

Nero MediaHome 4 Essentials for Mac OS

Nero MediaHome 4 Essentials is a software for sharing video, audio and photo files stored on your computer to this speaker as a digital media server.

[System requirements (Mac PC)]

- . Mac OS X 10.5 (Leopard) or 10.6 (Snow Leopard)
- . Macintosh computer with an Intel x86 processor
- . Hard drive space: 200 MB hard drive space for a typical installation of Nero MediaHome standalone
- . Memory: 256 MB RAM

[Note]

- . The Nero MediaHome Essentials is a customized software edition only for sharing files and folders to this speaker.
- . If the shared folders or files are not displayed on the player, click the folder on the [Local Folders] tab and click [Rescan Folder] at the [More] button.
- . Visit www.nero.com for more information and software tools.

[Installation Process]

1. Download the file.
2. Before installation, close all running programs including firewall and Anti-Virus programs.
3. Unzip and double-click "Setup.exe" to install Nero MediaHome Essentials. The installation is prepared and the installation wizard appears.
4. Follow the directions of the installation wizard displayed on the screen.
