OWNER'S MANUAL

MODEL: T80

**Please read this manual carefully before operating your set.
Retain it for future reference.**

Designs and specifications are subject to change without notice for improvement.

IMPORTANT SAFETY INSTRUCTIONS

CAUTION

RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK
OF ELECTRIC SHOCK
DO NOT REMOVE COVER (OR BACK)
NO USER-SERVICEABLE PARTS INSIDE
REFER SERVICING TO QUALIFIED SERVICE
PERSONNEL.

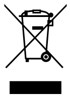
Warning

- To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.

Caution

- The appliance is not intended for use by young children or infirm persons without supervision.
- Young Children should be supervised to ensure that they do not play appliance.
- Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

Disposal of your old appliance



1. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC.
2. All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
3. The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.
4. For more detailed information about disposal of your old appliance, please contact your city office, waste disposal service or the shop where you purchased the product.

- The lithium battery contains lithium and can explode if it is not properly handled of disposed of.
- Replace only with a battery of the type recommended by LG.
- Caution: Danger of explosion if battery is incorrectly replaced. Replace only the rechargeable lithium battery with Amperex Technology Ltd. or LG, Part No.(LGEIP-A1100E) having the cell, 553450. Use of Another Cell May Present a Risk of Fire or Explosion.

This product is manufactured to comply with the EMC DIRECTIVE 2004/108/EC and Low voltage Directive 2006/95/EC.

Safety tips

Please follow the safety tips closely to reduce the risk of accidents or damage to equipment.
Safety instructions are divided into Warning and Caution.
Keep this manual in an easily accessible place.

Warning Not following the safety tips may result in death or serious injury.

Caution Not following the safety tips may result in a light accident or damage.

Warning

Do not use this product while driving.

Do not operate the Player near water, dust, or soot.

Do not use the Player and connect with the cable or AC adapter when the rain is pouring down and thunderstorms produce lightning.

Listening to the music loud for a long time may compromise your hearing ability.

Do not use earphones while riding bicycles and motor cycles or driving a car.

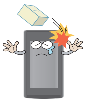
Check the volume before using a headphone. If headphones are used at high volume for more than 30 minutes, it may result in noise induced hearing damage.

Do not use the earphones loud while walking,especially on the crosswalks.

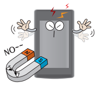
Stop using earphones or lower the volume when you have ringing in your ears.

Careful that headphones or earphones do not slip into the subway doors or automatic doors.

Caution

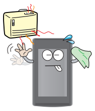


Do not drop an object or give shock on the product.

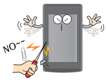


Do not place the player near a magnet or within the magnetic field.

Clean the Player with soft cloth.



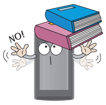
Keep this product away from heat.



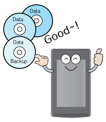
Do not insert a metallic object (coins or hair pins, etc.) or flammable objects in the product.
Do not drop such objects on the product either.

Do not disassemble, repair, or remodel the product.

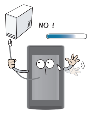
Note that the player may malfunction in an electro-static environment.



Do not place an object on the product.



Back up important data. (Note that the manufacturer is not responsible for the loss of major data caused by the user's mistake.)



Do not disconnect the USB cable. Do not turn off the player while the USB cable is connected. Otherwise, the data may get lost.

Features

Portable Data Storage
Easy storage and transfer of any file type.

USB 1.1 and 2.0
You can download files at a fast speed. (USB 2.0 high speed)

LG 3D Sound
3D sound effects, low tones, and low frequency sound provide greater sound quality.

Various background setting
Users can select a desired background image among various supported items or even create unique one to their likings.

DVB-T
DVB-T (Digital Video Broadcasting – Terrestrial) is the DVB European consortium standard for the broadcast transmission of digital terrestrial television. You can enjoy high quality digital audio and digital video broadcasting simultaneously.

Text Viewer
Convenient display of text files (.txt) for reading on the go.

Wide 3.0" Color TFT LCD
Photos and video are reproduced in vivid detail on the highly portable 260,000 color TFT LCD.

Touch screen
You can use the menus and functions of MP3 player by touching the LCD.

FM Reception(Optional)
With auto frequency selection feature, you can conveniently listen to the FM radio broadcasting.

Voice Recording
With the built-in microphone, you can record your voice and FM radio broadcasting anywhere.

Photo Viewer
Store and display photos on the vivid display for entertaining slide shows.

File Format Flexibility
- Music: MP3, OGG, WMA, WAV
- Video: LG AVI (The player can be only played the video files converted via LG Media Center.), WMV
- Photo: JPG, BMP
- Text: TXT

Media Device(MTP) Mode / Removable Disk(MSC) Mode

What is the Media Device(MTP) mode?

The MTP stands for the Media Transfer Protocol. It applies the latest technology defined by Microsoft to support multimedia devices.
- Windows XP / SP1 or higher OS, and Windows Media Player 10 or higher.
- To use the MSC mode, select the MSC mode in the PC Connection Setting menu.
- If the Windows OS does not support the MTP, the player will function in the MSC mode although the player is set in the MTP mode (Select the MSC mode for the USB in the setup menu for Windows 2000).

What is the Removable Disk(MSC) mode?

The MSC stands for the Mass Storage Class. The device in MSC mode functions like a portable memory.

Converting video file
MP3 player can be only played the video files converted via LG Media Center.

For details about conversion, see the Help menu [Converting video file] on LG Media Center.

PC Connection Setting

Media Device(MTP) Mode

You should download music files via LG Media Center or Windows Media Player 10 or higher.

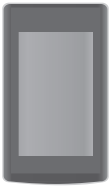
You should download video, photo, and text files via LG Media Center.

You can copy data files to the Data folder.

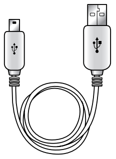
Removable Disk(MSC) Mode

You can copy the Media file to the Removal Disc. (But you should download video files via LG Media Center.)

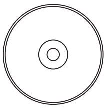
Package contents



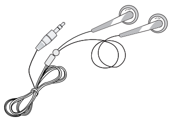
T80



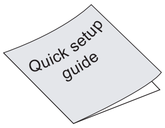
USB cable



Software CD



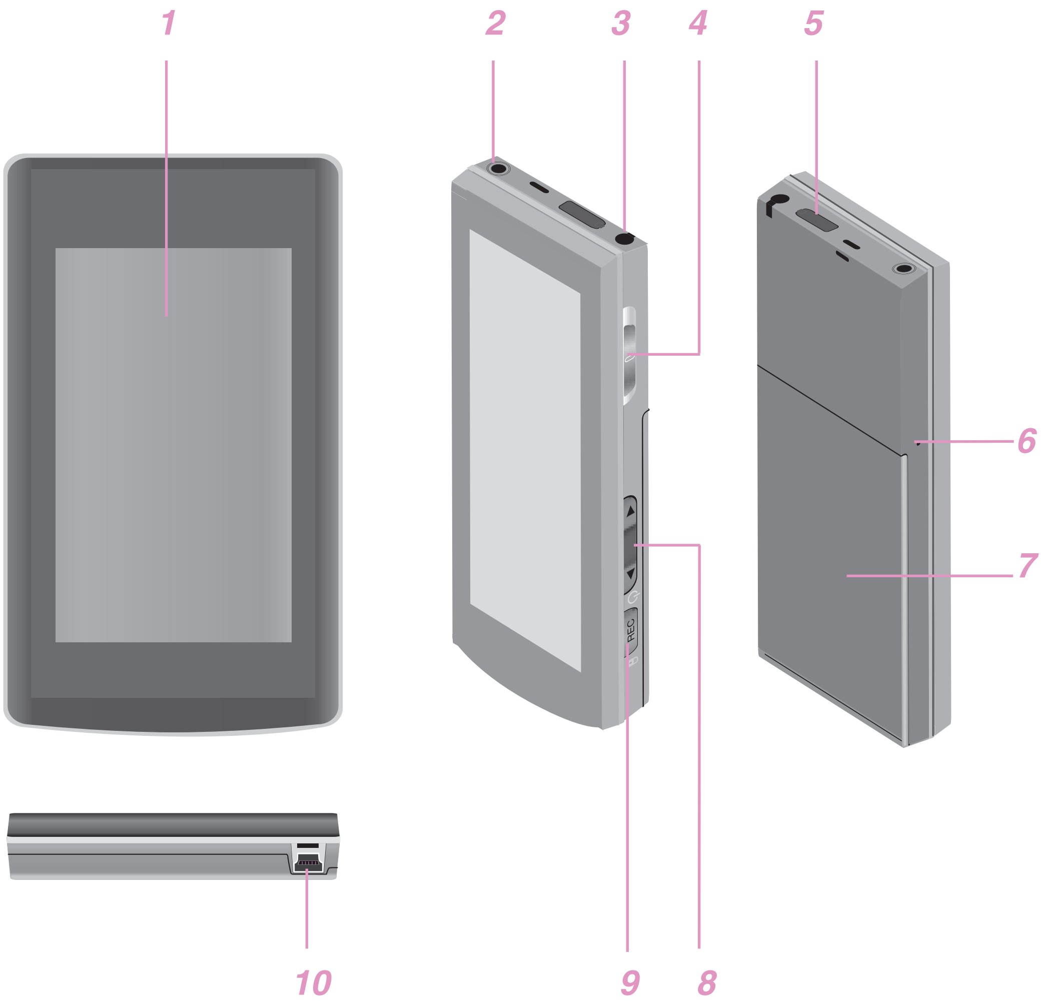
Kernel type earphones



Quick Setup Guide

- The images inserted herein are examples to make users understand the more easily and may be little bit different from the real product.
- The contents of the product are subject to change without prior notice for functional improvement.
- Contact with one of call centers supplied with this manual to buy batteries.

Name of each component



1 Display screen (*Touch Screen)
2 Earphone jack
3 DVB-T antenna
4 • Power on/off
  • Hold switch (🔒)
5 External antenna jack(for DVB-T)
6 Microphone hole/RESET hole
7 Battery cover
8 Volume button
9 Record (REC) button
10 USB port

*** Precautions in using the touch screen**

- Do not tap on the touch screen with your fingers unclean or gloves on.
  - Otherwise, the selected function may not operate in any way. Use it with bare hands lightly.
- Do not press the touch screen hard to make it work.
  - If you apply too much strength, it can damage the sensor of the touch screen.
- Touch the point that you want to work in order to operate the function correctly.
- Do not touch the screen with sharp objects like pins, or it cause scratches on the screen.

Before installing the operating program

Check the specifications of your PC before using the Player.

Minimum system requirements
- CD-ROM Drive
- Pentium III or higher level CPU / 128MB or larger memory
- 300MB or larger hard disc space, 800 X 600 mode
- Hi-color (16 bit) or higher level video card, Sound card

Operating environment
- The MTP mode is applied to the PC equipped with Windows XP (SP1) or higher-version OS or the Windows Media Player 10/11. To the lower-version OS, the MSC mode is applied.

Windows Media Player 10/11
- You can download the file using Synchronize with Windows Media Player 10/11 menu.
- For more information, see the Help menu of Windows Media Player 10/11.

LG Media Center
- Windows 2000/XP/Vista
- Windows Media Player 10/11/ Internet Explorer 6.0
- Windows Media Player or Internet Explorer will be automatically installed during installation of the LG Media Center. Internet connection must be connected in order to install Internet Explorer.

About LG Media Center

The LG Media Center program is an integrated data management program developed for users to more conveniently use the MP3 player.

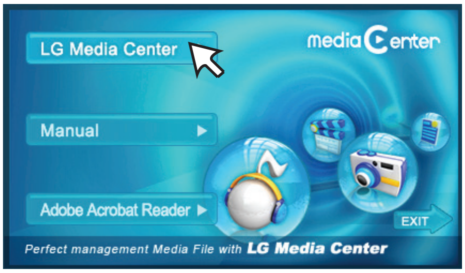
Features of the LG Media Center

You can efficiently manage music, video, and photo files through the Media Library rule and download them to the MP3 player.

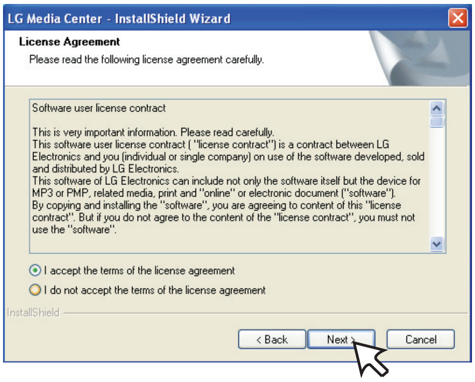
Installing LG Media Center

1 Insert the operation program CD into the CD-ROM.

2 Select [LG Media Center].



3 Read the License Agreement. Select the check box and click [Next].



LG Media Center - InstallShield Wizard

License Agreement

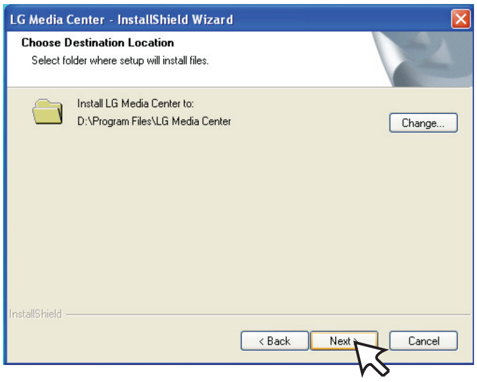
Please read the following license agreement carefully.

Software user license contract

This is very important information. Please read carefully.
This software user license contract ("license contract") is a contract between LG Electronics and you (individual or single company) on use of the software developed, sold and distributed by LG Electronics.
This software of LG Electronics can include not only the software itself but the device for MP3 or PMP, related media, print and "online" or electronic document ("software").
By copying and installing the "software", you are agreeing to content of this "license contract". But if you do not agree to the content of the "license contract", you must not use the "software".

● I accept the terms of the license agreement
○ I do not accept the terms of the license agreement

4 Select the installation path and click [Next].



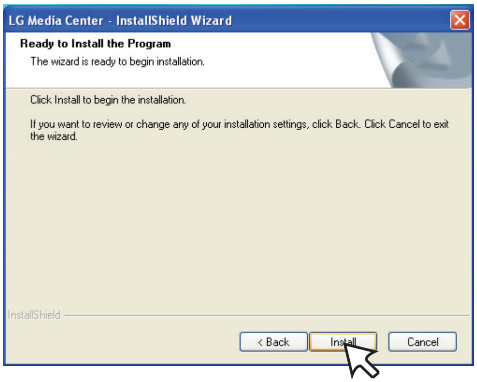
LG Media Center - InstallShield Wizard

Choose Destination Location

Select folder where setup will install files.

Install LG Media Center to:
D:\Program Files\LG Media Center

5 Click [Install] to start installation.



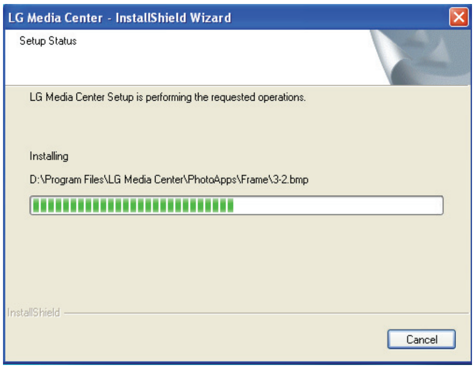
LG Media Center - InstallShield Wizard
InstallShield
< Back
Install
Cancel

Ready to Install the Program

The wizard is ready to begin installation.

Click Install to begin the installation.

If you want to review or change any of your installation settings, click Back. Click Cancel to exit the wizard.



LG Media Center - InstallShield Wizard
InstallShield
Cancel

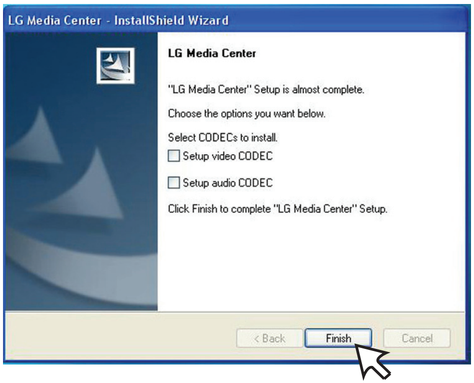
Setup Status

LG Media Center Setup is performing the requested operations.

Installing

D:\Program Files\LG Media Center\PhotoApps\Frame\3-2.bmp

6 After finishing the installation, click [Finish].



LG Media Center - InstallShield Wizard
< Back
Finish
Cancel

LG Media Center

"LG Media Center" Setup is almost complete.

Choose the options you want below.

Select CODECs to install.

☐ Setup video CODEC

☐ Setup audio CODEC

Click Finish to complete "LG Media Center" Setup.

- You can install CODEC if it is not installed on PC.

7 Click [Start] ⇨ [All Programs] ⇨ [LG Media Center] to start the program.

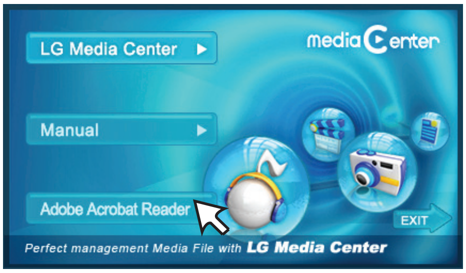
Note

- During installation of the LG Media Center, you can install the Windows Media Player and the Internet Explorer for an operating environment.
- The pop up image may be different depending on the OS of PC.

Installation of the Adobe Acrobat Reader

1 Insert the operation program CD into the CD-ROM.

2 Select [Adobe Acrobat Reader].



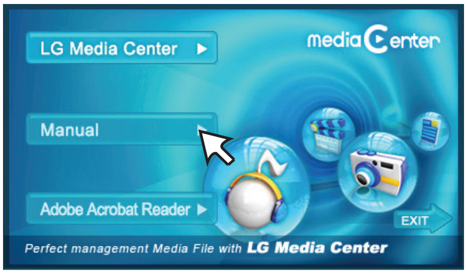
LG Media Center
media Center
Manual
Adobe Acrobat Reader
EXIT
Perfect management Media File with LG Media Center

3 Follow the displayed instructions.

View the manual

1 Insert the operation program CD into the CD-ROM.

2 Select [Manual].



LG Media Center
media Center
Manual
Adobe Acrobat Reader
EXIT
Perfect management Media File with LG Media Center

3 You can see the manual.

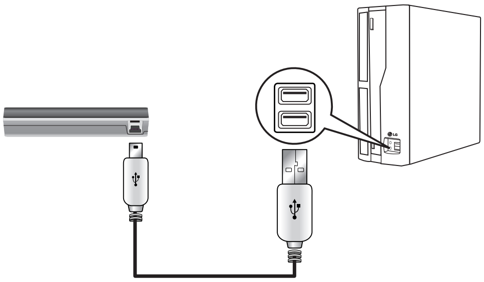
Note

You must install the Adobe Acrobat Reader to read the manual.

To connect the USB cable

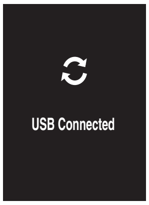
1 Connect one end of the USB cable to the USB port of the PC and the other to the USB port of the player.

- Check whether both ends are correctly plugged in.



2 If the USB device is normally recognized after the cable is connected, the following will be displayed.

- The software version is displayed on screen.



USB Connected

3 In case of a correct connection, an icon will be displayed on the task bar of the PC.

- The icon shapes on the task bar may differ depending on the OS of the PC.

Note

- In case you connect the device to PC with an extended usb cable or non-certified usb hub, it may not operate.

To disconnect the USB Cable

Media Device(MTP) mode

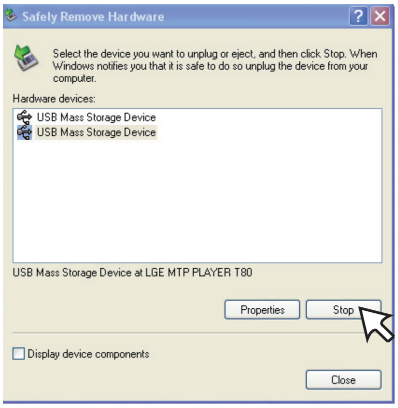
Disconnect the USB cable from the PC after checking whether a file is transferring.
If the file is transferring, disconnect it after the transfer is completed.

Removable Disk(MSC) mode

This feature is to safely remove MP3 player from the PC after uploading or downloading the files.

1 Double-click on the Remove Hardware icon on the task bar of the PC.

2 Click [Stop] when the window appears.



Safely Remove Hardware

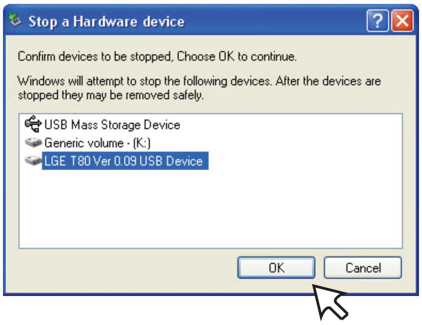
Select the device you want to unplug or eject, and then click Stop. When Windows notifies you that it is safe to do so unplug the device from your computer.

Hardware devices:

USB Mass Storage Device
USB Mass Storage Device

USB Mass Storage Device at LGE MTP PLAYER T80

3 Click [OK].



Stop a Hardware device

Confirm devices to be stopped, Choose OK to continue.

Windows will attempt to stop the following devices. After the devices are stopped they may be removed safely.

USB Mass Storage Device
Generic volume - (K:)
LGE T80 Ver 0.09 USB Device

4 After a message that the large-capacity USB storage can be safely removed is displayed, remove MP3 player from the PC.

- If the USB cable is disconnected while storing or deleting the file, the data may get lost.

To download files - MTP mode

MP3 player will be recognized as a mobile device, not a mass storage, and will interwork with the Windows Media Player 10/11.

1 Connect one end of the USB cable to the USB port of the PC and the other to the USB port of MP3 player.

- Check whether both ends of the cable are correctly plugged in.

2 The window “MTP Media Player” appears in the PC.

1) a. “Synchronize media files to this device” ⇨ “OK”

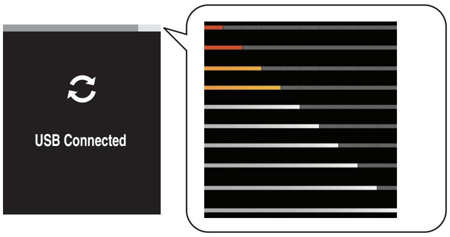
Charging the MP3 player

USB cable

MP3 player will be also automatically charged when connecting the PC and MP3 player with USB cable.

- On the display of MP3 player, the charging status will be displayed as follows: (Charging time : about 4 hours)

Charging status

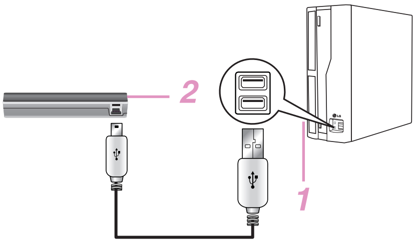


Note

- MP3 player may completely discharged first time you purchase the product. Charge the battery first.
- Charging time may vary according to PC system requirements or operating environment. If your PC is suspended, MP3 player is not charged.
- Do not charge MP3 player for longer than 12 hours. Overcharge and overdischarge may shorten the battery life.
- After checking the state of a remaining battery of note book, connect the USB cable and charge it.
- Do not charge it when the remaining battery of the note book is not enough.
- If you transfer files on charging, the charging time will be extended.
- Charge the battery in a place with a normal temperature.
- In case you connect the device to PC with an extended usb cable or non-certified usb hub, it may not operate.

AC adapter(Not supplied)

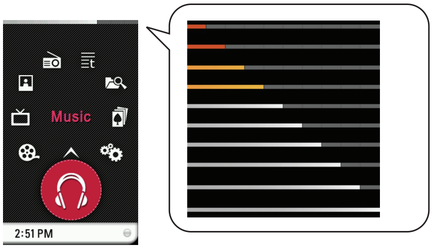
1 Connect the AC adapter to the AC outlet.
2 Connect the USB cable of AC adapter to the USB port of MP3 player.



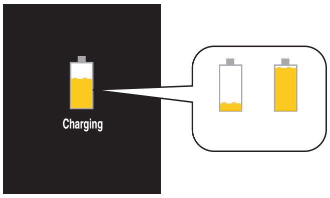
- On the display of MP3 player, the charging status will be displayed as follows: (Charging time: about 4 hours)

Power-on status

Charging status



Power-off status



Note

- Do not disconnect AC Adapter before booting of MP3 player is completed. The data may get lost.
- Use the confirmed AC adapter(EAY34275101) when you charge the MP3 player, otherwise the MP3 player may malfunction.
- Do not charge MP3 player for longer than 12 hours. Overcharge and overdischarge may shorten the battery life.
- Charge the battery in a place with a normal temperature.

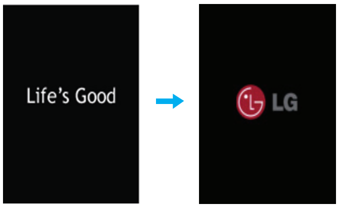
Turning on/off the power

Turning on the power

Push the power on/off switch in the direction of the ⏻ until MP3 player is turned on.

Turning off the power

Push the power on/off switch in the direction of the ⏻ until MP3 player is turned off.



Power On

Power Off

Lock feature

This feature locks MP3 player to prevent it from operating when you accidentally press a button.

1. Push the power on/off switch in the direction of the 🔒 to lock MP3 player.
   - Upon locked status, 🔒 will be displayed on LCD.

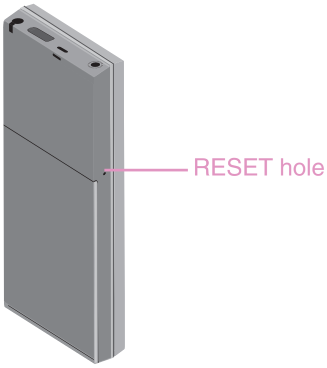
     Upon pressing of each button, 🔒 will appear for two seconds and disappear.
2. Push the power on/off switch in the opposite direction of the 🔒 button to unlock the device.

Reset feature

This feature is to reset the player when the MP3 player does not operate normally.

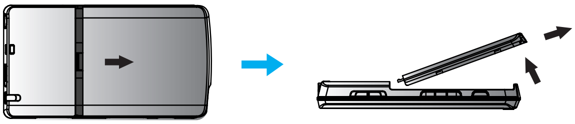
Prick the hole with a sharp object when the MP3 player does not operate normally.

- Push the power on/off switch in the direction of the ⏻ for about 10 minutes if you do not have not any sharp object.

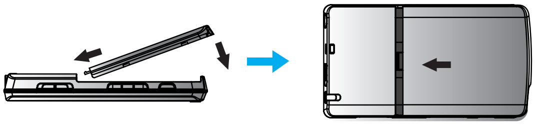


Changing battery

1. Pull the battery cover in the direction of the arrow and lift up gently.



2. Detach the battery and insert a new one with +/- aligned.
3. Fit the fitting protrusion to the fitting grove of the player and push it gently as shown below.



Note
- Make sure to turn the player off when changing the battery. Or it may cause errors on the DRM file playback.
- Do not use a non-certified battery. Or it may damage the player or battery and cause the battery to explode.
- Contact with one of call centers supplied with this manual to buy batteries.

Home menu screen

You can operate various features by using the Home menu.

* Home menu screen varies according to product models (FM radio reception is optional.)

The Way Things Work
Tue, 09 May
12:00 ~ 12:25

For Germaine Greer, Jenny Éclair, Maureen Lipman, Sheila Hancock and their cohorts life after 40 is one long, hard slog as they complain about completely rational irritations as well as the ridiculous and inconsequential things. And don't mention that four-letter word – WORK. Or worse – their work colleagues – MEN!!

- **Reserving DVB-T TV/Radio programs**

1 Select a program on [Reserving] column of EPG to reserve it.

Charlie and Caitlin struggle to find security in their new relationship. To spite Charlie for downplaying an encounter with an ex, Caitlin accompanies one of New York's ten sexiest men on a business date to make Charlie jealous. Meanwhile, the Mayor plots a way to one-up his rival, the Mayor of Los Angeles.

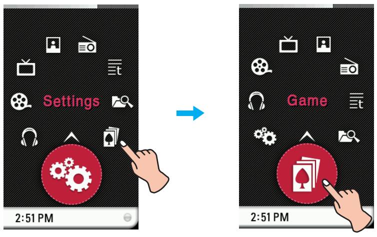
Game

1 Select the 🂠 icon of the home menu.



[Dynamic HEADING] game
Heading for both side of balls that mission will be succeed.
Do not pile up the over 5 balls in given time.
Many kinds of items will appear.

[PIKKO] game
See the tail of wind, put **PIKKO** by pressing **PIKKO** the basket.
Chances are just 5 times! You can get the lost chances in every 5 success by one. High score is the most succeed chances.

[Champion Batter] Game
To gain the mission point of each level, the batter should get to first base.
If you use a pinch hitter of each level, the mission will be easily completed.
Be careful with various ways of pitch and 11 special pitches.

[Salad World] Game
To escape vegetables, place more than 3 same vegetables, in a line (up, down, right and right) Use magnetic and fog effect items. Fog - the effect will be going on for 6 second. If you click one salad during fog effect, all same vegetables can escape.

[Burning Skewered Food] Game
Complete skewered food according to order box by operating button related to materials.

2 Press the desired game file.
- For details, see the [HELP] or [Information] menu.

Settings

Music

Play Mode

- Repeat One
  Plays the current file repeatedly.
- Play All
  Plays all music within the selected folder in order.
- Repeat All
  Plays all music within the selected folder repeatedly.
- Random All
  Plays all music within the selected folder randomly.
- Random Repeat All
  Repeats all music within the selected folder randomly.

Music Speed

You can set the playing speed of MP3 files.

- You can select [0.3 times], [0.5 times], [1 time], [1.5 times], and [2 times].
- The default value is [1 time].
- MP3 files sampled at less than 32KHz can support only [1 time].

Sound Effect

- EQ: You can set the sound effect.
  (AUTO EQ, NORMAL, POP, ROCK, R&B/SOUL, HIPHOP/RAP, JAZZ, CLASSICAL, DANCE, LIVE, USER EQ)
- 3D Sound: You can experience 3D sound effects.
  (Off, CLEAR, 3D EXPANDER, STADIUM, CONCERT HALL, CLUB, ROOM, BASS BOOST, X-LIVE)

Fade In

You can gradually increase the volume to protect ears.

- You can select [On] or [Off].

Scroll Speed

Sets the speed of the file name and ID3 tag information in the music playing mode.

- You can select [Off], [0.5 times], [1 time], [2 times], and [3 times].

Search Interval

You can select the slide show interval.

- You can select [3 sec], [5 sec], [10 sec], or [30 sec].

Background setting

You can select the photo file for music background.

- Album Art : Displays the album jacket during playback.
- **Album Art**
  1) The album image saved with a music file is displayed.
     - Synchronize the file with album information on Windows Media player.
  2) If a photo file is saved as the same name as that of ID3 Tag Album of a music file on the same folder, the photo is displayed as an album art.
  3) If a photo file is saved as the same name as that of a music file on the same folder, the photo is displayed as an album art.
  4) The three cases exist simultaneously, an album art is displayed in the following order [1]-[2]-[3].
- **User Image**
  Displays the user's desired photo during playback.
- **Default Image**
  Displays the basic photo during playback.

Movie

Search Speed

You can set the playing speed of movies files.

- 1 time : Searches at an original speed.
- 2 times : Searches at 2 times speed.
- 3 times : Searches at 3 times speed.

MXD Engine Effect

You can show a high-definition image of movie files.

- You can select [On] or [Off].

DVB-T

Region Setting

You can set the reception area among 17 countries.

Electronic Program Guide

EPG(Electronic Program Guide; specified as EPG hereafter) helps you to see what is currently being shown on the channels you receive. You can set ON or OFF to activate the EPG.

Aspect ratio

You can set the screen ratio between 4:3 or 16:9.

Photo

Slide show

You can set the slide show to On/Off.

- On : Turns on the slide show.
- Off: Turns off the slide show.

Slide Interval

You can set the slide show interval to [2 sec], [3 sec], [4 sec],or [5 sec].

Text

Font Color

You can set the character color in the text mode.

- You can select [White], [Gray], [Green], [Blue], [Yellow], or [Red].

Auto Skip

Sets an interval for auto text skipping.

- You can select [Off], and a value from [12 sec] to [22 sec].

Screen display

You can select screen display between Portrait or Landscape.

- Portrait : Texts are displayed vertically.
- Landscape: Texts are displayed horizontally.

Radio

Mode

You can set the reception mode.

- You can select [Auto] or [Mono].

Sensitivity Setting

The higher, the more frequency channels.

- You can select [High], [Standard], or [Low].

Region Setting

You can set the reception area among 17 countries.

Reserved Recording

You can reserve the FM radio recording.

- You can set the frequency for reserved recording.
- You can set only one reserved recording.
- Recording can be made for maximum 23 hours and 59 minutes.

Radio background

You can select the photo file for radio background.

- **User Image**
  Displays the user's desired photo during playback.
- **Default Image**
  Displays the basic photo during playback.

Record

Recording Quality

You can set the quality of the recorded file.

- You can set [96kbps], [128kbps], or [192kbps].

VAD

In case of voice recording, recording will automatically stop upon mute sound and will resume upon reception of the voice signal.

- You can select [On] or [Off].

Time

Sleep Reservation

When the defined time passes, MP3 player will be automatically turned off.

- You can select [Off], [10 min], [30 min], [1 hr], or [2 hr].
- If you set the turning-off reservation, MP3 player will automatically store files and be turned off at the reserved time.
- After MP3 player is turned off at the reserved time, the turning-off reservation will be automatically cancelled.

Time System

You can set the current time in 12/24 hour time system.

Time Setting

You can set the current time.

- You can set years between 2001 and 2099.
- When downloading files synchronized on windows media player in MTP mode, the time setting of MP3 player will be synchronized with the one of the PC.

Time zone

You can set a applicable time zone on the player.

Summer time

You can set daylight saving time system to this player's clock system.

- On : Applies the summer time system to this player and then one hour is adjusted forward.
- Off: Deactivates the summer time system.

Note

When moving to other regions or countries, you have to set the Time zone and summer time system to be compatible there.

Display Setting

Brightness

You can adjust the brightness level from 0 to 9.
The default brightness is 6.

Theme Setting

Sets menu type.

- You can select [Icon type] or [List type].

Menu Color

You can set the color of the home menu to [Red]/[Blue].

Screen saver

After the defined time passes, the screen saver is activated to protect display screen.

- You can select [On]or [Off].
- When the set time for screen saver activation is the same as or longer than that for Auto Power off, the screen saver is not activated.
- When playing video file and performing photo slide show, the screen saver is not activated.

Menu background

You can select the photo file for menu background.

- **Theme setting**
  Displays a theme image you selected among Default Theme setting, Leisure, Animal, Artist, Rhythm, Equalizer, and Animal skin.
- **User image**
  Displays the user's desired photo during playback.

Screen saver background

You can select the photo file for screen saver background.

- **Default image**
  Displays the basic photo during playback.
- **User image**
  Displays the user's desired photo during playback.

General

Rebuilding

You can search the downloaded files and upgrade the list.

- You can select [Yes] or [No].
- If you select [Yes], the list will be upgraded. If you select [No], MP3 player will return to the general setting screen.
- As updating the list may take time, check the battery status in advance.

Initialize Settings

You can initialize the setting of MP3 player.

- You can select [Yes] or [No].
- If you select [Yes], MP3 player is automatically turned off after MP3 player is initialized.
- If you select [No], MP3 player moves to the previous menu.

System Info

You can check the product information.

- The entire memory space, the used memory space, remaining memory space, the model name and firmware version are displayed.

Language

You can select the language.

- Korean, English, Portuguese, Danish, German, Dutch, French, Italian, Norwegian, Spanish, Swedish, Finnish

Power Management

- Auto Display Off
  If no button is inputted during the given time, the LCD will be automatically turned off.
  - You can select [Off], [5 sec], [10 sec], [30 sec], or [60 sec].
- Auto Power Off
  If no button in selected in the standby mode for playing, the screen will be automatically turned off.
  - You can select [Off], [30 sec], [1 min], [5 min], or [10 min].

PC Connection Setting

- Media Device(MTP) Mode
  - The MTP applies the latest technology of Microsoft to support the multimedia devices. It is recognized as a mobile devices and compatible with Windows Media Player10.
- Removable Disk(MSC) Mode
  - MP3 player will function as a general removable storage in this mode.

Format

You can delete all data in the memory and initialize the memory.

- You can select [Yes] or [No].
- If you select [Yes], formatting will be made. If you selects [No], MP3 player will return to the general setup screen.
- Back up the data stored in MP3 player before initializing it.
- Deleted data cannot be recovered.

Calibration

You can adjust a focus on LCD.

- Press "+" repeatedly.

Upgrading firmware automatically

Connect MP3 player to the PC where the LG Media Center is installed to download a new version of firmware.

- Functions only in the Internet-connected PC.
- Back up important data before upgrading, or the data may get lost.

1 Connect one end of the USB cable to the USB port of the PC with the LG Media Center installed and the other to the USB port of MP3 player.

2 The LG Media Center will compare the firmware versions of MP3 player and the server. If it detects a new firmware version, it asks you whether to upgrade the version.

3 Click [OK] to copy new firmware to the MP3 player.

4 Upon updating, new version firmware will be copied to the MP3 player.

5 To safely remove the device, remove the USB cable.
(In MSC mode)

6 When "Firmware upgrade?" message is displayed, click the REC.

7 The firmware updating progress bar will be displayed. After the upgrade is completed, the power will be automatically turned off.
- Wait till the player is automatically restarted.

8 You can check the firmware version in Home Menu [Settings] of Home Menu ⇨ [General] ⇨ [System Info].

Upgrading firmware manually

You can upgrade the firmware for addition and change of features of MP3 player and for functional improvement.

Back up important data before upgrading, or the data may get lost.

1 Check the model number at the company website, and download the latest version.

- http://www.lge.com ⇨ Support ⇨ Download ⇨ Software
(The contents may differ depending on the website.)

2 Decompress the downloaded files. Then, T80.rom file will be displayed.

3 Connect the USB cable to the MP3 player and the PC.

4 Check whether a new drive has been added in the Windows Explorer in the PC.

- The drive name may differ depending on the OS.

5 Select the T80.ROM and T80VIS.PAC files and copy it to the newly added drive.

- In Windows Media Player 10 version:
  In MSC mode: Highest root
  In MTP mode: Data folder
- In Windows Media Player higher than 10 version: Internal Storage

6 To safely remove the device, remove the USB cable.

7 When "Firmware upgrade?" message is displayed, click the REC.

8 The firmware updating progress bar will be displayed. After the upgrade is completed, the power will be automatically turned off.

- Wait till the player is automatically restarted.

9 You can check the firmware version in Home Menu [Settings] of Home Menu ⇨ [General] ⇨ [System Info].

Troubleshooting

Q : MP3 player will not be turned on.

A : Check whether the battery is remaining.

A : Connect the AC adapter and charge the battery.

Q : The screen is blur.

A : Avoid direct sun rays and adjust the brightness.

A : Check the LCD brightness.

Q : The button does not function.

A : Check whether the Hold feature is active.

A : Check whether you pressed right button.
Refer to the page 6 for using touch screen.

A : Press the reset hole. Refer to the page 15.

Q : The noise is severe during listening to the radio, and the reception is poor. (FM radio reception is optional.)

A : The earphone functions as an antenna.
Be sure to handle carefully.

A : Slightly change the directions of MP3 player and the earphones.

Q : The player can not receive FM broadcasting.

A : The bundled earphones operates as an antenna. Stretch the wires not to be entangled while listening FM radio.

A : Move to other locations where you can receive the reception and enhance its quality.

A : Check whether you set mute.
In that case, deactivate mute operation.(Refer to page 34)

Q : After the files are downloaded, the playlist will not show the newly added files.

A : Upgrade the list in Setup menu.

A : Format the product and download the file.

- If you format MP3 player, all data in it will get lost.

Q : DVB-T broadcasting is sometimes interrupted while moving.

A : Reception sensitivity may be different depending on signal receiving areas and signal reception may get weak while moving in bus or train.
Move to other locations where you can receive the reception and enhance its quality.

Q : Channel search is not operated in DVB-T mode.

A : Check whether the region setting is set correctly in [Settings]⇨[DVB-T]⇨[Region Setting].

A : Extend the antenna completely or slightly change the direction s of it.

A : Move to outside to enhance signal reception if you try to use DMB-T function indoors.

Q : After the firmware is upgraded, MP3 player is not normally functioning.

A : Reset the product (See page 15)

A : Back up the data and format MP3 player.

- If you format MP3 player, all data in it will get lost.

Q : Sometimes, files are not downloaded.

A : Check the PC Connection Setting of MP3 player.
(See page 10 - 11.)

A : Check the PC Connection Setting. Some files can be downloaded depending on the PC Connection Setting. All files can be downloaded in MSC mode.

Q : The PC can not recognize an MP3 Player.

A : Check the PC Connection Setting. In the case of Windows 2000, PC Connection Setting should be set to MSC in Setup Menu.

A : Check if the USB driver on the provided CD is installed.

Q : AVI/WMV file will not play.

A : Only video files transcoded by LG Media Center
can be played. Make sure the files to be played are converted by LG Media Center. Refer to the LG Media Center [Help] on how to transcode your files.

Q : Characters are not shown properly in text files.

A : If the text file is encoded in a format that your text file viewer doesn't understand, text data seem to be garbaged or corrupted.

A : You should convert the text file into Unicode on a PC which supports your language of choice and download it.

A : Set the characters to the corresponding languages in [Settings] ⇨ [General] ⇨ [Language].

Q : ID3 TAGs of the music are broken or are not displayed.

A : Set the ID3 TAGs to the corresponding languages in [Settings] ⇨ [General] ⇨ [Language].

Error code

Resource Error !!!
Please Burn Resources..

Code 001 023

Please see the manual.

Code Number

When you try to use non-supported files or services, system errors happen, or additional measures are needed in the player, the error codes specified below may be displayed. In that case, please troubleshoot the problems by referring to the corrections as below before visiting service centers.

Code Num	Correction
001	From the <Download> menu on the Homepage, download the newest “ROM” and “VIS.PAC” files, and then upgrade with it. Or you can upgrade the firmware in LG Media Center. [Tools] -> [Firmware update].
002	Reset the player. (Refer to page 15)
003	Contact a LG service center near you.
004	Delete unnecessary files to ensure enough space in the player.
005	Connect the player to PC and delete more than 30MB to ensure enough space in it.
006	Connect the player to PC to delete the files/ folders.
007	Download the files again through LG Media Center.
008	Set the desired image as a background again into the player.
009	Set the mode of the player to MTP and synchronize files on Windows Media Player 10 or higher version.
010	Connect the player to PC and format it. (Or activate the format function on setting menu) [Settings - General - Format]
011	Initialize the player. [Settings - General - Initialize Settings]
012	Use the player after having the battery fully charged.
013	The battery is not compatible with the player. Use the confirmed battery.
200	Scrambled channels are not supported in the player.
201	The service is not supported in the player.

Specifications

Type	Item	Specifications
Memory	Capacity	4GB/8GB
	File system	FAT32
PC	OS for MP3 Player Device	Win2000/XP/VISTA
	OS for LG Media Center	Win2000/XP/VISTA
	Interface	USB 2.0
General specifications	Dimensions	55.4 (W) X 98.5 (H) X 12.9 (D)
	Weight	80.8g (with battery) (Depends on the product model.)
	Operating temperature	0°C + 40°C
Audio	Frequency range	20Hz ~ 20kHz
	Signal-to-noise ratio	90dB
	Channel response	40dB (1kHz)
	Maximum output	18mW+18mW
FM radio (Optional according to model)	Frequency range	87.5~108MHz
	Signal-to-noise ratio	50dB
	Channel response	22dB (1kHz)
	Antenna	Earphones antenna
Playback time	Video	About 5.5 hours
	Audio	About 40 hours (for 128Kbps/44.1KHz EQ normal)
	DVB-T	About 2 hours
Power supply	Battery (Detachable)	Lithium Ion DC 3.7V 1100 mAh Chargeable Battery
Files	Audio	MP3, OGG, WMA, WAV (ADPCM)
	Video	LG AVI (30 frames), LG WMV (30 frames)
	Image viewer	JPG, BMP
	Text viewer	TXT
Display	TFT LCD	3.0" / 260,000 colors

Note

Some parts of the storage space of the MP3 player are usually used for storing the information that is internally treated. Therefore, the storage capacity that can be actually used may be somewhat smaller than specified in the manual. (The size of the storage space for the internally treated information can be changed for product upgrade without any notice to the end users.)
