

Disassembly

1 Position the screen vertically.

2 Push the top of the screen lightly in the direction of the arrow to disassemble a part of the cover space.

3 Use a wedge or pull it with your hand to completely disassemble the cover.

4 Position the screen horizontally and disassemble the cable holder screw.

5 Lower the rear lever and push the bottom of the screen forward, as shown in the figure.

6 Lift the screen, separate the top of the screen, and hold the screen.

7 Press the plug lock, push it in the direction of the arrow, and then disassemble the screen completely.

8 Lay the stand on the box packaging, remove the four screws, and then disassemble the stand bar.
