Design and specifications are subject to change without notice.

Controller App

Download the **Music Flow Bluetooth** App to your device.

LG Sound Sync (Wireless)

For more information, download the online owner's manual. **http://www.lg.com**

Caution

- When you use the multiple socket, it is advisable to use 15 A socket. 10 A socket may cause power off due to lack of power supply.

- Do not place objects on the speakers. It may cause the objects to fall and make property damage.

- Install the speakers on a firm surface not to slide. The vibration caused by the strong output can shake and move the speakers.

- Avoid turning up max volume in a small enclosed space. The powerful and intense output of the speakers can shake the ceiling and get the objects in the room falling.

- To protect from hearing damage, keep the sufficient distance from the speaker. The overwhelming sound from the speaker may cause a person's hearing damage.

- Allow more than 20 cm of free space between the main set and the speakers when you install the main set on the ground. High sound pressure from the speakers can make the set tremble to disturb the CD playback.

- Connect the power cord to wall outlet directly if possible. Or when you use an extension cable, it is highly recommended to use an extension cable of 110 V / 15 A or 230 V / 15 A, otherwise the unit may not operate properly because of the lack of power supply.

- Do not overload the extension cord with excessive electrical load.

How to disconnect the wireless network connection or the wireless device

Turn off the unit by pressing the power button for more than 5 seconds.

Replacement of battery

About Ferrite Core (Optional)

Wind power cord cable and SPEAKERS cables around the ferrite core.
