# Getting Started with Your Phone

## The Battery

### Note

It is important to fully charge the battery before initial use of the phone.

The phone comes with a rechargeable battery. The battery charge level is shown at the top right corner of the LCD screen.

## Installing the Battery

1. Insert your fingertip in the fingertip cutout at the bottom of the phone and gently lift off the back cover to remove it.

2. Align the battery contacts with the terminals in the battery compartment and push the battery down until it clicks into place.

3. Place the back cover over the battery compartment, then press downward until it clicks into place.

## Removing the Battery

1. Turn the phone off and insert your fingertip in the fingertip cutout at the bottom of the phone and gently lift off the back cover to remove it.

2. Use the fingertip cutout at the bottom of the battery

# Getting Started with Your Phone

compartment to lift the battery out.

## Charging the Battery

**Warning!** Use only the charger provided with the phone. Using any charger other than the one included with the phone may damage your phone or battery.

### Notice

Please make sure that the 'B' side faces up before inserting a charger or USB cable into the Charger/Accessory Port of your phone.

Plug one end of the charger into the phone's Charger/Accessory Port and the other end into an electrical outlet. The charge time varies depending upon the battery level.

## Battery Charge Level

The battery charge level is shown at the top right corner of the LCD screen. When the battery charge level becomes low, the low battery sensor alerts you in up to three ways: sounding an audible tone, blinking the battery icon, and displaying a warning message. If the battery charge level becomes exceedingly low, the phone automatically switches off and any function in progress is not saved.

## Turning the Phone On and Off

### Turning the Phone On

1. Install a charged battery or connect the phone to an external power source if the battery level is low.
2. Press  for about 3 seconds until the LCD screen turns on.

# Getting Started with Your Phone

## Turning the Phone Off

Press and hold  until the screen turns off.

## Signal Strength

Call quality depends on the signal strength in your area. The signal strength is indicated on the screen as the number of bars next to the signal strength icon ; the more bars, the better the signal strength. If the signal quality is poor, move to an open area. If you are in a building, the reception may be better near a window.

### Note

The call quality may also be affected by your location and weather/ambient conditions.

## Screen Icons

To see the icon glossary, press the Left Soft Key  **Menu** from the standby mode, then press  **Settings** >  **Phone info** >  **Icon Glossary**.

## Making Calls

1. Enter the phone number (include the area code if needed).
2. Press  to dial the number.
3. Press  to end the call.

## Correcting Dialing

If you make a mistake while dialing a number, press  once to erase the last digit entered, or hold down  for at least 2 seconds to erase all the digits entered.

## Redialing Calls

Press  twice to redial the last number you dialed. The last 150 numbers (50 missed, 50 received and 50 dialed) are stored in the call history list and you can also select any of these to redial.

# Getting Started with Your Phone

## Tip

To select your method for answering calls, you can change your Answer Options.

 Menu >  Settings >  Call Settings >  Answer Options.

Choose from the following options:  
Flip Open/ SEND Key Only/ Any Key/ Auto with Handsfree

## Receiving Calls

1. When the phone rings and/or vibrates, press  to answer.

## Note

If you press  or  (the Volume Keys), while the phone is ringing, the ringing or vibration is muted for that call.

2. Press  to end the call.

# Quick Access to Convenient Features

## Mute Function

The Mute function is used during a phone call. To quickly activate Mute, press the Left Soft Key  **Mute**. To cancel, press the Left Soft Key  **Unmute**.

## Quick Volume Adjustments

Quickly adjust the ringer and earpiece volumes by pressing the Volume Up Key to increase the volume and the Volume Down Key to decrease it.

### Note

Keypad Volume is adjusted through the Sound Volume menu:

 Menu >  Settings >   
Sound >  Volume >  Keypad.

## Call Waiting

Your cellular service may offer call waiting. While a call is in progress one beep indicates an incoming call. When call waiting is enabled, you may put the active call on hold while you answer the

other incoming call. Check with your cellular service provider for information about this function.

1. Press  to receive a waiting call.
2. Press  again to switch between calls.

## Caller ID

Caller ID displays the phone number or name of the incoming call. If the caller's identity is stored in Contacts, the name will appear along with the phone number. Check with your service provider to ensure they offer this feature.

## Speed Dialing

Speed dialing is a convenient feature that allows you to make phone calls quickly. A number key can be assigned to a specific phone number. By pressing and holding down a number key, your phone will recall the phone number associated from the Contact List

## Quick Access to Convenient Features

and dial that phone number for you. Speed Dial Number 1 is set to your Voicemail by default and cannot be changed.

Mobile 2/ Home 2/ Office 2/  
Fax**

5. Enter a name for the phone number (up to 32 characters) and press  **Save**. A confirmation message is displayed briefly.

## Phone Numbers With Pauses

When you call automated systems, such as voicemail or credit billing numbers, you often have to enter a series of numbers to navigate through the system. Instead of entering these numbers by hand, you can store the numbers in your Contacts separated by special pause characters (W, P). There are two different types of pauses you can use when storing a number:

### Wait (W)

The phone stops dialing until you press the Left Soft Key  **Release** to advance to the next number.

### Pause (P)

The phone waits 2 seconds before sending the next string of digits.

## Storing a Number with Pauses

1. Press  **Menu**.
2. Press  **Contacts**.

## Contacts in Your Phone's Memory

3. Press **1**  **New Contact**.
