

Frequently Used applications

Take some time to explore the applications that are available on your LG eXpo™. Here are a few applications to get you started.

	AT&T AppCenter: Shop for games, ringtones, graphics, multimedia, and other applications.
	AT&T Navigator: Find your way with voice-guided turn-by-turn GPS driving directions, real-time traffic information, full color moving 3D maps, and more.
	AT&T Music: ID a song, shop for music, watch music videos, and access XM® Radio.
	ActiveSync: Synchronize your phone with a computer or Exchange Server.
	Calendar: View and create appointments.
	Contacts: Save contact information for friends and colleagues.
	Internet Explorer: Browse the web and visit your favorite sites.
	Mobile Web: Start your web browsing from your personalized Media Net Home page.
	Email: Set up your email accounts to send and receive email.
	Text Messages: Send and receive text messages.
	Office Mobile: Use the Microsoft Office Mobile suite on your phone.
	Phone: Make and receive calls, and access your Call History.
	Windows Media Player: Play music, videos, and more.
	Wireless Manager: Located in your Settings' Connections menu, use this manager to turn on/off your Wi-Fi, Bluetooth, or Phone connectivity.

What's in the Box

The following items are included in the box to help you set up your LG eXpo.™

Power adapter

Battery

Data cable

Hands-free headset

Device Setup

Insert the SIM card and battery

1. Pull the latch and lift the battery cover.
2. Remove battery (if present).
3. If your SIM card is already inserted, proceed to step 5.
4. With the gold metal contacts on the SIM card facing down and the cutoff corner towards the bottom of the device, slide the SIM card into the SIM card holder.
5. Insert the battery so that the metal contacts on the battery align with the metal contacts on your device.
6. Replace the battery cover back onto the device and push down so that the latch locks the cover into place.

Note: Your battery can take up to 3 hours to fully charge using the power adapter. It will take much longer using the data cable connected to your computer.

Device Setup (cont.)

Charge the battery

1. Before connecting the charger to the phone, check to make sure the battery is installed.
2. Connect the small end of the data cable to the USB/Charger port on the top of your LG eXpo™.
3. Connect the large end of the data cable to the power adapter.
4. Plug the power adapter into a power outlet.
5. Charge the battery until "Battery full" appears on the screen.

Power on the device

To turn on the device, press the  button for 3 seconds.

Calibrate the touchscreen

When turning on your phone for the first time, a touch calibration screen will appear. Calibrating the device screen involves using the stylus to tap the targets on the screen. You can also calibrate the screen at any time by following these steps:

1. Tap **Start > Settings > System > Screen**.
2. On the **Alignment** tab, tap the **Align Screen** button and follow the instructions on the screen. After calibration is completed, the Screen settings menu will reappear. Click **OK** on upper right corner to return to the home screen.

Insert a microSD™ memory card (sold separately)

Use a memory card to extend the memory available on your LG eXpo™ for storing media files such as ringtones, videos, pictures or songs.

1. On the right side of the phone, lift the memory card slot cover to expose the slot.
2. Insert the memory card into the slot with the metal contacts facing down.
3. Slide the memory card into the card slot until the card clicks into place.
4. Rotate the memory card slot cover back to its original position and press into place.
5. To remove the card, open the memory card slot cover. Push the memory card in to partially eject it. Grab the end of the card and gently pull to remove completely.

Note: Do not force the memory card into the slot. If the card does not slide in easily, please check that the card is being inserted the correct way or if there is a foreign object in the slot.

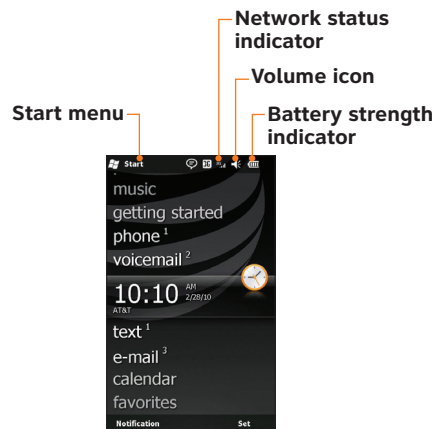

Device Setup (Cont.)

Explore the Today screen

The Today screen will appear when you turn on your LG eXpo.™ The Today screen displays current information and alerts, including new email, text messages, upcoming appointments, voicemails and missed calls.

- **pictures:** Allows you to access and browse pictures and videos saved on your smartphone.
- **music:** Allows you to browse and place music saved on your smartphone.
- **getting started:** A shortcut for setting up your smartphone features.
- **phone:** Displays the number of missed calls.
- **voicemail:** Displays the number of new voicemails.
- **clock:** Shows the current time and date (if highlighted) and allows you to set alarms.
- **text:** Allows you to view your new messages.
- **e-mail:** Allows you to view your new emails.
- **calendar:** Displays upcoming appointments.
- **favorites:** Displays bookmarked websites.
- **IM:** Provides a shortcut to your Instant Messenger services.

Note: Swipe your finger up, down, left, or right to scroll through the options. Tap on the item to open it.

Learn to Use the Basic Functions

The title bar contains important icons that display the current status of your wireless signal, connection type and signal strength, battery power, and any other alerts received.

Message Indicators

	New email or text messages.
	New voicemail.
	There are multiple notifications. Tap the icon to view all.

Battery Strength Indicators

	Indicates the remaining battery power.
	Indicates the battery is very low.
	Indicates the battery is charging.

Network Status Indicators

	Connected to the 3G network.
	Signal strength.
	Searching for phone service.
	No phone service.
	No signal.

Learn to Use the Basic Functions (Cont.)

Touchscreen menu navigation

- There's no need to press hard, the touchscreen is sensitive enough to pick up on a light yet firm touch.
- Use a stylus or the tip of your finger to touch the icon or application you want to open.
- Do not cover the phone with any screen covers as the touchscreen may not work with any material covering it.

Scrolling

- Use your finger or stylus to scroll through the screen. Tap and drag in any direction. Note that not all functions and features support scrolling in all directions.
- You can also use your Fingerprint/navigation sensor to scroll. Slide your finger up, down, left, or right over the sensor to scroll.

Zooming in or out

- When browsing with Internet Explorer, use the Zoom feature to zoom in. To zoom back out, simply double-tap the screen.

Using your keypad

Your LG eXpo™ has a slide out Qwerty keypad for easy text entry.

End key: End a call. Go back to the Today screen.

Back Key: Go back to the previous screen.

Send key: Make a call.

Fingerprint/navigation sensor

FN : To enter numbers or alternate symbols press **FN** and then the desired key. Press and hold **FN** to lock and keep typing symbols and numbers.

Caps Shift : To enter a capital letter press **CAPS** and then press the desired key. Press and hold **CAPS** to lock and type capitals continuously.

Learn to Use the Basic Functions (Cont.)

Entering text with your on-screen keyboard

Full QWERTY

In portrait mode, the Full QWERTY mode lets you enter characters by tapping the key labeled with the required letter.

Half QWERTY

In Half QWERTY mode, a single tap will display the first letter of the key you tapped. Quickly tapping the key a second time results in entering the second letter on the key.

Note: Tap **FN**, then tap the **DEL** key to switch between the Full QWERTY and Half QWERTY keyboards.

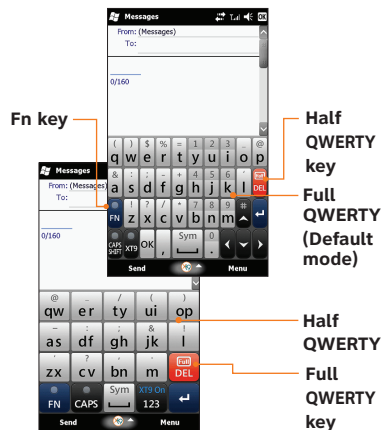

Accessing symbols

The symbol mode enables you to enter symbols or the alternate characters. Press the **FN** key then the **Sym** (Spacebar) key to display the symbol keyboard.

Accessing numbers/capitals

Tap **FN** then tap the corresponding key to enter just one number. Tap and hold **FN** to be able to enter multiple numbers, continuously. Tap **FN** again to unlock the number function.

Tap **CAPS** then tap the corresponding key to enter one capital letter. Tap and hold **CAPS** to be able to enter multiple capitalized letters, continuously. Tap **CAPS** again to unlock the capitals function.

Note: Tap  to open or close the onscreen keyboard.

Voice Calls & Voicemail

Making a call

1. From the Today screen, press the **Send** key  to open the keypad.
2. Using the keypad on the screen, dial a phone number then tap the **Send** button on the screen or press the **Send** Key .
3. To end the call, press the **End** button on the screen or the **End** Key .

Setup voicemail

1. From the dialpad, press and hold the **1** key.
2. Follow the voice prompts.

Note: After you have setup your voicemail, you can press and hold **1** to access your voicemail messages.

Contacts & Appointments

Add a contact

1. Tap **Start > Contacts > New**.
2. Select the contact type.
3. Enter contact information.
4. When finished, tap **OK**.

Add a recent caller to contacts

1. Press Send to display recent call history.
2. Tap and hold the call entry for the context menu to appear.
3. Tap **Save to contacts**.
4. Tap **<New Contact>**.
5. Select a contact type.
6. Enter a name, number and other contact info.
7. Tap **Save**.

Copy contacts from the SIM card to the device

5. Tap  to create the Favorite.
6. After editing the information, tap **Add** to finish saving the Favorite.

Note: To access the address bar and options bar, tap .

Internet Explorer Screen

Email

Corporate/personal email overview

Your LG eXpo™ is capable of accessing your corporate or personal email. You can setup multiple email accounts, all accessible from the email section of the Today screen. When you setup corporate email, you may need to talk to your company's IT administrator to get server name and settings necessary for access.

Set-up personal email

1. From the Today screen, tap **Email > Setup email**.
2. Enter your Email address and Password, then tap **Next**. Auto configuration will attempt to download the necessary email server settings so that you do not need to enter them manually.
3. Once Auto configuration has finished, tap **Next**. If necessary, configure the account manually using the server settings provided by your IT administrator.
4. Enter your name (the name you want displayed when you send email) and account display name, tap **Next**.
5. Select how often you want to have your email synchronized with your device from the automatic Send/Receive drop down menu.

Note: Your LG eXpo™ can detect personal email settings for most common email service providers. If it does not detect your settings automatically, please refer to your service provider's website for server information and security settings.

Send email

1. Scroll to **e-mail** on the Today screen. Swipe left to right to access browse the email accounts. Tap the email account you want to access.
2. Tap **Menu > New**.
3. Enter recipient's email address.
4. Tap the **Subject** field and then enter the subject.
5. Tap in the message box and enter the message.
6. Tap **Send** at the lower left of the screen.

Read email

1. Scroll to **e-mail** on the Today screen. Swipe left to right to access browse the email accounts. Tap the email account you want to access.
2. Locate and tap the message you want to open.

Note: Tap **Inbox** (in the top left of the E-mail screen) to open the drop-down menu to view the available sub folders.

Corporate email setup

To setup corporate email on your LG eXpo,™ contact your IT administrator for setup instructions and support for Microsoft Direct Push. Microsoft Direct Push provides wireless access to your corporate email, contacts, calendar, and tasks using a Microsoft Exchange Server. Activate an appropriate smartphone data plan on your AT&T account before using Microsoft Direct Push.

AT&T Navigator

AT&T Navigator helps you get around town by providing voice-guided turn-by-turn GPS directions with real-time traffic alerts and 3D maps. As you drive, the directions are spoken over the speakerphone so you can keep your hands on the wheel and eyes on the road. AT&T Navigator automatically monitors traffic ahead of you and gives you the option to route around traffic with the touch of a button.

Note: Additional fees may apply for the use of these GPS services.

Setting Up AT&T Navigator

1. Tap **Start > AT&T Navigator**.
2. Read the Terms and Conditions, then tap **Accept**.
3. On the login page, confirm your phone number, then enter your first and last name.
4. Tap **Login**. When you log in to AT&T Navigator for the first time you may need to confirm your phone number and enter your name and PIN. (Your PIN may be sent to you via text message and is usually the last four digits of your mobile number.)
5. Read the Warning message, then tap **Go**.
6. Tap **Yes** to view the product tour (or tap No to skip this tour).
7. To activate the GPS features of AT&T Navigator, if you did not complete the subscription process, tap **Upgrade to AT&T Navigator**.
8. Choose your subscription option and tap **Go**.

Get directions

1. Tap **Drive To**.
2. Tap **Address**.
3. Tap **Type It** and enter address manually (or tap **Speak It** to enter address verbally).
4. Tap **Done** to generate your route.

Note: To exit AT&T Navigator, return to the main AT&T Navigator menu and tap **Exit**. Maps and information may not be available for all locations.

Video Share

Share events the moment they happen. Video Share allows you to stream one-way live or pre-recorded video while on a mobile-to-mobile voice call. Video Share is a one-way video, two-way audio connection.

Note: Both devices must be provisioned for Video Share and be in 3G service areas. Additional fees may apply for the use of these services.

Make a Video Share call

1. Place the call; the **Video Share Ready** button will turn green when the caller has answered and their Video Share capability has been confirmed.
2. Tap this button to initiate a Live Video Share call.

Note: To share a recorded video, wait for the Video Share Ready button to turn green, then press **Menu > Live or Recorded**.

Accept a Video Share call

1. When receiving a Video Share request, the name or number of the person initiating the call will appear on the screen with the prompt **...Wants to Video Share with you**.
2. Select **Accept** and the Video Share session will begin automatically.

End a Video Share call

1. To end a Video Share session and continue with the voice call, tap **Stop** and continue talking.
2. To end both the Video Share session and the voice call, press the **End** key.

Bluetooth

Bluetooth® enables compatible mobile devices, accessories and computers that are in close proximity to the phone communicate directly with each other, wirelessly.

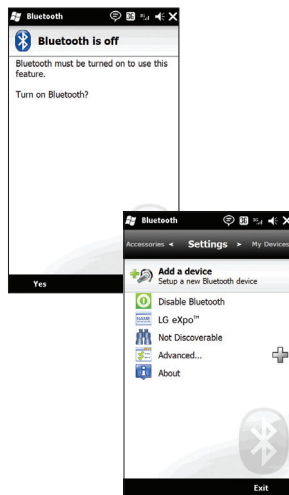

Turn on Bluetooth

1. On the Today screen, tap **Start > Settings > Bluetooth**.
2. If Bluetooth is off, you will be asked if you want to turn Bluetooth on. Tap **Yes** to turn on.

Tip: To turn Bluetooth off, tap Disable Bluetooth, in the Bluetooth Settings screen, twice.

Sync to a Bluetooth headset

1. Set the Bluetooth headset to Pairing mode.
2. On the Today screen, tap **Start > Settings > Bluetooth**.
3. Tap **Add a device**.
4. Tap **Audio Devices** from the dropdown menu, then tap **Continue**.
5. A list of discovered devices will appear, tap the device you wish to pair to. If necessary, enter the device passcode (typically "0000") to pair.
6. Select or verify the Bluetooth profiles that will be used by this pairing. Then, tap **Done**. Your Bluetooth headset is now paired with your LG eXpo™.

Music & Video

How to sync media files with your computer

Before you start syncing media files with your computer, you will need:

- Data cable
- microSD™ card
- Current version of the Windows Media® Player (10 or higher) installed on your computer.
- Microsoft ActiveSync® or Windows Mobile Device Center installed on your computer. You can download these programs at download.microsoft.com.

To sync media files:

1. Connect your LG eXpo™ to your computer using your data cable.
2. Allow Windows Mobile Device Center or ActiveSync to open and connect to your device. A partnership between the phone and your PC is not necessary for Music Sync.
4. Open Windows Media Player on your computer, click on the device (listed on the left side of the screen), and click the **Sync** tab.
5. Drag and drop files to the **Sync List**.
6. Click **Start Sync** to transfer the files to your smartphone.

Music & Video (Cont.)

How to play music and videos with Windows Media Player

1. Tap **Start > Windows Media**.
2. Tap **My Music** or **My Videos**.
3. Select the file to play.

Note: When playing the media file you can pause, stop and play again by tapping the buttons on the bottom of the screen.

Wi-Fi

Wi-Fi provides a high-speed data connection for your smartphone. You can access your email and connect to the Internet using a Wi-Fi network at home, work or public hotspots—including thousands of AT&T Wi-Fi Hot Spots.

Note: Some Wi-Fi hotspots may require additional fees and security credentials.

Connect to an available network

1. Tap **Start > Settings > Connections > Wireless Manager**.
2. Tap **Wi-Fi** to turn it on.
3. Tap **Menu > Wi-Fi Settings** to see the list of available networks.
4. Select a network and tap **OK**.
5. To turn off Wi-Fi, tap **Start > Settings > Connections > Wireless Manager > Wi-Fi**.

AT&T Hot Spot locator

When Wi-Fi is enabled on your LG eXpo™, your smartphone can connect to over 20,000 AT&T Wi-Fi Hot Spots.

Note: AT&T services, such as App Center and Mobile Video, cannot be accessed over Wi-Fi. You must disconnect from a Wi-Fi hotspot before using these services.

1. Tap **Start > AT&T Wi-Fi**.
2. If the application is not already installed, your browser will open with the web page from which you can download and install the application. Tap **Download**.
3. Make sure to check “Open file after download” and tap **Yes**.

The application will download and install itself. Access it any time from the Start menu.

Troubleshooting

SIM does not activate

Try the following actions:

- Verify that your SIM card is inserted correctly.

Phone cannot be switched on

Try the following actions:

- Press **On/Off** key for at least two seconds.
- Try charging the device using the power adapter. The LED will turn on (in an amber/orange color) when the device is charging.

Cannot connect to a wireless network

Try the following actions:

- Verify that your SIM card is inserted correctly.
- Verify that you have turned on the connection to the wireless network.
- If you were traveling and you selected a network manually, your LG eXpo™ should remain connected to that network until you select your home network again.

Tips & Tricks

TO:

DO:

Turn the speakerphone on or off during a call.

Tap **Speaker On/Speaker Off**.

Change the default Today screen.

Tap **Start > Settings > Today**
Select one of the themes listed or go to the Items tab and checkmark the **LG Idles** for the LG Today screen. Tap **OK** to save your settings.

Modify the date or time settings.

Tap **Start > Settings > Clock & Alarms**.
Select the appropriate time zone and change the time or date.

Lock the screen.

Hold down the **End** key  for 3 full seconds.

Unlock the screen.

Press  and drag the unlock icon left or right.
