

User Guide

This is a ^rUser Guide installed on the TV.

The contents of this guide are subject to change without prior notice for quality improvement.

D To view program information

Press INFO button.

Displays information on current program and / or current time, etc.

T To set favorite channels

SETTINGS \Rightarrow CHANNEL \rightarrow Channel Edit

- 1 Press the Q.MENU button on Channel Edit screen and select Favorite Group.
- 2 Select the desired channel.
- 3 Please press FAV button. The selected channels are saved as favorite channels.

To use Favorites

Press FAV button.

Favorite list will appear. Select the desired preset favorite channel from Favorite List A-D.

To set up the channels automatically

SETTINGS ⇒ CHANNEL → Auto Tuning

Memorizes automatically the channels being broadcast.

- Solution State State
- Section Autor Tuning memorizes the channels that are currently being broadcast.
- If Lock System is turned on, a pop-up window will appear asking for password.

□ To set up the channels at manually

SETTINGS \Rightarrow CHANNEL \rightarrow Manual Tuning

Adjusts channels manually and saves the results.

For digital broadcasting, signal strength, etc. can be checked.

\square To edit the channels

SETTINGS \Rightarrow CHANNEL \rightarrow Channel Edit

Edits the saved channels.

SETTINGS ⇒ PICTURE → Aspect Ratio

Selects the screen aspect ratio.

- 16:9: Resizes the image ratio to fit 16:9 screen.
- Just Scan: Displays high-quality image without loss.
 - Select the Just Scan at the input of DTV/Component/HDMI/DVI (720P or higher).
- Set by Program: Depending on the input signal, screen aspect ratio changes to 4:3 or 16:9
- 4:3: Resizes the image ratio to fit 4:3 screen.
- Zoom: Resizes the image to fit the screen width. The top and bottom parts of the image may be cut off.
- Cinema Zoom: Formats an image to the cinemascope ratio (2.35:1) and zooms in on the ratio.

Solution States Sta

- a video with stationary caption (such as network name)
- 4:3 aspect ratio mode for an extended periodTake caution when using these functions.
- \sim Available picture size may differ depending on the input signal.
- At HDMI/RGB-PC input, select the image ratios of 4:3 and 16:9. (Only for models supporting PC connection)

T To adjust pictures in PC input mode

SETTINGS \Rightarrow PICTURE \rightarrow Screen (RGB-PC)

Adjusts picture in RGB-PC mode.

- Resolution: Sets the desired resolution.
 - Options may only be selected when the PC resolution is set to 1024 x 768, 1280 x 768, or 1360 x 768.
- Auto Config.: Optimizes the picture.
- Position/Size/Phase: Adjusts screen size and position for optimum viewing.
- Reset: Initializes the screen setups in PC input mode.

□ To set PC resolution

- 1 Right-click on the PC's desktop and select [¬]Properties_→.
- 2 Click on ^rSettings or Screen Resolution_J and refer to the supported format to set the resolution.
- 3 Select [¬]Advanced → Monitor → Monitor Setup」 on the setup window. Refer to the supported formats to select the optimal vertical frequency.
- ∞ In PC mode, 1360 x 768 resolution delivers the optimum picture quality.
- ∞ Method to set up resolution differs depending on PC type.

□ Supported Input Formats

PC Input Mode	Resolution	Horizontal Frequency (KHz)	Vertical Frequency (Hz)
HDMI, RGB-PC	640×350	31.468	70.09
	720×400	31.469	70.08
	640×480	31.469	59.94
	800×600	37.879	60.31
	1024x768	48.363	60.00
	1152x864	54.348	60.053
	1360×768	47.712	60.015

[Depending on model]

Press AV MODE button.

Optimizes the TV's Picture/Audio for different AV modes.

- Off: Views with the value set at the PICTURE/AUDIO Menu.
- Cinema: Optimizes picture and audio settings for movies.
- Sport: Optimizes picture and audio settings for sports.
- Game: Optimizes picture and audio settings for games.

To adjust pictures with Picture Wizard

SETTINGS ⇒ PICTURE → Picture Wizard II

This function calibrates and adjusts for optimum picture quality with the remote control and the Picture Wizard without expensive pattern devices or help from a specialist.

Follow the instructions on the screen to obtain the optimum picture quality.

T To select Picture Mode

SETTINGS \Rightarrow PICTURE \rightarrow Picture Mode

Select the picture mode optimized for the viewing environment or the program.

- Expert: Menu for adjusting picture quality that allows experts and amateurs to enjoy the best TV viewing. This menu for adjustment is provided for ISF-certified picture tuning professionals. (ISF logo can only be used on ISF-certified TVs.)
 - ISFccc: Imaging Science Foundation Certified Calibration Control

- Separation Not separation Sep
- Expert mode is for picture tuning professionals to control and fine-tune using a specific image. For normal images, the effects may not be drastic.

D To fine-tune picture mode

SETTINGS → PICTURE → Picture Mode → Backlight / Contrast / Brightness / Sharpness / Color / Tint / Color Temp.

First select a Picture Mode of your choice.

- Backlight: Adjusts the display brightness by varying the brightness of the LCD panel.
- Depending on the input signal or other picture settings, the range of detailed items for adjustment may differ.

To set advanced control

SETTINGS ⇒ PICTURE → Picture Mode → Advanced Control / Expert Control

For each picture mode, screen can be calibrated; or for a special screen, picture settings can be adjusted.

Select the desired Picture Mode.

- Dynamic Contrast: Adjusts the contrast to the optimal level according to the image's brightness.
- Dynamic Color: Adjusts colors to make the image appear in more natural colors.
- Clear White: Enhances whites on screen to make the image brighter and sharper.

- Skin Color: Skin color spectrum can be separately set to implement the skin color as defined by the user.
- Noise Reduction: Eliminates noise in the picture.
- Digital Noise Reduction: Eliminates noise generated while creating digital picture signals.
- Gamma: Sets the gradation curve according to the output of picture signal in relation to the input signal.
- Black Level: Adjusts the screen's brightness and contrast to fit them to the input picture's black level by using the blackness (black level) of the screen.

- Eye Care / Motion Eye Care: Protects viewers from eye glare by adjusting the screen's brightness.
 - Section Eye Care: Depending on model
- Real Cinema: Helps maintain the optimal state of the screen.
- Color Gamut: Selects the range of colors that can be expressed.
- Edge Enhancer: Shows clearer and distinctive yet natural edges of the video.
- Expert Pattern: Patterns used for expert adjustment
- Color Filter: Filters a specific color spectrum in RGB colors to fine-tune color saturation and hue accurately.

- Color Temperature: Adjusts the overall tone of the screen as desired. In Expert mode, detailed fine-tuning can be set via Gamma method, etc.
- Color Management System: This system is used by experts to adjust color with a test pattern. They can select from six color areas (Red/ Green/Blue/ Cyan/Magenta/Yellow) without affecting other colors. For normal images, adjustments may not result in noticeable color changes.
- Depending on input signal or other picture settings, the range of detailed items for adjustment may differ.

To initialize picture settings

SETTINGS ⇒ PICTURE → Picture Mode → Picture Reset

Initializes picture settings that the user customizes.

Each picture mode is reset. Select the desired picture mode to reset.

T To use Sound Mode

SETTINGS \Rightarrow AUDIO \rightarrow Sound Mode

Adjusts TV audio to an optimal level according to a selected sound mode.

To manually adjust Sound Mode

SETTINGS ⇒ AUDIO → Sound Mode → Infinite Surround / Treble / Bass / Reset

Sets minute options for each sound mode.

Select the desired Sound Mode first.

- Infinite Surround: LG's proprietary audio processing technology allows 5.1 channel-like surround sound from two speakers.
 When Clear Voice II is set to On. Infinite Surround is not available.
- Treble/Bass: Adjusts treble and bass in Sound.
- Reset: Initializes voice options that the user has changed. Initializes each voice mode. Select the desired sound mode to reset.

To set Auto Volume

SETTINGS ⇒ AUDIO → Auto Volume

Sets Auto Volume to ON and volume output from channel to channel is automatically adjusted for convenient TV watching when clicking through different channels.

□ To adjust Clear Voice II function
SETTINGS ⇒ AUDIO → Clear Voice II
Boosts audio clarity from the TV.

□ To adjust audio balance
 SETTINGS ⇒ AUDIO → Balance
 Adjusts left/right audio balance.

□ To use TV speakers

SETTINGS ⇒ AUDIO → TV Speaker

[Depending on model]

When listening to the speakers on external audio devices connected to the TV such as home theater, TV speaker may be turned off. When there are SIMPLINK connected home theater devices, selecting TV Speaker to OFF will automatically turn on home theater.

• Off: TV speakers do not play sound. TV sounds can be played through external audio device speakers connected to the TV.

In this mode, volume adjustment can be made on the external audio device connected to the TV.

• On: TV internal speakers play TV sound.

D To use Digital Audio Out SETTINGS \Rightarrow AUDIO \rightarrow Digital Audio Out [Depending on model] Sets up Digital Audio Out. Item Audio Input **Digital Audio output MPEG** PCM Dolby Digital Auto **Dolby Digital Plus**

HE-AAC

All

PCM

Dolby Digital Dolby Digital Dolby Digital PCM

T To select external input

Press INPUT button.

Selects external input.

Edit the device name: You can edit the name of the external device connected to the external input port.

To use SIMPLINK

SIMPLINK controls and manages multimedia devices conveniently with the TV remote control through the SIMPLINK menu.

- 1 Connect TV' HDMI IN terminal and SIMPLINK device's HDMI output terminal using HDMI cable.
- [Depending on model] For home theater units with SIMPLINK function, connect HDMI terminals as above, and use an optical cable to connect Optical Digital Audio Out from the TV to Optical Digital Audio In of the SIMPLINK device.
- 2 Select INPUT ⇒ SimpLink. SIMPLINK menu window appears.
- 3 In SIMPLINK Setting window, set SIMPLINK function to ON.
- 4 In SIMPLINK menu window, select the device to control.

- Solution State State
- To use SIMPLINK function, use high-speed HDMI® cable (with CEC (Consumer Electronics Control) feature added). High-speed HDMI® cable has No. 13 pin connected for information exchange between devices.
- ♥ When changing to another input, the SIMPLINK device stops.
- If a third-party device with HDMI-CEC support is added, the SIMPLINK device may not work normally.
- [Depending on model] When selecting or playing media with the home theater chosen as the audio device, HT Speaker is automatically connected. Be sure to connect with Optical cable (sold separately) to use the HT Speaker function.

□ SIMPLINK function description

- Direct Play : Plays the multimedia device on the TV.
- Select multimedia device : Selects the desired device through SIMPLINK menu and control the device from the TV screen instantly.
- Disc playback : Manages the multimedia device with the TV remote control.
- Power off all devices : When you power off the TV, all connected devices are turned off.
- Sync Power on : When the equipment with SIMPLINK function connected HDMI terminal starts to play, the TV will automatically turn on.
- Speaker : [Depending on model] Selects either home theater unit or TV speaker.

SETTINGS ⇒ PICTURE → Energy Saving

Saves electric power by adjusting screen brightness.

- Off: Turns off the Energy Saving.
- Minimum/Medium/Maximum : Applies the pre-set Energy Saving.
- Screen Off : Screen is turned off and only sound is played. Press any button on the remote control to turn the screen back on.

T To use Sleep Timer

SETTINGS \Rightarrow TIME \rightarrow Sleep Timer

Turns off the TV after a prescribed number of minutes.

To deactivate the Sleep Timer, select Off.

D To set current time

SETTINGS \Rightarrow TIME \rightarrow Clock

Checks or changes the time while watching TV.

- Auto : Synchronizes the TV clock to the digital time information sent by the TV station.
- Manual : Sets the time and date manually if the auto setup does not correspond to the current time.

T To turn on/off the TV

SETTINGS \Rightarrow TIME \rightarrow On Time / Off Time

Sets On/Off time.

- To deactivate the On/Off time function, select Off on Repeat.
- ∞ To set On/Off time, set the current time correctly.
- Solution Section S

□ To set password

SETTINGS ⇒ LOCK → Set Password

Sets or changes TV password.

ℕ The initial password is set as $^{\Gamma}0000_{J}$.

To lock system

SETTINGS ⇒ LOCK → Lock System

Permits only specific programs by blocking channels or external input.

At first, select Lock System to ON.

 Block Channel : Blocks the channels that contain inappropriate content for children. The channels can be selected but the screen is blank and the audio is muted. To watch a locked channel, enter the password.
- Movie Rating [Depending on model]: Blocks the movies that are only broadcasted on the TV and contain inappropriate contents, based on the Motion Picture Association of America (MPAA) rating.
 - G: (General audiences) All ages admitted
 - PG : (Parental guidance suggested) Some material may not be suitable for children
 - PG-13 : (Patents strongly cautioned) Some material may be inappropriate for children under 13
 - R: (Restricted) Under 17 requires accompanying parent or adult guardian
 - NC-17: No one 17 and under admitted.
 - X: Adults only

TV Rating-Children: [Depending on model]: Blocks the children's TV programs that parents do not want their children to watch. To block other TV programs, you should set the TV Rating-General feature.
 Age: TV-Y (All children, including children from ages 2-6), TV-Y7 (Directed to older children, suitable for children age 6 and above)
 Fantasy Violence: TY-Y7 (Directed to older children – Fantasy violence, suitable for children age 6 and above, containing more intense or combative

fantasy violence)

- TV Rating-General : Blocks the TV programs that you want based on the ratings by using the Parental Control Function (V-Chip).
 - The V-Chip electronically reads TV program ratings and allows parents to block program that are unsuitable for children.
 - Age: TV-G (General audience, suitable for all ages)
 - TV-PG (Parental guidance suggested, containing material that are unsuitable for younger children)
 - TV-14 (Parents strongly cautioned, containing material that are unsuitable for children age 14 and under)
 - TV-MA (Mature audience only, unsuitable for children age under 17)
 - Dialog : (suggestive dialogue) TV-PG or TV-14
 - Language : (coarse language)TV-PG, TV-14, or TV-MA
 - Sex: (sexual situation) TV-PG, TV-14, or TV-MA
 - Violence : TV-PG, TV-14, or TV-MA

- Downloadable Rating [In Digital mode Only]: This function operates only when TV has received Region5 Rating data. The name of the rating option may differ.
- Input Block : Block the input sources.

To use Key Lock

SETTINGS \Rightarrow LOCK \rightarrow Key Lock

Locks control buttons on TV.

- Key Lock function remains intact even in case of power outage or when the power cord is removed from the wall socket.
- Key Lock function can only be set by remote control, and not by the button on the TV.
- ∞ Even with Key Lock ON, TV's buttons can turn on the power.

☐ To set password

SETTINGS ⇒ LOCK → Set Password

Sets or changes TV password.

Solution The initial password is set as [¬]0000_⊥.

To lock system

SETTINGS ⇒ LOCK → Lock System

Permits only specific programs by blocking channels or external input.

At first, select Lock System to ON.

 Block Channel : Blocks the channels that contain inappropriate contents for children. The channels can be selected but the screen is blank and the audio is muted. To watch a locked channel, enter the password.

- TV Rating-English [Depending on model] : Selecting Canadian English rating system.
 - E:Exempt
 - C: Children
 - C8+: Children eight years and older
 - G: General programming, suitable for all audiences
 - PG: Parental Guidance
 - 14+: Viewers 14 years and older
 - 18+: Adult programming
 - Blocking Off: Permits all programs

- TV Rating-French [Depending on model] : Selecting Canadian French rating system.
 - E:Exempt
 - G:General
 - 8ans+: General-Not convenient for little children
 - 13ans+: Not convenient for children of 13 years and younger
 - 16ans+: Not convenient for children of 16 years and younger
 - 18ans+: This programs is only for adults
 - Blocking Off: Permits all programs

- Downloadable Rating [In Digital mode Only]: This function operates only when TV has received Region5 Rating data. The name of the rating option may differ.
- Input Block : Block the input sources.

To use Key Lock

SETTINGS ⇒ LOCK → Key Lock

Locks control buttons on TV.

- Key Lock function remains intact even in case of power outage or when the power cord is removed from the wall socket.
- Key Lock function can only be set by remote control, and not by the button on the TV.
- \sim Even with Key Lock ON, TV's buttons can turn on the power.

SETTINGS ⇒ OPTION → Language

You can select the language of the menu displayed on the screen and digital sound broadcasting.

- Menu Language : Selects a screen menu language.
- Audio Language [In Digital mode Only]: Selects the desired language when watching digital broadcasting containing several voice languages.

SETTINGS ⇒ OPTION → Caption

View captions when the TV station provides captioned programing. Program captions work only on digital/analog broadcasts or external input.

Change Caption to On and select caption settings.

• Mode

CC 1-4 (Closed Captioning) / Text 1-4 : Displays the audio portion of a TV program as text on the TV screen. CC1 is the most common mode in use. Field 1 data channels: two Captions (CC1, CC2), two Text (T1, T2). Field 2 data channels: two Captions (CC3, CC4), two Text (T3, T4). Service 1-6 : This is only available for the digital broadcasting system. Digital Option : Set up the size and color of the captions on Digital Option.
 Please select Set by Program or Custom. Select Custom to adjust minute options such as the captions' size and color.

T To set up Power Indicator

SETTINGS ⇒ OPTION → Standby Light

Turns on/off the standby light in the front panel of the TV.

□ To change TV mode

SETTINGS ⇒ OPTION → Mode Setting

Selects Home Use or Store Demo.

When in use in home, please select Home Use.

Store Demo mode is for store display.

D To return to initial settings

SETTINGS⇒ OPTION → Initial Setting

Returns to initial default mode by deleting all optional setup.

Once initialization is completed, the TV will turn off and on by itself.

- When Lock System is in place, a pop-up window appears and asks for password.
- ∞ Do not turn off the power during initialization.

Easily and Conveniently replays content stored on a USB drive (external HDD, USB Memory) directly on the TV.

□ To connect a USB device

Connect the USB storage device to the TV's USB IN terminal.

The connected USB storage device is available for immediate use.

To remove the USB device

Q.MENU ⇒ USB Device

Select a USB storage device and remove it.

Once the message that the USB device was removed is displayed, remove the device from the TV.

After selecting to remove USB device, the USB storage Device cannot be read. Remove the USB storage device and then reconnect it.

□ Warning when using USB storage device

- USB storage devices with a built-in auto recognition program or its own driver may not work.
- Some USB storage devices may not work or may work improperly.
- Second Secon
- Solution Section S

- It is recommended to use USB Memory Sticks with 32 GB or less and USB HDDs with 1 TB or less.
- Solution States Sta
- Data on a USB storage device can be damaged so back up important files on other devices. Data maintenance is the user's responsibility. The manufacturer is not responsible for data loss.

To use My Media

SETTINGS → MY MEDIA → All Media / Movie List / Photo List / Music List

Select desired file from the list. Watch the chosen file.

Sets play related settings by checking option during disk playback.

🗖 To set up My Media

SETTINGS ⇒ OPTION → My Media Setting

- DivX VOD Registration : Checks DivX Reg. Code for replaying DivX protected videos. Register at http://vod.divx.com. Use Registration Code to rent or purchase movies at www.divx.com/vod.
 - When using the DivX Reg. Code of a different device, you cannot replay the rented/purchased DivX file. Use only the DivX Reg. Code granted to this specific device.
 - Converted files not conforming to the DivX Codec Standard may not be replayed or may produce abnormal sound.
- DivX Deregistration : Deregisters DivX.

My Media supporting file

Maximum data transfer rate:

20 Mbps (Mega bit per second)

External supported subtitle formats:

*.smi, *.srt, *.sub (MicroDVD, SubViewer 1.0/2.0), *.ass, *.ssa, *.txt (TMPlayer), *.psb (PowerDivX)

Internal supported subtitle formats:

XSUB (Supports internal subtitles generated from DivX6)

- Streams containing GMC (Global Motion Compensation) or Qpel (Quarterpel Motion Estimation) are not supported.
- Solve and a supported state of the support of t
- Solution Notice State Stat

SETTINGS ⇒ Customer Support → Software Update

Uses Software Update to check and obtain the latest version. If not updated, certain functions may not work properly.

It is also possible to check manually for available updates.

- Software Update : Set it to On. When an update file is detected, the file is automatically downloaded. When the file download is complete, the software update window appears.
- Check Update Version : Checks the latest update version installed and when a new update is available, the download process can be performed manually. [Depending on model]

- The latest version can be obtained via digital broadcast signals or internet connections.
- Changing the channel while downloading the software via digital broadcast signal interrupts the download process. Returning to the initial channel allows downloading to resume.
- Set If software is not updated, certain functions may not work properly.

If the following symptoms occur, recheck the system. It may not be malfunction.

Derational problem

- $\ensuremath{\boxtimes}$ Cannot view certain channels.
 - Adjust the location or orientation of the antenna.
 - Save the desired viewing channels on Auto Tuning or Channel Edit.
- \blacksquare After turning on the TV, there is a delay before full images appear.
 - This is normal because an image deletion process was inserted to clean up image noises that may occur immediately after the power is turned on.

□ Image problem

SETTINGS ⇒ Customer Support → Picture Test

Conducts Picture Test first to verify that image signal output is normal.

When the test image is normal, check connected external devices or broadcast signal.

- ☑ Images from the previously viewed channel or other channels linger or the screen shows annoying lines.
 - Adjust the antenna to the direction of the TV station or refer to the manual for proper way to connect the antenna.

- ☑ Vibrating horizontal/vertical lines and fishnet patterns appear momentarily.
 - Such a problem may happen when there is strong electronic interference. Turn off other electronic devices such as mobile phones, power tools and other small electrical appliances.
- ☑ The screen display freezes or does not work properly during digital broadcast.
 - It may happen when the signals are weak or the reception is unstable. Adjust the antenna's orientation or cable connections.
 - If the signal strength or quality is low on Manual Tuning, contact the TV station or administration office for checkup.

- \square Digital broadcast cannot be seen though the cable is connected.
 - Verify subscription and/or signal with cable operator.
 (Depending on the subscription, digital broadcasting may not be supported.)
- \square Display is not on or unclear when connected to HDMI.
 - Check the HDMI® cable specifications. Failure to use genuine HDMI® cable may cause images to fade in and out or not be displayed properly.
 - Verify that all cable connections are securely connected. When connections are not secure, images may not be properly displayed.
- \bowtie Does not work when connected to USB storage device.
 - Verify that the USB device and cable is version 2.0 or higher.

□ Sound problem

SETTINGS ⇒ Customer Support → Sound Test

Try Sound Test to verify that sound signal output is normal.

When the test sound is normal, check connected external devices or broadcast signal.

- ${\ensuremath{\varXi}}$ Screen display is on but no sound.
 - Check other TV channels.
 - [Depending on model] Make sure the TV Speaker is set to On.

- ☑ For analog broadcast, stereo is not clear or sound comes from one speaker only.
 - In a poor reception area (areas with weak or unstable signal) or if multi audio is unstable, select Mono on Multi Audio.
 - Adjust the Balance with the Navigation Button.
- \blacksquare TV sound is not in sync with the lips or the sound breaks up occasionally.
 - If it occurs only with a certain TV channel, that station's broadcast signal may have a problem. Check with the TV station or your cable operator.
- $\mathbf{\Sigma}$ Each channel's volume is different.
 - Depending on the channel, there can be differences in volume.
 - Please set Auto Volume to On.
- ✓ On certain channels, sound does not come out or only the background music plays. (If it is a program created for overseas viewers)
 - On Language, set Language → Audio Language to the desired language. Changes to the language on Multi Audio may returned to the default setup by turning off the power or changing the channel.

 \blacksquare There is no sound when connected to HDMI/USB.

- Verify that the HDMI® cable is high speed.
- Check that the USB device and cable is version 2.0 or higher.
- Use only regular music (*mp3) files.

PC connection problem (Only for models supporting PC connection)

 $\mathbf{\Sigma}$ The screen display is not on after connecting to the computer.

- Check that the computer and TV are securely connected.
- Check if the resolution is correctly set for PC input.
- To use the TV as a secondary monitor, check that the connected desktop or laptop supports dual monitor displays.

 $\mathbf{\Sigma}$ There is no sound after connecting the computer with the HDMI cable.

 Check with the video card manufacturer to ensure it supports HDMI voice output. (Video cards manufactured in DVI format require connection of a separate sound cable.)

- ☑ When connected to the computer, the display is partially cut off or shifts to one side.
 - Set up the resolution supporting PC input. (If it does not work, reboot the computer.)
 - Select Screen (RGB-PC) and adjust Position / Size / Phase.

Problem with replaying movies in My Media

- $\mathbf{\Sigma}$ I cannot view the files on the Movie List.
 - Check if the file on the USB storage device can be read on a computer.
 - Check that the file extension is supported.
- ✓ This is not a file that is supported. The above error message appears. Sound, video or subtitles is not normal.
 - Make sure that the file replays normally on the video player in the computer. (Check for damaged files.)
 - Check if My Media can support selected file.
- Set For information on requesting service, refer to the TV's menu. SETTINGS ⇒ Customer Support → Product/Service Info.

I Federal Communications Commission (FCC) Statement

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1 this device may not cause harmful interference, and
- 2 this device must accept any interference received, including interference that may cause undesired operation of the device.

□ Indoor use only

FCC Caution: for indoor use only, use outdoors or in other modes not covered by this manual may violate the FCC regulation and violate the user authority to use the product.

□ Information for recycling (take-back offer)

This product may contain parts which could be hazardous to the environment.

It is important that this product be recycled after use.

LGE handles all waste products through an environmentally acceptable recycling method. There are several take-back and recycling systems currently in operation worldwide.

Many parts will be reused and recycled, while harmful substances and heavy metals are treated by an environmentally friendly method. If you want to find out more information about our recycling program, please contact your local LG vendor or a corporate representative of LG. and Information of Regional Take back Schemes can be found at :

http://www.lg.com/global/sustainability/environment/take-back-recycling.jsp

□ On Disposal (Only, LCD TV with Hg lamp)

- The fluorescent lamp used in this product contains a small amount of mercury.
- Do not dispose of this product with general household waste.
- Disposal of this product must be carried out in accordance to the regulations of your local authority.

☐ Mise au rebut (téléviseurs ACL avec lampe au mercure seulement)

- La lampe fluorescente utilisée dans ce produit contient une petite quantité de mercure.
- Ne jetez pas ce produit avec les ordures ménagères.
- La mise au rebut de ce produit doit être effectuée conformément à la réglementation de l'autorité locale.

□ DISPOSICIÓN (Sólo lámpara de Hg utilizada en TV LCD)

- La lámpara fluorescente usada en este producto contiene una cantidad mínima de mercurio.
- No disponga este producto junto con la basura normal de la casa.
- La disposición de este producto debe ser manejado de acuerdo a los reglamentos de la autoridad local.
