HOW TO JOIN THE SET ASSEMBLY TO THE WALL TO PROTECT THE SET FROM TUMBLING

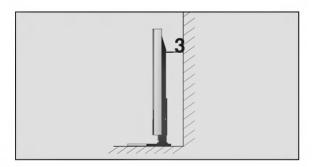

- Place the set close to the wall so that it doesn't fall over if pushed backwards.
- The instructions shown below detail a safer way to secure the set. This method fixes the set to the wall so that it cannot fall over when pulled forward. This will prevent the set from causing injury or damage. Please make sure that children don't climb on or hang from the set.

or

- Use the eye-bolts or set brackets/screws to fix the set to the wall as shown in the picture. (If there are bolts already installed where the eye bolts need to be fitted, remove them first.) Insert the eye-bolts or set brackets/screws and tighten them securely in the upper holes.
- Secure the wall brackets with heavy duty screws (not provided as parts of the set, must purchase separately) onto the wall. Match the height of the brackets that are mounted on the wall.

Use a sturdy rope (not provided as parts of the set, must purchase separately) to tie the set. It is safer to tie the rope so it becomes horizontal between the wall and the set.

Ensure that you connect the earth ground wire to prevent possible electric shock. If grounding methods are not possible, have a qualified electrician install a separate circuit breaker. Do not try to ground the unit by connecting it to telephone wires, lightening rods, or gas pipes.

Desktop Pedestal Installation

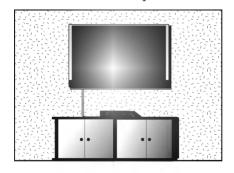

For proper ventilation, allow a clearance of 4" on each side and from the wall.

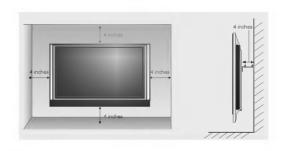

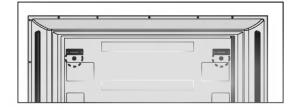

Wall Mount: Horizontal installation

For proper ventilation, allow a clearance of 4" on each side and from the wall. Detailed installation instructions are available from your dealer, see the optional Tilt Wall Mounting Bracket Installation and Setup Guide.

Early malfunctions can be prevented. Careful and regular cleaning can extend the lifetime of your new set. Be sure to turn the power off and unplug the power cord before you begin any cleaning.

Cleaning the Screen

- Here's a great way to keep the dust off your screen for a while. Wet a soft cloth in a mixture of lukewarm water and a little fabric softener or dish washing detergent. Wring the cloth until it's almost dry, and then use it to wipe the screen.
- Make sure the excess water is off the screen, and then let it air-dry before you turn on your set.

Cleaning the Cabinet

- To remove dirt or dust, wipe the cabinet with a soft, dry and lint-free cloth.
- Please be sure not to use a wet cloth.

Extended Absence

▲ CAUTION

▶ If you expect to leave your set dormant for a long time (such as a vacation), it's a good idea to unplug the power cord to protect against possible damage from lightning or power surges.
