## Safety Information

1

Getting Started

**CAUTION:** TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT REMOVE COVER (OR BACK) NO USER-SERVICEABLE PARTS INSIDE REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

**WARNING:** This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. ***Wash hands after handling.***

**WARNING:** TO PREVENT FIRE OR ELECTRIC SHOCK HAZARD, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

**CAUTION:** The apparatus shall not be exposed to water (dripping or splashing) and no objects filled with liquids, such as vases, shall be placed on the apparatus.

**WARNING:** Do not install this equipment in a confined space such as a book case or similar unit.

**CAUTION:** Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.

Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the product and to protect it from over heating. The openings shall be never be blocked by placing the product on a bed, sofa, rug or other similar surface. This product shall not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instruction has been adhered to.

### CAUTION concerning the Power Cord

Most appliances recommend they be placed upon a dedicated circuit;

That is, a single outlet circuit which powers only that appliance and has no additional outlets or branch circuits. Check the specification page of this owner's manual to be certain. Do not overload wall outlets. Overloaded wall outlets, loose or damaged wall outlets, extension cords, frayed power cords, or damaged or cracked wire insulation are dangerous. Any of these conditions could result in electric shock or fire. Periodically examine the cord of your appliance, and if its appearance indicates damage or deterioration, unplug it, discontinue use of the appliance, and have the cord replaced with an exact replacement part by an authorized service center. Protect the power cord from physical or mechanical abuse, such as being twisted, kinked, pinched, closed in a door, or walked upon. Pay particular attention to plugs, wall outlets, and the point where the cord exits the appliance. To disconnect power from the mains, pull out the mains cord plug. When installing the product, ensure that the plug is easily accessible.

This device is equipped with a portable battery or accumulator.

**Safety way to remove the battery or the battery from the equipment:** Remove the old battery or battery pack, follow the steps in reverse order than the assembly. To prevent contamination of the environment and bring on possible threat to human and animal health, the old battery or the battery put it in the appropriate container at designated collection points. Do not dispose of batteries or battery together with other waste. It is recommended that you use local, free reimbursement systems batteries and accumulators. The battery shall not be exposed to excessive heat such as sunshine, fire or the like.

## IMPORTANT SAFETY INSTRUCTIONS

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings.  
Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

**FCC Compliance Statement**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**CAUTION :** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

**FCC WARNING:** This equipment may generate or use radio frequency energy. changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. The user could lose the authority to operate this equipment if an unauthorized change or modification is made.

**FCC RF Radiation Exposure Statement :** This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

**FCC Radio Frequency Interference Requirements**

This device is restricted to indoor use due to its operation in the 5.15 to 5.25 GHz frequency range. FCC requires this product to be used indoors for the frequency range 5.15 to 5.25 GHz to reduce the potential for harmful interference to co-channel Mobile Satellite systems. High power radars are allocated as primary users of the 5.25 to 5.35 GHz and 5.65 to 5.85 GHz bands. These radar stations can cause interference with and/or damage this device. This device cannot be co-located with any other transmitter.

**CAUTION:** Regulations of the FCC and FAA prohibit airborne operation of radio-frequency wireless devices because their signals could interfere with critical aircraft instruments.

**Responsible Party :**

LG Electronics USA, Inc. 1000 Sylvan Avenue  
Englewood Cliffs, NJ 07632

## Unique features

### LG Sound Sync

Controls volume level of this unit by the remote control of your LG TV that is compatible with LG Sound Sync.

### Bluetooth

Enjoys music from bluetooth device with simple connection.

## Introduction

### Symbols used in this manual

#### Note

Indicates special notes and operating features.

#### Caution

Indicates cautions for preventing possible damages from abuse.

## Accessories

Please check and identify the supplied accessories.

Remote control (1)

Battery (1)

AC adapter (1)

Power cord (1)

Wall bracket install guide (1)

Wall bracket (1)

Shaft wall mount (2)

Optical cable (1)

Cable ties for arranging cables (2)

## Remote control

### ! Note

- Once the sound bar is shut down to standby, please wait several seconds before trying to use remote again.
- When you press any button on the remote control, the red LED on the main unit blinks twice. (Except (Power) button)
- The color LED that indicates the current function is lit up for about 3 seconds when you press the function buttons: , **OPTICAL**, **LG TV**.
- If the volume level reached a minimum or a maximum, the red LED on the unit is lit up when you adjust the volume level of the sound bar.
- If the woofer level reached a minimum or a maximum, the red LED on the unit is lit up when you adjust the woofer level of the wireless subwoofer.

### ..... 1 .....

(Power): Switches the unit ON or OFF.

**VOL + / -** : Adjusts speaker volume.

**\***: The button is not available for any function.

(Mute) : Mutes the sound.

: Select Bluetooth function.

**OPTICAL**: Select Optical function.

**LG TV** : Select LG TV function.

### ..... 2 .....

**WOOFER LEVEL +/-** : Sets the sound level of woofer speaker.

**3D SOUND** : Turns on and off the 3D Sound mode.

**DRC** : Sets DRC(Dynamic range control) function.

### ..... 3 .....

**AUTO POWER** : This function is automatically turned on the unit.

**TV Control buttons**: Controls the TV. (LG TV only)

You can control the functions on LG TV : Power, input source, mute, volume level, channels.

## Battery Installation

1. Turn the battery cover counterclockwise by using a coin. Then remove the battery cover.

2. Insert and fix the battery with the minus (-) facing in the same direction as the minus (-) on the battery compartment.

3. Put the battery cover on the remote control and turn it clockwise to close.

### Caution

If you have long nails, do not open the battery cover by using your finger. Or else, your nail could break.

### Warning

- DO NOT INGEST BATTERY. CHEMICAL BURN HAZRD
- The battery used in this device may present a fire or chemical burn hazard if mistreated. Do not recharge, disassemble, incinerate, or heat above 100 °C (212 °F). Replace the battery part no. CR2025 only. Use of another battery may present a risk of fire or explosion. Dispose of used battery. Keep battery away from children. Do not disassemble or dispose of in fire.
- [The remote control supplied with] This product contains a coin/button cell battery. If the coin/button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death. Keep new and used batteries away from children. If the battery compartment does not close securely, stop using the product and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

## Front panel

**1** Remote sensor

**2** LED indicator

You can check the current state of the sound bar by the color LED on it. Refer to the table below.

LED Color LED State	Red	Orange	Green	White
Off	Power on or disconnected power cord			
On	Standby	-	-	-
Blink (Twice per second)	Booting	Bluetooth ready	-	LG sound sync (LG TV) ready
Blink (Once per second)	Mute	-	-	-
On -> Off (After 3 seconds)	-	Bluetooth paired	Optical function selected	LG sound sync (LG TV) paired

## Rear panel

1  
Getting Started

- 1** **F** (Function)  
Press it repeatedly to select other function.
- 2** **+/-** (Volume)  
Adjusts speaker volume.
- 3** **I/Q** (Standby/On)
- 4** Foot stand
- 5** Optical input
- 6** DC input

### Caution

Precautions in using the touch buttons

- Use the touch buttons with clean and dry hands.  
- In a humid environment, wipe out any moisture on the touch buttons before using.
- Do not press the touch buttons hard to make it work.  
- If you apply too much pressure, it can damage the sensor of the touch buttons.
- Touch the button that you want to work in order to operate the function correctly.
- Be careful not to have any conductive material such as metallic object on the touch buttons. It can cause malfunctions.

## Mounting the main unit on a wall

Mounting the main unit on a wall, you should connect all the cables for operating the unit. For details, refer to the page 13.

You can mount the main unit on a wall. Prepare screws and brackets.

1. Detach the foot stand from the main unit.

2. Put the shafts on the bottom of the main unit and fix it firmly by using the screws that have been loosened on step 1.

3. Match the TV's BOTTOM EDGE of Wall bracket install guide with the bottom of TV and attach to the position.

1

Getting Started

## 12 Getting Started

1

Getting Started

- When you mount it on a wall (concrete), use the wall plugs (Not supplied). You should drill some holes. A guide sheet (WALL BRACKET INSTALL GUIDE) is supplied to drill. Use the sheet to check the point to drill.

### ! Note

Screws and Wall Plugs are not supplied for mounting the unit. We recommend the Hilti (HUD-1 6 x 30) for the mounting. Please purchase it.

- Remove the Wall bracket install guide.
- Fix it with screws (not supplied) as shown in the illustration below.

### ! Note

Make sure that the arrow mark on the wall bracket should be facing upwards.

- Hang the main unit onto the bracket as shown below.

### ! Caution

- Do not install this unit upside down. It can damage the parts of this unit or be the cause of personal injury.
- Do not hang onto the installed unit and avoid any impact to the unit.
- Secure the unit firmly to the wall so that it does not fall off. If the unit falls off, it may result in an injury or damage to the product.
- When the unit is installed on a wall, please make sure that a child does not pull any of connecting cables, as it may cause it to fall.

### ! Note

Detach the unit from the bracket as shown below.

## Connection and setting up

### Connecting the AC adapter

1. Connect the supplied AC power cord to the AC adapter.
2. Connect the AC adapter cable to DC. IN adapter input.
3. Plug the AC power cord into an AC outlet.

#### Caution

Only use the AC adapter supplied with this device. Do not use a power supply from another device or manufacturer. Using any other power cable or power supply may cause damage to the device and void your warranty.

### OPTICAL In connection

Connect the OPT. IN jack on the back of the unit to OPTICAL OUT jack on the TV using an OPTICAL cable.

#### Note

After connecting all the cables, hide the connector with the cover on the unit.

2

Connecting

## Pairing wireless subwoofer

### Setting up the wireless subwoofer for the first time

1. Connect the power cord of the wireless subwoofer to the outlet. The yellow-green LED on the subwoofer starts to blink.
2. Turn on the sound bar. The red LED on it starts to blink and then the sound bar and the subwoofer will be automatically connected.

When connection is completed, the yellow-green LED on the subwoofer is turned on and the green LED on the sound bar is lit up for about 3 seconds.

### Manually pairing wireless subwoofer

When the connection has been failed between the sound bar and the wireless subwoofer, the red LED on the subwoofer is turned on. To pair them, follow the steps below.

1. Press **PAIRING** on the back of the subwoofer. The yellow-green LED on the wireless subwoofer starts to blink.
2. Press and hold **—** (Volume) on the unit and **Mute** on the remote control at the same time. The green LED on the sound bar starts to blink.
3. After the yellow-green LED on the subwoofer is turned on, press the buttons on step 2 again. The connection will be completed.

### Information of the color LED indicators

State	Sound bar LED	Wireless subwoofer LED
Standby	Red	Red
Initial pairing	Red (Blink)	Yellow-green (Blink)
Pairing	Green (Blink)	Yellow-green (Blink)
Connected	Green → Off	Yellow-green
Disconnected	Off	Yellow-green (Blink) → Red

#### ! Note

- If you operate main unit then wireless subwoofer sound within a few seconds in standby mode.
- Set the distance between this unit and wireless subwoofer within 10 m (32 ft.).
- Optimum performance can be implemented only when the unit and the Wireless subwoofer within distance of 2 m (6 ft.) to 10 m (32 ft.) is used since communication failure may occur if longer distance is used.
- It takes a few seconds (and may take longer) for the unit and subwoofer to communicate with each other.

## Basic operations

### LG Sound Sync

You can control some functions of this unit by your TV's remote control with LG Sound Sync. It is compatible with the LG TV that is supported LG Sound Sync. Make sure of the LG Sound Sync logo on your TV.

Controllable function by LG TV's remote control :  
Volume up/down, mute

Refer to the TV's instruction manual for the details of LG Sound Sync.

Make one of the following connections, depending on the capabilities of your equipment.

#### Note

- You can also use the remote control of this unit while using LG Sound Sync. If you use TV's remote control again, the unit synchronizes with the TV.
- When the connections failed, make sure of the condition of the TV and power of it.
- Make sure of the condition of this unit and the connection in the cases below when using LG Sound Sync.
  - Turned off the unit.
  - Changing the function to the others.
  - Disconnecting the optical digital audio cable.
  - Disconnecting the wireless connection caused by interference or a distance.
- The amount of time to turn off this unit is different depending on your TV when you set AUTO POWER function to ON.

### With wired connection

1. Connect your LG TV to the unit by using an optical digital cable. (Refer to the page 13.)
2. Set up LG Sound Sync (Optical) on the TV. Refer to the TV's instruction manual.
3. Turn on the unit by pressing  (Power) on the remote control.
4. Select OPTICAL function by using **OPTICAL** on the remote control.

Green LED on the unit is lit up for about 3 seconds and you can listen to the TV's sound.

### With wireless connection

1. Turn on the unit by pressing  (Power) on the remote control.
2. Select LG TV function by using **LG TV** on the remote control. Then white LED on the unit starts to blink.
3. Set up LG Sound Sync (Wireless) on the TV. Refer to the TV's instruction manual.

When connection is completed normally between this unit and your TV, white LED on the unit is lit up for about 3 seconds.

#### Note

If you turned off the unit directly by pressing  (Power), LG Sound Sync (Wireless) will be disconnected. To use this function again, you should reconnect the TV and the unit.

## AUTO POWER On/Off

This function automatically turns on/off the unit when you turn on/off the TV or the external device (DVD Player, Blu-ray Disc Player, etc.) connected to this unit.

It is supported only on OPTICAL and LG TV functions.

Turn on or off AUTO POWER function by using **AUTO POWER ON/OFF** on the remote control.

### ! Note

- After the unit is turned on by AUTO POWER function, it will be automatically turned off if there is no signal for a certain period of time from the TV connected by LG Sound Sync (Optical/Wireless).
- After the unit is turned on by AUTO POWER function, it will be automatically turned off if there is no signal for a certain period of time from the external device connected by an optical cable.
- Depending on the connected device, this function may not operate.
- It is not available to turn on the unit by AUTO POWER function if you turn off the unit directly.
- When booting this unit on LG TV function, it takes about 25 seconds to turn it on and the red LED is blinking twice per second. During that time, you cannot control this unit except turn it off.
- In Bluetooth Mode This Unit may be Turned ON by Auto Power setting depending on connected bluetooth device and LG TV function selected.  
In this case the Unit will be turned OFF automatically and when you restart the Unit it will be turned ON by LG TV function.

## Using Bluetooth technology

### About Bluetooth

Bluetooth is wireless communication technology for short range connection.

The sound may be interrupted when there is interference by the other electronic waves which run on same frequency or if you connect bluetooth devices in the other rooms nearby.

Connecting individual devices under **Bluetooth®** wireless technology does not incur any charges. A mobile phone with **Bluetooth®** wireless technology can be operated via the Cascade if the connection was made via **Bluetooth®** wireless technology.

Available Devices : Mobile phone, MP3, Laptop, PDA etc.

### Bluetooth profiles

In order to use **Bluetooth®** wireless technology, devices must be able to interpret certain profiles. This unit is compatible with following profile.

A2DP (Advanced Audio Distribution Profile)

## Listening to music stored on the Bluetooth devices

### Pairing this unit and Bluetooth device

Before you start the pairing procedure, make sure the Bluetooth feature is turned on your device. Refer to your Bluetooth device's user guide. Once a pairing operation is performed, it does not need to be performed again.

1. Select the Bluetooth function by using  on the remote control. Then the orange LED on the unit starts to blink.
2. Operate the Bluetooth device and perform the pairing operation. When searching for this unit with the Bluetooth device, a list of the devices found may appear in the Bluetooth device display depending on the type of Bluetooth device. Your unit appears as "LG SOUND BAR (XX:XX)".

#### Note

XX:XX means the last four digits of BT address. For example, if your unit has a BT address such as 9C:02:98:4A:F7:08, you will see "LG SOUND BAR (F7:08)" on your Bluetooth device.

3. Enter the PIN code.  
PIN code : 0000

#### Note

Depending on the Bluetooth device type, some device have a different pairing way.

4. The orange LED is lit up for about 3 seconds when this unit successfully paired with your Bluetooth device.
5. Listen to music.  
To play a music stored on your Bluetooth device, refer to your Bluetooth device's user guide.

#### Note

- When using Bluetooth® technology, you have to make a connection between the unit and the bluetooth device as close as possible and keep the distance. However it may not work well in the case below :
  - There is a obstacle between the unit and the bluetooth device.
  - There is a device using same frequency with **Bluetooth®** technology such as a medical equipment, a microwave or a wireless LAN device.
- You should connect your Bluetooth device to this unit again when you restart it.
- When you select Bluetooth function again after changing to other functions, Bluetooth connection may be disconnected. You should reconnect the bluetooth device to use this function.
- The sound may be interrupted when the connection interfered by the other electronic wave.
- You cannot control the Bluetooth device with this unit.
- Pairing is limited one Bluetooth device per one unit and multi-pairing is not supported.
- Depending on the type of the device, you may not be able to use the Bluetooth function.
- You can enjoy wireless system using phone, MP3, Notebook, etc..
- The more distant between the unit and the bluetooth device, the lower the sound quality becomes.
- Bluetooth connection will be disconnected when the unit is turned off or the bluetooth device gets far from the unit.
- When Bluetooth connection is disconnected, connect the bluetooth device to the unit again.
- When not connected the Bluetooth, orange LED is blinking.

## Other operations

### Turn off the sound temporarily

You can mute your unit, for example, to answer the telephone.

Press  on the remote control. Red LED blinks and there is no sound on the unit.

To cancel it, press  again on the remote control or change the volume level.

### Adjust the woofer level settings

You can adjust the sound level of the wireless subwoofer. Press **WOOFER LEVEL + / -** on the remote control.

#### Note

If the woofer level reached a minimum or a maximum, the red LED on the sound bar is lit up when you adjust the woofer level of the wireless subwoofer.

### 3D Sound effect

3D Sound features deliver sound creating a wider spot so you can enjoy more immersive and cinematic surround sound.

Turn on or off 3D Sound effect by using **3D SOUND ON/OFF** on the remote control.

### DRC (Dynamic range control)

Make the sound clear when you feel the volume is too low.

Turn on or off DRC by using **DRC ON/OFF** on the remote control.

### Auto power down

This unit will turn itself off to save electric consumption in the case were main unit is not connected to external device and is not used for 25 minutes.

When you feel the output sound of the unit is low.	<p>Check the details below and adjust the unit according to them.</p> <ul style="list-style-type: none"> <li>Switch [ON] state of DRC function to [OFF] by using remote controller.</li> <li>With the sound bar connected with TV, change the AUDIO DIGITAL OUT setting on TV Setup Menu from [PCM] to [AUTO] or [BITSTREAM].</li> <li>With the sound bar connected with Player, change the AUDIO DIGITAL OUT setting on Player Setup Menu from [PCM] to [PRIMARY PASS-THROUGH] or [BITSTREAM].</li> <li>Change Audio DRC setting on Player setup menu to [OFF] state.</li> </ul>

## Specifications

General	
Power requirements	AC 100 - 240 V, 50 / 60 Hz
Power consumption	18 W
Dimensions (W x H x D)	1,200 mm x 62 mm x 44.7 mm (44.2" x 2.4" x 1.8") (With foot stand)
Net Weight (Approx.)	1.6 kg
Operating temperature	41 °F to 95 °F (5 °C to 35 °C)
Operating humidity	5 % to 90 %

Inputs	
DIGITAL IN (OPTICAL IN)	3.0 Vrms (p-p), Optical jack
Available Digital Input Audio Sampling Frequency	32 kHz, 44.1 kHz, 48 kHz, 96 kHz

Amplifier	
Total output	200 W
Stereo mode	40 W + 40 W (8 $\Omega$ at 1 kHz)
Wireless subwoofer	120 W (3 $\Omega$ at 80 Hz)
THD	10 %

Wireless subwoofer	
Power requirements	AC 120 V, 60 Hz
Power consumption	35 W
Type	1 Way 1 Speaker
Impedance	3 $\Omega$
Rated Input Power	120 W
Max. Input Power	240 W
Net Dimensions (W x H x D)	296 mm X 332 mm X 296 mm (11.7" x 13.1" x 11.7")
Net Weight	7.64 kg

## Maintenance

### Handling the unit

#### When shipping the unit

Please save the original shipping carton and packing materials. If you need to ship the unit, for maximum protection, re-pack the unit as it was originally packed at the factory.

#### Keeping the exterior surfaces clean

- Do not use volatile liquids such as insecticide spray near the unit.
- Wiping with strong pressure may damage the surface.
- Do not leave rubber or plastic products in contact with the unit for a long period of time.

#### Cleaning the unit

To clean the player, use a soft, dry cloth. If the surfaces are extremely dirty, use a soft cloth lightly moistened with a mild detergent solution. Do not use strong solvents such as alcohol, benzine, or thinner, as these might damage the surface of the unit.
