 **NOTE**

- The warranty will not cover any damages caused by using the product in an excessively dusty environment.

INSTALLATION PREPARATION

Accessories

Check your product box for the following items. If there are any missing accessories, contact the local dealer where you purchased your product. The illustrations in this manual may differ from the actual product and accessories.

**CD (Owner's Manual)/
Easy Setup Guide**

NOTE

- The accessories supplied with your product may vary depending on the model.
- Product specifications or contents in this manual may be changed without prior notice due to upgrade of product functions.
- LVDS cable is optional and not provided with the product. Please refer to **LVDS Pin Map Guide** on pages 14 to 15 for the LVDS cable assembly.

CAUTION

- Do not use any unauthorized parts or accessories to ensure the safety and product life span.
- Any damages or injuries by using unauthorized items are not covered by the warranty.

Mounting Holes

Use M3 screws to mount the monitor. The holes for the screws are on the rear of the product.

< Front of the product >

< Rear of the product >

CAUTION

- This product has the front and back sides. Make sure the product is installed with the front side facing forward.
- The image is reversed on the back.

Portrait Layout

To install in portrait mode, rotate the set clockwise 90 degrees when looking at from the front. The portrait mode is only available on the scaler board. (The scaler board should support portrait mode.)

CAUTION

- You can make a scaler board or purchase AD Box (TSP500, TSP300).
- The production of a scaler board is optional.

Storage Method for Panel Protection

Correct Method

When laying the product on a flat floor, pit it face down on a cushion or blanket to prevent scratching and damage.

Incorrect Method

If the product is tilted onto the bezel, the bottom of the panel may be damaged.

If there is no a cushion or a soft cloth available, ensure the floor is clean. Then lay the product down carefully with the panel facing either upward or downward. At this time, make sure that no object falls on the panel.

If the product is tilted onto the edge of the panel, the panel may be damaged.

PRODUCT INSTALLATION

Installing an LVDS Cable

The LVDS cable port is located as shown in the figure below.
When installing the product, make sure there is enough space to install the LVDS cable.

! NOTE

- LVDS cable is optional and not provided with the product.

Lighting Installation

This product must be installed with backlighting.

Lighting must be installed behind the product so that the display can be seen clearly.

If something obstructs the backlighting, additional lighting may be required.

Installation in Enclosure

Install the product in the enclosure. Wear work gloves when installing the product. Do not use bare hands. Otherwise, it may cause personal injury.

- 1 Place the product in the enclosure.
- 2 Attach the product using the prepared screw holes and an additional enclosure guide frame.

< Example of the product in the enclosure >

NOTE

- This product can be installed in locations other than within the enclosure.

CAUTION

- The panel of this product is so thin that it can be easily broken when it is exposed to the outside. Use a clear protective cover to keep the product from exposure to the elements.
- When installing the product in its housing, make sure that the framework of the product is grounded. (This helps prevent the product being damaged in the event of thunder and lightning.)

< Example of the lighting installation >
Lighting must be installed in the enclosure.

Precaution

Correct Method

Do not hold the screen area when holding the product.

Use a soft cloth moistened with n-hexane to remove dust or stains on the screen.

CAUTION

- If a fixed image displays on the screen for a long period of time, it will be imprinted and become a permanent disfigurement on the screen. This is image burn or burn-in and not covered by the warranty.
- To prevent image sticking, do not play a still image for more than two hours.
- Recommended operation time for optimum performance and reliability is 12 hours or less per day.

Incorrect Method

Do not lift up the product by holding a corner.

CAUTION

- Make sure the power is disconnected before moving or installing the product. Otherwise electric shock may occur.
- Wear working gloves when installing the product. Do not use bare hands. Otherwise, it may cause personal injury.
- If you install the product on a ceiling or slanted wall, it may fall and result in severe injury.
- Do not fasten the screws too tightly; this may cause damage to the product and void your warranty.
- Use M3 x 4 mm screws to mount the monitor. Any damages or injuries caused by misuse or use of improper accessories are not covered by the warranty.

TROUBLESHOOTING

After-image appears on the product.

Problem	Resolution
After-image appears when the product is turned off.	<ul style="list-style-type: none"> • If you use a fixed image for a long time, the pixels may be damaged quickly. Use the screen-saver function. • When a dark image is displayed on the screen after an image with high contrast (black and white, or gray), this may cause image sticking. This is normal for LCD screen.

Screen color is abnormal.

Problem	Resolution
Screen color is unstable or mono-colored.	<ul style="list-style-type: none"> • Check the connection status of the LVDS cable. • Check whether the LVDS cable is connected correctly following the LVDS Pin Map Guide.
Do black spots appear on the screen?	<ul style="list-style-type: none"> • Several pixels (red, green, white or black color) may appear on the screen, which can be attributable to the unique characteristics of the LCD panel. It is not a malfunction of the LCD.
