Safety Information

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT REMOVE COVER (OR BACK) NO USER-SERVICEABLE PARTS INSIDE REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

Always operate the vehicle in a safe manner. Do not become distracted by the vehicle while driving, and always be fully aware of all driving condition.

Do not change settings, or any functions. Pull over in a safe and legal manner before attempting such operations.

Do not use for many hours at extremely low or high temperature. (-10 °C to 60 °C)

To reduce the risk of electric shock, do not remove the cover or back of this product. There are no user-serviceable parts inside. Refer servicing to qualified service personnel.

To reduce the risk of fire or electric shock, do not expose this product to dripping or splashing water, rain, or moisture.

The temperature of unit's outside can be extremely high, please use the unit after proper installation in your vehicle.

This unit cannot play 8cm disc (use 12cm disc only).

While driving, keep the sound volume at a proper level.

Do not drop it and avoid heavy impacts at anytime.

The driver must not watch the monitor while driving. If the driver watches the monitor while driving, it may lead to carelessness and cause an accident.

This unit is for vehicles with a 12-volt battery and negative grounding. Before installing it in a recreational vehicle, lorry or bus, check the battery voltage. To avoid shorts in the electrical system, be sure to disconnect the E battery cable before beginning the installation.

CAUTION: This product employs a Laser System.

To ensure proper use of this product, please read this owner's manual carefully and retain it for future reference. Shall the unit require maintenance, contact an authorized service centre.

Use of controls, adjustments or the performance of procedures other than those specified herein may result in hazardous radiation exposure.

To prevent direct exposure to laser beam, do not try to open the enclosure. Visible laser radiation when open. DO NOT STARE INTO BEAM.

"This device is equipped with a portable battery or accumulator.

Safe way to remove the battery or the battery from the equipment:

Remove the old battery or battery pack, follow the steps in reverse order than the assembly. To prevent contamination of the environment and bring on possible threat to human and animal health, the old battery or the battery put it in the appropriate container at designated collection points. Do not dispose of batteries or battery together with other waste. It is recommended that you use local, free reimbursement systems batteries and accumulators." The battery shall not be exposed to excessive heat such as sunshine, fire or the like.

You have to set the disc format option to [Mastered] in order to make the discs compatible with the LG players when formatting rewritable discs. When setting the option to Live File System, you cannot use it on LG players.

(Mastered/Live File System : Disc format system for Windows Vista)

For ensuring safe driving

- To avoid the risk of accident and the potential violation of applicable laws, this unit is not for use with a video screen that is visible to the driver.
- This unit detects whether your car's parking brake is engaged or not, and prevents you from watching a DVD,VCD, PHOTO or movie file on the display connected to FRONT VIDEO OUTPUT while driving. When you attempt to watch a DVD,VCD, PHOTO or movie file the screen will turn black. When you park your car in a safe place and apply the parking brake, the picture appears on the screen.

Disposal of your old appliance

1. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC.
2. All electrical and electronic products shall be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
3. The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.
4. For more detailed information about disposal of your old appliance, please contact your city office, waste disposal service or the shop where you purchased the product.

LG Electronics hereby declares that this/these product(s) is/are in compliance with the essential requirements and other relevant provisions of Directive 2006/28/EC (ANNEX I, 3.2.9), 72/245/EEC, and 2006/95/EC.

Introduction

About the \emptyset Symbol Display

" \emptyset " may appear on your monitor display during operation and indicates that the function explained in this owner's manual is not available on that disc.

Symbol Used in this Manual

DVD	DVD-Video, DVD \pm R/RW in Video mode or VR mode and finalized
ACD	Audio CDs
MOVIE	Video files
MUSIC	Audio files
PHOTO	Photo files

Resetting the unit

You can reset the unit when it does not operate properly.

1. Press  to open the control panel.
Refer to the page 12 for detaching the control panel.
2. Prick the reset hole with a sharp object.

Playable USB device

Requirement

- Do not extract the USB device during operation (play, etc.).
- An USB device which requires additional programme installation when you have connected it to a computer, is not supported.
- USB device: USB device that support USB 1.1 and USB 2.0 Full Speed.
- Movie, music and photo files can be played. For details of operations on each file, refer to relevant pages.
- Regular back up is recommended to prevent data loss.
- If you use a USB extension cable, USB HUB, USB Multi-reader, or external HDD, the USB device may not be recognized.
- When you connect a partitioned USB device into the unit, only the first partition is recognized on it.
- Some USB device may not work with this unit.
- Digital camera and mobile phone are not supported.
- USB Port of the unit cannot be connected to PC. The unit cannot be used as a storage device.

File compatibility

Audio files

- Sampling frequency : within 8 kHz to 48 kHz (MP3), below 48 kHz (WMA)
- Bit rate : within 8 kbps to 320 kbps (MP3), below 320 kbps (WMA)
- File extensions: ".mp3", ".wma", ".wav", ".ogg", ".aac(less than 16 kHz)"
- Maximum files : Under 3000.
- CD-ROM file format : ISO9660/ JOLIET.
- We recommend that you use Easy-CD Creator, which creates an ISO 9660 file system.

Photo files

- Max pixel in width : 4000 x 4000 pixel.
- Maximum files : Under 3000.
- Some discs may not operate due to a different recording format or the condition of disc.
- File extensions: ".jpg", ".jpeg", ".png", ".gif", ".tiff", ".bmp"
- CD-ROM file format : ISO9660/ JOLIET.

Video files

- Available resolution size: 720 x 576 (W x H) pixels
- Frame rate: 30 FPS
- Playable codec format: "MPEG1", "MPEG2", "MPEG4", "MP4V3S", "3IVX", "MSVC", "3IV0", "3IV1", "3IV2".
- This player supports only 1 warp point of Global Motion Compensation (GMC).

Playable Discs

DVD-VIDEO (12 cm disc)
Discs such as movies that can be purchased or rented.

DVD-R (12 cm disc)

DVD-RW (12 cm disc)

DVD+R (12 cm disc).
Supports the double layer disc also.

DVD+RW (12 cm disc)

Audio CD: Music CDs or CD-R/CD-RW in music CD format that can be purchased.

Some DVD±RW/DVD±R or CD-RW/CD-R cannot be played on this unit due to the recording quality or physical condition of the disc, or the characteristics of the recording device and authoring software.

Regional Codes

This unit has a regional code printed on the top of the unit. This unit can play only DVD discs labeled same as the top of the unit or "ALL".

Copyrights

It is forbidden by law to copy, broadcast, show, broadcast via cable, play in public, or rent copyrighted material without permission. This product features the copy protection function developed by Rovi. Copy protection signals are recorded on some discs. When recording and playing the pictures of these discs picture noise will appear. This product incorporates copyright protection technology that is protected by U.S. patents and other intellectual property rights. Use of this copyright protection technology must be authorized by Rovi, and is intended for home and other limited viewing uses only unless otherwise authorized by Rovi. Reverse engineering or disassembly is prohibited.

CONSUMERS SHOULD NOTE THAT NOT ALL HIGH DEFINITION TELEVISION SETS ARE FULLY COMPATIBLE WITH THIS PRODUCT AND MAY CAUSE ARTIFACTS TO BE DISPLAYED IN THE PICTURE. IN CASE OF 525 OR 625 PROGRESSIVE SCAN PICTURE PROBLEMS, IT IS RECOMMENDED THAT THE USER SWITCH THE CONNECTION TO THE 'STANDARD DEFINITION' OUTPUT. IF THERE ARE QUESTIONS REGARDING OUR TV SET COMPATIBILITY WITH THIS MODEL 525p AND 625p UNIT, PLEASE CONTACT OUR CUSTOMER SERVICE CENTER.

The making of unauthorized copies of copy-protected material, including computer programmes, files, broadcasts and sound recordings, may be an infringement of copyrights and constitute a criminal offense.

This equipment should not be used for such purposes.

Installation

About detachable control panel

You should attach the control panel after unpacking the box to use the receiver unit. And you can detach it according to your needs and keep it in the protective case.

Attaching the control panel

1. Attach part **A** of the control panel to part **B** of the unit.
2. Attach part **C** of the control panel to part **D** of the unit while pushing the control panel to left.
3. Close the control panel.

Attaching the control panel

CAUTION

- The control buttons may not work properly if the control panel is not attached properly. If this occurs, gently press the display.
- Do not leave the control panel in any area exposed to high temperatures or direct sunlight.
- Do not drop the control panel or otherwise subject it to strong impact.
- Do not allow such volatile agents as benzene, thinner, or insecticides to come into contact with the surface of the control panel.

Detaching the control panel

Detaching the control panel

1. Press  to open the control panel.
2. Push the control panel to left.
3. Pull the control panel out of the unit.
4. Put the detached control panel into the protective case.

! NOTE

Periodically wipe the contacts on the back of the control panel with a cotton swap moistened with alcohol. For safety, turn off the ignition before cleaning, and remove the key from the ignition switch.

Basic Installation

Basic Installation

Before installing, make sure that the ignition-switch is set to OFF and remove the terminal of the car battery to avoid short-circuiting.

1. Remove the existing receiver unit.
2. Make the necessary connections.
3. Install the installation sleeve.
4. Install the unit into the installation sleeve.

Removing the existing receiver unit

If there is already an installation sleeve for the receiver unit in the dashboard, it must be removed.

1. Remove the rear support from the unit.
2. Remove the control panel and trim ring from the unit.
3. Insert the lever into the hole on one side of the unit. Perform the same operation on the other side and pull the unit out from the mounting sleeve.

ISO-DIN Installation

1. Slide the unit into the ISO-DIN frame.
2. Fit screws removed from the old unit.
3. Slide the unit and frame into the dash opening.
4. Install the dash panel or adapter plate.
(According to models, this step may not be needed.)
5. Install the control panel to the unit.

Remote Control Battery Installation

1. Pull out the battery holder with a sharp product like a ball point pen.
2. Put the battery with **+** and **-** correctly on the battery holder.
3. Push the battery holder back into its original position.

! NOTE

- Use only one CR2025 (3 V) lithium battery.
- Remove the battery if the remote control is not used for a long period of time.
- Do not leave the product in a hot or humid place.
- Do not handle the battery with metallic tools.
- Do not store the battery with metallic materials.

Connection

Connecting to a car

Before installing, make sure that the ignition-switch is set to OFF and remove the terminal of the car battery to avoid short-circuiting.

Connection 1

Connecting to optional equipment

You can connect optional equipment to the corresponding terminals of the unit.

Connection 2

No.	Terminal	Position
1	Video IN	Rear view cameras
2	Audio out	Rear left speaker or Subwoofer left (Optional)
3	Audio out	Rear right speaker or Subwoofer right (Optional)
4	Video out	Auxiliary devices (Car TV, monitor, etc.)
5	Audio out	Front left speaker
6	Audio out	Front right speaker
7	Wired remote input	Hard-wired control adapter (Not supplied)
8	Rear signal from rear view camera	Rear view camera

Refers to the original language in which the disc was recorded.

Lock

Password

You can change password. When you use the unit first, input the default password of 0000.

1. Input a current password and press the volume knob (**LIST/ENTER** on the remote control).
2. Input a new password and press the volume knob (**LIST/ENTER** on the remote control).
3. Enter the password again and press the volume knob (**LIST/ENTER** on the remote control) to verify.

Area Code

Enter the code of the area whose standards were used to rate the DVD video disc, based on the list on page 31.

Rating

Blocks playback of rated DVD based on their content. (Not all discs are rated.)

[Rating 1-8]

Rating one (1) has the most restrictions and rating eight (8) is the least restrictive.

REC Bit Rate

You can set the quality of the recorded file among 96 Kbps, 128 Kbps, or 192 Kbps.

Beep

2nd

The beep is generated when a key is pressed for longer than 2 seconds.

All

The beep is generated when any key is pressed.

OFF

The beep is deactivated.

Clock

Only when you set CT to OFF on the Func menu of Tuner mode, you can adjust it.

Time format

You can adjust the time system between 12 Hours and 24 Hours systems.

Clock Setting

Set the hour and then the minute by using the volume knob (**Λ** or **V** on the remote control). After setting each one, press the volume knob (**Λ** or **V** on the remote control) to confirm it.

! NOTE

If you set the Time Format to 12 Hours , you should set one between AM and PM first.

4

Operation

Basic Operations

1. Turn the unit on by pressing any key on the unit.
2. Insert the disc after pressing  or connect the USB device to the USB port.
3. Select the Disc or USB function by pressing **SRC**.
4. Rotate the volume knob on the unit or press **VOL.+/-** on the remote control.

NOTE

Make sure to press  after opening the front panel to release a disc. Refer to the picture as below.

To use a mixed disc or USB device

When playing a disc or USB device containing with audio, video, and photo files together, you can select a file category which you would like to play by pressing **BAND/•TA**.

Before watching DVD

DVD MOVIE

When you attempt to watch a DVD, the screen is displayed as below. Then, select [Yes] or [No] by rotating the volume knob or pressing < or > on the remote control.

[Yes]

The playback starts without any restriction.

[No]

The screen is turned black 5 seconds after selecting the item. However, when you press any key, the screen is turned on and off after 5 seconds.

NOTE

Even though you select [No], if you connect a hand brake line to the unit, the screen is not turned black even after 5 seconds.

To pause playback

Press **▶||** (**||** on the remote control) during playback.

Press **▶||** (**▶** on the remote control) to resume playback.

To scan forward or backward

• On the unit

Press and hold **◀|** or **|▶** repeatedly during playback to play fast forward or fast reverse with various playback speeds.

• On the remote control

Press **◀◀** or **▶▶** repeatedly during playback to play fast forward or fast reverse with various playback speeds.

To skip to the next/previous chapter/track/file

During playback, press **◀|** or **|▶** (**◀◀** or **▶▶** on the remote control) to go to the next chapter/track/file or to return to the beginning of the current chapter/track/file.

Press **◀|** (**◀◀** on the remote control) twice briefly to step back to the previous chapter/track/file.

Turning off the sound temporarily

1. Press **MUTE** to mute your unit.
2. To cancel, press any key.

Other Operations

To display file information

If you want to display a currently playing file/disc during playback, press **Ⓢ** (**DISPLAY** on the remote control).

NOTE

For music files, press **Ⓢ** (**DISPLAY** on the remote control) repeatedly during playback, you can set the display background with File name, ID3 TAG, or Clock time.

To slow down the playing speed

While the playback is paused, press **▶▶** repeatedly to play various speeds of slow motion for movie files.

To play frame-by-frame

Press **||** while movie playback.

Press **||** repeatedly to play Frame-by-Frame playback.

Quick search

1. Press the volume knob (**LIST/ENTER** on the remote control) to check files.

2. Press **↵** (**RETURN** on the remote control) to check folders.
3. Select a desired folder by using the volume knob (**▲/▼/◀/▶** on the remote control).
4. Press the volume knob (**LIST/ENTER** on the remote control).
5. Select a desired file/ track by using the volume knob (**▲** or **▼** on the remote control).
6. Press the volume knob on the unit (**LIST/ENTER** on the remote control) to start playback.

For a DVD disc, you can search according to the items below. When you select Title Search or Chpter Search, you can select a desired chapter or title by using the volume knob (**▲** or **▼** on the remote control) after the step 1.

! NOTE

- If no button is pressed for 10 seconds, the on-screen display disappears.
- A title number cannot be selected on some discs.
- Available items may differ depending on discs or titles.

Using the Func menu

By adjusting the Func menus, you can enjoy files/track/chapters in a way you want.

1. Press **MENU**.
2. Select **Func** and press the volume knob (**LIST/ENTER** on the remote control).
3. Select a desired item by using the volume knob (**▲** or **▼** on the remote control).
4. Press the volume knob (**LIST/ENTER** on the remote control) repeatedly to adjust items.
5. Press **↵** (**RETURN** on the remote control) to return to the previous menu.

[Repeat]

DVD **MOVIE** **MUSIC** **PHOTO**

Sets repeat playback according to File, Folder, Track, Title or Chapter.

[Shuffle]

MUSIC

Sets random playback according to Files, Folders, or Tracks. During random playback, even if you press **◀|◀◀** on the remote control, you won't go back to the previous track.

[Intro Scan]

MUSIC

The first 10 seconds of each tracks/files on the disc or in the current selected folder are played.

[Audio]

DVD **MOVIE**

Sets audio language or channel.

[Subtitle]

DVD **MOVIE**

Sets a desired subtitle language.

[Angle]

DVD

If the disc contains scenes recorded at different camera angles, you can change to a different camera angle during playback.

NOTE

For adjusting Repeat, Shuffle, Intro Scan, Audio language, Subtitle, or Angle menu, you can simply use the short-cut buttons on the remote control.

Using the time search bar

DVD **MOVIE**

Using the time search bar, you can find easily the point where you want to start playback of movie files.

1. During playback, press and hold the volume knob (**LIST/ENTER** on the unit) until the bar turns red.

2. Rotate the volume knob on the unit or press < or > to select a point that you want to play.
3. Press the volume knob (**LIST/ENTER** on the remote control).

Resume playback

DVD

The unit records the point where you pressed **■** depending on the disc.

If **■■■** (Resume Stop) appears on the screen briefly, press **▶** to resume playback (from the scene point).

If you press **■** twice, **■■■** (Complete Stop) appears on the screen. The unit will clear the stopped point.

NOTE

The resume point may be cleared when the unit is turned off or the inserted disc is released.

Viewing a photo

1. Press the volume knob (**LIST/ENTER** on the remote control) to check files.
2. Press **↩** (**RETURN** on the remote control) to check folders.
3. Select a desired folder by using the volume knob (**▲** or **▼** on the remote control).
4. Press the volume knob (**LIST/ENTER** on the remote control).
5. Select a desired file by using the volume knob (**▲** or **▼** on the remote control).
6. Press the volume knob (**LIST/ENTER** on the remote control) to view a photo.

To skip to the next/previous photo

While viewing a photo, press **◀-|** or **+|▶** (**<** or **>** on the remote control) to go to the previous or next photo.

NOTE

If you want to go to the first file of a previous or next folder, press **▲** or **▼** on the remote control.

To rotate a photo

Press **◀◀** or **▶▶** on the remote control to rotate a photo clockwise or counter-clockwise.

Viewing photo files as a slide show

1. Press **▶||** (**▶** on the remote control) to start slide show.
2. Press **▶||** (**||** on the remote control) during slide show to pause a slide show.

Adjusting the speed of slide show

You can set the slide show speed on the Func menu.

1. Press **MENU**.
2. Select **Func** and press the volume knob (**LIST/ENTER** on the remote control).
3. Select **Slide Show** by using the volume knob (**▲** or **▼** on the remote control).
4. Press the volume knob (**LIST/ENTER** on the remote control) repeatedly to set the speed among Slow, Normal, or Fast.

Listening to the radio

1. Select **Tuner** by pressing **SRC**.
2. Select a band by pressing **BAND/•TA**.
3. For manual search, press and hold **◀-|/+|▶** on the unit or **<** or **>** on the remote control until "Manual" is displayed. Then press it repeatedly to select a desired frequency.

For auto search, press **◀-|/+|▶** on the unit or **<** or **>** on the remote control until "Search" is displayed.

4. Rotate the volume knob on the unit or press **VOL.+/-** on the remote control.

Storing desired frequencies manually

1. Press **BAND/•TA** to select a desired band you want to store.
2. Press and hold **◀/•/▶** on the unit or **<** or **>** on the remote control and then press it repeatedly to select a desired frequency.
3. Select a desired preset number .

- **On the unit**

Press the volume knob and rotate it. Then, press it again to store.

- **On the remote control**

Press and hold one of preset buttons among 1-6 on the remote control until the beep sound is heard.

4. Repeat steps 1-3 to preset other stations.

NOTE

When a station is stored on the preset numbers on which another station of the same band has already been preset, the previously preset station is automatically erased.

Listening to a preset station

1. Press **BAND/•TA** to select a desired band.
2. Press the volume knob on the unit or **LIST/ENTER** on the remote control.
3. Rotate the volume knob on the unit or press **<** or **>** on the remote control to select a preset station.
4. Press the volume knob (**LIST/ENTER** on the remote control).

Or

Press **BAND/•TA** and then the desired preset button among 1-6 on the remote control.

Adjusting Tuner settings

1. Press **MENU**.
2. Select **Func** and press the volume knob (**LIST/ENTER** on the remote control).
3. Select a desired item by using the volume knob (**▲** or **▼** on the remote control).
4. Press the volume knob (**LIST/ENTER** on the remote control) repeatedly to adjust items.
5. Press **↵** (**RETURN** on the remote control) to return to the previous menu.

Auto Store

The six strongest broadcasting frequencies will be stored under preset button 1-6 in the order of their signal strength.

To cancel, press **BAND/•TA** or **SRC**.

Preset scan

Each preset station of each band is displayed in blue.

To cancel, press **BAND/•TA** or **SRC**.

Sensitivity

In an area in which signal reception is weak, it helps the tuner to search more stations.

You can set the signal reception sensitivity differently according to areas.

[Local] In areas with good signal strength

[Normal] In areas with good normal strength

[Dx] In areas with bad signal strength

PTY (Program type)

It searches the radio stations by program types of FM tuner.

AF(Alternative frequency)

When the reception quality drops and you set AF to ON, the tuner automatically changes to another station in the network, broadcasting a better reception quality.

REG (Region)**[ON]**

The unit switches to another station, within the same network, broadcasting the same program when the receiving signals from the current station become weak.

[OFF]

The unit switches to another station, within the same network when the receiving signals from the current station become weak. (In this mode, the program may differ from the one currently received one.)

TA (Traffic Announcement)**[Alarm]**

When the tuned station has no TP information for 5 seconds, a double beep sound is output.

[Seek]

When the tuned station does not receive TP information for 5 seconds, the receiver retunes to the next station that has the TP information.

PI (Programme Identification)**[Sound]**

When the frequency of a tuned station switches to an AF (Alternative frequency) with an unidentified PI, it keeps the sound.

[Mute]

When the frequency of a tuned station switches to an AF with an unidentified PI, it mutes the sound until the PI is identified.

CT (Clock Time)

You can use the RDS CT information to update the time. When RDS CT information is not received and then you set CT to OFF, you can adjust the time by yourself. Refer to the page 20 for setting the clock.

Enjoying music or movie by connecting an external device

You can enjoy music or movie files of an external device by connecting it to the unit.

1. Connect an external device to the AUX jack with line input cable.
2. Select **AUX** by pressing **SRC**.
3. Play the connected Auxiliary Equipment.
4. Rotate the volume knob on the unit or press **VOL.+/-** on the remote control.

Preventing radical changes in volume as switching sources

You can adjust the volume level of each source to prevent radical changes in volume by adjusting AUX Input Gain.

1. Press **MENU**.
2. Press the volume knob (**LIST/ENTER** on the remote control) repeatedly to select AUX Input Gain from -6 dB to +6 dB.
3. Press **↵** (**RETURN** on the remote control) to return to the previous menu.

Recording to USB from Disc or FM tuner

1. Open the USB cover and connect it to the unit.
2. Select Disc or FM tuner.
3. Start playback.
4. On FM tuner mode, press **REC** to start recording.

On CD playback mode, press **REC** then the menu items are displayed as below;

Track

You can record a desired track.

1. Press the volume knob (**LIST/ENTER** on the remote control).
2. By rotating the volume knob (**LIST/ENTER** on the remote control) to select a desired track.
3. Press the volume knob (**LIST/ENTER** on the remote control).

All

You can record all of the tracks.

Remaining

You can record from the selected track and all of the remaining tracks.

1. Select [Remaining] by using the volume knob (**▲** or **▼** on the remote control).
2. Press the volume knob (**LIST/ENTER** on the remote control).
3. By rotating the volume knob (**LIST/ENTER** on the remote control) to select a desired track.
4. Press the volume knob (**LIST/ENTER** on the remote control).

5. Press **REC** or **↵** (**RETURN** on the remote control) again to stop.

NOTE

- Do not remove the USB device during recording, or an incomplete file may be made and not deleted on PC.
- When USB memory is full, "Not Enough Memory" displays and stops recording.
- For tuner recording, the broadcastings are recorded by 20 moments on a file name.
- If the USB is removed, the front panel gets open, or the unit is turned off during recording, the recording stops.
- If recoring is abruptly stopped, just the file name is saved in a corresponding folder with no recording data.

5

Maintenance

Notes on Discs

Handling Discs

Never stick paper or tape on the disc.

Storing Discs

After playing, store the disc in its case. Do not expose the disc to direct sunlight or sources of heat and never leave it in a parked car exposed to direct sunlight.

Cleaning Discs

Do not use strong solvents such as alcohol, benzene, thinner, commercially available cleaners, or anti-static spray intended for older vinyl records.

Handling the Unit

When shipping the unit

Please save the original shipping carton and packing materials. If you need to ship the unit, for maximum protection, re-pack the unit as it was originally packed at the factory.

Keeping the exterior surfaces clean

- Do not use volatile liquids such as insecticide spray near the unit.
- Wiping with strong pressure may damage the surface.
- Do not leave rubber or plastic products in contact with the unit for a long period of time.

Cleaning the unit

To clean the player, use a soft, dry cloth. If the surfaces are extremely dirty, use a soft cloth lightly moistened with a mild detergent solution. Do not use strong solvents such as alcohol, benzene, or thinner, as these might damage the surface of the unit.

Maintaining the Unit

The unit is a high-tech, precision device. If the optical pick-up lens and disc drive parts are dirty or worn, the picture quality could be diminished. For details, please contact your nearest authorized service centre.

Specifications

General

Output Power:	53 W x 4 CH (Max.)
Power Source:	DC 12 V
Speaker impedance:	4 Ω
Ground System:	Negative
Dimensions (W x H x D):	178 x 50 x 169 mm (Without Control Panel)
Net Weight (Approx.):	1.42 kg

TUNER

FM Tunning Range:	87.5 to 107.9 or 87.5 to 108 MHz
AM Tunning Range:	520 to 1720 or 522 to 1620 kHz

CD

Frequency Response:	20 Hz to 20 kHz
S/N Ratio:	85 dB
Distortion:	0.1 %
Channel Separation (1 kHz):	55 dB

AUX

Frequency Response:	20 Hz to 20 kHz
S/N Ratio:	85 dB
Distortion:	0.1 %
Channel Separation (1 kHz):	55 dB
Max Input Level (1 kHz):	2 V

USB

Version	USB 1.1 or USB 2.0 Full Speed
Bus Power Supply (USB)	DC 5V  500 mA

Line OUT

Frequency Response:	20 Hz to 20 kHz
Output Voltage:	2 V (Max.)

Subwoofer(OPTIONAL)

Frequency Response:	20 Hz to 120 Hz
Output Voltage:	2 V (Max.)
