4 [Rotate]** - Rotates the photo clockwise.
- 5 [Zoom]** - Displays the [Zoom] menu.

Setting the slide show option

You can use various options during viewing a photo in full screen.

1. While viewing pictures, press **INFO/MENU** (□).
2. Select an [Option] using **</>**, and press **ENTER** (⊙).

- 1 [Speed]** - Use **</>** to select a delaying speed between photos in a slide show.
- 2 [Effect]** - Use **</>** to select a transition effect between photos in a slide show.
- 3 [Music Select]** - Select the background music for the slide show (page 41).

Advanced Playback

Repeat playback

MUSIC MOVIE

Video files

During playback, press **REPEAT** (↺↻) to select a desired repeat mode.

A-B – Selected portion will be repeated continually.

Title – The current title will be played back repeatedly.

All – All the titles or files will be played back repeatedly.

Off – Returns to normal playback.

To return to normal playback, press **CLEAR**.

Audio files

During playback, press **REPEAT** (↺↻) repeatedly to select a desired repeat mode.

1 – The current file will be played back repeatedly.

A – All the files will be played back repeatedly.

A ↻ – All the files will be played back repeatedly in random order.

↻ – The files will be played back in random order.

To return to normal playback, press **CLEAR**.

! Note

This function may not work on some titles.

Repeating a specific portion

MOVIE

This unit can repeat a portion you have selected.

1. During playback, press **REPEAT** (↺↻).
2. Select [A-B] and press **ENTER** (⊙).
3. Press **ENTER** (⊙) at the beginning of the portion you wish to repeat.

4. Press **ENTER** (⊙) at the end of the portion. Your selected portion will be repeated continually.
5. To return to normal playback, press **CLEAR**.

! Note

- You cannot select a portion less than 3 seconds.
- This function may not work on some title.

Playing from selected time

MOVIE

1. During playback, press **INFO/MENU** (□).
2. Select an [Option] using </>, and press **ENTER** (⊙).

3. Select the [Time] option and then input the required start time in hours, minutes, and seconds from left to right.

For example, to find a scene at 2 hours, 10 minutes, and 20 seconds, enter "21020".

Press </> to skip the playback 60 seconds forward or backward.

4. Press **ENTER** (⊙) to start playback from selected time.

! Note

- This function may not work on some titles.
- This function may not work depending on the file type and ability of the DLNA server.

Selecting a subtitle language

MOVIE

1. During playback, press **INFO/MENU** (□).
2. Select an [Option] using **</>**, and press **ENTER** (⊙).
3. Use **^/v** to select the [Subtitle] option.
4. Use **</>** to select desired subtitle language.
By pressing **ENTER** (⊙), you can set various subtitle options.
5. Press **BACK** (⏮) to exit the On-Screen display.

! Note

You can select the [Subtitle] option on the On-Screen display directly by pressing **SUBTITLE** button.

Hearing a different audio

MOVIE

1. During playback, press **INFO/MENU** (□).
2. Select an [Option] using **</>**, and press **ENTER** (⊙).
3. Use **^/v** to select the [Audio] option.
4. Use **</>** to select desired audio language or audio channel.

! Note

Immediately after you have switched sound, there may be a temporary discrepancy between the display and actual sound.

Changing the TV Aspect Ratio

MOVIE

You can change the TV aspect ratio setting during playback.

1. During playback, press **INFO/MENU** (□).
2. Select an [Option] using **</>**, and press **ENTER** (⊙).
3. Use **^/v** to select the [TV Aspect Ratio] option.
4. Use **</>** to select desired option.
5. Press **BACK** (⏮) to exit the On-Screen display.

! Note

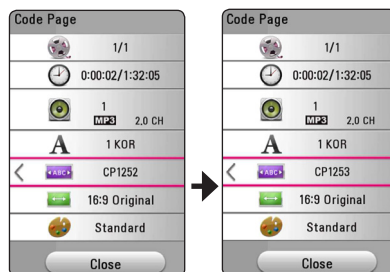

Even if you change the value of the [TV Aspect Ratio] option in On-Screen display, the [TV Aspect Ratio] option in the [Settings] menu is not changed.

Changing Subtitle Code Page

MOVIE

If the subtitle is displayed in broken letter, you can change the subtitle code page to view the subtitle file properly.

1. During playback, press **INFO/MENU** (□).
2. Select an [Option] using **</>**, and press **ENTER** (⊙).
3. Use **^/v** to select the [Code Page] option.
4. Use **</>** to select desired code option.

5. Press **BACK** (⏮) to exit the On-Screen display.

Changing the Picture Mode

MOVIE

You can change the [Picture mode] option during playback.

1. During playback, press **INFO/MENU** (□).
2. Select an [Option] using **</>**, and press **ENTER** (⊙).
3. Use **Λ/V** to select the [Picture Mode] option.
4. Use **</>** to select desired option.
5. Press **BACK** (⏮) to exit the On-Screen display.

Setting the [User setting] option

1. During playback, press **INFO/MENU** (□).
2. Select an [Option] using **</>**, and press **ENTER** (⊙).
3. Use **Λ/V** to select the [Picture Mode] option.
4. Use **</>** to select the [User setting] option, and press **ENTER** (⊙).

5. Use **Λ/V/</>** to adjust the [Picture Mode] options.

Select [Default] option then press **ENTER** (⊙) to reset the all video adjustments.

6. Use **Λ/V/</>** to select the [Close] option, and press **ENTER** (⊙) to finish setting.

Viewing content information

MOVIE

The unit can display the content information.

1. Select a file using **Λ/V/</>**.
2. Press **INFO/MENU** (□) to display the option menu.

The file information appears on the screen.

During video playback, you can display the file information by pressing **POP UP**.

! Note

The information displayed on the screen may not correct comparing actual content information.

Changing content list view

MOVIE | MUSIC | PHOTO

On the [SmartShare] menu, you can change the content list view.

Press red (R) colored button repeatedly.

Selecting a subtitle file

MOVIE

If the subtitle file name is different from the video file name, you need to select the subtitle file on the [Movie] menu before playing the movie.

1. Use **▲/▼/◀/▶** to select the subtitle file you wish to play in the [Movie] menu.
2. Press **ENTER (Ⓢ)**.

Press **ENTER (Ⓢ)** again to deselect the subtitle file. Selected subtitle file will be displayed when you play the video file.

Note

- If you press **■** (Stop) during playback, the subtitle selection is cancelled.
- This function is not available for playing file on a server via home network.

Listening to music during slide show

PHOTO

You can display photo files while listening to audio files.

1. While viewing a photo in full screen, press **INFO/MENU (ℹ)** to display the option menu.
2. Select an [Option] using **◀/▶**, and press **ENTER (Ⓢ)**.
3. Use **▲/▼** to select [Music Select] option, and press **ENTER (Ⓢ)** to display the [Music Select] menu.
4. Use **▲/▼** to select a device, and press **ENTER (Ⓢ)**.

Available device may differ depending on the location of the current photo file.

Photo location	Available Device
USB	USB
MTP	MTP
Media server	Media server

5. Use **▲/▼** to select a file or a folder you wish to play.

Select **ℹ** and press **ENTER (Ⓢ)** to display the upper directory.

Note

When selecting audio file from a server, folder selection is not available. Only file selection is available.

6. Use **➤** to select [OK], and press **ENTER (Ⓢ)** to complete music selection.

Radio Operations

Be sure that the antenna is connected.
(Refer to the page 17)

Listening to the radio

1. Press FUNCTION until TUNER (FM) appears in the display window. The last received station is tuned in.
2. Press and hold TUNING (-/+) for about two seconds until the frequency indication starts to change. Scanning stops when the unit tunes in a station. Or Press TUNING (-/+) repeatedly.
3. Adjust the volume by rotating the volume control knob on the front panel or by pressing VOL (+/-) on the remote control.

Presetting the Radio Stations

You can preset 50 stations for FM.
Before tuning, make sure that you have turned down the volume.

1. Press FUNCTION until the TUNER (FM) appears in the display window.
2. Select the desired frequency by using TUNING (-/+).
3. Press **ENTER** (⊙) a preset number will flash in the display window.
4. Press PRESET (-/+) to select the preset number you want.
5. Press **ENTER** (⊙). The station is stored.
6. Repeat the steps 2 to 5 to store other stations.

Deleting a saved station

1. Press PRESET (- / +) to select a preset number you want to delete.
2. Press CLEAR, the preset number will blink in the display window.
3. Press CLEAR again, to delete the selected preset number.

Deleting all the saved stations

Press and hold CLEAR for two seconds.
"ERASE ALL" will flash up. Press CLEAR again. Then all the saved stations are deleted.

Improving poor FM reception

Press B (blue) (MONO/STEREO) colored button on the remote control. This will change the tuner from stereo to mono and usually improve the reception.

See information about a radio station

The FM tuner is supplied with the RDS (Radio Data System) facility. This shows information about the radio station being listened to. Press RDS repeatedly to cycle through the various data types:

PS	(Programme Service Name) The name of the channel will appear in the display
PTY	(Programme Type Recognition) The programme type (e.g. Jazz or News) will appear in the display.
RT	(Radio Text) A text message contains special information from the broadcast station. This text may scroll across the display.
CT	(Time controlled by the channel) This shows the time and date as broadcast by the station.

LG AV Remote

You can control this player with your iPhone or Android phone via your home network. This player and your phone must be connected to your wireless network device such as access point. Visit "Apple iTunes" or "Google Android Market (Google Play Store)" for detailed information of "LG AV Remote".

Private Sound Mode

By downloading "LG AV Remote" application on your smart phone or tablet, you can connect your headsets, and enjoy the sound from your player on your smart devices.

This feature transmits video signal to TV through HDMI and audio signal to smart phone or tablet through Wi-Fi. For more detailed information, please refer to "LG AV Remote" application.

Using BLUETOOTH® technology

About BLUETOOTH

Bluetooth is wireless communication technology for short range connection.

The sound may be interrupted when the connection interfered by the other electronic wave or you connect the **Bluetooth** in the other rooms.

Connecting individual devices under **Bluetooth** wireless technology does not incur any charges. A mobile phone with **Bluetooth** wireless technology can be operated via the Cascade if the connection was made via **Bluetooth** wireless technology.

Available Devices : Mobile phone, MP3, Laptop, PDA.

BLUETOOTH Profiles

In order to use **Bluetooth** wireless technology, devices must be able to interpret certain profiles. This unit is compatible with following profile.

A2DP (Advanced Audio Distribution Profile)

Listening to music stored on the BLUETOOTH devices

Pairing your unit and BLUETOOTH device

Before you start the pairing procedure, make sure the **Bluetooth** feature is turned on in to your **Bluetooth** device. Refer to your **Bluetooth** device's user guide. Once a pairing operation is performed, it does not need to be performed again.

1. Select the **Bluetooth** function by using the **FUNCTION** (↔).
Appears "BT READY" in display window.
2. Operate the **Bluetooth** device and perform the pairing operation. When searching for this unit with the **Bluetooth** device, a list of the devices found may appear in the **Bluetooth** device display depending on the type of **Bluetooth** device. Your unit appears as "LG HTS (XX:XX)".
3. When this unit successfully paired with your **Bluetooth** device, "PAIRED" appears in the display window.

! Note

- Depending on the **Bluetooth** device type, some device have a different pairing way. Enter the PIN code (0000) as needed.
- XX:XX means the last four digits of **Bluetooth** address. For example, if your unit has a **Bluetooth** address such as 9C:02:98:4A:F7:08, you will see "LG HTS (F7:08)" on your **Bluetooth** device.

4. Listen to music.
To play a music stored on your **Bluetooth** device, refer to your **Bluetooth** device's user guide.

! Note

If you change the function of the unit, the **Bluetooth** function is disconnected, operate pairing again.

! Note

- When using **Bluetooth** technology, you have to make a connection between the unit and the **Bluetooth** device as close as possible and keep the distance. However it may not work well in the case below :
 - There is a obstacle between the unit and the **Bluetooth** device.
 - There is a device using same frequency with **Bluetooth** technology such as a medical equipment, a microwave or a wireless LAN device.
- You should connect your **Bluetooth** device to this unit again when you restart it.
- When you select **Bluetooth** function again after changing to other functions, **Bluetooth** connection may be disconnected. You should reconnect the **Bluetooth** device to use this function.
- The sound may be interrupted when the connection interfered by the other electronic wave.
- You cannot control the **Bluetooth** device with this unit.
- Pairing is limited one **Bluetooth** device per one unit and multi-pairing is not supported.
- Depending on the type of the device, you may not be able to use the **Bluetooth** function.
- You can enjoy wireless system using phone, MP3, Notebook, etc..
- The more distance between the unit and the **Bluetooth** device, the lower the sound quality becomes.
- **Bluetooth** connection will be disconnected when the unit is turned off or the **Bluetooth** device gets far from the unit.
- When **Bluetooth** connection is disconnected, connect the **Bluetooth** device to the unit again.
- When not connected the **Bluetooth**, "BT READY" appears on the display window.

LG Sound Sync

You can control some functions of this unit by your TV's remote control with LG Sound Sync. It is compatible with the LG TV that is supported LG Sound Sync. Make sure of the LG Sound Sync logo on your TV.

Controllable function by LG TV's remote control :
Volume up/down, mute

Refer to the TV's instruction manual for the details of LG Sound Sync.

! Note

- You can also use the remote control of this unit while using LG Sound Sync. If you use TV's remote control again, the unit synchronizes with the TV.
- When the connection fails, make sure of the condition of the TV and power.
- Make sure of the condition of this unit and the connection in the cases below when using LG Sound Sync.
 - Turn off the unit.
 - Changing the function to the others.
 - Disconnecting the wireless connection caused by interference or a distance.
- This unit cannot support LG Sound Sync (Optical) by the optical connection.

1. Turn on the unit by pressing (Power) on the remote control.
2. Select LG TV function by using FUNCTION on the remote control or F on the unit until the function is selected.
3. Set up the sound output of TV to listen to the sound through this unit :
TV setting menu → [Sound] → [TV Sound output] → [LG Sound Sync (Wireless)]
"PAIRED" appears on the display window for about 3 seconds and then you can see "LG TV" on the display window if connecting normally between this unit and your TV.

! Note

- If you turned off the unit directly by pressing (Power), LG Sound Sync (Wireless) will be disconnected. To use this function again, you should reconnect the TV and the unit.
- Details of TV setting menu vary depending on the models of your TV.
- The device with **Bluetooth** wireless technology will be disconnected, if Sound Sync function is selected.

Troubleshooting

General

Symptom	Cause & Solution
The Power does not turned on.	<ul style="list-style-type: none">• Plug the power cord into the wall outlet securely.
The connected USB storage device is not recognized.	<ul style="list-style-type: none">• Try using different USB cable, some USB cables may not support enough current for normal USB operation.• If you use a USB extension cable or USB HUB, the USB devices may not be recognized.• A USB device which requires additional program installation when you have connected it to a computer is not supported.• This unit supports only USB Flash Drive and USB External HDD with FAT32 or NTFS format.
Cannot play video, photo or audio files.	<ul style="list-style-type: none">• The files are not recorded in a format that the unit can play.• The unit does not support the codec of the video file.
The remote control does not work properly.	<ul style="list-style-type: none">• The remote control is not pointed at the remote sensor of the unit.• The remote control is too far from the unit.• There is an obstacle in the path of the remote control and the unit.• The batteries in the remote control are exhausted.
The unit is plugged in, but the power will not turn on or off.	<div>You can reset the unit as follows.</div> <ul style="list-style-type: none">• Unplug the power cord, wait at least five seconds, and then plug it in again.
The unit is not operating normally.	

Network

Symptom	Cause & Solution
Streaming video services (such as YouTube™, etc.) are often stopped or “buffer” during playback.	<ul style="list-style-type: none">• Your broadband service speed may not be fast enough to stream video services. Contact your Internet Service Provider (ISP) and increase the broadband speed is recommended.
Media servers are not displayed on the device list.	<ul style="list-style-type: none">• The firewall or anti-virus software on your media server is running. Turn off the firewall or anti-virus software running on your media server.• The unit is not connected to the local area network that your media server is connected.
Cannot connect the unit to the access point or wireless LAN router.	<ul style="list-style-type: none">• The wireless communication may be interrupted from household devices that are using radio frequencies. Move the unit away from them.
Access point is not displayed on the “Access point name” list.	<ul style="list-style-type: none">• The access point or wireless LAN router may not broadcast its SSID. Set your access point to broadcast its SSID through your computer.• Your network device such as access point may not set with available frequency range and channel that this unit can support. Try setting the frequency range and channel on the network device setting.

Picture

Symptom	Cause & Solution
There is no picture.	<ul style="list-style-type: none">• Select the appropriate video input mode on the TV so the picture from the unit appears on the TV screen.• Connect the video connection securely.• Check the [HDMI Color Setting] in the [Settings] menu is set to the appropriate item that conforms to your video connection.• Your TV may not support the resolution you have set on the unit. Change the resolution that your TV accepts.• The unit's HDMI OUT jack is connected to a DVI device that does not support copyright protection.
Picture noise appears	<ul style="list-style-type: none">• You are playing a file recorded in a colour system that is different from your TV.• Set the resolution which your TV accepts.

Sound

Symptom	Cause & Solution
There is no sound or the sound is distorted.	<ul style="list-style-type: none">• The unit is in scan, slow motion, or pause mode.• The sound volume is low.• Check the wireless speaker connection. (page 13)

Customer Support

You can update the unit using the latest software to enhance the products operation and/or add new features. To obtain the latest software for this unit (if updates have been made), please visit <http://www.lg.com> or contact LG Electronics customer care center.

OPEN SOURCE SOFTWARE NOTICE

To obtain the source code under GPL, LGPL, MPL and other open source licenses, that is contained in this product, please visit <http://opensource.lge.com>.

In addition to the source code, all referred license terms, warranty disclaimers and copyright notices are available for download.

LG Electronics will also provide open source code to you on CD-ROM for a charge covering the cost of performing such distribution (such as the cost of media, shipping and handling) upon email request to opensource@lge.com. This offer is valid for three (3) years from the date on which you purchased the product.

Controlling a TV with the Supplied Remote Control

You can control your TV using the buttons below.

By pressing	You can
(TV POWER)	Turn the TV on or off.
AV/INPUT	Switch the TV's input source between the TV and other input sources.
VOL +/-	Adjust the volume of the TV
PR/CH /	Scan up or down through memorized channels.

Note

Depending on the unit being connected, you may not be able to control your TV using some of the buttons.

Setting up the remote to control your TV

You can operate your TV with the supplied remote control.

If your TV is listed in the table below, set the appropriate manufacturer code.

1. While holding down (TV POWER) button, and press the manufacturer code for your TV with the numerical buttons (see the table below).

Manufacturer	Code number
LG	1(Default), 2
Zenith	1, 3, 4
GoldStar	1, 2
Samsung	6, 7
Sony	8, 9
Hitachi	4

2. Release the (TV POWER) button to complete setting.

Depending on your TV, some or all buttons may not function on the TV, even after entering the correct manufacturer code. When you replace the batteries of the remote, the code number you have set may be reset to the default setting. Set the appropriate code number again.

Network Software Update

Network update notification

From time to time, performance improvements and/or additional features or services may be made available to units that are connected to a broadband home network. If there is new software available and the unit is connected to a broadband home network, the unit will inform you about the update as follows.

Option 1:

1. The update menu will appear on the screen when you turn on the unit.
2. Use **</>** to select a desired option and then press **ENTER (⊙)**.

[OK]	Starts the software update.
[Cancel]	Exits the update menu and the home menu appears.

Option 2:

If the software update is available from the update server, the "Update" icon appears in the Home menu. Press blue **(B)** colored button to start the update procedure.

Software update

You can update the unit using the latest software to enhance the products operation and/or add new features. You can update the software by connecting the unit directly to the software update server.

! Note

- Before updating the software in your unit, remove USB Device from the unit.
- Before updating the software in your unit, turn the unit off and then turn it back on.
- **During the software update procedure, do not turn off the unit or disconnect AC power, or do not press any button.**
- If you cancel the update, turn off the power and turn it on for stable performance.
- This unit cannot be updated to previous software version.

1. Check the network connection and settings (page 17).
2. Select [Software] option in the [Settings] menu then press **ENTER (⊙)**.
3. Select [Update] option, and press **ENTER (⊙)**.

The unit will check for the newest update.

! Note

- Pressing **ENTER (⊙)** while checking for the update will end the process.
- If there is no update available, the Message, "No update is found." appears. Press **ENTER (⊙)** to return to the [Home Menu].

4. If newer version exists, the message "A new update was found. The update takes a few minutes. Do you want to update?" appears.
5. Select [OK] to start update. (Selecting [Cancel] will end the update.)
6. The unit starts downloading the newest update from the server. (Downloading will take several minutes depending on your home network condition)
7. To update software the next time, the software update procedure has to be started from the beginning again.

**Caution**

Do not turn off the power during the software update.

8. When update is completed, the power will be turned off automatically in a few seconds.
9. Turn the power back on. The system now operates with the new version.

**Note**

The Software Update function may not work properly depending on your internet environment. In this case, you can obtain the latest software from the authorized LG Electronics Service Center then update your unit. Refer to "Customer Support" on page 48.

Additional Information

File requirement

Video files

File Location	File Extension	Codec Format	Audio Format	Subtitle
USB	"avi", "mpg", "mpeg", "mkv", "mp4", "m4v" (DRM free), "vob", "3gp", "mov", "trp", "m2t", "mpe", "m1v", "m2v", "wm", "flv", "ts", "dat"	XVID, MPEG1 SS, H.264/ MPEG-4 AVC, MPEG2 PS, MPEG2 TS, VC-1 SM	Dolby Digital, DTS, MP3, WMA, AAC, AC3	SubRip (.srt / .txt), SAMI (.smi), SubStation Alpha (.ssa/.txt), MicroDVD (.sub/.txt), VobSub (.sub), SubViewer 1.0 (.sub), SubViewer 2.0 (.sub/. txt), TMPlayer (.txt), DVD Subtitle System (.txt)
DLNA	"avi", "mpg", "mpeg", "mkv", "mp4", "m4v" (DRM free), "mov", "mpe", "m1v", "m2v", "flv", "ts", "dat"	XVID, MPEG1 SS, H.264/ MPEG-4 AVC, MPEG2 PS, MPEG2 TS, VC-1 SM	Dolby Digital, DTS, MP3, WMA, AAC, AC3	SubRip (.srt / .txt), SAMI (.smi), SubStation Alpha (.ssa/.txt), MicroDVD (.sub/. txt), SubViewer 1.0 (.sub), SubViewer 2.0 (.sub/. txt), TMPlayer (.txt), DVD Subtitle System (.txt)

Audio files

File Location	File Extension	Sampling Frequency	Bitrate	Note
USB	"mp3", "wma", "wav", "m4a" (DRM free), "flac", "ogg", "aiff"	within 32 - 48 kHz (WMA), within 16 - 48 kHz (MP3)	within 32 - 192 kbps (WMA), within 32 - 320 kbps (MP3)	Some wav files are not supported on this unit.
DLNA	"mp3", "wma", "wav", "m4a" (DRM free), "flac", "ogg"	within 32 - 48 kHz (WMA), within 16 - 48 kHz (MP3)	within 32 - 192 kbps (WMA), within 32 - 320 kbps (MP3)	Some wav files are not supported on this unit.

Photo files

File Location	File Extension	Recommended Size	Note
USB, DLNA	"jpg", "jpeg", "png", "gif"	Less than 4,000 x 3,000 x 24 bit/pixel Less than 3,000 x 3,000 x 32 bit/pixel	Progressive and lossless compression photo image files are not supported.

! Note

- The file name is limited to 180 characters.
- Maximum files/Folder: Less than 2000 (total number of files and folders)
- Depending on the size and number of the files, it may take several minutes to read the content on the media.
- File compatibility may differ depending on the server.
- Because the compatibility on DLNA server are tested on the DLNA server (SmartShare PC Software) environment, file requirements and playback functions may differ depending on media servers.
- The file requirements on page 52 are not always compatible. There may have some restrictions by file features and media server's ability.
- Playing video subtitle files is only available by using a DLNA media server created with the SmartShare PC Software supplied with this unit.
- The files from removable media such as USB drive etc. on your media server may not be shared properly.
- This unit cannot support the ID3 Tag embedded MP3 file.
- The total playback time of audio file indicated on the screen may not correct for VBR files.
- HD video files contained on the USB 1.0/1.1 may not played properly. USB 2.0 are recommended to play back HD video files.
- This unit supports H.264/MPEG-4 AVC profile Main, High at Level 4.1. A file with higher level may not be supported.
- This unit does not support files that are recorded with GMC*¹ or Qpel*².

*1 GMC – Global Motion Compensation

*2 Qpel – Quarter pixel

! Note

- A "avi" file which is encoded "WMV 9 codec" is not supported.
- This unit supports UTF-8 files even it contains Unicode subtitle content. This unit can not support the pure Unicode subtitle files.
- Depending on the types of file or ways of recording, it may not play back.
- To be playback a video file, video file name and Subtitle file name must be the same.
- When you play a video file with a extension such as ".ts", ".m2ts", ".mts", ".tp", ".Trp" or ".m2t", your unit may not support subtitle files.
- The total playback time of audio file indicated on the screen may not correct for VBR files.
- Video / Audio codec compatibility may differ depending on video file.

About DLNA

This Player is a DLNA Certified digital media player that can display and play video, photo and audio content from your DLNA-compatible digital media server (PC and Consumer Electronics).

The Digital Living Network Alliance (DLNA) is a cross-industry organization of consumer electronics, computing industry and mobile device companies. Digital Living provides consumers with easy sharing of digital media through your home network.

The DLNA certification logo makes it easy to find products that comply with the DLNA Interoperability Guidelines. This unit complies with DLNA Interoperability Guidelines v1.5.

When a PC running DLNA server software or other DLNA compatible device is connected to this player, some setting changes of software or other devices may be required. Please refer to the operating instructions for the software or device for more information.

Certain system requirements

For high definition video playback:

- High definition display that has HDMI input jack.
- HDMI or HDCP capable DVI input on your display device is required for some content.

Audio Output Specifications

Source \ Jack/Setting	HDMI OUT		
	PCM	DTS Re-encode ^{*3}	Auto ^{*1 *2}
Dolby Digital	PCM 5.1ch	DTS	Dolby Digital
Dolby Digital Plus	PCM 5.1ch	DTS	Dolby Digital Plus
Dolby TrueHD	PCM 5.1ch	DTS	Dolby TrueHD
DTS	PCM 2ch	DTS	DTS
DTS-HD	PCM 2ch	DTS	DTS-HD
Linear PCM 2ch	PCM 2ch	DTS	Linear PCM 2ch
Linear PCM 5.1ch	PCM 5.1ch	DTS	Linear PCM 5.1ch
Linear PCM 7.1ch	PCM 7.1ch	DTS	Linear PCM 7.1ch

- ^{*1} The secondary and interactive audio may not be included in the output bitstream if [Digital Output] option is set to [Auto]. (Except LPCM Codec : the output always include interactive and secondary audio.)

^{*2} This unit automatically selects the HDMI audio according to the decoding capability of the connected HDMI device even though [Digital Output] option is set to [Auto].

^{*3} If the [Digital Output] option is set to [DTS re-encode], the audio output is limited to 48 kHz and 5.1Ch.
- If the audio format of the digital output does not match the capabilities of your receiver, the receiver will produce a strong, distorted sound or no sound at all.
 - Multi-channel Digital Surround Sound via digital connection can only be obtained if your receiver is equipped with a Digital Multi-channel decoder.
 - This setting is not available on the input signal from an external device.

Type	1 Way 1 speaker
Impedance	3 Ω
Rated input power	160 W
Max. input power	320 W
Dimensions (WxHxD)	171 mm x 390 mm x 261 mm
Net Weight	5.6 kg

System	
Signal system	Standard PAL/NTSC color TV system
LAN port	Ethernet jack x 1, 10BASE-T / 100BASE-TX
Wireless LAN (internal antenna)	IEEE 802.11b/g/n (2.4 GHz band)
Bus Power Supply (USB)	5 V  500 mA

- Design and specifications are subject to change without notice.

Maintenance

Handling the unit

When shipping the unit

Please save the original shipping carton and packing materials. If you need to ship the unit, for maximum protection, re-pack the unit as it was originally packed at the factory.

Cleaning the unit

To clean the player, use a soft, dry cloth. If the surfaces are extremely dirty, use a soft cloth lightly moistened with a mild detergent solution. Do not use strong solvents such as alcohol, benzene, or thinner, as these might damage the surface of the unit.

Keeping the exterior surfaces clean

- Do not use volatile liquids such as insecticide spray near the unit.
- Wiping with strong pressure may damage the surface.
- Do not leave rubber or plastic products in contact with the unit for a long period of time.

Important Information relating to Network Services

All information, data, documents, communications, downloads, files, text, images, photographs, graphics, videos, webcasts, publications, tools, resources, software, code, programs, applets, widgets, applications, products and other content ("Content") and all services and offerings ("Services") provided or made available by or through any third party (each a "Service Provider") is the sole responsibility of the Service Provider from whom it originated.

The availability of and access to Content and Services furnished by the Service Provider through the LGE Device are subject to change at any time, without prior notice, including, but not limited to the suspension, removal or cessation of all or any part of the Content or Services.

Should you have any inquiry or problem related to the Content or Services, you may refer to the Service Provider's website for the most up-to-date information. LGE is neither responsible nor liable for customer service related to the Content and Services. Any question or request for service relating to the Content or Services should be made directly to the respective Content and Service Providers.

Please note that LGE is not responsible for any Content or Services provided by the Service Provider or any changes to, removal of, or cessation of such Content or Services and does not warrant or guaranty the availability of or access to such Content or Services.
