

PLASMA TV owner's manual

Please read this manual carefully before operating your set. Retain it for future reference. Record model number and serial number of the set. See the label attached on the back cover and quote this information to your dealer when you require service.

Model number : Serial number :

P/NO: 3828VA0468P (RF043B, 126R TX, 026H) (a)

Safety Instructions

- Use the set at the place lower than the altitude of 6562 feet (2000m) to get the best quality of picture and sound.

Do not place the set in direct sunlight or near heat sources such as heat registers, stove and so on. - This may cause a fire.

Do not use the set in damp place such as a bathroom or any place where it is likely to get wet.

This may cause a fire or could give an electric shock

Bend antenna cable between inside and outside building to prevent rain from flowing in.

This may cause water damaged inside the set and could give an electric shock.

Earth wire should be connected.

- If the earth wire is not connected, there is possible a danger of electric shock caused by the current leakage.
- If grounding methods are not possible, a separate circuit breaker should be employed and installed by a qualified electrician.

- Do not connect ground to telephone wires, lightning rods or gas pipe.

Do not place anything containing liquid on top of the set.

This may cause a fire or could give an electric shock.

Do not insert any object into the exhaust vent.

- This may cause a fire or could give an electric shock.

Do not place heavy objects on the set.

- This may cause serious injury to a child or adult.

MARNING in U.K. only

* This set is supplied with a BS 1363 approved 13 amp mains plug, fused at 13 amp. When replacing the fuse always use a 13 amp BS 1362, BSI or ASTA approved type. Never use this plug with the fuse cover omitted. To obtain a replacement fuse cover contact your dealer or "LG Electronics U.K. Ltd." If the type of plug supplied is not suitable for the mains sockets in your home, then the plug should be removed and a suitable type fitted. A mains plug removed from the mains lead of this set must be destroyed. A mains plug with bared wires is hazardous if inserted in a mains socket. Do not connect either wire to the earth pin, marked with the letter E or with the earth symbol = or coloured green or green and yellow. If any other plug is fitted, use a 13 amp fuse, either in the plug, or at the distribution board. The wires in this mains lead are coloured in accordance with the following codes: BLUE: NEUTRAL, BROWN: LIVE As the colours of the wires in the mains lead of this set may not correspond with the coloured marking identify.

The wires in this mains lead are coloured in accordance with the following codes: BLUE: NEUTRAL, BROWN: LIVE As the colours of the wires in the mains lead of this set may not correspond with the coloured marking identifying the terminals in your plug, proceed as follows: The wire which is coloured blue must be connected to the terminal which is marked with the letter N or coloured black. The wire which is coloured brown must be connected to the terminal which is marked with the letter L or coloured red.

Do not use water while cleaning the set.

This may cause damaged the set or could give an electric shock.

In case of smoke or strange smell from the set, switch it off ,unplug it from the wall outlet and contact your dealer or service center.

This may cause a fire or could give an electric shock.

Do not attempt to service the set yourself. Contact your dealer or service center.

This may cause damaged the set or could give an electric shock.

During a lightning thunder, unplug the set from the wall outlet and don't touch an antenna cable.

This may cause damaged the set or could give an electric shock.

* Safety instructions have two kinds of information, and each meaning of it is as below.

/ WARNING The violation of this instruction may cause serious injuries and even death.

The violation of this instruction may cause light injuries or damage of the product.

 \hbar Take care of danger that may happen under specific condition.

/NOTES

Never touch the power plug with a wet hand. - This may cause an electric shock.

Disconnect from the mains and remove all connections before moving.

Do not place the set in a built-in installation such as a bookcase or rack.

Ventilation required

When installing the set on a table, be careful not to place the edge of its stand.

This may cause the set to fall, causing serious injury to a child or adult, and serious damage to the set.

Do not place an outside antenna in the vicinity of overhead power lines or other electric light or power circuits.

This may cause an electric shock.

There should be enough distance between an outside antenna and power lines to keep the former from touching the latter even when the antenna falls.

- This may cause an electric shock.

Do not pull the cord but the plug when unplugging. - This may cause a fire.

Ensure the power cord doesn't trail across any hot objects like a heater.

This may cause a fire or an electric shock.

Do not plug when the power cord or the plug is damaged or the connecting part of the power outlet is loose.

- This may cause a fire or an electric shock.

Dispose of used batteries carefully to protect a child from eating them.

- In case that it eats them, take it to see a doctor immediately.

When moving the set assembled with speakers do not carry holding the speakers.

This may cause the set to fall, causing serious injury to a child or adult, and serious damage to the Monitor.

Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners.

- This may cause damaged the set or could give an electric shock.

Contact the service center once a year to clean the internal part of the set.

- Accumulated dust can cause mechanical failure.

The distance between eyes and the screen should be about 5 \sim 7 times as long as diagonal length of the screen.

- If not, eyes will strain.

Unplug the set from the wall outlet when it is left unattended and unused for long periods of time.

Accumulated dust may cause a fire or an electric shock from deterioration or electric leakage.

Introduction

Introduction

What is a Plasma Display ?

If voltage is inputted to gas in glass panels, ultraviolet rays is outputted and fused with a fluorescent substance. At this moment, light is emitted. A Plasma Display is a next generation flat Display using this phenomenon.

160° - Wide angle range of vision

A Plasma Display provides more than 160° angle range of vision so that you can get a picture without distortion from any direction.

Easy installation

A Plasma Display is much lighter and smaller than other same class products so that you can install the Plasma Display at the desired place.

Big screen

The screen of a Plasma Display is 42" (or 50") so that you can get vivid experience as if you are in a theater.

Multimedia Plasma Display

A Plasma Display can be connected with a computer so that you can use it as a screen for conference, game, internet and so on.

The explanation about coloured dots may be present on PDP screen

The PDP which is the display device of this product is composed of 0.9 to 2.2 million cells and a few cell defects can occur in the manufacture of the PDP. Several coloured dots visible on the screen would be acceptable, in line with other PDP manufacturers and would not mean that the PDP is faulty. We hope you will understand that the product which corresponds to this standard is regarded as acceptable. It means that it could not be changed or refunded. We promise that we'll do our best to develop our technology to minimize the cell defects.

The explanation about noise of 42" (or 50") PDP

In the same way that a fan is used in a PC to keep the CPU cool, the PDP is equipped with cooling fans to improve the reliability of this product. Therefore, a certain level of noise could occur when the fan is operated. This noise doesn't have any negative effect on its efficiency and liability and it's also determined to have no difficulty while using this product. The noise from the fans is normal in the operation of this product. We hope you will understand that a certain level of noise is acceptable. It means that it is not changeable nor refundable.

WARNING

This is Class B product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

WARNING

TO REDUCE THE RISK OF FIRE AND ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

L

Remote Control Key Functions

- When using the remote control aim it at the remote control sensor of the set.
- There's maybe a defect in consecutive operation of remote control in specified brightness according to this set feature.

Istailing Batteries

- Open the battery compartment cover on the back side and insert the batteries with correct polarity.
- Install two 1.5V alkaline batteries of AAA type. Don't mix used batteries with new batteries.

Introduction

Location and Function of Controls

- Shown is a simplified representation of the set.

- Here shown may be somewhat different from your set.

<Front Panel Controls>

Owner's Manual 7

Location and Function of Controls

<Back Panel>

1. REMOTE CONTROL

2. RS-232C INPUT(CONTROL/SERVICE) PORT Connect to the RS-232C port on a PC.

- 3. DVI INPUT / AUDIO INPUT / RGB INPUT
- Connect the monitor output socket of the PERSONAL COM-PUTER to this socket.

Note: If you want to use RGB/DVI audio, we strongly recommend that you use the cable that has a core, or the EMI Fillter core along with separete cable.

4. COMPONENT INPUT

Connect DVD video outputs to Y, PB, PR of COMPONENT INPUT and audio outputs to Audio sockets of AUDIO INPUT.

AUDIO/VIDEO IN SOCKETS (AV4)

Connect the audio/video out sockets of external equipment to these sockets.

S-VIDEO/AUDIO IN SOCKETS

Connect the S-VIDEO out socket of an VCR to the **S-VIDEO** socket.

Connect the audio out sockets of the VCR to the audio sockets as in $\ensuremath{\text{AV4}}$.

5. ANTENNA INPUT

6. EURO SCART SOCKET

Connect the euro scart socket of the VCR to these sockets.

- **7. POWER CORD SOCKET** This Monitor operates on an AC power. The voltage is indicated on the Specifications page. Never attempt to operate the Monitor on DC power.
- 8. AUDIO/VIDEO IN SOCKETS (AV5) S-VIDEO/AUDIO IN SOCKETS

Installation

External Equipment Viewing Setups

Antenna Connection

- Be careful for the bronze wire not to be bended in connecting to antenna input port.

Watching VCR

- When connecting the set to external equipment, match the colours of connecting ports (Video yellow, Audio (L) white, Audio (R) -red).
- Connect the VIDEO INPUT socket (yellow) to the VIDEO INPUT on the set.
- If you have a mono VCR, connect the audio cable from the VCR to the AUDIO (L/MONO) input on the set.
- If you connect an S-VIDEO VCR to the S-VIDEO input, the picture quality is improved; compared to connecting a regular VCR to the Video input.
- Or, connect the Euro scart socket of the VCR to the Euro scart socket of the set.
- Use the orbiter function to Avoid having a fixed image remain on the screen for a long period of time. Typically a frozen still picture from a VCR. (Refer to p. 25)
- If a 4:3 picture format is used; the fixed image may remain visible on the screen.
- To avoid picture noise (interference), leave an adequate distance between the VCR and set.

Watching TV programmes

- Turn the set on and select the programme you want.

Watching VCR

- 1. Use the TV/AV button on the remote control to select AV1, AV2, AV3, AV4 or AV5.
- If both S-VIDEO and VIDEO sockets have been connected to the S-VHS VCR simultaneously, only the S-VIDEO can be received.
- Insert a video tape into the VCR and press the PLAY button on the VCR. (See VCR owner's manual)

ENGLISH

External Equipment Viewing Setups

Watching Cable TV

- After subscribing for a local cable TV station and installing a converter you can watch cable TV.
- For further information of cable TV, contact the local cable TV station.

To watch cable TV

- 1. Use the TV/AV button on the remote control to select AVI, AV2, AV3, AV4 or AV5.
- 2. Tune to cable service provided channels using the cable box.

Watching external AV source

When connecting the set to an external source, match the colours of AUDIO/VIDEO input jacks on the set with the output jacks on the audio/video equipment: Video = yellow, Audio (Left) = white, Audio (Right) = red. Or, connect the Euro scart socket of the VCR to the Euro scart socket of the set.

How to use

- 1. Use the TV/AV button on the remote control to select AV1, AV2, AV3, AV4 or AV5.
- **2.** Operate the corresponding external equipment. See external equipment operating guide.

Watching DVD

How to connect

Connect DVD video outputs to Y, PB, PR of COMPO-NENT INPUT and audio outputs to Audio sockets of AUDIO INPUT.

How to use

٠

1. Turn on the DVD player, and insert a DVD.

Component Input ports

Component ports of the

set

Video output ports

of DVD player

2. Use TV/AV or MULTIMEDIA button on the remote control to select Component. Refer to the DVD player's manual for operating instructions.

You can get better picture quality if you connect DVD player with component input ports as below.

ENGLISH

External Equipment Viewing Setups

Connecting PC

- To enjoy vivid picture and sound, connect a PC to the set.
- Avoid keeping a fixed image on the set's screen for a long period of time. The fixed image may become permanently imprinted on the screen; use a screen saver when possible.
- Connect PC to the RGB INPUT(PC INPUT) or DVI INPUT(DIGITAL RGB INPUT) port of the set; change the resolution output of PC accordingly.
- There might be a noise according to some resolution, vertical pattern, contrast or brightness in PC mode. Then change the PC mode into other resolution or change the refresh rate into other rate or adjust the brightness and contrast on the menu until the picture is clean. If the refresh rate of the PC graphic card can not be changed, change the PC graphic card or consult it to the manufacturer of the PC graphic card.
- The synchronization input form for Horizontal and Vertical frequencies is separate.

Setup Instructions to Connect a PC to your set

- We recommend using 1024x768, 60Hz for the PC mode, they provide the best picture quality.
- In RZ-42PX10/11/20/21 series, we recommend using 640x480, 60Hz for the PC mode, they provide the best picture quality.
- If the resolution of PC is over UXGA, there will be no picture on the set.
- Connect the signal cable from the monitor output port of the PC to the RGB INPUT port of the set or the signal cable from the DVI output port of the PC to the DVI INPUT port on the set.
- Connect the audio cable from the PC to the Audio input on the set. (Audio cables are not included with the set).
- If using a sound card, adjust PC sound as required.
- This set apply a VESA Plug and Play Solution. The set provides EDID data to the PC system with a DDC protocol. The PC adjusts automatically to use this set.
- DDC protocol is preset for RGB (Analog RGB), DVI (Digital RGB) mode.
- If required, adjust the set settings for Plug and Play functionally.
- If graphic card on the PC does not output analog and digital RGB simultaneously, connect only one of both RGB INPUT or DVI INPUT to display the PC on the set.

If graphic card on the PC does output analog and digital RGB simultaneously, set the set to either RGB or DVI; (the other mode is set to Plug and Play automatically by the set.)

- DOS mode may not work depending on video card if using a DVI-I cable.

PC Setup

- 1. Turn on the PC and apply power to the set.
- 2. Turn on the display by pressing the **POWER** button on the set's remote control.
- 3. Use the **TV/AV** or **MULTIMEDIA** button on the remote control to select the **RGB** or **DVI** input source.
- 4. Set the resolution output of the PC to SXGA or under (1280 x 1024, 60Hz). (Refer to p. 13)

Installation

Installation Options

- The set can be installed in different ways such as on a wall, or on a desktop etc.
- · Install this set only in a location where adequate ventilation is available.
- This set is designed so that it can be mounted either horizontally or vertically.

Wall Mount: Horizontal Installation

- The set can be installed on a wall as shown above. (For further information, refer to the optional 'Wall Mounting Bracket Installation and Setup Guide'.)
- Speakers are optional, and are shown for illustration only.

Desktop Pedestal Installation

- The set can be mounted on a desk as shown above. (For further information, refer to the optional 'Desktop Stand Installation and Setup Guide'.)
- Speakers and speaker stands shown are optional, and are shown for example only.

To Mount on a Wall

Wall mount minimum allowable clearances for adequate ventilation.

To Install on a Desktop

Pedestal mount minimum allowable clearances for adequate ventilation.

Turning on the Set

- When using the remote control, aim it at its sensor on the set.

Turning on the set just after installation

- 1. Connect power cord correctly.
- Press the ①ON/OFF button on the set. At this moment, the set is switched to standby mode. Press the TV/AV or PR ▲ / ▼ button on the set or press the POWER, TV/AV, MULTIMEDIA, PR ▲ / ▼ or NUMBER buttons on the remote control and then the set will switch on.

Turning on the set (power cord is still connected)

- 1. If the set was turned off with the ① ON/OFF button on the set
- Press the ON/OFF button on the set to turn the set on.
- 2. If the set was turned off with the remote control and the ①ON/OFF button on the set
- Press the ①ON/OFF button on the set and then press the TV/AV or PR ▲ / ▼ button on the set or press the POWER, TV/AV, MULTIMEDIA, PR ▲ / ▼ or NUMBER button on the remote control to turn the set on.

On-Screen Menu Language Selection (option)

- The menus can be shown on the screen in the selected language. First select your language.
 - 1. Press the MENU button and then use ▲ / ▼ button to select the SPECIAL menu.
 - 2. Press the ► button and then use ▲ / ▼ button to select Language.
 - Press the ► button and then use ▲ / ▼ button to select your desired language. From this point on, the on-screen menus will be shown in the language of your choice.
 - 4. Repeatedly press the MENU button to return to normal TV viewing.

 - $\textbf{4.} \ensuremath{\text{Repeatedly press the } \textbf{MENU} button to return to normal TV viewing.}$

Sound Menu Options

SSM (Sound Status Memory)

- This function lets you enjoy the best sound without any special adjustment because the set automatically selects the appropriate sound option based on the program content. When adjusting sound options (treble and bass) manually, SSM is automatically changed to **User**.
- 1. Press the SSM button.
- 2. Press the SSM button to select your desired sound.

_	SRS TSXT	 Flat	 Music	 Movie	_	Speech	User	
							+=+=	

- You can also select SRS TSXT, Flat, Music, Movie, Speech or User in the SOUND menu.
- The sound SRS TSXT, Flat, Music, Movie and Speech are programmed for good sound reproduction at the factory and cannot be changed.
- **SRS(O)** is a trademark of SRS Labs, Inc.
- TruSurround XT technology is incorporated under license from SRS Labs, Inc. -

BBE

- BBE High Definition Sound restores clarity and presence for better speech intelligibility and musical realism.
 - 1. Press the MENU button and then use ▲ / ▼ button to select the SOUND menu.
 - 2. Press the \blacktriangleright button and then use \blacktriangle / \blacktriangledown button to select **BBE**.
 - 3. Press the ▶ button and then use ▲ / ▼ button to select On or Off.
 - 4. Repeatedly press the MENU button to return to normal TV viewing.

- This feature maintains an equal volume level; even if you change channels.

- 1. Press the MENU button and then use ▲ / ▼ button to select the SOUND menu.
- 2. Press the ► button and then use ▲ / ▼ button to select AVL.
- 3. Press the ► button and then use ▲ / ▼ button to select **On** or **Off**.
- 4. Repeatedly press the MENU button to return to normal TV viewing.

Adjusting Sound Control (User option)

- 1. Press the MENU button and then use ▲ / ▼ button to select the SOUND menu.
- 2. Press the ► button and then use ▲ / ▼ button to select the desired sound item.
- 3. Press the ► button and then use < / ► button to make appropriate adjustments.
- 4. Repeatedly press the MENU button to return to normal TV viewing.

Note : Treble, Bass or BBE aren't suitable to use SRS TSXT.

- BBE. Manufactured under license from BBE Sound, Inc.

Stereo / Dual Reception

- When a programme is selected, the sound information for the station appears after the programme number and station name disappear.

On Screen Display

Press the I/II button to received broadcast state.

Broadcast	On screen Display
Mono	MONO
Stereo	STEREO
Dual	DUAL I

Mono Sound Selection

In stereo reception if the stereo signal is weak, you can switch to mono by pressing the I/II button twice. In mono reception the depth of sound is improved. To switch back to stereo, press the I/II button twice again.

Language Selection for Dual Language Broadcast

If a programme received in two languages (dual language), you can switch to **DUAL I**, **DUAL II** or **DUAL I** + **II** by pressing the **I/II** button repeatedly.

- **DUALI** sends the primary broadcast language to the loudspeakers.
- DUAL II sends the secondary broadcast language to the loudspeakers.
- DUAL I + II sends a separate language to each loudspeaker.

NICAM Reception (option)

If your Plasma Display is equipped with the PDP Tuner for NICAM reception, the high quality NICAM (Near Instantaneous Companding Audio Multiplex) digital sound can be received.

Sound output can be selected according to the type of received broadcast as follows by pressing the I/II button repeatedly.

- When NICAM mono is received, you can select NICAM MONO or FM MONO.
- When NICAM stereo is received, you can select NICAM STEREO or FM MONO. If the stereo signal is weak, switch to FM mono.
- When NICAM dual is received, you can select NICAM DUAL I, NICAM DUAL II, NICAM DUAL I + II, or MONO. When FM mono is selected the display MONO appears on the screen.

Sound output selection

In AV, Component, RGB or DVI mode, you can select output sound for the left and right loudspeakers.

Repeatedly press the I/II button to select the sound output.

- **L+R**: Audio signal from audio L input is sent to left loud-speaker and audio signal from audio R input is sent to right loud-speaker.
- L+L : Audio signal from audio L input is sent to left and right loud-speakers.
- R+R: Audio signal from audio R input is sent to left and right loud-speakers.

Time Menu Options

Setting the Clock

- If current time setting is erased by a power failure, if TV is unplugged or if the set is turned off with the **ON/OFF** button on the set, reset the clock.
 - 1. Press the MENU button and then use ▲ / ▼ button to select the TIME menu.
 - 2. Press the ► button and then use ▲ / ▼ button to select Clock.
 - 3. Press the ► button and then use ▲ / ▼ button to adjust the hour.
 - 4. Press the ► button and then use ▲ / ▼ button to adjust the minute.
 - 5. Repeatedly press the MENU button to return to normal TV viewing.

Setting the On/Off Timer

- Timer function operates only if current time has been already set.
- Off Timer function overrides on Timer function if they are set to the same time.
- The set must be in standby mode for the On Timer to work.
- 1. Press the MENU button and then use ▲ / ▼ button to select the TIME menu.
- 2. Press the ► button and then use ▲ / ▼ button to select Off time or On time.
- 3. Press the ► button and then use ▲ / ▼ button to select On.
- 4. Press the ► button and then use ▲ / ▼ button to adjust the hour.
- 5. Press the ► button and then use ▲ / ▼ button to adjust the minute.
- 6. Only On time function; Press the ► button and then use ▲ / ▼ button to adjust programme number or volume level.
- 7. Repeatedly press the MENU button to return to normal TV viewing.
- To cancel **Off/On time** function
- Press the \blacktriangle / \triangledown button to select **Off** in step 3.
- Two hours after the set is switched on by the on time function it will automatically switch back to standby mode unless a button has been pressed.

Auto Sleep

- If there is no input signal, the monitor turn off automatically after 10 minutes.
 - 1. Press the MENU button and then use ▲ / ▼ button to select the TIME menu.
 - 2. Press the ► button and then use ▲ / ▼ button to select Auto sleep.
 - 3. Press the ► button and then use ▲ / ▼ button to select On or Off.
 - 4. Repeatedly press the MENU button to return to normal TV viewing.

Sleep Timer

- Sleep timer turns the set off at the preset time.
- Press the SLEEP button to select the number of minutes. The display ²-- Min will appear on the screen, followed by 10, 20, 30, 60, 90, 120, 180 and 240 minutes. The timer begins to count down from the number of minutes selected.
 - a. To check the remaining sleep time, press the OK button once.
- b. To cancel the sleep time, repeatedly press the SLEEP button until the display ()² --- Min appears.
- c. If you turn the set off after setting the sleep timer, the setting will be erased.

Operation

ENGLISH

Special Menu Options

Child lock

- The set can be set up so that it can only be used with the remote control.
 - 1. Press the **MENU** button and then ▲ / ▼ button to select the SPECIAL menu.
 - 2. Press the \blacktriangleright button and then \blacktriangle / \blacktriangledown button to select **Child lock**.
 - 3. Press the \blacktriangleright button and then \blacktriangle / \blacktriangledown button to select **On** or **Off**.
 - 4. Repeatedly press the MENU button to return to normal TV viewing.
 - This set programmed to remember which option it was last set to event if you turn the set off.
 - In Child lock 'On', if the set is turned off, press the TV/AV, ▲ / ▼ button on the set or POWER, TV/AV, MULTI-MEDIA, ▲ / ▼ or NUMBER buttons on the remote control.
 - With the **Child lock On**, the display ' A **Child lock on**' appears on the screen if any button on the front panel is pressed while viewing the set.

ISM (Image Sticking Minimization) Method

- Frozen still picture from a PC/video game displayed on the screen for prolonged periods will result in an ghost image remaining even when you change the image. Avoid allowing a fixed image to remain on the set's screen for a long period of time.
- 1. Press the **MENU** button and then use ▲ / ▼ button to select the SPECIAL menu.
- 2. Press the ► button and then ▲ / ▼ button to select ISM Method.
- 3. Press the ► button and then ▲ / ▼ button to select either Normal, White wash, Orbiter or Inversion. If you unnecessary to set this function, set Normal.
 - White Wash :

White Wash removes permanent images from the screen.

Note: An excessive permanent image may be impossible to clear entirely with White Wash.

Orbiter :

Orbiter may help prevent ghost images. However, it is best not to allow any fixed image to remain on the screen. To avoid a permanent image on the screen, the screen will move every 2 minutes.

Inversion :

This is the function to invert the panel color of the screen. The panel color is automatically inverted every 30 minutes.

4. Repeatedly press the MENU button to return to normal TV viewing.

C STATION	Language Child lock	
PICTURE SOUND	Low power Set ID	✓ Normal White wash Orbiter
	XD Demo	Inversion

Special Menu Options

Low Power

- This is the function to reduce the power consumption of the set.
 - 1. Press the MENU button and then use ▲ / ▼ button to select the SPECIAL menu.
 - **2.** Press the \blacktriangleright button and then use \blacktriangle / \blacktriangledown button to select **Low power**.
 - 3. Press the \blacktriangleright button and then use \blacktriangle / \blacktriangledown button to select **On** or **Off**.
 - 4. Repeatedly press the MENU button to return to normal TV viewing.

XD Demo

- Use it to see the difference between XD demo on and XD Demo off.
 - 1. Press the MENU button and then use ▲ / ▼ button to select the SPECIAL menu.
 - 2. Press the ▶ button and then use ▲ / ▼ button to select **XD Demo**.
 - 3. Press the ► button to begin **XD Demo**.
 - 4. To stop XD Demo, press the MENU button.

Operation

Screen Menu Options

Auto adjustment (RGB [PC] mode only)

- Automatically adjusts picture position and minimizes image shaking.
 - 1. Press the **MENU** button and then use ▲ / ▼ button to select the SCREEN menu.
 - 2. Press the ► button and then use ▲ / ▼ button to select Auto config.
 - 3. Press the ▶ button to start Auto config..
 When Auto config. has finished, Ok will be shown on screen.
 If the position of the image is still not correct, try Auto adjustment again.
 - If picture needs to be adjusted more after Auto adjustment in RGB (PC), you can adjust the Manual Config.
 - 5. Repeatedly press the MENU button to return to normal TV viewing.
 - Although the image is still not correct, your set is functioning properly but needs further adjustment.
 - The Auto config. and the Manual Config. functions don't need to be run for DVI mode.

Setting Picture Format

- You can watch the screen in various picture formats; Spectacle, Full, Orlginal, 4:3, 16:9 (Wide), 14:9 and Zoom
 - 1. Press the MENU button and then use ▲ / ▼ button to select the SCREEN menu.
 - 2. Press the ► button and then use ▲ / ▼ button to select ARC.
 - Press the ▶ button and then use ▲ / ▼ button to select Spectacle, Full, Original, 4:3, 16:9, 14:9 or Zoom.

• Spectacle

When your TV receives the wide screen signal, following selection will lead you to adjust the picture horizontally, in a linear proportion, to fill the entire screen.

• Full

When your TV receives the wide screen signal, following selection will lead you to adjust the picture horizontally or vertically, in a linear proportion, to fill the entire screen fully.

• Original

When your TV receives the wide screen signal, it will be automatically changed to the picture format to be sent.

• 4:3

Following selection will lead you to view a picture with an original 4:3 aspect ratio, with gray bars appearing at both the left and right sides.

· 16:9 (Wide)

Following selection will lead you to adjust the picture horizontally, in a linear proportion, to fill the entire screen (useful for viewing 4:3 formatted DVDs).

• 14:9

You can enjoy the picture format of 14:9 or general TV programme through the 14:9 mode. The screen 14:9 is viewed just like that the screen 4:3 is magnified to the left / right.

• Zoom

Following selection will lead you to view the picture without any alternation, while filling the entire screen. However, the top and bottom portions of the picture will be cropped.

4. Repeatedly press the MENU button to return to normal TV viewing.

- You can only select 4:3 and 16:9 (Wide) in RGB, DVI.

- You can only select 4:3, 16:9 (Wide) and Zoom in Component 480p/576p.

Screen Position

This function works in the following mode:

RGB-PC or COMPONENT 480p/576p.

- 1. Press the MENU button and then \blacktriangle / $\blacktriangledown\,$ button to select the SCREEN menu.
- 2. Press the ► button and then ▲ / ▼ button to select Position.
- 3. Press the ► button and then ▲ / ▼ or ◄ / ► button to adjust the position.
- 4. Repeatedly press the MENU button to return to normal TV viewing.

Manual Configure (RGB [PC] mode only)

- If the picture isn't clear after auto adjustment and especially that characters are still trembling, adjust the picture phase manually.
- To correct the screen size, adjust Clock.
- 1. Press the MENU button and then ▲ / ▼ button to select the SCREEN menu.
- 2. Press the ► button and then ▲ / ▼ button to select Manual config.
- 3. Press the \blacktriangleright button and then \blacktriangle / \blacktriangledown button to select **Phase** or **Clock**.
- **4.** Press the **◄** / ► button to make appropriate adjustments.
 - The adjustment range of Phase is 0 ~ 30.
 - The adjustment range of Clock is -127 ~ +128.
- 5. Repeatedly press the MENU button to return to normal TV viewing.

Selecting Wide VGA/XGA mode (RGB[PC] mode only)

- To see a normal picture, match the resolution of RGB mode and selection of VGA/XGA mode.
- In some models, it's not available to selection of XGA mode.
 - 1. Press the MENU button and then use ▲ / ▼ button to select the SCREEN menu.
 - 2. Press the ► button and then use ▲ / ▼ button to select VGA Mode (or XGA Mode).
 - 3. Press the ► button and then use ▲ / ▼ button to select the desired VGA/XGA resolution.
 - 4. Repeatedly press the MENU button to return to normal TV viewing.

- Use this function to correct jittering or picture instability while viewing a video tape.
 This function works in the following mode:
 - TV, AV1, AV2, AV3, AV4, AV5 or Component 480i/576i.
 - **1.** Press the **MENU** button and then use \blacktriangle / \blacktriangledown button to select the SCREEN menu.
 - 2. Press the \blacktriangleright button and then use \blacktriangle / \blacktriangledown button to select Screen adj.
 - 3. Press the ▶ button and then use ▲ /▼ button to select TV or VCR.
 Select the VCR option if watching a VCR.
 - Select the **TV** option for other equipment.(Except VCR)
 - 4. Repeatedly press the MENU button to return to normal TV viewing.

Cinema

- When you watch the movie, this function adjusts the set to the best picture appearance.
 - This function works in the following mode: TV, AV1, AV2, AV3, AV4, AV5 or COMPONENT 480i/576i.
 - 1. Press the MENU button and then use ▲ / ▼ button to select the SCREEN menu.
 - 2. Press the ► button and then use ▲ / ▼ button to select Cinema.
 - 3. Press the ► button and then use ▲ / ▼ button to select On or Off.
 - 4. Repeatedly press the MENU button to return to normal TV viewing.

Screen Menu Options

Luminance Noise Reduction (option)

- You can select **On** or **Off** to reduce the picture noise which may appear on the screen during watching the TV.
- This function works in the following mode: TV, AV1, AV2, AV3, AV4, AV5 or Component 480i/576i.
- 1. Press the MENU button and then use ▲ / ▼ button to select the SCREEN menu.
- 2. Press the ▶ button and then use ▲ / ▼ button to select **YNR**.
- 3. Press the ► button and then use ▲ / ▼ button to select On or Off.
- 4. Repeatedly press the MENU button to return to normal TV viewing.

Initializing (Reset to original factory value)

This function operates in current mode. To initialize the adjusted value

- 1. Press the MENU button and then ▲ / ▼ button to select the SCREEN menu.
- 2. Press the ► button and then ▲ / ▼ button to select Reset.
- 3. Press the ► button.

• You can initialize Position, SPLIT ZOOM, PIP size, PIP position, PIP Transparency and sub picture size of twin picture.

Split Zoom

- This is the function to enlarge the screen with regular ration.
- It's available to use this function in every input source.
- With 2-SPLIT ZOOM, you can only move the screen into upside or downside.
- If a screen is enlarged, a screen can move without selecting a section of screen.
 - 1. Press the SPLIT ZOOM button.
 - Each press of SPLIT ZOOM button changes the screen display as shown below.

ENGLISH

PIP (Picture-in-Picture) Feature

- PIP lets you view 2 different inputs (sources) on your set screen at the same time.
- It's not available to use this function in TELETEXT mode.

Watching PIP

Press the PIP/DW button to show the sub picture.

· Each press of PIP/DW button changes the screen display as shown below.

Programme Selection for Sub Picture

Press the **PIP PR +** /- button to select a programme for the sub picture.

Moving the PIP (PIP mode only) Press the POSITION button.

Repeatedly press the ▲ / ▼ or ◀ / ▶ button until desired position is achieved. The sub picture moves up/down or left/right.

Selecting an Input Signal Source for the PIP

Press the **PIP INPUT** button to select the input source for the sub picture.

- In RGB, DVI and COMPONENT 480p/576p for main picture, you can select TV, AV1, AV2, AV3, AV4, AV5 and COMPONENT 480i/576i for sub picture.
- In TV, AV1, AV2, AV3, AV4, AV5 and COMPONENT 480i/576i for main picture, you can select TV, AV1, AV2, AV3, AV4, AV5, COMPONENT 480i/480p/576i/576p, RGB and DVI for sub picture.
- You can't select the same modes for main pictue and sub picture simultaneously. (except TV)

Picture Size

Press the **WIN.SIZE** button and then \blacktriangleleft / \blacktriangleright button to adjust the sub picture size.

With **WIN.SIZE** button in DW1, DW2 modes, main and sub picture is adjusted simultaneously. With **WIN.SIZE** button in PIP mode, sub picture is adjusted.

Adjusting PIP Transparency (PIP mode only)

1. Press the MENU button and then ▲ / ▼ button to select the PIP/DW menu.

- 2. Press the \blacktriangleright button and then \blacktriangle / \blacktriangledown button to select **PIP Transparency**.
- 3. Press the ► button and then < / ► button to adjust PIP transparency.
 The adjustment range of PIP Transparency is 0 ~ 10.
- 4. Repeatedly press the MENU button to return to normal TV viewing.

Teletext (option)

- Teletext (or TOP text) is an optional function, therefore only the set with the teletext system can receive the teletext broadcast.
- Teletext is a free service broadcast by most TV stations which gives up-to-the-minute information on news, weather, television programmes, share prices and many other topics.
- The teletext decoder of this set can support the SIMPLE, TOP and FASTEXT systems. SIMPLE (standard teletext) consists of a number of pages which are selected by directly entering the corresponding page number. TOP and FASTEXT are more modern methods allowing quick and easy selection of teletext information.

Switch on/off

Press the TEXT/* button to switch to teletext.

- The initial page or last page appears on the screen.
- Two page numbers, TV station name, date and time are displayed on the screen headline. The first page number indicates your selection, while the second shows the current page displayed.
- Press the **TEXT**/***** button to switch off teletext.

SIMPLE Text (option)

Page selection

- 1. Enter the desired page number as a three digit number with the NUMBER buttons. If during selection you press a wrong number, you must complete the three digit number and then reenter the correct page number.
- 2. The ▲ / ▼ button can also be used to select the preceding or following page.

TOP Text (option)

The user guide displays four fields-red, green, yellow and blue at the bottom of the screen. The yellow field denotes the next group and the blue field indicates the next block.

Block / group / page selection

- 1. With the blue button you can progress from block to block.
- 2. Use the yellow button to proceed to the next group with automatic overflow to the next block.
- With the green button you can proceed to the next existing page with automatic overflow to the next group. (Alternatively the ▲ button can be used.)
- 4. The red button permits to return to previous selection. (Alternatively the ▼ button can be used.)

Direct page selection

Corresponding to the SIMPLE text mode, you can select a page by entering it as a three digit number using the NUMBER buttons in TOP mode.

FASTEXT

The teletext pages are colour coded along the bottom of the screen and are selected by pressing the corresponding coloured button.

Page selection

- 1. Press the 🗊 button to select the index page.
- 2. You can select the pages which are colour coded along the bottom line with the same coloured buttons.
- 3. Corresponding to the SIMPLE text mode, you can select a page by entering its three digit page number with the NUMBER buttons in FASTEXT mode.
- 4. The ▲ / ▼ button can also be used to select the preceding or following page.

Special Teletext Functions

E? REVEAL

Press this button to display concealed information, such as solutions of riddles or puzzles.

Press this button again to remove the information from the display.

- **≣**≢ SIZE
 - Selects double height text.

Press this button to enlarge the top half of the page.

Press this button again to enlarge the bottom half of the page.

Press this button again to return to the normal display.

Displays the TV picture on the screen while waiting for the new teletext page. Press this button to view the updated teletext page.

∃¥ HOLD

Stops the automatic page change which will occur if a teletext page consists of 2 or more sub pages. The number of sub pages and the sub page displayed is, usually, shown on the screen below the time. When this button is pressed the stop symbol is displayed at the top left-hand corner of the screen and the automatic page change is inhibited.

To continue press this button again.

Displays the teletext pages superimposed on the TV picture. To switch the TV picture off press this button again.

This button has two functions:

a) When viewing a TV programme, press this button to display the time at the top right hand corner of the screen. Press this button again to remove the display. b) In teletext mode, press this button to select a sub page number. The sub page number is displayed at the bottom of the screen. To hold or change the sub page, press the RED/ GREEN or ▲ / ▼ buttons. Press this button again to exit this function.

Miscellaneous

External Control Device Setup

- Connect the RS-232C input jack to an external control device (such as a computer or an A/V control system) and control the set's functions externally.

How to connect external control equipment

- · Connect the serial port of the control device to the RS-232C jack on the Monitor back panel.
- · RS-232C connection cables are not supplied with the set.
- The set remote control and front panel controls (except main power) will not be functional if the Monitor is controlled by a PC computer or other external device.

IR Code (NEC Format)

How to connect

Connect your wired remote control to the Remote Control port on the Monitor.

Remote Control IR Code (NEC Format)

Output waveform

Single pulse, modulated with 37.917KHz signal at 455KHz

Configuration of frame

• 1st frame

• Repeat frame

Lead code

Bit description

Frame interval : Tf

The waveform is transmitted as long as a key is depressed.

Troubleshooting Checklist

No picture & No sound Picture OK & No sound	 Check whether the set is turned on. Power cord inserted into wall outlet? Plug another product's power cord into the wall outlet where the set's power cord was plugged in. Press the VOLUME (►) button. Sound muted? Press MUTE button.
The remote control doesn't work	 Check to see if there is any object between the set and the remote control causing obstruction. Check to see if the batteries are installed with the correct polarities. (Refer to p.6) Check if the remote control handset is set up to correct mode. Install new batteries. (Refer to p.6)
Picture appears slowly, after switching on	 This is normal as the image is muted during the startup process of the set. Please contact your service centre, if the picture has not appeared after five minutes.
No or Poor colour or Poor picture	 Select Colour in the PICTURE menu and press the VOLUME (►) button. (Refer to p.21) Keep a certain distance between the set and the VCR. Activate any function to restore the brightness of the picture. (If still picture is on the screen for more than 5 minutes, the screen gets dark.)
Horizontal/vertical bars or picture shaking	Check for local interference such as an electrical appliance or power tool.
No output from one of the speakers	Adjust Balance in the SOUND menu. (Refer to p.22)
Unusual sound from inside the set	 A change in ambient humidity or temperature may result in an unusual noise at the time of switching off or on of the set and does not indicate a fault with the set.
