## Removable Storage Device

You can easily copy and paste file to the player using Windows Explorer

## Direct MP3 Recording

You can convert music from CD's, cassettes and radio into MP3 files without a PC.

## FM Reception

Listening to an FM program is made easy with Auto Search and Frequency.

## Upgrading Firmware

It can become the continuous improvement of the function and the various setting up this product.

## MP3, WMA Playback

MP3 is MPEG1 Layer3 audio format.
MP3 is a well known, high quality digital audio format.
MP3 files can be compressed up to 12 times the original wav file size.
WMA (Windows Media Audio code) is the highest quality in terms of a sound and music. WMA provides all type of the best sounds from 8 kHz to 48 kHz .

- If you plan not to use the main unit for a long time, remove the battery to avoid any damage caused by battery leakage and corrosion.
- Avoid listening to the main unit while driving or operating any motorized vehicle.
- Do not use the main unit in places which are extremely hot, cold, dusty or humid
- Unlock the HOLD switch before operating
- Do not drop it while using this product

Battery Life

## Alkaline battery (1EA) <br> more than 10 hours

## ※ Conditions

- MP3 128kbps, volume level 20 (EQ NORMAL).
- The above contents are measured by using the battery provided with this product, and play time to use may vary depending on operation condition
※ Charge the rechargeable battery or replace the battery with a new one in the following situations.
- The " $\square$ " indicator blinks
- "Low Battery" appears about 1 second in LCD and then disappears.
The operation buttons do not work

For preventing the electrostatic discharge during use, refer to below conditions.

- If it is possible, please avoid operating this device under dry condition.
When this device stops during normal operation, please replace the battery.

## B

## Disposal of your old appliance

1. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC
2. All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
3. The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.
4. For more detailed information about disposal of your old appliance, please contact your city office, waste disposal service or the shop where you purchased the product.

## To install Battery

1 Open battery cover by pushing in the direction of the arrow.

## 2 Insert the battery.

Make sure to match the + and - on the battery to the marks inside the battery compartment.

## 3 Close the battery cover.

## $\square$ Notes

- Improper use of battery may cause battery leakage and corrosion.
- If battery leakage occurs, wipe the battery liquid from the battery compartment, then insert new battery.

## Audio mode LCD

A: Number of current track
Number of all track (or HOUR of playing time)
B: Indicates music mode (国 SLEEP CONTROL ON)
C: Form of file Indicator
D: Sound mode
E: Sampling Frequency Indicator (國 Lyric Indicator) F: Bit rate Indicator.
G:LEVEL METER (Volume, MUTE indicator)
H: File name or File information
Normal(Title), ID3 Tag, TEXT(Lyric)
I: Battery indicator
J: HOLD indicator
K: Repeat mode
L: Local Repeat mode (mookmark indicator)

## M:Playing time

$\triangle$ Note

- Indicators (B,C,E,F,G,H) disappears and there appears lyrics
for music file with lyrics.

FM mode LCD

A: Indicates FM RADIO mode
B: PRESET CH number
C:MONO/STEREO receiving indicator
D:MUTE indicator (Volume LEVEL)
E: Battery indicator
F: HOLD indicator
G:Frequency indicator
H:PRESET mode indicator
I: SLEEP CONTROL ON indicator

Your player needs the minimum system requirements for your computer.

## Operation Circumstances

- OS : Windows 98SE/ ME/ 2000/ XP

You can update the MP3 Explorer software for Windows 98SE/ME/2000/XP available etc. from an internet websit by LG Electronics Inc. Refer to the following sample contact procedure;
http://www.Ige.com $\rightarrow$ Support $\rightarrow$ Download
$\rightarrow$ Software $\rightarrow$ Select continent $\rightarrow$ Selec
country/region $\rightarrow$ Select Product

- CPU : At least Pentium 133MHz
- Memory : At least 32MB
- HDD Space : At least 100MB
- Video Card : $640 \times 480$ Mode,
- USB Por
- USB Port
- CD-ROM Driver
$\square$ Notes
What is USB?
- USB : Universal Serial Bus.
- USB stands for Universal Serial Bus.
- It is a new interface based on the new concept between PC and peripherals.
- The maximum bandwidth is 12 Mbps and a maximum of 127 USB devices can be connected to a single PC.

1 Insert the software CD into CD ROM drive.
The install will be runed automatically.
2 Select the language you want.
3 It appears "Program may be will seem where OS language version being used and installation language" and click "Yes".

4 Click the "Yes" button in the installation window.

5 Select the installation folder and click the "NEXT" button.

6 Installation is progressing.

7 "Do you want to make a shorten key on the ground screen?" appears.
Yes: Manger icon is created on the Windows desktop
No: Manger icon is not created on the Windows desktop

## 8 Click the "Finish" button when the installation

 complete screen is displayed.
$\square$ Note

- When you install the supplied software CD, don't connect the sup plied USB cable to a PC from your MP3 Player. After you install the software CD, connect the supplied USB cable to a PC from your MP3 Player.

Insert the Windows 98SE driver CD shipped with product. Open the window below by connecting the product to the computer. "Hardware Wizard" will be runed automatically 1 Click "Next"

2 Click "Next".

3 Click "Next".

4 Click "Next"

5 Installation to Windows 98SE has been completed.

6 Open My Computer with Windows Explorer to check that the player is installed as a removable disk.

You can upgrade FIRMWARE to add, change or improve the functions of the player, in which the Firmware means its Operating System.

## 1 Visit the company website (www.Ige.com) to check if

 there is an upgraded version available for the player. 2 Use the USB cable to connect the device to your PC Copy the new firmware file (player.rom) to the player in the USB port.

4 Disconnect the USB cable. Turn off and turn on again.The message "F/W UPGRADE" appears automatically and starts upgrading.

## $\square$ Notes

- Turn the power off when the Firmware Upgrade is completed
- Don't press any buttons during the Firmware Upgrade.

Follow these steps if Explorer is not installed or installation is failed. Both PC and player are not recognized.

## 1 Check the "Device Manager".

Windows 98/ME : Control Panel $\rightarrow$ System $\rightarrow$ Device Manager Window 2000/XP: Control Panel $\rightarrow$ System $\rightarrow$ Hardware $\rightarrow$ Device Manager

2 Select if there is a device listed with an exclamation mark or a question mark.
3 Double click selected a device list.
4 Selecting the "Driver" and click "Update Driver...".
5 Click "Next"
Select updated driver. Click "Next"
7 Click "Finish".

Q Note
This picture's condition is Win98SE

Used where symptom as below occurs.

- Where both PC and player are not recognized.
- Where characters are strange or broken
- Where download/upload is not done

1 Insert the software CD into CD ROM drive.
2 Open the "Recovery Program"
3 Install file to your PC.

## Windows 2000/XP

 install2000Xp.bat Windows 98/ME install98Me.bat4 To complete the installation, make sure to restart your PC.
5 Run "TCC7xx_FWDN.exe"

6 Click "..."
$\Rightarrow$ Select Firmware file.
7 Turn off player. Connect your PC and player with the USB cable.
$\Rightarrow$ Press and hold REC button during connect your PC and player with the USB cable.

Click "Write NOR"
Disconnect USB cable when "NOR flash write completed" appears.

1 Uninstall Recovery program. Double click uninstall file.
Windows 2000/XP : uninstall2000Xp.bat Windows 98/ME uninstall98Me.bat
II Press "R" button in your
 PC. To complete the installation, make sure to restart your PC.

## My Multimedia Manager

The MP3-Explorer is the software that interacts with the player and a PC. MP3 files or any data files can be downloaded to the player or vice versa.

1 MENU bar
2 Music file controller
3 File list window of PC
54 File list window of MP3 Player

## 5 Playing time

## $\triangle$ Note

- The capacity of the unstable built-in memory is less than indicated as the internal firmware uses a part of the memory as well.
- There is a possibility of seeming different from windows files list order to player's files list order. Because Windows and player are different from each other in system.

## Downloading and Uploading

Before downing or uploading files or folder to your MP3
Player and connect the MP3 Player to PC using the USB
cable.
Note: MP3 and WMA files are not available to upload.
1 Select file or folder to download or upload.

## 2 Click "1".

3 Click "2".
Selected file or folder is downloded or uploaded.

4 Click " 3 "
Click "4"
Selected file or folder is downloded or uploaded and select file or folder is deleted.

Lyrics Editor

## 1 Click "1".

lyrics Editor is operated

This program also enables users to play music files with lyrics made by MediaSync. For music files without lyrics, users can search for the lyrics on the web and insert them into the music files.

- Run Lyrics Editor and press F1

Help will appear.

Upgrading Firmware
Before firmware upgrade and refer to 11page
Visit the company website (www.lge.com). You can downoad firmwareupdate file(player.rom).
1 Click "1".

2 Click "2".

3 Click " 3 ".
Select firmware upgrade file.

4 Click "4".
Firmware upgrade is started.

## 5 Click " 5 ".

Firmware upgrade is completed.

## 6 Click "6".

Disconnect USB cable. Turn off and turn on the player (Refer to 21 page - 22 page).

To Format Memory
This function deletes all files existing on the file list window of MP3 Player.
1 Click " 1 ".
2 Click " 2 ".
Format is started.
3 Click " 3 ".
All file and folder are deleted.
$\square$ Notes

- Before formatting the internal memory, connect the USB cable to MP3 Player and PC.
- Don't remove the USB cable while formatting or
downloading a files.
- Player don't became the first grade when format is completed.
- When format is completed, RADIO, AUDIO and VOICE folders is not deleted

VIEW
Display of MP3 Explorer set up.
You can set up Display of MP3 Explorer using the VIEW menu.

SETTING
Option setting and "Start folder" setting.
You can set up option and "Start folder" of MP3 Explorer using the SETTING menu.

SETTIN

## HELP

This menu is help operating MP3 Explorer and explains about the player. Refer to operating MP3 Explorer

## Connecting to a computer

The MP3 player supports plug \& play.
Operating systems after Windows 98SE can automatically recognize and install software without an external installation program.

Connect one end with the USB port on the back(front) of your PC and then plug the other end into the Data In/Out terminal of your the player.

## $\square$ Notes

- The Windows 98SE operating system requires an exter-
nal installation program.( refer to 10 page -11 page )
- Previous operating systems do not support connection to the player.

## Connecting Earphone

Connect the earphone connector to the earphone jack.

## Downloading and Uploading

1 Connect one end with the USB cable on the back (or front) of your PC and then plug the other end into USB cable of your MP3 player.
$\Rightarrow$ The power will be turned on even if there is no battery. The MP3 player will be in download mode

$$
\rightleftarrows \quad \begin{aligned}
& \text { An Icon on the LCD indicates } \\
& \text { ready status for download. }
\end{aligned}
$$

2 Open Windows Explorer on PC. Removable Disk is display in Windows Explorer

3 Select the file you want to save, then drag and drop it between PC and the removable disk.

## $\triangle$ Note

- Don't remove the USB cable while uploading or downloading a file.

## Disconnecting to a PC

Wait until you get a message saying that you can safely unplug the device before disconnecting the USB cable.
1 The safe remove icon is in the system tray next to the clock.
$\square$
2 Click on the icon to eject the player from the computer and select the "Safely remove" message.
3 There will be a message indicating that it is now safe to disconnect the player.
4 You can now go ahead and unplug the USB cable from the player.
$\Rightarrow$ If the PC power is turned off or the USB cable is discon nected while data is being transferred, an HDD error in nected while data is being tra
It may not complete the transmission if the battery volume is not enough during transmitting data.

## Power ON

Press PLAY/PAUSE button for 2 seconds after checking the Hold Off status

Power OFF
Press PLAY/PAUSE button for 2 seconds after checking the Hold Off status

## Adjust VOLUME

You can adjust the volume by pushing the JOG in the direction of the volume (-/+).
The volume level can be adjusted by 40 steps.(MIN $\leftrightarrow 01 \leftrightarrow \ldots \leftrightarrow 39 \leftrightarrow$ MAX)
