

DVD Home Cinema System with STB

OWNER'S MANUAL

MODEL : DAT-100

(Main Unit: DAT-100P,
Speakers: FE-100TE, FE-100WE)

Before connecting, operating or adjusting this product,
please read this instruction booklet carefully and completely.

Safety Precautions

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

WARNING: TO REDUCE THE RISK OF ELECTRIC SHOCK
DO NOT REMOVE COVER (OR BACK)
NO USER-SERVICEABLE PARTS INSIDE
REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

WARNING: Do not install this equipment in a confined space such as a book case or similar unit.

CAUTION:

This Digital Video Disc Receiver employs a Laser System.

To ensure proper use of this product, please read this owner's manual carefully and retain for future reference, should the unit require maintenance, contact an authorized service location—see service procedure.

Use of controls, adjustments or the performance of procedures other than those specified herein may result in hazardous radiation exposure.

To prevent direct exposure to laser beam, do not try to open the enclosure. Visible laser radiation when open. DO NOT STARE INTO BEAM.

CAUTION: This apparatus should not be exposed to water, dripping or splashing. No objects filled with liquids, such as vases, should be placed on the apparatus.

This product is manufactured to comply with the radio interference requirements of EEC DIRECTIVE 89/336/EEC, 93/68/EEC and 73/23/EEC.

Notes on copyrights:

It is forbidden by law to copy, broadcast, show, broadcast via cable, play in public, or rent copyright material without permission.

This product is equipped with copy protection measures developed by Macrovision. Copy protection signals are recorded on some discs. When recording these discs on a VCR, picture noise will appear during playback.

This product incorporates copyright protection technology that is protected by certain U.S. patent claims and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

SERIAL NUMBER: The serial number is found on the back of this unit. This number is unique to this unit and not available to others. You should record requested information here and retain this guide as a permanent record of your purchase.

Model No. _____

Serial No. _____

About the symbols for instructions

Indicates hazards likely to cause harm to the unit itself or other material damage.

Indicates special operating features of this unit.

Indicates tips and hints for making the task easier.

Manufactured under license from Dolby Laboratories. "Dolby", "Pro Logic", and the double-D symbol are trademarks of Dolby Laboratories. Confidential Unpublished works. Copyright 1992-1997 Dolby Laboratories. All rights reserved.

Manufactured under license from Digital Theater Systems, Inc. US Pat. No. 5,451,942 and other worldwide patents issued and pending. "DTS" and "DTS Digital Surround" are trademarks of Digital Theater Systems, Inc. Copyright 1996 Digital Theater Systems, Inc. All rights reserved.

Specification	

Before Use

Playable Discs

	DVD (8 cm / 12 cm disc)
	Video CD (VCD) (8 cm / 12 cm disc)
	Audio CD (8 cm / 12 cm disc)

In addition, this unit can play a CD-R or CD-RW that contains audio titles or MP3 files.

Notes

- Depending on the conditions of the recording equipment or the CD-R/RW disc itself, some CD-R/RW discs cannot be played on the unit.
- The unit cannot play the CD-R/RW discs that contain no data, or contain different kinds of formatted data other than MP3 and CD-DA data.
- Do not attach any seal or label to either side (the labeled side or the recorded side) of a disc.
- Do not use irregular shaped CDs (e.g., heart-shaped or octagonal). It may result in malfunctions.

Notes on DVDs and Video CDs

Some playback operations of DVDs and Video CDs may be intentionally fixed by software manufacturers. As this unit plays DVDs and Video CDs according to disc content designed by the software manufacturer, some playback features of the unit may not be available, or other functions may be added. Refer also to the instructions supplied with the DVDs and Video CDs. Some DVDs made for business purposes may not be played on the unit.

Regional code of the DVD/TV Receiver and DVDs

This DVD/TV Receiver is designed and manufactured for playback of region “2” encoded DVD software. The region code on the labels of some DVD discs indicates which type of receiver can play those discs. This unit can play only DVD discs labeled “2” or “ALL”. If you try to play any other discs, the message “Check Regional Code” will appear on the TV screen. Some DVD discs may not have a region code label even though their playback is prohibited by area limits.

Note on DTS-encoded CDs

When playing DTS-encoded CD's, an excessive audio level may be heard from the analog stereo output. To avoid possible damage to the audio system, turn down the volume before playing back such discs, adjust the volume gradually, and keep the volume level low. To enjoy DTS Digital Surround™ playback, an external 5.1 channel DTS Digital Surround™ decoder system must be connected to the digital output of the unit.

Disc-related terms

Title (DVD only)

The main film content or accompanying feature content or additional feature content, or music album. Each title is assigned a title reference number enabling you to locate it easily.

Chapter (DVD only)

Sections of a picture or a musical piece that are smaller than titles.

A title is composed of one or several chapters. Each chapter is assigned a chapter number, enabling you to locate the chapter you want. Depending on the disc, no chapters may be recorded.

Track (Video CD and Audio CD only)

Sections of a picture or a musical piece on a Video CD or an Audio CD. Each track is assigned a track number, enabling you to locate the track you want.

Scene

On a Video CD with PBC (Playback control) functions, moving pictures and still pictures are divided into sections called “Scenes”. Each scene is displayed in the menu screen and assigned a scene number, enabling you to locate the scene you want.

A scene is composed of one or several tracks.

Types of Video CDs

There are two types of Video CDs:

Video CDs equipped with PBC (Version 2.0)

PBC (Playback control) functions allow you to interact with the system via menus, search functions, or other typical computer-like operations. Moreover, still pictures of high resolution can be played if they are included in the disc.

Video CDs not equipped with PBC (Version 1.1)

Operated in the same way as Audio CDs, these discs allow playback of video pictures as well as sound, but they are not equipped with PBC.

Before Use (Cont'd)

Precautions

Handling the unit

When shipping the unit

The original shipping carton and packing materials come in handy. For maximum protection, re-pack the unit as it was originally packed at the factory.

When setting the unit

The picture and sound of a nearby TV, VCR, or radio may be distorted during playback. In this case, position the unit away from the TV, VCR, or radio, or turn off the unit after removing the disc.

To keep the surface clean

Do not use volatile liquids, such as insecticide spray, near the unit. Do not use rubber or plastic products in contact with the unit for a long period of time. They will leave marks on the surface.

Installing

- Do not install the unit in a confined space, such as a bookcase or built-in cabinet.
- Allow adequate air circulation to prevent internal heat buildup.
- Do not place the unit on surfaces (rugs, blankets, etc.) or near materials (curtains, draperies) that may block the ventilation slots.
- Do not install the unit near heat sources such as radiators or air ducts, or in a place subject to direct sunlight, excessive dust, mechanical vibration or shock.
- Do not place heavy objects on the unit.

Cleaning the unit

To clean the cabinet

Use a soft, dry cloth. If the surfaces are extremely dirty, use a soft cloth lightly moistened with a mild detergent solution. Do not use strong solvents, such as alcohol, benzene, or thinner, as these might damage the surface of the unit.

To obtain a clear picture

The DVD/TV Receiver is a high-tech, precision device. If the optical pick-up lens and disc drive parts are dirty or worn down, the picture quality will be poor. Regular inspection and maintenance are recommended after every 1,000 hours of use. (This depends on the operating environment.)

For details, please contact your nearest dealer.

Notes on Discs

Handling discs

Do not touch the playback side of the disc.
Hold the disc by the edges so that fingerprints will not get on the surface.
Do not stick paper or tape on the disc.

Storing discs

After playing, store the disc in its case.
Do not expose the disc to direct sunlight or sources of heat, or leave it in a parked car exposed to direct sunlight, as there may be a considerable temperature increase inside the car.

Cleaning discs

Fingerprints and dust on the disc can cause poor picture quality and sound distortion. Before playing, clean the disc with a clean cloth. Wipe the disc from the center out.

Do not use strong solvents such as alcohol, benzene, thinner, commercially available cleaners, or anti-static spray intended for older vinyl records.

About Symbols

About the symbol display

" " may appear on the TV screen during operation. This icon means the function explained in this owner's manual is not available on that specific DVD video disc.

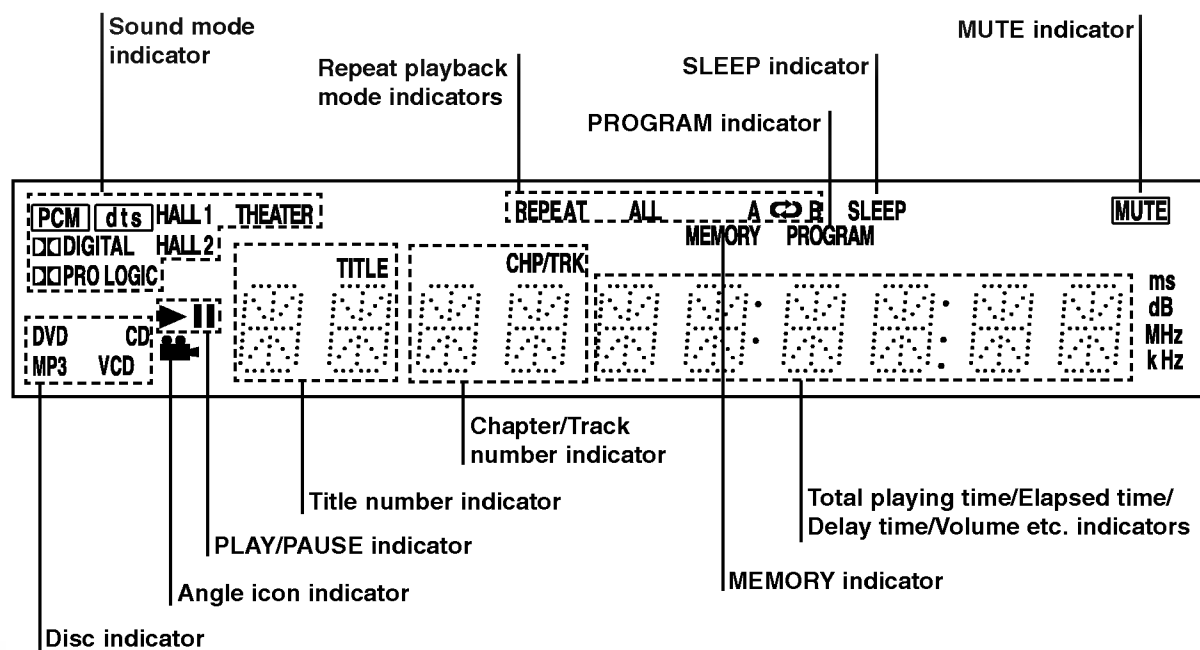

About the disc symbols for instructions

A section whose title has one of the following symbols is applicable only to the disc represented by the symbol.

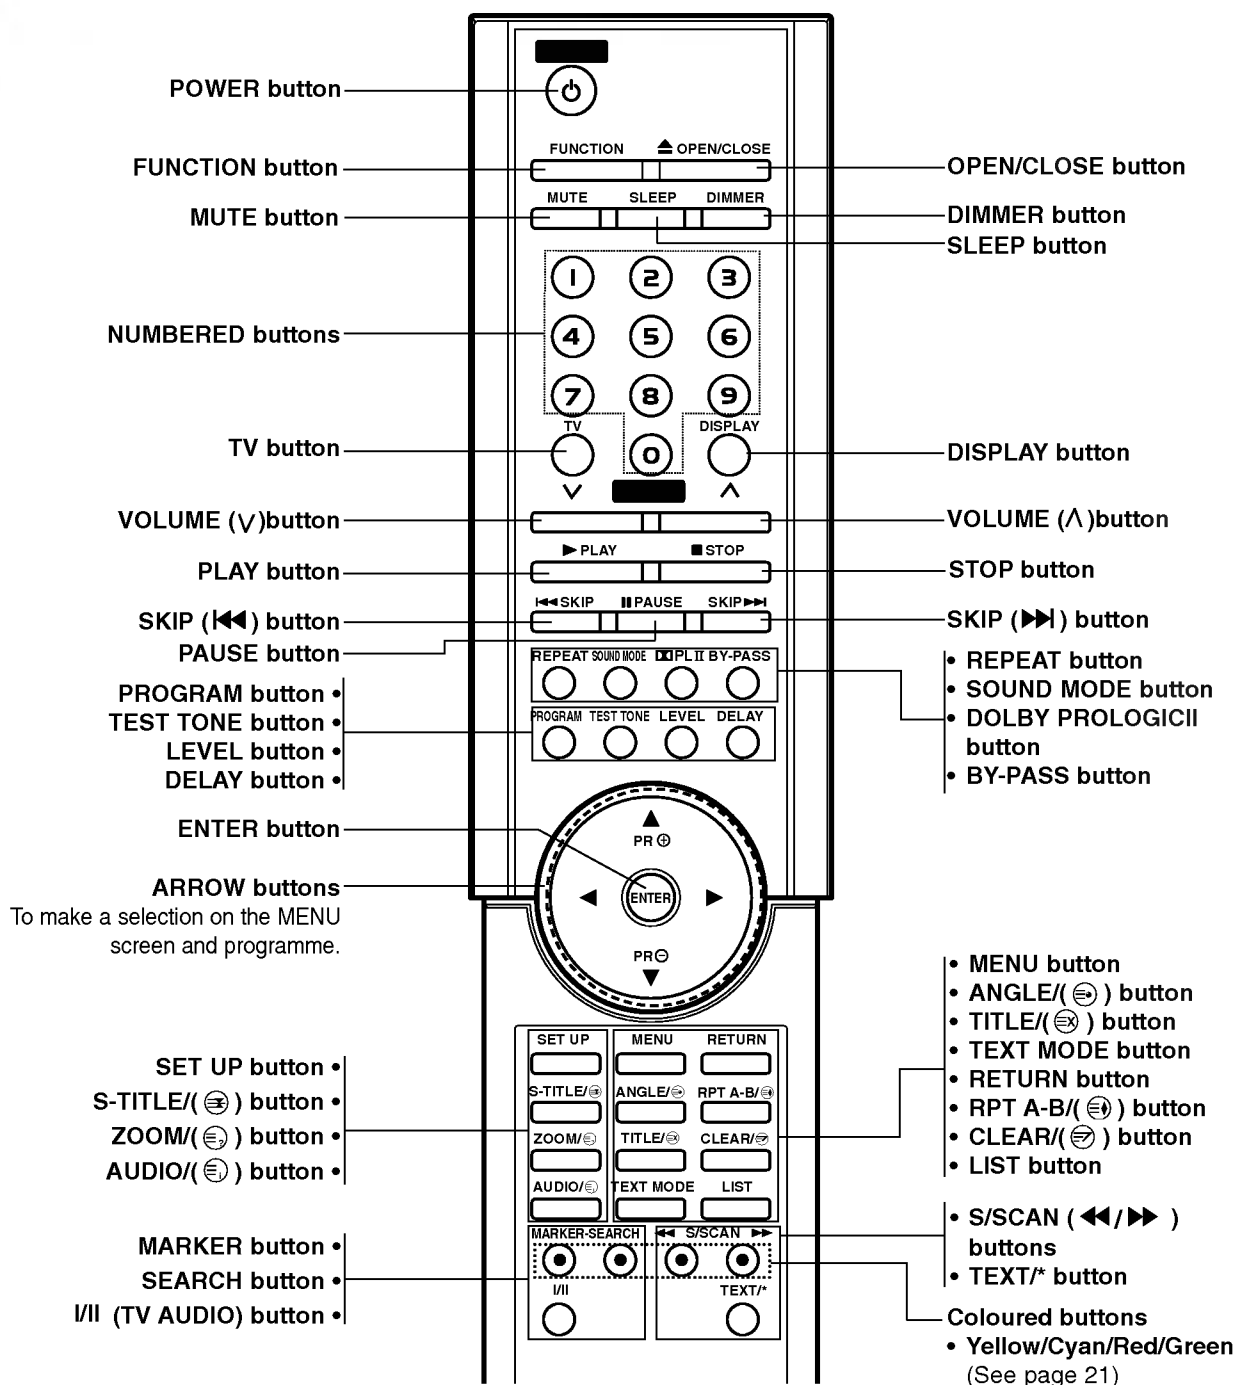

-  DVD
-  Video CDs with the PBC (playback control) function
-  Video CDs without the PBC (playback control) function
-  Audio CDs
-  MP3 disc

Front Panel and Display Window

Remote Control

Remote Control Operation Range

Point the remote control at the remote sensor and press the buttons.

- **Distance:** About 23 ft (7 m) from the front of the remote sensor
- **Angle:** About 30° in each direction of the front of the remote sensor

Remote control battery installation

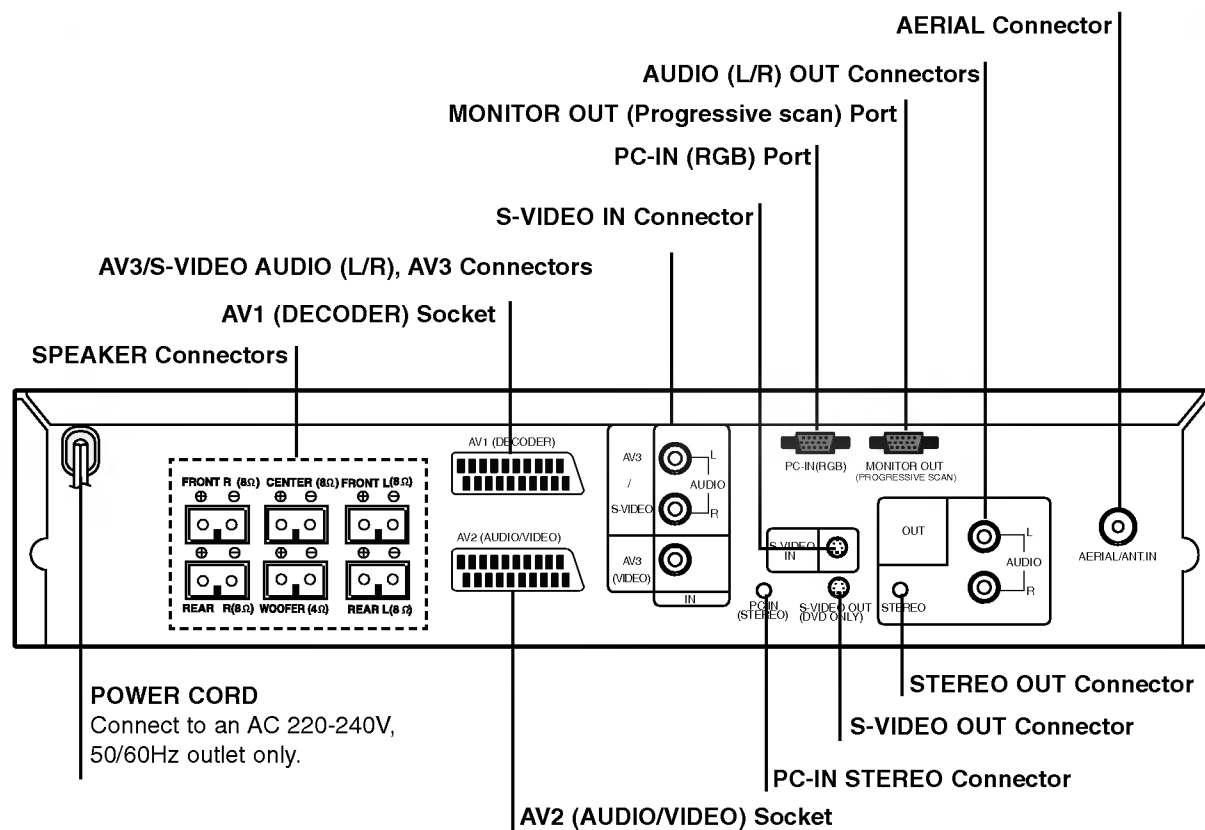

Detach the battery cover on the rear of the remote control, and insert two R03 (size AAA) batteries with ⊕ and ⊖ aligned correctly.

Caution

Do not mix old and new batteries. Never mix different types of batteries (standard, alkaline, etc.).

Rear Panel

Caution

Do not touch the inner pins of the jacks on the rear panel. Electrostatic discharge may cause permanent damage to the unit.

Connections

Connecting to a PDP Display & Decoder

- Make one of the following connections, depending on the capabilities of your existing equipment.

Tips

- Depending on your TV and other equipment you wish to connect, there are various ways you could connect the receiver. Use one of the connections described below.
- Please refer to the manuals of your TV, VCR, Stereo System or other devices as necessary to make the best connections.

Connection

- 1** Connect the TV aerial cable (**T**: 75 ohms) to the AERIAL on the rear of the DVD/TV Receiver.
- 2** Connect the PC-IN(RGB) port of the DVD/TV Receiver to the RGB OUTPUT (SVGA) port of the PC using the RGBPC cable (**R**).
- 3** Connect the MONITOR OUT port of the DVD/TV Receiver to the RGB INPUT (SVGA) port of the PDP Display.
- 4** Connect the PC-IN STEREO jack on the DVD/TV Receiver to the PC STEREO OUT port of the PC using the PC stereo cable (**P**).

- 5** Connect the STEREO OUT jack on the DVD/TV Receiver to the STEREO IN port of the PDP Display using the PC stereo cable (**P**).

S-Video connection

Connect the S-VIDEO OUT jack on the DVD/TV Receiver to the S-VIDEO-IN jack on the PDP Display using the optional S-Video cable (**S**).

Decoder connection

Connect the DVD/TV Receiver's AV1 (DECODER) Socket to the decoder's 21-pin SCART Socket using the 21-pin SCART cable (**C**).

Notes

- The signal of S-VIDEO OUT jack will output only when the function mode is selected to CD/DVD.
- When you connect the DVD/TV Receiver to your TV, be sure to turn off the power and unplug both units from the wall outlet before making any connections.
- When you use a input function of PC, set a proper PC resolution according to level of the TV resolution to watch a optimum picture.
- The OSD will not be output from the AV1 and AV2 Scart Sockets.

Connections (Cont'd)

Connecting to Video Equipment

Video connection

- 1** Connect the VIDEO IN jack on the DVD/TV Receiver to the video out jack on the DVD player using the video cable supplied (**V**).
- 2** Connect the Left and Right AUDIO IN jacks on the DVD/TV Receiver to the Left and Right AUDIO OUT jacks on the DVD player using the audio cable supplied (**A**).
- 3** Connect the S-VIDEO IN jack on the DVD/TV Receiver to the S-VIDEO OUT jack on the DVD player using the optional S-Video cable (**S**).

Scart connection

Connect the DVD/TV Receiver's AV2 (AUDIO/VIDEO) connector to the DVD player's 21-pin SCART connector or video recorder's 21-pin SCART connector using the 21-pin SCART cable (**C**).

Notes

- The signal of S-VIDEO OUT jack will output only when the function mode is selected to DVD/TV.
- When you connect the DVD/TV Receiver to your PDP Display, be sure to turn off the power and unplug both units from the wall outlet before making any connections.

Connections (Cont'd)

Connecting to Optional Equipment

Connection

- 1** Connect an optional 21-pin SCART cable (C) between the AV2 (AUDIO/VIDEO) of the DVD/TV Receiver and the TV's 21-pin SCART connector.
- 2** Connect the audio and video out jacks auxiliary devices (e.g. Camcorder etc) to the audio and video in jacks on the DVD/TV Receiver using the audio/video cable supplied (A, V).

Caution

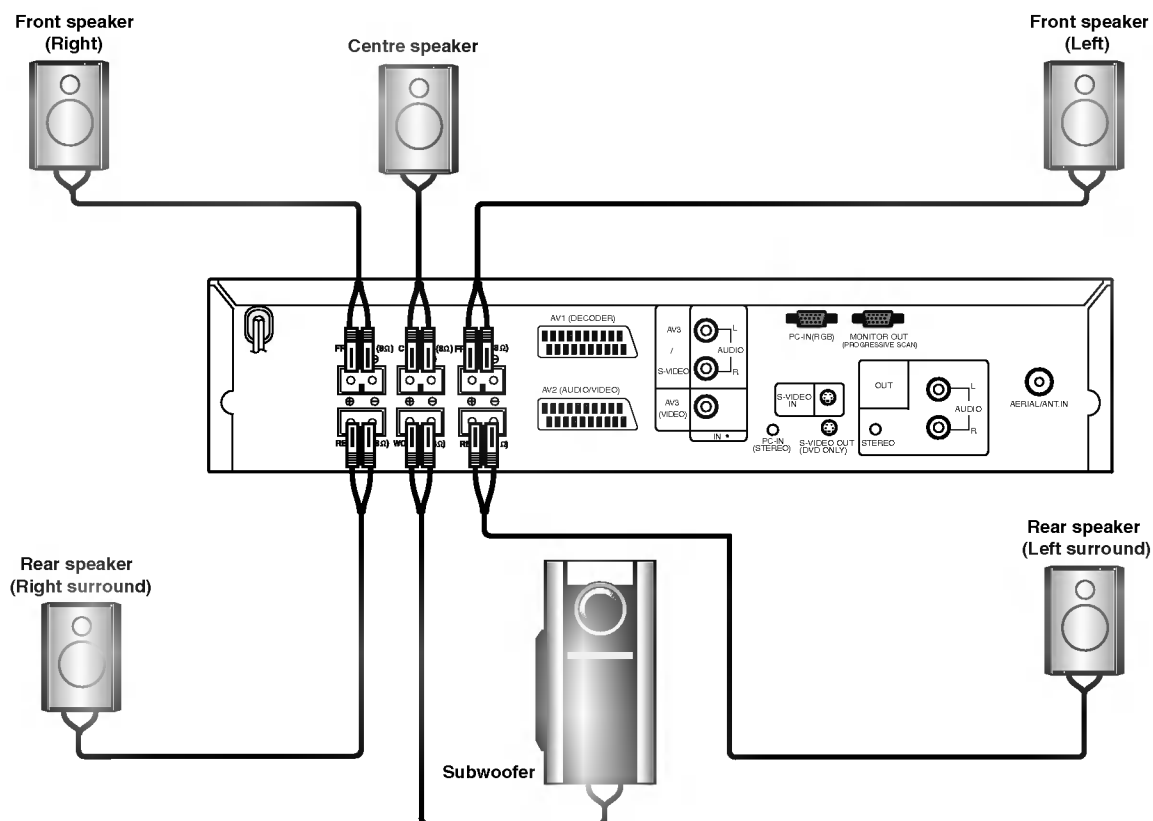

- Make sure the DVD/TV Receiver is connected directly to the TV. Select the correct AV input on your TV.
- Before using the auxiliary devices, turn on the DVD/TV Receiver.
- Do not connect your DVD/TV Receiver to TV via your VCR. The DVD image could be distorted by the copy protection system.

Connections (Cont'd)

Speaker System Connection

Connect the speakers using the supplied speaker cords.

To obtain the best possible surround sound, adjust the speaker parameters (distance, level, etc.).

Notes

- Be sure to match the speaker cord to the appropriate terminal on the components: + to + and – to –. If the cords are reversed, the sound will be distorted and will lack bass.
- If you use front speakers with low maximum input rating, adjust the volume carefully to avoid excessive output on the speakers.
- Do not disassemble the front cover of supplied speaker.

Connections (Cont'd)

Speaker Positioning

In the case of normal position use the 6 speakers (2 front speakers, centre speaker, 2 rear speakers and subwoofer). If you want to play the excellent bass sound, DTS digital surround or Dolby Digital surround, you should connect a subwoofer.

- **Front speakers**

According to your listening position, set up the speakers at equal distance and at an angle of 45 degrees to each other.

- **Centre speaker**

Ideally, the centre speaker and front speakers should be at the same height. Otherwise, place the centre speaker either above or below the television.

- **Rear speakers**

Place left and right behind the listening area. These speakers recreate sound motion and atmosphere required for surround sound playback. For best results, do not install the rear speakers too far behind the listening position and install them at or above the level of the listener's ears. It is also effective to direct the rear speakers towards a wall or ceiling to further disperse the sound.

In the case of a smaller room, if the audience is near the rear wall, set the rear speakers opposite each other at a height of 60 - 90 cm above the level of the listener's ears.

- **Subwoofer**

This can be placed in any front position.

Speaker Positioning Example

Sound Adjustments

Mini Glossary for Sound Mode

dts

Allows you to enjoy 5.1(or 6) discrete channels of high quality digital audio from DTS program sources bearing the trademark such as discs, DVD and compact discs, etc. DTS Digital Surround delivers up to 6 channels of transparent audio(which means identical to the original masters) and results in exceptional clarity throughout a true 360 degree sound field. The term DTS is a trademark of DTS Technology, LLC. Manufactured under license from DTS Technology, LLC.

DOLBY DIGITAL

The Dolby Digital surround format lets you enjoy up to 5.1 channels of digital surround sound from a Dolby Digital program source. If you play DVDs with "DOLBY DIGITAL" mark, you can enjoy even better sound quality, greater spatial accuracy, and improved dynamic range.

HALL 1

When playing recordings of live music and classic, this mode provides a feeling similar to actually being in a small concert hall.

HALL 2

When playing recordings of live music and classic, this mode provides a feeling similar to actually being in a large concert hall.

THEATER

This mode provides a three dimensional effect similar to that of a movie theater.

DOLBY PRO LOGIC (II)

Dolby Pro Logic II creates five full-bandwidth output channels from two-channel sources. This is done using an advanced, high-purity matrix surround decoder that extracts the spatial properties of the original recording without adding any new sounds or tonal colorations.

PRO LOGIC mode:

The Pro Logic Emulation mode offers users the same robust surround processing as original Pro Logic, in case the source content is not of optimum quality, or if there is a desire to hear the program more "as it used to be." When this mode is used, it is called Pro Logic, as before. There is no "Pro Logic I" mode. The Pro Logic emulation mode is optional. Dolby does not require PLII products to use the original Pro Logic decoding algorithm. However, if the DSP contains the original Pro Logic code, and if the product maker would like to use it, this is quite acceptable and even encouraged. A product must not offer both original Pro Logic and the Pro Logic emulation mode.

MOVIE mode:

The Movie mode is for use with stereo television shows and all programs encoded in Dolby Surround. The result is enhanced sound field directionality that approaches the quality of discrete 5.1-channel sound.

MUSIC mode:

The Music mode is for use with any stereo music recordings, and provides a wide and deep sound space. The Music mode includes controls that allow the sound to be tailored to individual listening tastes.

MATRIX mode:

The Matrix mode is the same as the Music mode except that the directional enhancement logic is turned off. It may be used to enhance mono signals by making them seem "larger." The Matrix mode may also find use in auto systems, where the fluctuations from poor FM stereo reception can otherwise cause disturbing surround signals from a logic decoder. The ultimate "cure" for poor FM stereo reception may be simply to force the audio to mono.

SURROUND OFF (2CH STEREO)

Outputs the sound from the front left and right speakers and subwoofer. Standard two channel (stereo) sources completely bypass the sound field processing. This allows you to play any source using only the front left and right speakers and subwoofer. **You can select SURROUND OFF by pressing BY-PASS on the remote control.**

Sound Adjustments (Cont'd)

Sound Mode

You can enjoy surround sound simply by selecting one of the pre-programmed sound fields according to the program you want to listen to.

When PCM indicator is only displayed in the display window:

Each time you press **SOUND MODE** button, the sound mode is changed in the following order;

(Present mode) → HALL1 → HALL2 → THEATER

Each time you press **PLII** button, the sound mode of Pro Logic II is changed in the following order;

DOLBY PL → PLII MOVIE → PLII MUSIC → PLII MATRIX

You can select SURROUND OFF (2CH STEREO) mode by pressing BY-PASS button.

- The surround mode will not be operated in Dual I + II mode (see page 17).

When the Analoge source is received or PDM (or PRO LOGIC) indicator is lighted or Dolby Digital 2CH source is received in the DVD mode.

Each time you press **PLII** or **SOUND** button, the sound mode of Pro Logic is changed in the following order;

DOLBY PL → PLII MOVIE → PLII MUSIC → PLII MATRIX

You can set PRO LOGIC mode to Off (2CH STEREO) by pressing BY-PASS button and the PRO LOGIC indicator disappears.

For your reference

- The DVD/TV Receiver memorizes the last mode settings for each source individually.
- You can identify the encoding format of program software by looking at its packaging.
 - Dolby Digital discs are labeled with the  logo.
 - Dolby Surround encoded programs are labeled with the  logo.
 - DTS Digital Surround discs are marked with DTS.

When you play sound tracks with 96kHz sampling frequency, the output signals will be converted to 48kHz (sampling frequency).

Sound Level

You can set the sound level of the desired channel.

Press LEVEL.

The level indicator will appear in the display window.

Press ◀/▶ to select a desired speaker to set.

Each time you press the ◀/▶ button, it is changed in the following order;

FL (Front Left) → C (Centre) → FR (Front Right) →
SR (Surround Right) → SL (Surround Left) →
SW (Subwoofer) → FL (Front Left)

- On the 2 channel stereo mode, you can only select the SW (Subwoofer).

Press ▲/▼ to adjust the sound level of the selected channel. (-6dB ~ +6dB)

Repeat step 2-3 and adjust the sound level of the other channels.

If setting is complete, press LEVEL.

Test Tone

This function allows you to can easily adjust the sound balance of the speakers from the listener's position.

Select the test tone mode by pressing TEST TONE.

- A hiss noise comes out for 2 seconds from each speakers in the following order;
FL (Front Left) → C (Centre) → FR (Front Right) →
SR (Surround Right) → SL (Surround Left) →
SW (Subwoofer) → FL (Front Left)

You can adjust the sound level while the test tone is operating. First press LEVEL then press the ▲/▼ buttons, so that the sound level from all the speakers is same from the listener's position.

- During the test tone, if you adjust the sound level, it will be paused in the current speaker channel.

If setting is complete, press TEST TONE.

Sound Adjustments (Cont'd)

Delay Time Setting

In Dolby Digital or Dolby Pro Logic mode it is assumed that the distance from the listener to each of the speakers is equal. If not then setting the delay times of the center or rear speakers the sound will be heard simultaneously by the listener.

The interval from the speakers to the listener. If the distance from the listener to each speaker is the same, in the Dolby Digital and Dolby Pro Logic mode the delay time of each speaker is as follows

In Dolby Digital mode

Centre delay time : 0 ~ 5ms

Rear delay time: 0 ~ 15ms

In Dolby Pro Logic mode

Centre delay time : cannot be set

Rear delay time : 10 ~ 25ms

If the rear delay time is set in Dolby Digital mode, in the Dolby Pro Logic mode the delay time will be automatically set.

The delay time is 1 msec per 30 cm.

If the centre and rear speakers are further than the front speakers from the listener, the delay time will be at minimum.

Surround delay time setting

If the distance of Ds is equal to or longer than the DF in the left figure, set the Surround Delay Time as 0ms.

Otherwise, change the setting according to the below.

Ex) If the distance from front speakers to the listener is 3 m and from rear speakers from the listener is 1.5 m, in the Dolby Digital mode the rear delay time is 5 msec.

$3\text{m (DF)} - 1.5\text{m (Ds)} = 1.5\text{m (B)}$

$1.5\text{m (B)} = 150\text{cm} / 30\text{cm} = 5\text{msec}$

In Dolby Pro Logic II (Surround delay time):

- Pro Logic: 10 ~ 25msec
- Movie: 10 ~ 25msec
- Music: 0 ~ 15msec
- Matrix: 0 ~ 15msec

Centre delay time setting (Dolby Digital mode only)

If the distance of DF is equal to the distance of DC in the left figure, set the Centre Delay Time as 0ms.

Otherwise, change the setting according to the table below.

Ex) If the distance from the front speakers to the listener is 3m and from the centre speaker to the listener is 2.4m, the centre delay time is 2msec.

$3\text{m (DF)} - 2.4\text{m (DC)} = 60\text{cm (A)}$

$60\text{cm (A)} / 30\text{cm} = 2\text{msec}$

Setting the delay time in the Dolby Digital and Dolby Pro Logic (II) mode

1 Press DELAY.

The current surround delay time appears in the display window.

2 Press ▲/▼ to change the delay time.

3 If setting is complete, press DELAY.

Note

You can adjust the center delay time only in the Dolby Digital mode and its delay time appears.

Setting the Sound Effects in the Music mode of Dolby Pro Logic (II)

1 Press **PLII** repeatedly to select the Music mode.

2 Press DELAY.

3 Press ◀/▶ to select a desired Sound mode.

Each time you press the ◀/▶ button, it is changed in the following order;

C WIDTH → DIMENSE → PANOR

4 Press ▲/▼ to change the steps.

5 If setting is complete, press DELAY.

C WIDTH (Center Width)

This control allows centre-channel sounds to be positioned between the centre speaker and the left/right speakers over a range of eight steps. Step "3" uses a combination of all three front speakers to give the best vocal imaging and most seamless soundstage presentation, and is recommended for most recordings. Step "0" places all centre sound in the centre speaker. Step "7" places all centre sound equally in the left/right speakers, just as in conventional stereo.

DIMENSE (DIMENSION)

This control allows the user to gradually adjust the sound field either towards the front or the rear. This can be useful to help achieve the desired balance from all the speakers with certain recordings that may contain either too much or too little spatial effect. Step "0" is the recommended setting, which has no effect on the sound. Steps 1, 2, and 3 gradually move the sound forward, and steps -1, -2, and -3 move the sound towards the surrounds.

PANOR (PANORAMA)

This control extends the front stereo image to include the surround speakers for an exciting "wraparound" effect with side-wall imaging. It is particularly effective for recordings which have strong left- or right-channel elements in the mix, as these are detected and accentuated by the Panorama process.

Before Operation

Sleep Timer Setting

You can set the DVD/TV Receiver to turn off automatically at a specified time.

- 1 Press SLEEP to set the desired sleep time.**
The SLEEP indicator and sleep time appear in the Display window.
- 2 Each time you press SLEEP the setting changes in the following order.**
SLEEP 120 → 90 → 60 → 50 → 40 → 30 → 20 → 10 → OFF

Note

- The sleep time will be displayed in the Display Window and it will count down until the time has elapsed.

Using Headphone Jack

Connect a stereo headphone plug (ø3.5mm) into the **HEADPHONES** connector.

The speakers are automatically disconnected when you plug in the headphones (not supplied).

Volume Control

Adjust the volume to a comfortable level using the front-panel Control or remote control **VOLUME V/Λ** buttons.

Mute

Press **MUTE** on the remote control to mute your unit.

You can mute your unit in order, for example, to answer the telephone, "MUTE" indicator flashes in the display window.

Selecting Stereo and Bilingual Programmes

Your DVD/TV Receiver is equipped with a Sound-Multiplex decoder (A2) and a Digital stereo sound decoder (NICAM) as well, making reception of stereo and bilingual broadcasts possible.

While receiving the stereo programmes

Each time you press **I/II** in the TV input mode, the audio output mode is changed in the following order;
STEREO → MONO

While receiving the stereo and bilingual programmes (A2)

Each time you press **I/II** in the TV input mode, the audio output mode is changed in the following order;
Dual I → Dual II → Dual I + II

While receiving the NICAM stereo and bilingual programmes

Each time you press **I/II** in the TV input mode, the audio output mode is changed in the following order;

- NICAM DUAL I → NICAM DUAL II → NICAM I + II → MONO
- NICAM STEREO → MONO

Selecting NTSC or PAL Discs

You can enjoy PAL or NTSC discs by pressing **PAUSE** on the front to choose the appropriate disc.

When the disc tray is open or NO DISC is in the Display window, press **PAUSE** for about 5 seconds.

The selecting mode is changed in the following order;

- PAL:** Select when DVD/TV Receiver is connected to PAL-TV.
- AUTO:** Select when DVD/TV Receiver is connected to Multi system TV.
- NTSC:** Select when DVD/TV Receiver is connected to NTSC-TV.

Source Selection

You can use VCRs or other units connected to the AV1, AV2, AV3, S-VIDEO connectors, PC-IN(RGB) port or AERIAL. Refer to the owner's manual supplied with the unit for further information on the operation.

Press **FUNCTION** on the remote control or front panel to select the desired input source.

- **CD/DVD:** To select the CD/DVD source.
- **RGB-PC:** To select a source connected to the rear panel PC-IN(RGB) port.
- **TELEVISION:** To select source connected to the rear panel AERIAL connector.
- **AV 1:** To select a source connected to the rear panel AV1 (DECODER) Socket.
- **AV 2:** To select a source connected to the rear panel AV2 (AUDIO/VIDEO) Socket.
- **AV 3:** To select a source connected to the rear panel VIDEO3 jacks.
- **S-AV:** To select a source connected to the rear panel S-VIDEO jacks.

Notes

- The signal of TV is input or output only from the AV1(DECODER) Socket.
- The input signal of auxiliary devices is output from the AV3 Socket.
- When you select the S-AV, the audio input (L/R) signal is routed to the AV3 Jacks.
- If the video signal is not input to the AV1(DECODER) Socket or AV2 (AUDIO/VIDEO) Socket, the audio input signal will not be output, but not from the AV3 or S-AV.

Before Operation (Cont'd)

Tuner Set

The receiver needs to memorise all necessary stations in programme positions in order to receive TV programmes.

You may tune up to 100 TV stations into your DVD/TV Receiver.

Caution:

Turn on the Receiver and the TV (or monitor), and press **FUNCTION** or **TV** on the remote control to select the Television mode.

Tuning in TV Stations Automatically

1 Press MENU.

The menu appears on the screen.

2 Press ▲ or ▼ to select Auto programme and press ►.

3 Press ► and press ▲ or ▼ to select your TV system.

Major Countries/Areas	TV System
Australia, New Zealand, Kuwait, Indonesia, Singapore, Thailand, Malaysia, Iran, Saudi Arabia, Egypt, Morocco, Lebanon, Iraq	B/G
United Kingdom	I
China, Mongolia, Russia	D/K

4 Press ◀.

5 Press ENTER and press ▲ or ▼ to select Start.

6 Press ► to start the automatic tuning process.

7 When the automatic tuning is completed, the confirmation screen appears.

Storing in to Programme Position

1 Press ▲ or ▼ to select Storage from and press ►.

2 Select the programme position that you want to tune with the numbered buttons or ◀ and ▶ buttons.

Before Operation (Cont'd)

Tuning in TV Stations Manually

Store stations that were not stored during Automatic tuning process.

- 1** Press **MENU**.
The menu appears on the screen.

- 2** Press **▲** or **▼** to select **Manual programme** and press **►**.

- 3** Press **►** and press **▲** or **▼** to select your TV system.

Major Countries/Areas	TV System
Australia, New Zealand, Kuwait, Indonesia, Singapore, Thailand, Malaysia, Iran, Saudi Arabia, Egypt, Morocco, Lebanon, Iraq	B/G
United Kingdom	I
China, Mongolia, Russia	D/K

- 4** Press **◀**.

- 5** Press **▲** or **▼** to select **Channel** and press **►**.

- 6** Press **▲** or **▼** to select band and input the channel number of station that you want to tune with the numbered buttons and press **ENTER**.

Band	Channel Range
VHF/UHF	1 ~ 69
CABLE	1 ~ 47

- 7** Press **▲** or **▼** to select **Search**.

- 8** Press **►** and press **◀** or **►** to search a station.

Tip

- Searching will stop when it locates a station.

Before Operation (Cont'd)

- 9** Press MENU and press ▲ or ▼ to select Name and press ►.

- 10** Press ▲ or ▼ to cycle through the characters, then press ►. Enter the remaining characters the same way (maximum of 5). After all characters, press ENTER.

Tips

- The characters available for the station name are blank, +, -, 0~9, A~Z.
- If you make a mistake, press ◀ until the incorrect character begins blinking. Then enter the correct character by pressing ▲ and ▼.

- 11** Press ▲ or ▼ to select Storage and press ►.

- 12** Input the programme position that you want to store with the numbered buttons and press ENTER.

- 13** Press MENU twice to return to normal screen.

Fine-tuning Stations

- 1** Press MENU and press ▲ or ▼ to select Manual programme and press ►.

- 2** Press ▲ or ▼ to select Fine and press ►.

- 3** Press ◀ or ▶ to adjust the fine tuning of the stations and press ENTER.

- 4** Press MENU twice to return to normal screen.

Before Operation (Cont'd)

Programme Edit

This feature allows you to Delete, Copy, Move or Skip from memory manually.

- 1** Press **MENU**.
The menu appears on the screen.

- 2** Press **▲** or **▼** to select **Programme edit**.

- 3** Press **▶**.
The Programme edit menu appears on the screen and Programme will be highlighted.

To Skip programme (Cyan)

- 1** Press **▲/▼/◀/▶** to select a desired programme number on the programme list.
- 2** Press Coloured button in Cyan and the colour which is selected programme will be changed into cyan.

Note

- The skipped TV stations can be selected only by using the numbered buttons.

- 4** Press **MENU** twice to remove the menus.

To delete a programme (Red)

- 1** Press **▲/▼/◀/▶** to select a desired programme number on the programme list.
- 2** Press Colored button in Red twice to delete a programme.

To Copy a programme (Green)

- 1** Press **▲/▼/◀/▶** to select a desired programme number on the programme list.
- 2** Press Colored button in Green to copy a programme.

To Move a programme (Yellow)

- 1** Press **▲/▼/◀/▶** to select a desired programme number on the programme list.
- 2** Press Colored button in Yellow.
- 3** Press **▲/▼/◀/▶** to move the programme number you want to move and the selected programme will be moved to the new programme number.
- 4** Press Colored button in Yellow again to release.

Before Operation (Cont'd)

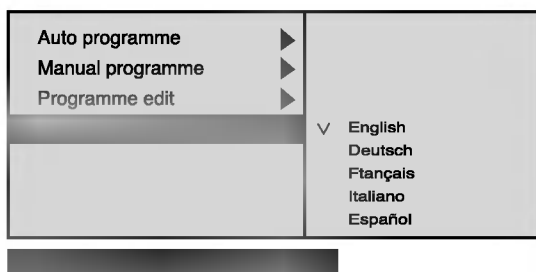

Language Selection

The language choices are English, Deutsch, French, Italian or Spanish in the language menu.

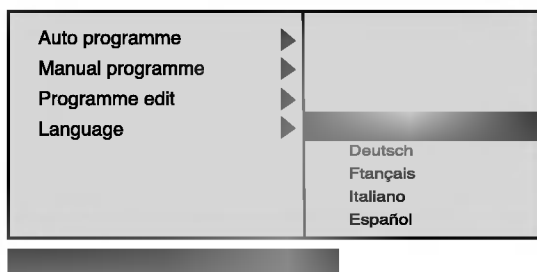

- 1 Press MENU.**
The menu appears on the screen.

- 2 Press ▲ or ▼ to select Language.**

- 3 Press ► and press ▲ or ▼ to select the desired language.**

- 4 Press ◀ and press MENU.**

Checking and Selecting Stored Programmes

The stored programmes can easily be viewed on the screen, and can also be selected.

- 1 Press LIST.**
The Programme List appears on the screen.

- 2 Press ▲/▼/◀/▶ to select the Programme.**

- 3 Press ENTER.**
The selected programme appears on the screen.

Before Operation (Cont'd)

Teletext

Teletext (or TOP text) is an optional function, therefore only those with the teletext system can receive the teletext broadcast.

Teletext is a free service broadcast by most TV stations which gives up-to-the-minute information on news, weather, television programmes, share prices and many other topics.

The teletext decoder can support the SIMPLE, TOP and FASTEXT systems. SIMPLE (standard teletext) consists of a number of pages which are selected by directly entering the corresponding page number. TOP and FASTEXT are more modern methods allowing quick and easy selection of teletext information.

Teletext on/off

1 Press TEXT/* to switch to teletext.

The initial page or last page appears on the screen. Two page numbers, TV station name, date and time are displayed on the screen headline. The first page number indicates your selection, while the second shows the current page displayed.

2 Press TEXT/* to switch off teletext.

Simple text

Page selection

- 1 Enter the desired page number as a three digit number with the numbered buttons.
If during selection you press a wrong number, you must complete the three digit number and then reenter the correct page number.
- 2 The ▲/▼ can also be used to select the preceding or following page.

Programming a colour button in LIST mode

If the TV is in SIMPLE text, TOP text or FASTEXT mode, press **TEXTMODE** to switch to LIST mode.

Four teletext page numbers of your choice can be colour coded and easily selected by pressing the corresponding coloured button on the remote control.

- 1 Press a coloured button.
- 2 Using the numbered buttons, select the page you wish to programme.
- 3 Press **ENTER**. The selected page is stored as the selected page number with one blink. From now on, you can select this page with the same coloured button.
- 4 The three other coloured buttons are programmed in this way.

TOP text

The user guide displays four fields-red, green, yellow and cyan at the bottom of the screen. The yellow field denotes the next group and the blue field indicates the next block.

Block / group / page selection

- 1 With the blue button you can progress from block to block.
- 2 Use the yellow button to proceed to the next group with automatic overflow to the next block.
- 3 With the green button you can proceed to the next existing page with automatic overflow to the next group. (Alternatively the ▲ button can be used.)
- 4 The red button permits to return to previous selection. (Alternatively the ▼ button can be used.)

Direct page selection

Corresponding to the SIMPLE text mode, you can select a page by entering it as a three digit number using the numbered buttons in TOP mode.

FASTEXT

The teletext pages are colour coded along the bottom of the screen and are selected by pressing the corresponding coloured button.

Page selection

- 1 Press **Ⓔ** to select the index page.
- 2 You can select the pages which are colour coded along the bottom line with the same coloured buttons.
- 3 Corresponding to the SIMPLE text mode, you can select a page by entering its three digit page number with the numbered buttons in FASTEXT mode.
- 4 The ▲/▼ button can also be used to select the preceding or following page.

Before Operation (Cont'd)

Special Teletext Functions

REVEAL

Press this button to display concealed information, such as solutions of riddles or puzzles. Press this button again to remove the information from the display.

SIZE

Selects double height text. Press this button to enlarge the top half of the page. Press this button again to enlarge the bottom half of the page. Press this button again to return to the normal display.

UPDATE

Displays the TV picture on the screen while waiting for the new teletext page. The display  will appear at the top left hand corner of the screen. When the updated page is available then display  will change to the page number. Press this button to view the updated teletext page.

HOLD

Stops the automatic page change which will occur if a teletext page consists of 2 or more sub pages. The number of sub pages and the sub page displayed is, usually, shown on the screen below the time. When this button is pressed the stop symbol is displayed at the top left-hand corner of the screen and the automatic page change is inhibited. To continue press this button again.

MIX

Displays the teletext pages superimposed on the TV picture. To switch the TV picture off press this button again.

TIME

When viewing a TV programme, press this button to display the time at the top right hand corner of the screen. Press this button again to remove the display. In the teletext mode, press this button to select a sub page number. The sub page number is displayed at the bottom of the screen. To hold or change the sub page, press the RED/GREEN,  or NUMBER buttons. Press this button again to exit this function.

Before Operation (Cont'd)

Caution:

Before using the remote control, press **FUNCTION** to select the DVD/TV.

General Explanation

This manual gives the basic instructions for operating the DVD/TV Receiver. Some DVDs require specific operation or allow only limited operation during playback. When this occurs, the symbol appears on the TV screen, indicating that the operation is not permitted by the DVD/TV Receiver or is not available on the disc.

On-Screen Display

The general playback status can be displayed on the TV screen. Some items can be changed on the menu.

On-screen display operation

1

Press **DISPLAY** during playback.

2

Press **▲** or **▼** to select an item.

The selected item will be highlighted.

3

Press **◀** or **▶** to change the setting of an item.

The number buttons can be also be used for setting numbers (e.g., title number). For some functions, press **ENTER** to execute the setting.

Initial Settings

You can set your own Personal Preferences on the DVD/TV Receiver.

Initial Settings General Operation

- 1 Press SETUP.**
The setup menu appears.

- 2 Press ▲/▼ to select the desired item.**
The screen will show the current setting for the selected item, as well as alternate setting(s).
- 3 While the desired item is selected, press ►, then ▲/▼ to select the desired setting.**
- 4 Press ENTER to confirm your selection.**
Some items require additional steps.
- 5 Press SETUP, RETURN or PLAY to exit the setup menu.**

Language

Disc Language

Select a language for the disc's Menu, Audio and Subtitle.

Original : The original language set for the disc is selected.

Other : To select another language, press number buttons to enter the corresponding 4-digit number according to the language code list on page 36. If you enter the wrong language code, press CLEAR.

Menu Language

Select a language for the setup menu. This is the menu you see when you press SETUP.

Picture

TV Aspect

4:3 Letterbox: Select when a standard 4:3 TV is connected. Displays theatrical images with masking bars above and below the picture.

4:3 Panscan: Select when a standard 4:3 TV is connected. Displays pictures cropped to fill your TV screen. Either sides of the picture are cut off.

16:9 Wide: Select when a 16:9 wide TV is connected.

Dynamic Range Control (DRC)

With the DVD format, you can hear a program's sound-track in the most accurate and realistic presentation possible, thanks to digital audio technology. However, you may wish to compress the dynamic range of the audio output (the difference between the loudest sounds and the quietest ones). Then, you may listen to a movie at a lower volume without losing clarity of sound. Set DRC to On for this effect.

PBC

PBC On/Off

Set Playback Control (PBC) to On or Off

On: Video CDs with PBC are played back according to the PBC.

Off: Video CDs with PBC are played back in the same way as Audio CDs.

Before Operation (Cont'd)

Parental Control

Rating

Movies on DVDs may contain scenes not suitable for children. Therefore, discs may contain Parental Control information that applies to the complete disc or to certain scenes on the disc. These scenes are rated from 1 to 8, and alternatively, more suitable scenes are available for selection on some discs. Ratings are country dependent. The Parental Control feature allows you to prevent discs from being played by your children or to have certain discs played with alternative scenes.

1 Select "Rating" on the Setup menu using the ▲ and ▼ buttons.

2 While "Rating" is selected, press ►.

3 If you have not yet entered a password; Enter a 4-digit password using the numerical buttons to create a personal 4-digit security password, then press ENTER. And enter the 4-digit password again and press ENTER to verify.

If you have already entered a password; Enter a 4-digit password using the numerical buttons to confirm the personal 4-digit security password, then press ENTER.

If you make a mistake before pressing ENTER, press CLEAR and enter 4-digit security password again.

4 Select a rating from 1 to 8 using the ▲/▼ buttons. One (1) has the least playback restrictions. Eight (8) has the most playback restrictions.

Unlock: If you select Unlock, Parental Control is not active. The disc will play in full.

Ratings 1 to 8: Some discs contain scenes not suitable for children. If you set a rating for the player, all disc scenes with the same rating or lower will be played. Higher rated scenes will not be played unless an alternative scene is available on the disc. The alternative must have the same rating or a lower one. If no suitable alternative is found, playback will stop. You must enter the 4-digit password or change the rating level in order to play the disc.

5 Press ENTER to confirm your rating selection, then press SETUP to exit the menu.

Country Code

Enter the code of a country/area whose standards were used to rate the DVD video disc, referring to the list (See "Country Code List", page 37.).

1 Select Country Code using the ▲ / ▼ buttons on the setup menu.

2 While Country Code is selected, press ►.

3 Follow step 3 of "Rating" on left.

4 Select the first character using the ▲/▼ buttons.

5 Shift the cursor using ◀/▶ buttons and select the second character using ▲/▼ buttons.

6 Press ENTER to confirm your country code selection, then press SETUP to exit the menu.

Note

Confirmation of the 4-digit password is necessary when the code is changed (see "Changing the 4-digit code" below).

Changing the 4-digit code

- 1 Follow steps 1-2 as shown above to the left (Rating).
- 2 Enter the old code, then press ENTER.
- 3 Select Change using the ▲/▼ buttons then press ENTER.
- 4 Enter the new 4-digit code, then press ENTER.
- 5 Enter exactly the same code a second time and verify by pressing ENTER.
- 6 Press SETUP to exit the menu.

If you forget your 4-digit code

If you forget your password, to clear the current password, follow the procedure below.

- 1 Press SETUP to display the setup menu.
- 2 Use the Number buttons to enter the 6-digit number "210499."
The 4-digit password is cleared.
- 3 Enter a new code as shown above to the left (Rating).

Operation with DVD and Video CD

Playing a DVD and Video CD

Getting to play

- Switch on the TV and select the AV input source connected to the DVD/TV Receiver.
- When you want to enjoy the sound of discs or from the audio system, turn on the audio system and select the input source connected to the DVD/TV Receiver.

1

Press OPEN/CLOSE to open the disc tray.

2

Load your chosen disc in the tray, with the label facing up.

When a double-sided DVD is inserted, make sure the side you want to play is facing up.

3

Press OPEN/CLOSE to close the tray.

READING appears on the TV screen, and playback starts automatically. If playback does not start, press PLAY.

In some cases, the disc menu might appear instead.

When the menu screen is displayed

The menu screen may be displayed first after loading a DVD or Video CD which contains a menu.

Use the ◀ ▶ ▲ ▼ buttons to select the title/chapter you want to view, then press ENTER to start playback. Press TITLE or MENU to return to the menu screen.

- Use the number buttons to select the track you want to view.
Press RETURN to return to the menu screen.
- Menu setting and the exact operating procedures for using the menu may differ depending on the disc. Follow the instructions on the each menu screen. You also may set PBC to Off under setup. See page 26.

Notes

- If Parental Control is set and the disc is not within the Rating settings (not authorized), the 4-digit code must be entered and/or the disc must be authorized (see "Parental Control", on page 27).
- DVDs may have a region code.
- Your receiver will not play discs that have a region code different from your receiver. The region code for this DVD/TV Receiver is 2 (two).

General Features

Note

Unless stated, all operations described are based on remote control use. Some operations can be carried out using the setup menu.

Moving to another TITLE

When a disc has more than one title, you can move to another title as follows:

- Press DISPLAY when playback is stopped, then press the appropriate numerical button (0-9) to select a title number.

Moving to another CHAPTER/TRACK

When a title on a disc has more than one chapter or a disc has more than one track, you can move to another chapter/track as follows:

- Press SKIP ◀◀ or ▶▶ briefly during playback to select the next chapter/track or to return to the beginning of the current chapter/track.
- Press ◀◀ twice briefly to step back to the previous chapter/track.
- To go directly to any chapter during DVD playback, press DISPLAY. Then, press ▲/▼ to select C (chapter) (or for a Video CD, select T for track). Then, enter the chapter/track number using the numerical buttons (0-9).

Note

For two-digit numbers, press the buttons in rapid succession.

Slow Motion

- 1 Press S/SCAN ◀◀ or ▶▶ during playback.
The DVD/TV Receiver will enter SLOW mode.
- 2 Use the S/SCAN ◀◀ or ▶▶ to select the required speed: ◀◀ 1/16, ◀◀ 1/8, ◀◀ 1/4 or ◀◀ 1/2 (backward), or ▶▶ 1/16, ▶▶ 1/8, ▶▶ 1/4 or ▶▶ 1/2 (forward).
- 3 To exit slow motion mode, press PLAY.

Note

Slow motion playback in reverse is not applicable for Video CD.

Operation with DVD and Video CD (Cont'd)

General Features (cont'd)

Still Picture and Frame-by-frame playback

- 1 Press PAUSE during playback.
The Receiver will now go into PAUSE mode.
- 2 You can advance the picture frame by frame by pressing PAUSE repeatedly on the remote control.

Search

- 1 Press and hold SKIP or for about two seconds during playback.
The DVD/TV Receiver will now go into SEARCH mode.
- 2 Press and hold SKIP or repeatedly to select the required speed: X2, X4, X16, X100 (backward) or X2, X4, X16, X100 (forward).
With a Video CD, the Search speed changes: X2, X4, X8 (backward) or X2, X4, X8 (forward).
- 3 To exit SEARCH mode, press PLAY.

Repeat

DVD Video Discs - Repeat Chapter/Title/Off

- 1 To repeat the currently playing chapter, press REPEAT.
The Repeat Chapter icon appears on the TV screen.
- 2 To repeat the title currently playing, press REPEAT a second time.
The Repeat Title icon appears on the TV screen.
- 3 To exit Repeat mode, press REPEAT a third time.
The Repeat Off icon appears on the TV screen.

Video CDs - Repeat Track/All/Off

- 1 To repeat the track currently playing, press REPEAT.
The Repeat Track icon appears on the TV screen.
- 2 To repeat the disc currently playing, press REPEAT a second time.
The Repeat All icon appears on the TV screen.
- 3 To exit Repeat mode, press REPEAT a third time.
The Repeat Off icon appears on the TV screen.

Note

On a Video CD with PBC, you must set PBC to Off on the setup menu to use the Repeat function. See page 26.

Repeat A-B

To repeat a sequence in a title:

- 1 Press RPT A-B at your chosen starting point.
A- appears briefly on the TV screen.
- 2 Press RPT A-B again at your chosen end point.
A-B appears briefly on the TV screen, and the repeat sequence begins (a-b repeat appears on the DVD/TV Receiver's display).
- 3 To cancel the sequence, press RPT A-B.

Time Search

The Time Search function allows you to start playing at any chosen time on the disc.

- 1 Press DISPLAY during playback. The on-screen display appears on the screen.
The Time Search box shows the elapsed playing time of the current disc.
- 2 Within 10 seconds, press / to select the Time Search icon in the on-screen display.
The “-:--:--” appears in the Time Search box.
- 3 Within 10 seconds, use the numerical buttons to enter the required start time. Enter hours, minutes and seconds from left to right in the box.
If you enter the wrong numbers, press CLEAR to remove the numbers you entered. Then enter the correct numbers.
- 4 Within 10 seconds, press ENTER to confirm the start time.
Playback starts from the selected time on the disc. If you enter an invalid time, playback will continue from the current point.

Operation with DVD and Video CD (Cont'd)

General Features (cont'd)

Zoom

The Zoom function allows you to enlarge the video image and to move through the enlarged image.

- 1 Press ZOOM during playback or still playback to activate the Zoom function.
If you press ZOOM repeatedly, the magnification level increases up to six times.
- 2 Use the ◀ ▶ ▲ ▼ buttons to move through the zoomed picture.
- 3 Press CLEAR to resume normal playback or return to the paused image.

Notes

- The zoom function may not work for some DVDs.
- The zoom function may not work on multi-angle scenes.

Marker Search

You can start playback from a memorized point. Up to nine points can be memorized.

To enter a mark, follow these steps.

- 1 During disc playback, press MARKER when playback reaches the spot that you want to memorize.
The Marker icon will appear on the TV screen briefly.
- 2 Repeat step 1 to enter up to nine Marker points on a disc.

To Recall a Marked Scene

- 1 During disc playback, press SEARCH.
The MARKER SEARCH menu will appear on the screen.
- 2 Within 10 seconds, press ◀/▶ to select a Marker number that you want to recall.
- 3 Press ENTER.
Playback will start from the Marked scene.
- 4 To remove the MARKER SEARCH menu, press SEARCH.

To clear a Marked Scene

- 1 During disc playback, press SEARCH.
The MARKER SEARCH menu will appear on the screen.
- 2 Press ◀/▶ to select the Marker number that you want to erase.
- 3 Press CLEAR.
The Marker number will be erased from the list.
- 4 Repeat steps 2 and 3 to erase additional Marker numbers.
- 5 To remove the MARKER SEARCH menu, press SEARCH.

Special DVD Features

Checking the contents of DVD Video discs: Menus

DVDs may contain menus that allow you to access special features. To use the disc menu, press MENU. Then, press the appropriate numerical button to select an item. Or, use the ◀ ▶ ▲ ▼ buttons to highlight your selection, then press ENTER.

Title Menu

- 1 Press TITLE.
If the current title has a menu, the menu will appear on the screen. Otherwise, the disc menu may appear.
- 2 The menu can list camera angles, spoken language and subtitle options, and chapters for the title.
- 3 To remove the title menu, press TITLE again.

Disc Menu

- 1 Press MENU.
The disc menu is displayed.
- 2 To remove the disc menu, press MENU again.

Camera Angle

If the disc contains sequences recorded from different camera angles, the angle icon blinks on the display. You can then change the camera angle if you wish.

- Press ANGLE repeatedly during playback to select a desired angle.
The number of the current angle appears on the display.

Changing the Audio Language

Press AUDIO repeatedly during playback to hear a different audio language or audio track.

Subtitles

Press S-TITLE repeatedly during playback to see the different subtitle languages.

Note

If ⊗ appears, the feature is not available on the disc.

Operation with Audio CD and MP3 Disc

Playing an Audio CD and MP3 disc

The DVD/TV Receiver can play MP3 format recordings on CD-ROM, CD-R or CD-RW discs.

Before playing MP3 recordings, read the notes of MP3 Recordings on page 33.

- 1 Insert a disc and close the tray.**
The menu appears on the TV screen.

Audio CD menu

MP3 menu

- 2 Press ▲/▼ to select a track then press PLAY.**
Playback starts.
During playback, the current track's elapsed playing time will appear on the display.
Playback will stop at the end of the disc.

- 3 To stop playback at any other time, press STOP.**

Pause

- Press PAUSE during playback.
- To return to playback, press PLAY or press PAUSE again.

Moving to another Track

- Press SKIP ◀◀ or ▶▶ briefly during playback to go to the next track or to return to the beginning of the current track.
- Press SKIP ◀◀ twice briefly to step back to the previous track.
- In case of audio CD, to go directly to any track, enter the track number using the numerical buttons (0-9) during playback.

Repeat Track/All/Off

- To repeat the track currently playing, press REPEAT.
The Repeat Track icon appears on the menu screen.
- To repeat all tracks of disc in the unit, press REPEAT a second time.
The Repeat All icon appears on the menu screen.
- To exit Repeat mode, press REPEAT a third time.
The Repeat Off icon appears on the menu screen.

Search

- Press and hold SKIP ◀◀ or ▶▶ for about two seconds during playback.
The DVD/TV Receiver will now go into SEARCH mode.
- Press and hold SKIP ◀◀ or ▶▶ repeatedly to select the required speed: ◀◀X2, ◀◀X4, ◀◀X8 (backward) or ▶▶X2, ▶▶X4, ▶▶X8 (forward).
- Search speed and direction are indicated on the menu screen.
- To exit SEARCH mode, press PLAY.

Note

- The sound is muted during SEARCH mode.

Repeat A-B

To repeat a sequence.

- During disc playback, press RPT A-B at your chosen starting point.
The Repeat icon and "A -" appears on the menu screen.
- Press RPT A-B again at your chosen end point.
The Repeat icon and "A B" appears on the menu screen, and the sequence begins to play repeatedly.
- To exit the sequence and return to normal play, press RPT A-B again.
The Repeat icon and "OFF" appears on the menu screen.

Changing the Audio Channel

Press AUDIO repeatedly during playback to hear a different audio channel (STEREO, LEFT or RIGHT).

Programmed Playback

Programmed Playback with Audio CD and MP3 Disc

Program allows you to store your favorite tracks for a particular disc in the DVD/TV Receiver memory.

Program can contain 32 tracks (Audio CD) or 60 tracks (MP3 disc).

- 1 Insert the disc and close the tray.**
The menu is displayed on the TV screen.

- 2 Press PROGRAM during playback or in the stop mode to enter the Program Edit mode.**

The [E] mark will appear to the right of the word Program on the right side of the menu screen.

Note

Press PROGRAM to exit the Program Edit mode; the [E] mark will disappear.

- 3 Press ▲/▼ to select a track then press ENTER to place the selected track on the Program list.**

- 4 Repeat step 3 to place additional tracks on the Program list.**

- 5 Press ►.**

The programmed track you selected last is highlighted on the program list.

- 6 Press ▲/▼ to select the track you want to start playing.**

Press TITLE to move to the next page.

Press MENU to move to the previous page.

- 7 Press PLAY to start.**

Playback begins in the order in which you programmed the tracks and "PROG." appears on the menu screen. Playback stops after all of the tracks on the Program list have played once.

Programmed Playback with Video CD

Note

On a Video CD with PBC, you must set PBC to Off on the setup menu to use the Program function. See page 26.

- 1 Insert Video CD and close the tray.**

- 2 Press PROGRAM while playback is stopped.**
The VCD Program menu will appear.

Note

Press RETURN or PROGRAM to exit the Program menu.

- 3 Follow steps 3-7 of "Programmed Playback with Audio CD and MP3 Disc" on left.**

Repeat Programmed Tracks

- To repeat the track currently playing, press REPEAT. The Repeat Track icon appears on the menu screen.
- To repeat all tracks of program list, press REPEAT a second time.
The Repeat All icon appears on the menu screen.
- To exit Repeat mode, press REPEAT a third time. The Repeat Off icon appears on the menu screen.

Erasing a Track from Program List

- 1 Press PROGRAM during playback or in the stop mode to enter the Program Edit mode.**
The [E] mark will appear.
- 2 Press ► to move to the Program list.**
- 3 Use ▲/▼ to select the track that you wish to erase from the Program list.**
- 4 Press CLEAR.**
The track will be erased from the Program list.

Erasing the Complete Program List

- 1 Follow steps 1-2 of "Erasing a Track from Program List" as above.**
- 2 Use ▲/▼ to select "Clear All", then press ENTER.**
The complete Program for the disc will be erased. The programs are also cleared when the disc is removed.

To resume normal playback from programmed playback

Press and hold PROGRAM for 3 seconds until "PROG." indicator disappears in the display window.

Additional Information

Last Condition Memory

This DVD/TV Receiver memorizes the last condition for the last disc you have watched. Settings remain in memory even if you remove the disc from the DVD/TV Receiver or switch off the player. If you load a disc that has its settings memorized, the latest stop position is automatically recalled.

Notes

- Settings are stored in memory for use any time.
- This DVD/TV Receiver does not memorize settings of a disc if you switch off the player before commencing to play it.

Screen Saver

The screen saver picture appears when you leave the DVD/TV Receiver in stop mode for about five minutes.

Video Mode Setting

- With certain discs, the playback picture may be flickering or Dot Crawl is shown on straight lines. That means Vertical interpolation or De-interlace is not perfectly matched with the disc. In that case, the picture quality can be improved with changing video mode.
- To change the video mode, press and hold DISPLAY for 3 seconds during playback of a disc. Changed video mode number is displayed on the TV screen. Check whether video quality is improved. You can repeat above procedure until desired picture quality appears.
- Procedure of video mode is changed;
MODE1 → MODE2 → MODE3 → MODE4 →
MODE5 → MODE1
- If you turn off the the power, the video mode will be back to initial state (MODE1).

Notes on MP3 Discs

About MP3

- An MP3 file is audio data compressed by using MPEG1, the audio layer-3 file-coding scheme. We call files that have the “.mp3” file extension “MP3 files”.
- The DVD/TV Receiver can not read an MP3 file that has a file extension other than “.mp3”.
- The DVD/TV Receiver can not read a fake MP3 file that has a file extension “.mp3”.

MP3 disc compatible with this player is limited as follows:

1. Sampling Frequency / only at 44.1kHz
2. Bit rate / within 96 - 192kbps
3. CD-R physical format should be “ISO 9660”
4. If you record MP3 files using the software which cannot create a FILE SYSTEM, for example “Direct-CD” etc., it is impossible to playback MP3 files. We therefore recommend that you use “Easy-CD Creator”, which creates an ISO9660 file system.
5. A single session disc requires MP3 files in the first track. If there is no MP3 file in the 1st track, it cannot playback MP3 files. If you wish to playback MP3 files, format all the data in the disc or use a new one.
6. We do not recommend using CD-RW discs. Please use finished CD-R discs only.
7. File names should be named using 8 letters or less and must incorporate “.mp3” extension e.g. “*****.MP3”.
8. Do not use special letters such as “_?!><+*}{“[@;:;V.,” etc.
9. Total number of files on the disc should be less than 200.
10. Use 74 minute CD-R discs (650M), Do not use 80 minute CD-R (700M) software

This DVD/TV Receiver requires discs/recordings to meet certain technical standards in order to achieve optimal playback quality. Pre-recorded DVDs are automatically set to these standards. There are many different types of recordable disc formats (including CD-R containing MP3 files).

Customers should also note that permission is required in order to download MP3 files and music from the Internet. Our company has no right to grant such permission. Permission should always be sought from the copyright owner.

Troubleshooting

Check the following guide for the possible cause of a problem before contacting service.

Symptom	Cause	Correction
No power.	<ul style="list-style-type: none"> The power cord is disconnected. 	<ul style="list-style-type: none"> Plug the power cord into the wall outlet securely.
The power is on, but the DVD/TV Receiver does not work.	<ul style="list-style-type: none"> No disc is inserted. 	<ul style="list-style-type: none"> Insert a disc. (Check that the DVD or, audio CD indicator in the DVD display is lit.)
No picture.	<ul style="list-style-type: none"> The Monitor (or PDP/LCD) is not set to receive DVD/TV Receiver signal output. 	<ul style="list-style-type: none"> Select the appropriate video input mode on the Monitor (or PDP/LCD) so the picture from the DVD/TV Receiver appears on the screen.
	<ul style="list-style-type: none"> The signal cable (D-Sub) is not connected securely. 	<ul style="list-style-type: none"> Connect the signal cable (D-Sub) into the jacks securely.
	<ul style="list-style-type: none"> The connected Monitor (or PDP/LCD) power is turned off. 	<ul style="list-style-type: none"> Turn on the Monitor (or PDP/LCD).
There is no sound or only a very low-level sound is heard.	<ul style="list-style-type: none"> The equipment connected with the audio cable is not set to receive DVD/TV Receiver signal output. 	<ul style="list-style-type: none"> Select the correct input mode of the audio receiver so you can listen to the sound from the DVD/TV Receiver.
	<ul style="list-style-type: none"> The audio cables are not connected securely. 	<ul style="list-style-type: none"> Connect the audio cable into the jacks securely.
	<ul style="list-style-type: none"> The power of the equipment connected with the audio cable is turned off. 	<ul style="list-style-type: none"> Turn on the equipment connected with the audio cable.
	<ul style="list-style-type: none"> The audio connecting cord is damaged. 	<ul style="list-style-type: none"> Replace it with new one.
The playback picture is poor.	<ul style="list-style-type: none"> The disc is dirty. 	<ul style="list-style-type: none"> Clean the disc.
The DVD/TV Receiver does not start playback.	<ul style="list-style-type: none"> No disc is inserted. 	<ul style="list-style-type: none"> Insert a disc. (Check that the DVD, or audio CD indicator in the DVD display is lit.)
	<ul style="list-style-type: none"> An unplayable disc is inserted. 	<ul style="list-style-type: none"> Insert a playable disc. (Check the disc type, color system and Regional code.)
	<ul style="list-style-type: none"> The disc is placed upside down. 	<ul style="list-style-type: none"> Place the disc with the playback side down.
	<ul style="list-style-type: none"> The disc is not placed within the guide. 	<ul style="list-style-type: none"> Place the disc on the disc tray correctly inside the guide.
	<ul style="list-style-type: none"> The disc is dirty. 	<ul style="list-style-type: none"> Clean the disc.
	<ul style="list-style-type: none"> A menu is on the TV screen. 	<ul style="list-style-type: none"> Press SET UP to turn off the menu screen.
	<ul style="list-style-type: none"> The Rating level is set. 	<ul style="list-style-type: none"> Cancel the Rating function or change the rating level.
Severe hum or noise is heard.	<ul style="list-style-type: none"> The plugs and jacks are dirty. 	<ul style="list-style-type: none"> Wipe them with a cloth slightly moistened with alcohol.
	<ul style="list-style-type: none"> The disc is dirty. 	<ul style="list-style-type: none"> Clean the disc.
	<ul style="list-style-type: none"> The speakers and components are connected poorly. 	<ul style="list-style-type: none"> Connect the speakers and components securely.
	<ul style="list-style-type: none"> The DVD/TV Receiver is located too close to the TV. 	<ul style="list-style-type: none"> Move your TV away from the audio components.

Troubleshooting (Cont'd)

Symptom	Cause	Correction
Recording is not possible (External Recording)	• The components are connected incorrectly.	• Connect the components correctly and turn on the unit.
	• The source is selected incorrectly.	• Select the source with FUNCTION button (AV 1, AV 2, AV 3, S-AV, CD/DVD, RGBPC or TV).
The remote control does not work properly.	• The remote control is not pointed at the remote sensor of the DVD/TV Receiver.	• Point the remote control at the remote sensor of the DVD/TV Receiver.
	• The remote control is too far from the DVD/TV Receiver.	• Operate the remote control within about 23 ft (7 m).
	• There is an obstacle in the path of the remote control and the DVD/TV Receiver.	• Remove the obstacle.
	• The batteries in the remote control are exhausted.	• Replace the batteries with new ones.

Specification

[General]	Power supply	AC 220-240V, 50/60Hz	
	Power consumption	90 W	
	Mass	4.7 kg	
	External dimensions (W x H x D)	360 x 82 x 350 mm	
	Operating conditions	Temperature: 5°C to 35°C, Operation status: Horizontal	
	Operating humidity	5% to 85%	
[CD/DVD]	Laser	Semiconductor laser, wavelength 650 nm	
	Signal system	PAL 625/50, NTSC 525/60	
	Frequency response (audio)	20 Hz to 20 kHz	
	Signal-to-noise ratio (audio)	More than 75 dB (1 kHz, NOP, 20 kHz LPF/A-Filter)	
	Dynamic range (audio)	More than 75 dB	
	Harmonic distortion (audio)	0.5 % (1 kHz, at 12W position) (20 kHz LPF/A-Filter)	
[Tuner]	Television System	PAL-Type colour and CCIR monochrome signal	
	RF Reception	PAL (B/G)/SECAM (B/G)/SECAM (D/K)/PAL I	
	Channel Coverage	VHF (E2-E12)/UHF (E21-E69)/CATV (S1-S41)	
Video [Input/Output]	Video input (AV1, AV2)	1.0 V (p-p), 75 Ω, negative sync., ScartX2	
	Video output (AV1, AV2)	1.0 V (p-p), 75 Ω, negative sync., ScartX2	
	Video input (AV3)	1.0 V (p-p), 75 Ω, negative sync.,	
	S-video output	1.0 V (p-p), 75 Ω, negative sync., Mini DIN 4-pin x 1	
	S-video input (S-AV)	1.0 V (p-p), 75 Ω, negative sync., Mini DIN 4-pin x 1	
	RGB input (PC-IN)	15-pin Connector	
	RGB output (MONITOR)	800 X 600 @ 60Hz	
	Stereo mode	50W + 50W (8 Ω at 1 kHz, THD 10 %)	
Amplifier & Audio [Input/Output]	Surround mode	Front: 50W + 50W (THD 10 %) Center: 50W Surround: 50W + 50W (8Ω at 1 kHz, THD 10 %) Subwoofer: 80W (4Ω at 30 Hz, THD 10 %)	
	Inputs	RGB-PC, TV, AV1, AV2, AV3(or S-AV)	
	Outputs	AV2/Audio L/R/Stereo Output: 2 V (1kHz 0dB)	
	Analog Audio Outputs	AV1/Phones: (32 Ω, 0.9W)	
		Satellite Speaker (FE-100TE)	Passive Subwoofer (FE-100WE)
[Speakers]	Type	2 Way 2 Speaker	1 Way 1 Speaker
	Impedance	8 Ω	4 Ω
	Frequency Response	110 - 40,000 Hz	40 - 1,500 Hz
	Sound Pressure Level	83 dB/W (1m)	82 dB/W (1m)
	Rated Input Power	50W	80 W
	Max. Input Power	100 W	160 W
	Net Dimensions (W x H x D)	100 x 147 x 127.5 mm	200 x 425 x 381 mm
	Net Weight	0.92 kg	7.06kg
[Supplied Accessories]	<ul style="list-style-type: none"> • Audio cable1 • Speaker cable5 • Remote control1 • Stereo mini cable1 • Video cable1 • D-Sub 15 Pin cable1 • Batteries (AAA)2
