ENGLISH Installing and Using the Product

Please read this manual carefully before operating your set and retain it for future reference. To view the instructions of advanced features, visit <http://www.lg.com> or scan QR code and then download Owner's Manual. Some of the content in this manual may differ from your product.

(A) Rear Speakers

- 1 Connect the rear speakers via a speaker cable. When connecting the rear speakers, connect the black striped cable to the negative terminal of each speaker and the remaining cable to the positive terminal of each speaker.
- 2 Connect to power in the following order: rear speakers → soundbar. Then, turn on the soundbar. When the connection is automatically established with the soundbar, the LEDs on the rear speaker will light up green.

Surround Sound On/Off

When you turn on the surround function, you can enjoy magnificent surround sound for all input sound sources with the rear speakers. The initial setting for the surround function is OFF, turn the surround function ON to use it. Refer to the on-line manual for settings of surround sound function.

If you see a red LED on the rear speaker, it means that the soundbar is not connected to the speakers. If this is the case, connect them in the following order.

- 1 Press the **Power** (⏻) button on the soundbar to turn it off.
 - 2 Press the **PAIRING** button on the back of the rear speaker. Check if LED blinks green.
 - 3 Press the **Power** (⏻) button on the soundbar to turn it on.
 - 4 When the connection is established, you will see a green LED light on the rear speaker light up.
- * Keep the soundbar and rear speakers away from the device (ex. wireless router, microwave oven, etc.) over 1 m to prevent wireless interference.

- You can find compatible soundbars using the QR code on page 2 in this manual.
- Design and specifications are subject to change without notice.
