Press this button to remove the battery.

Installing the USIM and battery

1 Remove the battery cover

Press and hold down the battery release button at the top of the phone and lift off the battery cover.

2 Remove the battery

Hold the top edge of the battery and lift it from the battery compartment using the battery cover.

WARNING: Do not use your fingernail when removing the battery.

WARNING: Do not remove the battery when the phone is switched on, as this may damage the phone.

3 Install the USIM card

Slide the USIM card into the USIM card holder. Make sure that the gold contact area on the card is facing downwards. To remove the USIM card, pull it gently in the reverse direction.

4 Install the battery

Insert the top of the battery first into the top edge of the battery compartment. Ensure the battery contacts align with the terminals on the phone. Press down the bottom of the battery until it clips into place.

5 Charging your phone

Slide back the cover of the charger socket on the side of your KF750. Insert the charger with the arrow to the back of the phone and plug into a mains electricity socket. Your KF750 will need to be charged until a message reading "Battery full" appears on screen.

Memory card

Installing a memory card

You can expand the memory space available on your phone using a memory card. The KF750 will support up to a 4GB memory card.

TIP: A memory card is an optional accessory.

- 1 Remove the battery cover as before.
- 2 Slide the memory card into the slot at the top, until it clicks into place. Make sure that the gold contact area is facing downwards.

- 3 Replace the battery cover.

Formatting the memory card

If your memory card is already formatted, you can begin using it. If your card isn't formatted you will need to do so.

- 1 From the standby screen press select **Settings** and choose **Phone settings**.
- 2 Select **Memory manager** then choose **External memory**.
- 3 Select **Format** and then confirm your choice.
- 4 Enter the password, if one is set, and your card will be formatted and ready to use.

TIP! To change your default storage destination, open Memory manager from the Phone settings menu and select Primary storage settings.

NOTE: If your memory card has existing content it will automatically be filed in the correct folder, for example, videos will be stored in the My Videos folder.

Transferring your contacts

To transfer your contacts from your USIM to your phone:

- 1 From the standby screen select  and choose **Address book**.
- 2 Select **Settings** then **Copy**.
- 3 Choose **Handset to USIM** and touch **Done**.
- 4 Choose **All together** or **One by one** and touch **Done**.

Your standby screen

Whenever your KF750 isn't in use it will return to your standby screen. From here you can access menu options, make a quick call and change your profile - as well as many other things.

Touch screen tips

If you press the touch screen button on the right-hand side of the handset, the screen will switch to an interactive touch screen keypad.

Press and hold the touch screen button from the standby screen to enter a further multimedia menu. To select an item, touch the icon on the touch screen. Your KF750 will vibrate slightly when you've touched an option.

- There's no need to press too hard, the touch screen is sensitive enough to pick up on a light touch.
- Use the tip of your finger to touch the option you require.
- Don't cover the phone with a case or cover, as the touch screen will not work with any material covering it.
- To exit the touch screen, touch the Home icon in the top right corner once. The phone will return to the main standby screen.

- The touch pad below the screen can be used as a four way arrow pad to navigate you through the phone menus.

TIP! Use the touch screen for fast and easy access to your music, photos, games, Document and radio.

NOTE: When the screen light goes off, you can press the capture button on the right hand side of the phone to restore the standby screen.

Advice to the customer

In order to allow better antenna sensitivity LG suggest that you hold the handset as shown below.

Please do not cover the antenna area with your hand during a call or when using a Bluetooth connection. It may reduce signal quality.

The status bar

The status bar indicates, using various icons, things like signal strength, new messages and battery life as well as telling you whether your Bluetooth or GPRS is active.

Below is a table which explains the meaning of icons you're likely to see in the status bar.

Icon	Description
	Multitasking
	Calendar
	Network signal strength (number of bars will vary)
	No network signal

Icon	Description
	Activate security menu
	Battery empty
	New text message
	New voice message
	New email
	New multimedia message
	An alarm is set
	Normal profile in use
	Outdoor or Customised (Loud) profile in use
	Silent profile in use
	External memory
	Calls are diverted
	GPRS available
	EDGE in use
	Roaming
	Bluetooth is active
	Calls are rejected
	HSDPA available
	3G available

TIP! Use the icons on the left side of the standby screen for quick access to your Calendar, Contacts, Call lists, Messaging, Music and Orange World.

Calls

Making a voice call

- 1 Enter the number including the full area code.

To delete a digit press **C**.

To delete all digits press and hold **C**.

- 2 Press **¶** to make the call.

- 3 Press **¶** or close the handset to finish the call.

Making a video call

You can make a video call in a 3G covered service area. If the called user has a 3G video phone in a 3G covered service area, a video call will be established. You can also receive video calls. To make a video call, do the following.

- 1 Input the phone number as before.
- 2 If you do not want to use the speakerphone, ensure you have the headset plugged in.

- 3 To start the video function, press the left soft key **Options** and select **Make video call**.

You will be notified that you will need to close other applications to make the video call.

NOTE: The video call may take some time to connect. Please be patient. While the video call is connecting, you will see your own image; after the other party has answered, their image will be displayed on the screen.

- 4 Adjust the camera position if necessary.

- 5 Press **¶** or close the handset to finish the call.

TIP! Alternatively, go to **Video call** from the main menu screen and enter the number you would like to call.

Making a voice/video call from Contacts

It is easy to call anyone whose number you have stored in your Contacts.

- 1** Touch the right soft key to access the contacts list.
- 2** Scroll to the contact to make a call.
- 3** Press to make a voice call. Press the left soft key and select **Make video call** to make a video call.
- 4** Press to finish the call.

Making international calls

- 1** Press and hold for the international prefix. The '+' character prefixes the international access code.
- 2** Enter the country code, area code, and the phone number.
- 3** Press .

Answering and rejecting a call

When your phone rings press the hard key to answer the call.

Press the left soft key to mute the ringing.

This is great if you've forgotten to change your profile to Silent for a meeting!

Press the right soft key to reject the incoming call.

Speed dialling

You can assign a frequently-called contact to a speed dial number.

- 1** Press and select **Address book**.
- 2** Select **Speed dials**.
- 3** Your voicemail is already set to speed dial 1. Select any other number to assign it a speed dial contact.
- 4** Your address book will open. Select the contact you would like to assign to that number.

To call a speed dial number:

- 1** Press the assigned number then press the send key , or
- 2** Press and hold the assigned number until the contact appears on screen.

Calls

Making a second call

- 1 During your initial call, touch the left soft key and select **Add new call**.
- 2 Dial the number or search your contacts (see page 23 for details on how to make a call from Contacts).
- 3 Press  to connect the call.
- 4 Both calls will be displayed on the call screen. Your initial call will be locked and the caller put on hold.
- 5 Select **Swap** to change between the calls.
- 6 To end one or both calls select **Options → End** followed by **All** or **Active**.

NOTE: You will be charged for each call you make.

DTMF Tone

DTMF allows you to use numerical commands to navigate menus within automated messages. DTMF is switched on as default.

Viewing your Call history

Press , select **Calling- Call history**.

Choose to view:

All calls - View a complete list of all your dialled, received and missed calls.

Dialled calls - View a list of all the numbers you have called.

Received calls - View a list of all the numbers that have called you.

Missed calls - View a list of all the calls you have missed.

Press , select **Calling**.

You can then view:

Data volume - View the amount of all your received and sent data in kilobytes.

TIP! From any call list touch the left soft key and **Delete all** to delete all the recorded items.

Call costs - View the charges applied to your dialled numbers (this service is network dependant, some operators are unable to support this function) and the call duration of all your calls; received and dialled.

Using call divert

- 1 Press , select **Calling**.
- 2 Select **Call divert** and choose **Voice calls** and/or **Video calls**.
- 3 Choose whether to divert all calls, when the line is busy, when there is no answer or when you are not reachable.
- 4 Input the number you'd like to divert to.
- 5 Select **Activate** to activate.

NOTE: Charges are incurred for diverting calls. Please contact your network provider for details.

TIP! To turn off all call diverts, choose **Deactivate all** from the Options menu.

Using call barring

- 1 Press , select **Calling**.
- 2 Select **Call barring** and choose **Voice calls** and/or **Video calls**.
- 3 Choose any or all of the five options:
All outgoing
Outgoing international
Outgoing international calls except home country
All incoming
Incoming when abroad

- 4 Enter the call barring password. Please check with your network operator for this service.

TIP! Select **Fixed dial number** to turn on and compile a list of numbers that can be called from your phone. You'll need your PIN2 code from your operator. When activated, only numbers included in the fixed dial list can be called from your phone.

Using service dial numbers

You can view the list of Service Dialling Numbers (SDN) assigned by your service provider (if supported by the USIM card). Such numbers include directory enquiries and voicemail numbers. After selecting a service number, press  to dial the service.

Viewing your own number

Allows you to display your phone number in the USIM card.

Creating a business card

You can create your own business card by pressing the centre key to Add. After entering the name, number, email and image, you can use it as a business card when sending a message.

Changing your contact settings

You can use contact settings to adapt your address book to your own preferences.

1 Press  and select **Address book**.

2 Select **Settings**. From here you can adjust the following settings:

Contact list settings - Choose whether to view contacts saved to both your **Handset & USIM**,

Handset only or **USIM** only. You can also select to show the first name or last name of a contact first..

Synchronise contact - Connect to your server to synchronise your contacts. See **Synchronising your contacts** on page 69.

Copy - Copy your contacts from your USIM to your handset or from your handset to your USIM. Choose to do this one at a time, or all at once.

Address book

Move - This works in the same way as **Copy**, but the contact will only be saved to the location you've moved it to, so if you move a contact from the USIM to the handset it will be deleted from the USIM memory.

Send all contacts via Bluetooth - Send all your contacts to another handset by Bluetooth.

Backup contacts - See **Backing up and restoring your phone's information** on page 68.

Restore contacts - See **Backing up and restoring your phone's information** on page 68.

Clear contacts - Delete all your contacts. Touch **Yes** if you are sure you want to clear your address book.

Memory info. - You can check how much memory you've got left on the handset and on the USIM card.

Messaging

Messaging

Your KF750 combines SMS, MMS and email into one intuitive and easy to use menu.

Sending a message

- 1 Select **Messaging** then choose **Create new message**.
- 2 Choose **Message** to send an SMS or MMS. You can also choose to send an **Email**. See page 28-29 for details about sending email.

NOTE: This service is not available in all countries. Please contact your service provider for further information.

- 3 A new SMS will open.
- 4 Select **Options** then **Insert**, to add an image, video, sound, or subject.
- 5 Press  **Send**. Enter the name of the contact or select **Number**. You can add multiple contacts.

WARNING: You will be charged per 160 character text message for each person that you send the message to.

WARNING: If an image, video or sound is added to an SMS it will be automatically converted to an MMS and you will be charged accordingly.

Entering text

There are two ways to enter text:

T9 predictive and Abc manual.

To switch between text entry methods press and hold the  key.

T9 predictive text - Touch to turn on T9 predictive text then select **T9 abc**, **T9 Abc** or **123**.

Abc manual - Choose **Abc**, **ABC** or **123**.

To change between upper, lower and title case press the  key.

To delete a character use the  hard key below the screen.

To enter a symbol select **Insert**.

Messaging

T9 predictive

T9 mode uses a built-in dictionary to recognise words you're writing based on the key sequences you touch. Simply touch the number key associated with the letter you want to enter, and the dictionary will recognise the word once all the letters are entered. For example, press 8, 3, 5, 3, 7, 4, 6, 6, 3 to write 'telephone'.

Abc manual

In Abc mode you must press the key repeatedly to enter a letter. For example, to write 'hello', press **4** twice, **3** twice, **5** three times, **5** three times again, then **6** three times.

Setting up your email

You can stay in touch on the move using email on your KF750. It's quick and simple to set up a POP3 or IMAP4 email account.

- 1** Select **Messaging** then select **Settings**.
- 2** Select **Email** then **Email accounts**, **Options** and **Edit**.
- 3** You can now choose how your account works:

Title - Enter a name for this account.

My name - Enter your name.

Username - Enter the account username.

Password - Enter the account password.

Email address - Enter the account email address.

Reply email address - Enter the 'reply to' email address.

Incoming server port - Normally, this is 110 for POP3 accounts and 143 for IMAP4 accounts.

SMTP authentication - Choose the security settings for the outgoing mail server

SMTP username - Enter the SMTP username.

SMTP password - Enter the SMTP password.

APOP secure login - Choose to activate APOP secure login for a POP3 account. IMAP4 accounts are always set to off.

Now your account is set up, it will appear in the list of accounts in your Email folder.

Sending an email using your new account

1 Select **Messaging** then chose **Create new message**.

2 Choose **Email** and a new email will open.

3 Use the tabs and **Options** to enter the recipient's address and write your message. Use the **Insert** to attach images, videos, sounds or other file types.

4 Select **Send** and your email will be sent.

TIP! You can email Word, Excel, Power Point and PDF documents to your KF750 so you can review them on the move.

Message folders

Inbox - All the messages you receive are placed into your inbox. From here you can reply, forward and more.

Mailbox - All emails you receive are placed into your mailbox.

Drafts - If you don't have time to finish writing a message, you can save what you've done so far here.

Messaging

Outbox - This is a temporary storage folder for messages that are being sent.

Sent items - All the messages you send are placed into your Sent items folder.

Managing your messages

You can use your Inbox to manage your messages.

1 Select Messaging then Inbox.

2 Select Options and then choose to:

Reply - Send a reply to the selected message.

Forward - Send the selected message on to another person.

Call - Make a voice or video call to the person who sent you the message.

Delete - Delete the message.

Create new message - Open a new blank message or email.

Mark/Unmark - Mark your messages for multiple deletion.

Copy & Move - Save a copy or move the message to your phone or USIM.

Filter - View your message by type. This will group SMS separately from MMS.

Message info. - See additional information for the message, for example, the time it was sent.

If you see the message **No space for USIM message** you should delete some messages from your inbox.

If you see the message **No space for messages** you can delete either messages or saved files to create space.

Using templates

Create templates for the SMS and MMS messages you send most frequently. You'll find some templates already on your phone, and you can edit these if you wish.

1 Select Messaging then choose Templates.

2 Choose Text templates or Multimedia templates. You can then select **Options to Add new, Write MMS, Edit, Delete or Delete all** templates.

Using emoticons

Liven up your messages using emoticons. You'll find some commonly used emoticons already on your phone.

- 1** Select **Messaging** then choose **Emoticons**.
- 2** Select **Options** to **Add new**, **Edit**, **Delete** or **Delete all** emoticons.

Changing your text message settings

Your KF750 message settings are pre-defined so that you can send messages immediately. You can change these settings.

Select **Messaging**, choose **Settings** and then **Text message**. You can make changes to:

Text message centre - Enter the details for your message centre.

Delivery report - Choose to receive confirmation that your message was delivered.

Validity period - Choose how long your message is stored at the message centre.

Message types - Convert your text into **Voice**, **Fax**, **X.400** or **Email**.

Character encoding - Choose how the characters in your messages are encoded. This impacts the size of your message and therefore data charges.

Send long text as - Choose to send as **Multiple SMS** or as an **MMS**.

Changing your multimedia message settings

Your KF750 message settings are pre-defined so that you can send messages immediately.

Select **Messaging**, choose **Settings** then **Multimedia message**. You can make changes to:

Retrieval mode - Choose **Home** or **Roaming** network. If you then choose **Manual** you will receive only notifications of MMS and you can then decide whether or not to download them in full.

Delivery report - Choose to allow and/or request a delivery report.

Read reply - Choose to allow and/or send a read reply.

Priority - Choose the priority level of your MMS.

Messaging

Taking a quick photo

- 1 Press the capture button on the right hand side of the handset and the camera's viewfinder will appear on the screen.
- 2 Holding the phone horizontally, point the lens towards the subject of the photo.
- 3 Slightly depress the capture button, and a focus box will appear in the centre of the viewfinder screen.
- 4 Position the phone so you can see the subject of your photo in the focus box.
- 5 When the focus box turns green, the camera has focused on your subject.
- 6 Press the capture button fully.

After you've taken your photo

Your captured photo will appear on the screen. The name of the image runs along the bottom of the screen together with five icons down the right side.

Back | Go back to previous menu.

View the pictures you have taken in your Album.

Send the photo as an Orange Photo, MMS, Email, via Bluetooth. See page 27 for **Sending a message**, and page 78 for **Sending and receiving your files using Bluetooth**.

Take another photo straight away. Your current photo will be saved.

Use the image as your wallpaper, as a Contact image, or in your Start-up or Shut down screen.

Delete the photo you have just taken and confirm by touching **Yes**. The viewfinder will reappear.

TIP! In camera mode select the Play icon to open the photo album. See page 40, **Viewing your saved photos**, for details.

Using the flash

The flash is set to off as default, but there are other options.

- 1 Select  from the top right corner of the viewfinder to enter the flash sub-menu.
- 2 There are three flash options:
 - On** - Your camera will always flash when taking a picture.
 - Auto** - Your camera will assess whether or not the flash is necessary for a good picture.
 - Off** - The camera will never flash. This is useful if you want to save battery power.
- 3 Select the flash option you'd like to use.
- 4 When you've made your selection the flash menu will automatically close, ready for you to take your picture.

5 The flash icon in the viewfinder will change according to your flash mode.

NOTE: Whenever you exit the camera, the flash setting will revert to off mode. You'll need to switch the flash back on if you still need it when you reopen the camera.

Adjusting the brightness

Contrast defines the difference between light and dark in an image. A low contrast image will appear foggy, whereas a high contrast image will appear much sharper.

- 1 Select **Brightness** in **Settings**.
- 2 Slide the contrast indicator along the bar, towards  for a lower contrast, hazier image or towards  for a higher contrast, sharper image.

Camera

Choosing a shot mode

- 1 Select **Settings** to open the available shot modes.
- 2 Choose from the four options:

Normal shot - This is the default shot type, the photo will be taken in the normal way, as outlined in **Taking a quick photo** on page 34.

Continuous shot - This enables you to take nine shots automatically in very quick succession. See **Using continuous shot mode** below for details.

Frame shot - Choose from one of the fun frames to transform your friend into a pirate or just decorate their surroundings.

Panorama - This shot type is great for taking a photo of a large group of people or for capturing a panoramic view. See **Taking a panoramic shot** on page 37 for more details.

Music video shot - This shot type allows to take a shot with music or voice.

Using Continuous shot mode

Continuous shot mode is great for taking photos of moving objects or at sporting events.

- 1 Select **Continuous shot**.
- 2 Position the subject in the viewfinder and press the capture button as you would to take a normal photo.
- 3 The camera will take nine shots in quick succession and display the first with eight thumbnails on the left side of the screen.
- 4 Select the shot you want to keep by selecting the thumbnail once to view and select **Save**.
- 5 A tick will appear next to the image thumbnail. Select **Save** to exit.

Using frame shot mode

Frame shot can be used to transform your friend into a pirate, or just to decorate their surroundings with a frame.

- 1 Select **Frame shot** menu.
- 2 Position the subject in the fun frame and press the capture button.
- 3 Save the image by selecting **Save**.

Taking a panoramic shot

Capture life as it appears using panoramic shot. The camera will let you take three photos, all aligned, and combine them into one image so that your wide angle view becomes a panoramic photo.

- 1** Select **Panorama**.
- 2** Take the first photo as normal. A ghosted version of the right side of the image will appear in the viewfinder.
- 3** When you take the second and third photo, line the ghost of the previous image up with the next image in the viewfinder.
- 4** In the photo album, the photos will be saved as three separate images and one panoramic image.

NOTE: Due to the image size the panoramic photo will appear slightly distorted in the Album view.

Using the advanced settings

From the viewfinder select **Settings**.

Size - Change the size of the photo to save on memory space or take a picture preset to the correct size for contact. See **Changing the image size** on page 39.

Scene mode - Set the camera to adjust to the environment. Choose from **Auto, Portrait, Landscape, Night, Beach, Sports, and Party**.

Brightness - Set the contrast of the image in the viewfinder of the camera.

Effect - Choose a colour tone to apply to the photo you're taking. See **Choosing a colour tone** on page 39.

White Balance - The white balance ensures that any white in your photo is realistic. In order for your camera to correctly adjust the white balance you may need to determine the light conditions. Choose from **Auto, Daylight, Cloudy, Illuminate or Indoors**.

Timer - The self-timer allows you to set a delay after the capture button is pressed. Choose from **Off, 3 seconds, 5 seconds or 10 seconds**. Great for a group photo that you want to be in too!

Shot mode - See page 36.

ISO - ISO determines the sensitivity of the camera's light sensor. The higher the ISO, the more sensitive the camera will be to light. This is useful in darker conditions when the flash can't be used. Choose an ISO value from **Auto, ISO 100, ISO 200, ISO 400 or ISO 800**.

Quality - Change the size of the photo to save on memory space or take a picture preset to the correct size for a contact. See **Changing the image size** on page 39.

Macro - Macro mode allows you to take extreme close-ups. If you are trying to take a close-up shot but the focus box remains red, try turning the macro mode on.

Memory in use - Choose whether to save your photos to the **Handset** memory or to the **External** memory.

Hide icons - Set whether to automatically hide the icons to the side of the viewfinder.

Focus mode - Set the camera to focus automatically.

Sound - Select one of the three different shutter sounds.

NOTE: Always select **Save** after selecting a new setting to implement the changes you've made.

TIP! When you exit the camera all your settings will return to default, except image size and image quality. Any non-default settings you require will need to be reset, for example colour tone and ISO. Check them before you take your next photo.

TIP! The settings menu is superimposed over the viewfinder, so when you change elements of the image colour or quality you'll be able to see the image change in preview behind the settings menu. Remember to select **Save** before exiting to apply any changes.

Changing the image size

The more pixels, the larger the file size, which in turn means they take up more of your memory. If you want to fit more pictures on your phone or memory card you can alter the pixel number to make the file size smaller.

- 1 From the viewfinder select **Settings** in the bottom left corner.
- 2 Select **Size**.
- 3 Select a pixel value from the six numerical options (**5M: 2592x1944**, **3M: 2048x1536**, **2M: 1600x1200**, **1M: 1280x960**, **640x480**, **320x240**) or choose the preset:

Contact - This sets the camera to take a photo the perfect size to be added to a phone contact.

- 4 Select the size option you'd like to use and touch **Select** to implement your changes. The settings menu will automatically close, ready for you to take your picture.

Choosing a colour tone

- 1 From the viewfinder select **Settings** in the bottom left corner.
- 2 Select **Effect**.
- 3 There are twelve colour tone options: **None**, **Black & White**, **Negative**, **Sepia**, **Blue**, **Emboss**, **Sketch**, **Purplish**, **Bluish**, **Monochrome**, **Edgemap**, or **Posterize**.
- 4 Choose the colour tone you'd like to use and touch **Select**.
- 5 When you've made your selection the colour tone menu will automatically close, ready for you to take your picture.

TIP! You can change a photo taken in colour to black and white or sepia, but you cannot change a picture taken in black and white or sepia to colour.

- 4** Select the photo to open it fully.

Setting a photo as Wallpaper or Contacts image

From your image album, select an image and **Use as** to use the image as Wallpaper or Contacts image.

NOTE: Contact images can only be added to contacts saved to your phone, not your SIM.

TIP! You can also access your photos using the touch screen. Press the touch screen button on the right side of the phone and touch the **Photo** icon. You can then scroll through your pictures by touching the screen.

Video camera

Shooting a quick video

- 1 Move the camera mode switch to . The video camera's viewfinder will appear on screen.
- 2 Holding the phone horizontally, point the lens towards the subject of the video.
- 3 Press the capture button once to start recording.
- 4 **REC** will appear at the bottom of the viewfinder.

After you've shot your video

A still image representing your captured video will appear on screen. The name of the image runs along the bottom of the screen together with five icons down the right side.

- View your video Album.
- Play the file.
- Re-record the video.
- Send the video as an MMS, Email or via Bluetooth. See page 27 for **Sending a message**, or page 78 for **Sending and receiving your files using Bluetooth**.

Editing your photos

There are loads of great things you can do to your photos to change them, add to them or liven them up a little.

- 1** Open the photo you'd like to edit and select **Options**.
- 2** Select **Edit**.
- 3** Select an icon to adapt your photo:
 - Rotate the image left or right.
 - Change the size of the photo.
 - Insert an icon into the image.
 - Clip the image to 640X480, 320X240, 176X146, 160X120, Contact size, Wallpaper size, User defined.
 - Distort the image.
 - Change the colour tone to Black and white, Sepia, or Colour negative.
 - Change or add a frame to the image.
 - Reverse the picture to a mirror image.
 - Change the image using morphing, fun mirror, or spotlight.

Adding an effect to a photo

- 1** From the editing screen, select **Special effect** or **Frame effect**.
- 2** Choose to apply any of the two options to the photo:

Special effect - Change the colour of a photo to **Black and white**, **Sepia** or **Colour Negative**.

Frame effect - Add a frame to your photo. Select the desired frame type. Select **OK** to have the chosen frame superimposed over your photo.

- 3** To undo an effect simply select **Undo**.

TIP! You can use more than one effect on a photo, except for a colour effect.

Morphing a photo

Morphing a photo is great for changing the facial expressions of friends, or just for distorting a photo for artistic effect.

- 1** From the editing screen select **More** and then **Morphing**.

Your photos and videos

- 2** If the face in the picture is not detected, a pop up message **Face is not detected** will be displayed and the morphing effect will be cancelled.
- 3** If the face is detected the first morphing style will be applied to the picture.
- 4** Select the morphing style you would like to use on the photo.
- 5** Select the intensity of morphing.
- 6** Select **OK** to apply the changes.

Spotlighting a photo

- 1** Select the desired location on the image.
- 2** Select the size of spotlight.
- 3** Select **OK** to apply the changes.

TIP! Use the Fun mirror to copy the left side of the image over the right side to make fun pictures.

TIP! You can undo more than one effect on a photo, except for a resize. If any effect is already applied before the resize effect, the current applied and resize effect will be saved. The undo count will then be reset.

Trimming the length of your video

- 1** Choose the video you'd like to edit, and touch **Options**.

Transferring a file to your phone

Bluetooth is probably the easiest way to transfer a file from your computer to your phone. You can also use LG PC Suite via your sync cable, see page 68 for details.

To transfer using Bluetooth:

- 1** Make sure your phone and computer have Bluetooth switched on and are visible to one another.
- 2** Use your computer to send the file via Bluetooth.
- 3** When the file is sent you will have to accept it on your phone by selecting **OK**.
- 4** The file should appear in your **Documents** or **Others** folder.

Viewing a file

- 1** Select **Media Album** then **Documents**.
- 2** Select a document and choose **View**.

Others

The **Others** folder is used to store files which are not pictures, sounds, videos, games or applications. It is used in the same way as the **Documents** folder. You may find that when you transfer files from your computer to your phone that they appear in the **Others** folder rather than the **Documents** folder. If this happens you can move them.

To move a file from Others to Documents:

- 1** Select **Media Album** then **Others**.
- 2** Select a file and choose **Options**.
- 3** Select **Move**.

Artists - Browse through your music collection by artist.

Albums - Browse through your music collection by album.

Genres - Browse through your music collection by genre.

Shuffle tracks - Listen to your music in a random order.

Transferring music onto your phone

The easiest way to transfer music onto your phone is via Bluetooth or your sync cable. You can also use LG PC Suite, see page 68 for details. To transfer using Bluetooth:

- 1 Make sure both devices have Bluetooth switched on and are visible to one another.
- 2 Select the music file on the other device and choose to send it via Bluetooth.
- 3 When the file is sent you will have to accept it on your phone by touching **OK**.
- 4 The file should appear in **Music** → **All tracks**.

Playing a song

- 1 Select **Music**, then **All tracks**.
- 2 Select the song you want to play and choose **Play**.
- 3 Press  to pause the song.
- 4 Touch  (right) to skip to the next song.
- 5 Touch  (left) to skip to the previous song.

Using options while playing music

Select **Options** and choose from:

Using RSS reader

RSS (Really Simple Syndication) is a family of web feed formats used to publish frequently updated content such as blog entries, news headlines or podcasts. An RSS document, which is called a **feed**, **web feed**, or **channel**, contains either a summary of content from an associated web site or the full text.

RSS makes it possible for people to keep up with their favourite web sites in an automated manner that is easier than checking them manually.

The user subscribes to a feed by entering the feed's link into the reader or by clicking an RSS icon in a browser that initiates the subscription process. The reader checks the user's subscribed feeds regularly for new content, downloading any updates that it finds.

- 3** Once you have changed your settings, touch **Select**.

Using your phone as a modem

Your KF750 can double as a modem for your PC, giving you email and internet access even when you can't connect using wires. You can use either the USB cable or Bluetooth.

Using the USB cable:

- 1** Ensure you have the LG PC Suite installed on your PC.
- 2** Connect your KF750 and your PC using the USB cable and launch the LG PC Suite software.
- 3** Click **InternetKit** on your PC. Then click **New** and select **Modem**.
- 4** Choose **LG Mobile USB Modem** and select **Next**. It will now appear on screen.
- 5** After setting the model, you save the profile.
- 6** Click **Connect** and your PC will connect through your KF750.

NOTE: For more information on synchronising using the LG PC Suite see page 68.

Orange World

Using Bluetooth

- 1** Ensure Bluetooth is switched **On** and **Visible** for both your PC and KF750.
- 2** Pair your PC and KF750 so that a passcode is required for connection.
- 3** Use the **Connection wizard** on your LG PC Suite to create an active Bluetooth connection.
- 4** Click **InternetKit** on your PC. Then click **Settings**.
- 5** Click **Modem**.
- 6** Choose **Standard Modem over Bluetooth link** and click **OK**. It will now appear on screen.
- 7** Click **Connect** and your PC will connect through your KF750.

NOTE: For more information on Bluetooth see pages 78-79.

Settings

Within this folder you can adapt your settings to personalise your KF750.

NOTE: For information on call settings see page 22.

Personalising your profiles

You can quickly change your profile on the standby screen. Simply touch the currently active profile icon in the top right corner.

Using the settings menu you can personalise each profile setting.

- 1 From the standby screen, press  and then **Settings**.
- 2 Select **Profiles** and then choose the profile you want to edit.

Sending and receiving your files using Bluetooth

Bluetooth is a great way to send and receive files as no wires are needed and connection is quick and easy. You can also connect to a Bluetooth headset to make and receive calls.

To send a file:

- 1 Open the file you want to send, typically this will be a photo, video or music file.
- 2 Select **Options** and choose **Send**. Choose **Bluetooth**.
- 3 Select **Yes** to turn Bluetooth on.
- 4 Your KF750 will automatically search for other Bluetooth enabled devices within range.
- 5 Choose the device you want to send the file to and touch **Select** to send the file.
- 6 Your file will be sent.

TIP! Keep an eye on the progress bar to make sure your file is sent.

To receive a file:

- 1 To receive files your Bluetooth must be both **On** and **Visible**. See **Changing your Bluetooth settings** below for more information.

2 A message will prompt you to accept the file from the sender. Select **Yes** to receive the file.

3 You will see where the file has been saved and you can choose to **View** the file. Files will usually be saved to the relevant folder in My Files.

Changing your Bluetooth settings:

- 1 Press  in standby screen, and choose **Settings**.
- 2 Choose **Connectivity**, then **Bluetooth** and **Settings**. Make your changes to:
 - My device visibility** - Choose to be Visible, Visible for 1 min or Hidden.
 - My device name** - Enter a name for your KF750.

Supported services - Search for the profile supported by KF750. See **Using your phone as a modem** on page 73 or **Using a Bluetooth headset** on page 79.

My address - View your Bluetooth device address.

Pairing with another Bluetooth device

By pairing your KF750 and another device, you can set up a passcode protected connection. This means your pairing is more secure.

- 1** Check your Bluetooth is **On** and **Visible**. You can change your visibility in the **Settings** menu.
- 2** Select **Paired Devices** then **New**.
- 3** Your KF750 will search for devices. When the search is completed **Refresh** and **Add** will appear on screen.
- 4** Choose the device you want to pair with and enter a passcode then press **Select**.
- 5** Your phone will then connect to the other device, on which you should enter the same passcode.
- 6** Your passcode-protected Bluetooth connection is now ready.

Using a Bluetooth headset

- 1** Check your Bluetooth is **On** and **Visible**.
- 2** Follow the instructions that came with your headset to place your headset in pairing mode and pair your devices.
- 3** Select **Yes** to **Connect now**.

TIP! See page 22 for details on **BT answer mode** so that you can control how you answer calls when your Bluetooth headset is connected.

Setting the security menu

You can set the phone to ask for the PIN code of your SIM card when switching on the phone. In addition, you can lock the phone to avoid unauthorised use. You will need a security code.

Reset settings

Reset all the settings to the factory definitions.

Guidelines for safe and efficient use

Please read these simple guidelines. Not following these guidelines may be dangerous or illegal.

Exposure to radio frequency energy

Radio wave exposure and Specific Absorption Rate (SAR) information This mobile phone model KF750 has been designed to comply with applicable safety requirements for exposure to radio waves. These requirements are based on scientific guidelines that include safety margins designed to assure the safety of all persons, regardless of age and health.

- The radio wave exposure guidelines employ a unit of measurement known as the Specific Absorption Rate, or SAR. Tests for SAR are conducted using standardised methods with the phone transmitting at its highest certified power level in all used frequency bands.
- While there may be differences between the SAR levels of various LG phone models, they are all designed to meet the relevant guidelines for exposure to radio waves.

- The SAR limit recommended by the International Commission on Non-Ionizing Radiation Protection (ICNIRP) is 2W/kg averaged over 10g of tissue.
- The highest SAR value for this model phone tested by DASY4 for use at the ear is 0.5 W/kg (10g).
- SAR data information for residents in countries/regions that have adopted the SAR limit recommended by the Institute of Electrical and Electronics Engineers (IEEE), which is 0.755 W/kg averaged over 1g of tissue.

Product care and maintenance

WARNING

Only use batteries, chargers and accessories approved for use with this particular phone model. The use of any other types may invalidate any approval or warranty applying to the phone, and may be dangerous.

- Do not disassemble this unit. Take it to a qualified service technician when repair work is required.

- Keep away from electrical appliances such as TVs, radios, and personal computers.
- The unit should be kept away from heat sources such as radiators or cookers.
- Do not drop.
- Do not subject this unit to mechanical vibration or shock.
- Switch off the phone in any area where you are required by special regulations. For example, do not use your phone in hospitals as it may affect sensitive medical equipment.
- Do not handle the phone with wet hands while it is being charged. It may cause an electric shock and can seriously damage your phone.
- Do not charge a handset near flammable material as the handset can become hot and create a fire hazard.
- Use a dry cloth to clean the exterior of the unit (do not use solvents such as benzene, thinner or alcohol).
- Do not charge the phone when it is on soft furnishings.
- The phone should be charged in a well ventilated area.
- Do not subject this unit to excessive smoke or dust.
- Do not keep the phone next to credit cards or transport tickets; it can affect the information on the magnetic strips.
- Do not tap the screen with a sharp object as it may damage the phone.
- Do not expose the phone to liquid or moisture.
- Use the accessories like earphones cautiously. Do not touch the antenna unnecessarily.

Efficient phone operation

Electronics devices

All mobile phones may get interference, which could affect performance.

- Do not use your mobile phone near medical equipment without requesting permission. Avoid placing the phone over pacemakers, for example, in your breast pocket.
- Some hearing aids might be disturbed by mobile phones.
- Minor interference may affect TVs, radios, PCs, etc.

Guidelines for safe and efficient use

Road safety

Check the laws and regulations on the use of mobile phones in the area when you drive.

- Do not use a hand-held phone while driving.
- Give full attention to driving.
- Use a hands-free kit, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.
- RF energy may affect some electronic systems in your vehicle such as car stereos and safety equipment.
- When your vehicle is equipped with an air bag, do not obstruct with installed or portable wireless equipment. It can cause the air bag to fail or cause serious injury due to improper performance.
- If you are listening to music whilst out and about, please ensure that the volume is at a reasonable level so that you are aware of your surroundings. This is particularly imperative when near roads.

Avoid damage to your hearing

Damage to your hearing can occur if you are exposed to loud sound for long periods of time. We therefore recommend that you do not turn on or off the handset close to your ear. We also recommend that music and call volumes are set to a reasonable level.

Glass Parts

Some parts of your mobile device are made of glass. This glass could break if your mobile device is dropped on a hard surface or receives a substantial impact. If the glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by an authorized service provider.

Blasting area

Do not use the phone where blasting is in progress. Observe restrictions, and follow any regulations or rules.

Potentially explosive atmospheres

- Do not use the phone at a refueling point.
- Do not use near fuel or chemicals.
- Do not transport or store flammable gas, liquid, or explosives in the same compartment of your vehicle as your mobile phone and accessories.

In aircraft

Wireless devices can cause interference in aircraft.

- Turn your mobile phone off before boarding any aircraft.
- Do not use it on the ground without permission from the crew.

Children

Keep the phone in a safe place out of the reach of small children. It includes small parts which may cause a choking hazard if detached.

Emergency calls

Emergency calls may not be available under all mobile networks. Therefore, you should never depend solely on the phone for emergency calls. Check with your local service provider.

Battery information and care

- You do not need to completely discharge the battery before recharging. Unlike other battery systems, there is no memory effect that could compromise the battery's performance.
- Use only LG batteries and chargers. LG chargers are designed to maximize the battery life.
- Do not disassemble or short-circuit the battery pack.
- Keep the metal contacts of the battery pack clean.
- Replace the battery when it no longer provides acceptable performance. The battery pack maybe recharged hundreds of times until it needs replacing.
- Recharge the battery if it has not been used for a long time to maximize usability.
- Do not expose the battery charger to direct sunlight or use it in high humidity, such as in the bathroom.
- Do not leave the battery in hot or cold places, this may deteriorate the battery performance.

Guidelines for safe and efficient use

- There is risk of explosion if the battery is replaced by an incorrect type.
- Dispose of used batteries according to the manufacturer's instructions. Please recycle when possible. Do not dispose as household waste.

LIMITED WARRANTY STATEMENT

1. WHAT THIS WARRANTY COVERS :

LG offers you a limited warranty that the enclosed phone and its enclosed accessories will be free from defects in material and workmanship according to the following terms and conditions:

- (1) The limited warranty for the product extends the warranty period beginning on the date of purchase of the product.
- (2) The limited warranty applies for 1 year from the original date of purchase and extends only to the original purchaser of the product and is not assignable or transferable to any subsequent purchaser/ end user. It shall neither exclude nor limit any mandatory statutory rights of the customer or any of the customer rights against the seller/dealer of the product.
- (3) This warranty is good only to the original purchaser during the warranty period, but limited to certain country if specified.

- (5) Upon request from LG. or their designated service agent the consumer must provide information to reasonably prove the date of purchase.
- (6) Unless other service arrangements have been specified the customer shall bear the cost of shipping a defective product back to the Customer Service Department of LG. LG shall bear the cost of shipping the product back to the consumer after the completion of service under this limited warranty.
- (7) During the warranty period LG or its authorised service agent will repair or replace at LG's sole discretion a defective product. A repaired or replaced product will not be given a prolonged or renewed warranty period.

2. WHAT THIS WARRANTY DOES NOT COVER :

- (1) Defects OR Damages resulting from use of the product in other than its normal and customary manner.
- (2) Defects or damages from abnormal use, abnormal conditions, improper storage, exposure to moisture or dampness, unauthorised modifications, unauthorised connections, unauthorised repair, neglect, abuse, accident, alteration, improper installation, or other acts which are not the fault of LG, including damage caused by shipping, blown fuses, spills of food or liquid.

- (3) Breakage or damage to antennas unless caused directly by defects in material or workmanship.
- (4) A warranty repair if the Customer Service Department at LG or other agreed service agent was not notified by the consumer of the alleged defect or malfunction of the product during the applicable limited warranty period.
- (5) Products which have had the serial number or IMEI number removed or made illegible.
- (6) This limited warranty is in lieu of all other warranties, express or implied either in fact or by operations of law, statutory or otherwise, including, but not limited to any implied warranty of marketability or fitness for a particular use.
- (7) Damage resulting from use of non-LG approved accessories.
- (8) All plastic surfaces and all other externally exposed parts that are scratched or damaged due to normal customer use.
- (9) Products operated outside published maximum ratings.
- (10) Products used or obtained in a rental program.
- (11) Consumables (such as fuses).
- (12) Suspected defects caused by a failure of the cellular network.

3. CONDITIONS :

No other express warranty is applicable to this product.

The DURATION OF ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTY OF MARKETABILITY, IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTY HEREIN.

LG ELECTRONICS INC. SHALL NOT BE LIABLE FOR THE LOSS OF THE USE OF THE PRODUCT, INCONVENIENCE, LOSS OR ANY OTHER DAMAGES, DIRECT OR CONSEQUENTIAL, ARISING OUT OF THE USE OF, OR INABILITY TO USE, THIS PRODUCT OR FOR ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING THE IMPLIED MARKETABILITY APPLICABLE TO THIS PRODUCT.

Some do not allow the exclusive of limitation of incidental or consequential damages or limitations on how long an implied warranty lasts; so these limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from country to country.
