ASSEMBLING AND PREPARING

Unpacking

Check your product box for the following items. If there are any missing accessories, contact the local dealer where you purchased your product. The illustrations in this manual may differ from the actual product and accessories.

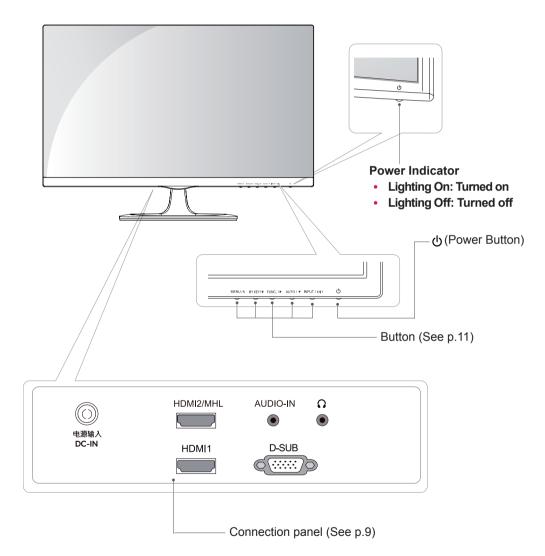

CAUTION

- Do not use any unapproved accessories to ensure the safety and product life span.
- Any damages or injuries by using unapproved accessories are not covered by the warranty.

- The accessories supplied with your product may vary depending on the model.
- Product specifications or contents in this manual may be changed without prior notice due to upgrade of product functions.

NOTE -

Parts and buttons

Setting up the Monitor set

Attaching the Stand Base

1 Place the Monitor set with the screen side down on a flat and cushioned surface.

Lay a foam mat or soft protective cloth on the surface to protect the screen from damage.

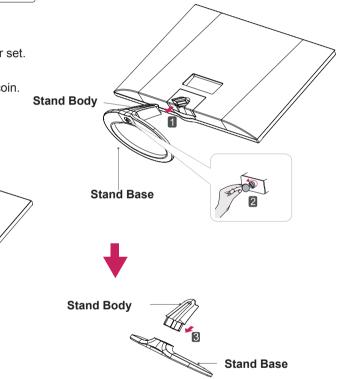

- 2 1 Attach the Stand Body to the monitor set.2 Attach the Stand Base.
 - 3 Tighten the screw to the right with a coin.

Stand Body

Stand Base

Detaching the Stand Base

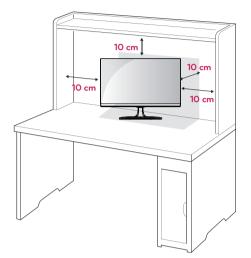

- 1 Place the Monitor set with the screen side down on a flat and cushioned surface.
- 2 Pull out the **Stand Body** and **Stand Base** from the monitor set.
 - 2 Turn the screw to the left with a coin.
 - 3 Pull out the Stand Base.

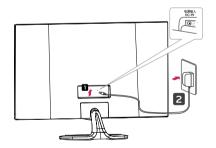

Mounting on a table

1 Lift and tilt the Monitor set into its upright position on a table.

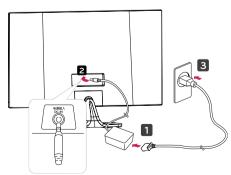

Leave a 10 cm (minimum) space from the wall for proper ventilation.

2 Connect the AC-DC Adapter and Power Cord to a wall outlet.

or

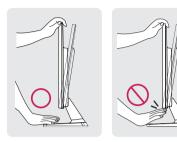

3 Press (Power) button on the bottom switch panel to turn the power on.

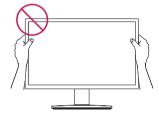

Unplug the power cord before moving the Monitor to another location. Otherwise electric shock may occur.

WARNING -

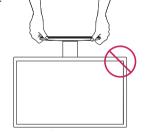

When you adjust the angle, do not hold the bottom of the Monitor set frame as shown on the following illustration, as may injure your fingers.

Do not touch or press the screen when adjusting the angle of the monitor.

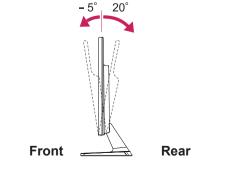

Do not hold this set like below picture.Monitor screen can detach from stand base and injure your body.

NOTE -

Ω

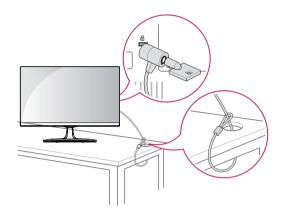

Tilt from +20 to -5 degrees up or down to adjust the angle of the Monitor set to suit your view.

Using the Kensington security system

The Kensington security system connector is located at the back of the Monitor set. For more information of installation and using, refer to the manual supplied with the Kensington security system or visit *http://www.kensington.com*.

Connect the Kensington security system cable between the Monitor set and a table.

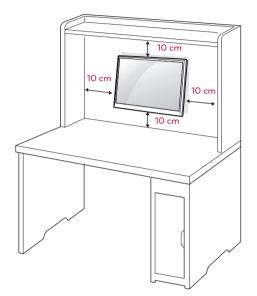

The Kensington security system is optional. You can obtain it from most electronics stores.

Mounting on a wall

For proper ventilation, allow a clearance of 10 cm on each side and from the wall. Detailed

instructions are available from your dealer, see the optional Tilt Wall Mounting Bracket Installation and Setup Guide.

If you intend to mount the Monitor set to a wall, attach Wall mounting interface (optional parts) to the back of the set.

When you install the Monitor set using a wall mounting interface (optional parts), attach it carefully so it will not drop.

- 1 Please, Use the screw and wall mount interface in accordance with VESA Standards.
- 2 If you use screw longer than standard, the monitor might be damaged internally.
- 3 If you use improper screw, the product might be damaged and drop from mounted position. In this case, LG Electronics is not responsible for it.
- 4 VESA compatible.
- 5 Please use VESA standard as below.
- 784.8 mm (30.9 inch) and under
 - * Wall Mount Pad Thickness : 2.6 mm
 - * Screw : Φ 4.0 mm x Pitch 0.7 mm x Length 10 mm
- 787.4 mm (31.0 inch) and above
- * Please use VESA standard wall mount pad and screws.

Model	23EA73LM
VESA (A x B)	75 x 75
Standard screw	M4
Number of screws	4

Model	27EA73LM
VESA (A x B)	100 x 100
Standard screw	M4
Number of screws	4

- Disconnect the power cord first, and then move or install the Monitor set. Otherwise electric shock may occur.
- If you install the Monitor set on a ceiling or slanted wall, it may fall and result in severe injury.
- Use only an authorized LG wall mount and contact the local dealer or qualified personnel.
- Do not over tighten the screws as this may cause damage to the Monitor set and void your warranty.
- Use only screws and wall mounts that meet the VESA standard. Any damages or injuries by misuse or using an improper accessory are not covered by the warranty.

- Use the screws that are listed on the VESA standard screw specifications.
- The wall mount kit will include an installation manual and necessary parts.
- The wall mount bracket is optional. You can obtain additional accessories from your local dealer.
- The length of screws may differ depending on the wall mount. Be sure to use the proper length.
- For more information, refer to the instructions supplied with the wall mount.

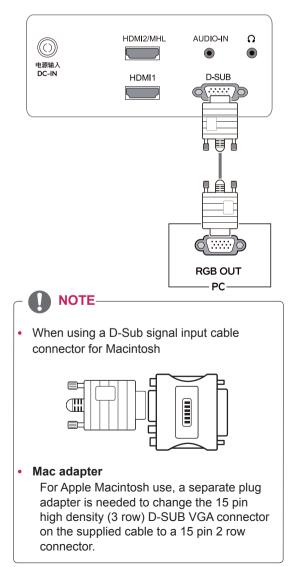

USING THE MONITOR SET

Connecting to a PC

 Your Monitor set supports Plug & Play*.
 *Plug & Play: A PC recognizes a connected device that users connect to a PC and turn on, without device configuration or user intervention.

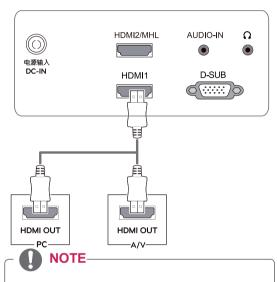

D-SUB connection

Transmits analog video from your PC to the Monitor set. Connect the PC and the Monitor set with the supplied D-sub 15 pin signal cable as shown in the following illustrations.

HDMI connection

Transmits the digital video and audio signals from your PC or A/V to the Monitor set. Connect the PC or A/V and the Monitor set with the HDMI cable as shown in the following illustrations.

- If you use HDMI PC, it can cause compatibility problem.
- When you want to use two PC in our Monitor, please connect the signal cable(D-SUB/ HDMI) respectively in Monitor set.
- If you turn the Monitor set on while it is cold, the screen may flicker. This is normal.
- Some red, green, or blue spots may appear on the screen. This is normal.

 Connect the signal input cable and tighten it by turning the screws clockwise.

- Do not press the screen with your finger for a long time as this may result in temporary distortion on the screen.
- Avoid displaying a fixed image on the screen for a long period of time to prevent image burn. Use a screensaver if possible.

Connecting to a Mobile Phone

MHL(Mobile High-definition Link) connection

Transmits the digital audiovisual signals from your mobile phone to the monitor set. Connect the mobile phone to the monitor set with the MHL cable as shown in the following illustrations.

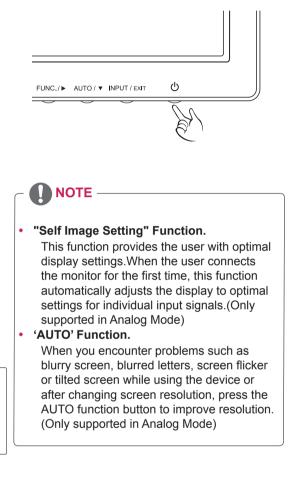

NOTE

- Connect the mobile phone to the HDMI2/MHL port to view the phone screen on the monitor set.
- This only works for the MHL supported phone.

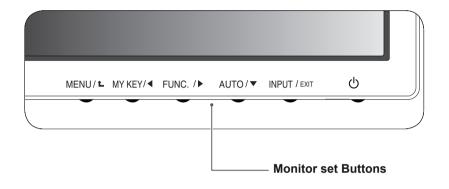

Self Image Setting Function

Press the power button on the bottom panel to turn the power on. When monitor power is turned on, the "**Self Image Setting**" Function is executed automatically. (Only supported in Analog Mode)

CUSTOMIZING SETTINGS

- 1 Press the desired button on the bottom of the Monitor set.
- 2 Change the value of the menu item by pressing the buttons on the bottom of the Monitor set. To return to the upper menu or set other menu items, use the up arrow (♠) button.
- 3 Select Exit to leave the OSD menu.

TROUBLESHOOTING

Check the following before calling for service.

No image appears	
Is the power cord of the display connected?	 Check and see if the power cord is connected properly to the power outlet.
Is the power indicator light on?	Press the Power button.
Is the power on and the power indicator Red?	 Adjust the brightness and the contrast.
Is the power indicator flickering?	 If the display is in power saving mode, try moving the mouse or pressing any key on the keyboard to bring up the screen. Try to turn on the PC.
Do you see an "OUT OF RANGE" message on the screen?	 This message appears when the signal from the PC (video card) is out of horizontal or vertical frequency range of the display. See the 'Specifications' section of this manual and configure your display again.
Do you see a "NO SIGNAL" message on the screen?	 When the monitor is on "No-Signal" in 5 minutes, the monitor goes to DPM mode.

No image appears with mobile phone		
Does the mobile phone support MHL?Check and see if the mobile phone support MHL.Try to update software of the mobile phone to the latest version.		
Is the MHL cable connected?	 Check and see if the MHL cable is connected properly to the mobile phone and HDMI2/MHL port. 	

Do you see a "OSD LOCKED" message on the screen?		
Do you see "OSD LOCKED" when you push MENU button?	 You can secure the current control settings, so that they cannot be inadvertently changed. You can unlock the OSD controls at any time by pushing the MENU button for several seconds: the message "OSD UNLOCKED" will appear. 	

Display image is incorrect		
Display Position is incorrect.	•	Press the AUTO button to automatically adjust your display image to the ideal setting.
On the screen background, vertical bars or stripes are visible.	•	Press the AUTO button to automatically adjust your display image to the ideal setting.
Any horizontal noise appearing in any image or characters are not clearly portrayed.	•	Press the AUTO button to automatically adjust your display image to the ideal setting. Check Control Panel ► Display ► Settings and adjust the display to the recommended resolution or adjust the display image to the ideal setting. Set the color setting higher than 24 bits (true color).

- Check **Control Panel** ► **Display** ► **Settings** and see if the frequency or the resolution were changed. If yes, readjust the video card to the recommend resolution.
- If the recommended resolution (optimal resolution) is not selected, letters may be blurred and the screen may be dimmed, truncated or biased. Make sure to select the recommend resolution.
- The setting method can differ by computer and O/S (Operation System), and resolution mentioned above may not be supported by the video card performance. In this case, please ask to the computer or the video card manufacturer.

Display image is incorrect	
The screen color is mono or abnormal.	 Check if the signal cable is properly connected and use a screwdriver to fasten if necessary. Make sure the video card is properly inserted in the slot. Set the color setting higher than 24 bits (true color) at Control Panel Settings.
The screen blinks.	 Check if the screen is set to interlace mode and if yes, change it to the recommend resolution.

Do you see an "Unrecognized monitor, Plug&Play (VESA DDC) monitor found" message?		
Have you installed the display driver?	 Be sure to install the display driver from the display driver CD (or diskette) that comes with your display. Or, you can also download the driver from our web site: http://www.lg.com. Make sure to check if the video card supports Plug&Play function. 	

The screen is flickering.	
Did you select the recommended resolution?	 If the selected resolution is HDMI 1080i 60/50 Hz, the screen may be flickering. Change the resolution to the recommended resolution 1080P.
