

MICROWAVE OVEN

OWNER'S MANUAL & COOKING GUIDE

**MODEL : MS-324SCE
MS-325SCE**

PLEASE READ THIS OWNER'S MANUAL
THOROUGHLY BEFORE OPERATING.

Precautions to avoid possible exposure to excessive microwave energy.

You cannot operate your oven with the door open due to the safety interlocks built into the door mechanism. These safety interlocks automatically switch off any cooking activity when the door is opened; which in the case of a microwave oven could result in harmful exposure to microwave energy.

It is important not to tamper with the safety interlocks.

Do not place any object between the oven front face and the door or allow food or cleaner residue to accumulate on sealing surfaces.

Do not operate your oven if it is damaged. It is particularly important that the oven door closes properly and that there is no damage to the: (1) door(bent), (2) hinges and latches (broken or loosened), (3) door seals and sealing surfaces.

Your oven should not be adjusted or repaired by anyone except qualified service personnel.

Warning

Please ensure cooking times are correctly set as over cooking may result in the FOOD catching fire and subsequent damage to your oven.

When heating liquids, e.g. soups, sauces and beverages in your microwave oven, overheating the liquid beyond boiling point can occur without evidence of bubbling. This could result in a sudden boil over of the hot liquid. To prevent this possibility the following steps should be taken:

1. Avoid using straight sided containers with narrow necks.
2. Do not overheat.
3. Stir the liquid before placing the container in the oven and again halfway through the heating time.
4. After heating, allow to stand in the oven for a short time, stir or shake them again carefully and check the temperature of them before consumption to avoid burns (especially, contents of feeding bottles and baby food jars).

Warning

Always allow food to stand after being cooked by microwaves and check the temperature of them before consumption. Especially contents of feeding bottles and baby food jars.

How the Microwave Oven Works

Microwaves are a form of energy similar to radio and television waves and ordinary daylight. Normally, microwaves spread outwards as they travel through the atmosphere and disappear without effect. Microwave ovens, however, have a magnetron which is designed to make use of the energy in microwaves. Electricity, supplied to the magnetron tube, is used to create microwave energy.

These microwaves enter the cooking area through openings inside the oven. A turntable or tray is located at the bottom of the oven. Microwaves cannot pass through metal walls of the oven, but they can penetrate such materials as glass, porcelain and paper, the materials out of which microwave-safe cooking dishes are constructed.

Microwaves do not heat cookware, though cooking vessels will eventually get hot from the heat generated by the food.

A very safe appliance

Your microwave oven is one of the safest of all home appliances. When the door is opened, the oven automatically stops producing microwaves. Microwave energy is converted completely to heat when it enters food, leaving no "left over" energy to harm you when you eat your food.

| PLUG WIRING INFORMATION/TECHNICAL SPECIFICATIONS | 32 |
| GUARANTEE | 33 |

By following the basic steps on these two pages you will be able to quickly check that your oven is operating correctly. Please pay particular attention to the guidance on where to install your oven. When unpacking your oven make sure you remove all accessories and packing. Check to make sure that your oven has not been damaged during delivery.

1 Unpack your oven and place it on a flat level surface.

2 Place your oven on a flat, level surface but make sure there is at least **10 cm** of space on the top, rear and sides so there is air flow for ventilation. Exhaust outlets are located in the back and side of your oven. Blocking the outlets can damage your oven. **THIS OVEN IS DESIGNED FOR BUILDING IN.** (Not over a heat source)

THIS OVEN SHOULD NOT BE USED FOR COMMERCIAL CATERING PURPOSES

3 Plug your oven into a standard household socket. Make sure your oven is the only appliance connected to the socket. **If your oven does not operate properly, unplug it from the electrical socket and then plug it back in.**

4 For ; MS-324SCE / MS-325SCE

Open your oven door by pulling the handle. Place the **ROTATING RING** inside the oven. Then place the **GLASS TRAY** on top of the rotating ring.

5 Fill a **microwave safe container** with 300 ml (1/2 pint) of water. Place on the **GLASS TRAY** and close the oven door. If you have any doubts about what type of container to use please refer to page 27.

6 Enter the time by touching [3] and [0][0]. And touch **START**.

7 The **DISPLAY** will count down from 3 minutes. When it reaches 0 it will sound three BEEPS. Open the oven door and test the temperature of the water. If your oven is operating the water should be **HOT**. **Be careful when removing the container it may be hot.**

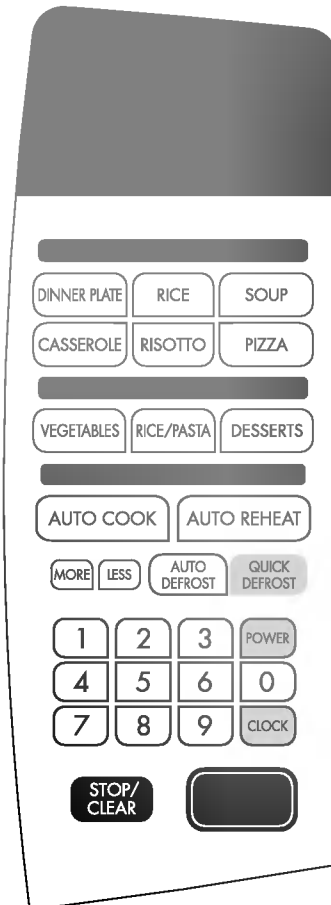

YOUR OVEN IS NOW INSTALLED

Your oven will be packed with the following materials:

- Glass Tray 1 each
- Owner's Manual & Cooking Guide 1 each
- Rotating Ring 1 each

This microwave oven is designed for household use only. It is not recommended for commercial purposes.

NOTE: A beep sounds when a pad on the control panel is touched to indicate setting has been entered.

SETTING CLOCK

When your oven is plugged in for the first time or when power resumes after a power interruption, the numbers in the display reset to 0.

Example: To set 11:11 AM.

1. Touch **STOP/CLEAR**.
2. Touch **CLOCK** one time. **AM ENTER TIME OF DAY** will scroll in the display.
If you set PM clock, Touch **CLOCK** twice then **PM ENTER TIME OF DAY** will scroll in the display.
3. Enter the time by using the number key pads. **11:11 TOUCH START** will scroll in the display. (PM: "xx:xx P")
4. Touch **CLOCK**. The clock starts counting.

NOTE :

You can select AM or PM by touching **CLOCK** pad alternately.

MORE/LESS

By using the **MORE** or **LESS** keys, **TIMED COOK**, **AUTO COOK**, **AUTO REHEAT** program can be adjusted to cook food for a longer or shorter time. Pressing **MORE** will add 10 seconds to the cooking time each time you press it. Pressing **LESS** will subtract 10 seconds of cooking time each time you press it.

To adjust the autocook (ex. Corned Beef 1.2 kg) cooking time for a longer time, or for a shorter time

1. Touch **STOP/CLEAR**.
2. Touch **AUTO COOK**. **SELECT MENU 1 TO 8 --SEE COOKING GUIDE BEHIND DOOR** scrolls in the display.
3. Touch **1**. **CORNED BEEF ENTER WEIGHT** scrolls in the display.
4. Touch **[1], [2]**. **1.2 KG TOUCH START** scrolls in the display.
5. Touch **START**.

NOTE: Press the **MORE** or **LESS** pad during time countdown.

TIMED COOKING

This function allows you to cook food for a desired time. And in order to give you the best results, there are 10 power level settings in addition to HI-POWER because many food need slower cooking (at less than HI-POWER).

Example: To cook food on 80% Power (Power8) for 5 minutes 30 seconds.

1. Touch **STOP/CLEAR**.
2. Enter 5 minutes 30 seconds by touching **[5]**, **[3]**, and **[0]**. **TOUCH START OR POWER 5 : 30** shows in the display.
3. Touch **POWER**. **ENTER POWER LEVEL 1 TO 10** scrolls in the display.
4. Touch **8**. To select power level 80%. Display shows **P-80** **TOUCH START**.
5. Touch **START**.

When the cooking time is over, two short and one long tone sounds. The word **END** shows in the display window. Then the oven shuts itself off.

NOTE :

If you do not select the power level, the oven will operate at power HIGH. To set HI-POWER cooking, skip steps 3 & 4 above.

MICROWAVE POWER LEVELS

Your microwave oven is equipped with eleven power levels to give you maximum flexibility and control over cooking. The table below will give you some idea of which foods are prepared at each of the various power levels.

* The chart below shows the power level settings for your oven.

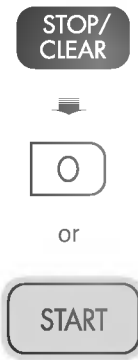

MICROWAVE POWER LEVEL CHART

| Power Level | Use |
|-------------|---|
| High | * Boiling water. * Browning ground beef. * Making candy. * Cooking poultry pieces, fish, & vegetables. * Cooking tender cuts of meat. |
| 9 | * Reheating rice, pasta, & vegetables. |
| 8 | * Reheating prepared foods quickly. * Reheating sandwiches. |
| 7 | * Cooking egg, milk and cheese dishes. * Cooking cakes, breads. * Melting chocolate. |
| 6 | * Cooking veal. * Cooking whole fish. * Cooking puddings and custard. |
| 5 | * Cooking ham, whole poultry, lamb. * Cooking rib roast, sirloin tip. |
| 4 | * Thawing meat, poultry and seafood. |
| 3 | * Cooking less tender cuts of meat. * Cooking pork chops, roast. |
| 2 | * Taking chill out of fruit. * Softening butter. |
| 1 | * Keeping casseroles and main dishes warm. * Softening butter and cream cheese. |
| 0 | * Standing time. * Independent timer. |

CHILD LOCK

This is a unique safety feature that prevents unwanted oven operation such as used by children. Once the CHILD LOCK is set, no cooking can take place.

To set the child lock

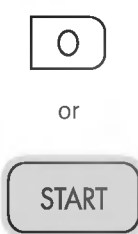

1. Touch **STOP/CLEAR**.

2. Touch and hold **0** or **START** until **LOCKED** appears in the display and two beeps are heard. If the time of day was already set, the time of day will return to the display window. After you touch another cooking pad.

If the CHILD LOCK was already set and you touched another cooking pad, the word **LOCKED** shows in the display. Then you can cancel the CHILD LOCK according to below procedure.

To cancel the child lock

Touch and hold **0** or **START** until **LOCKED** disappears in the display.

After the CHILD LOCK is turned off, the time of day will return to the display window. The oven will operate normally.

SENSOR TOUCH OPERATION INSTRUCTION

Sensor touch cooking provides exciting new features to make microwaving easier. Your new microwave oven will guide you, step by step, whether it be simply to reheat food or cook food. and sensor menu with all the popular food choices helps you to cook perfectly because it has been pre-programmed and can tell how long to cook or reheat food items.

Categories:

- Sensor Reheat
- Sensor Cook

For most Sensor Touch Cooking programs, a chart with specific food examples and cooking instructions is provided in the next new pages.

1. The Sensor Touch system works by detecting a build-up of vapor.
2. Make sure the door remains closed.
3. Once the vapor is detected, two beeps will sound.
4. Opening the door or touching the STOP/CLEAR pad before the vapor is detected will abort the process. The oven will stop.
5. Before using Sensor Touch, make sure the glass turntable is dry, to assure the best results.

COOK

COOK allows you to cook most of your favorite foods without having to select cooking times and power levels. This oven automatically determines required cooking times for each food item. This feature has 15 food categories.

To cook VEGETABLES/JACKET POTATO

1. Touch **STOP/CLEAR**.

2. Touch **VEGETABLES**. **SELECT MENU 1 TO 5 -- SEE COOKING GUIDE BEHIND DOOR** shows in the display.

3. Touch **1**. then, the oven will cook food automatically by sensor system.

SENSOR COOK MENU INSTRUCTIONS - VEGETABLES

| Code | Menu | Weight Limit | Initial Temperature | Instructions | Standing Time (minutes) | | | | | | | | | | | | | | | | | | | | | | | | |
|---|--|--------------------------------|---------------------|---|---|----------|----------|----------|---------|-------|-------|------|-------------|-----------|---------|----------|---------------|--------|--------|--------|-------|-------|---------|---------|---|----------|--|--|---|
| 1 | Jacket Potato Potatoes (whole) | 1 - 4 pieces (175 g per piece) | Room | Wash & pat potatoes dry with paper towel. Pierce each potato 3 times with a fork. Place potatoes around the outer edge of the turntable. After cooking potatoes should still be firm. Wrap in foil and stand. | 1 piece = 3 2 pieces = 5 3 pieces = 5 4 pieces = 7 | | | | | | | | | | | | | | | | | | | | | | | | |
| 2 | Mashed Potato | 2- 4 serves | Room | <p>Ingredients 2 serves 3 serves 4 serves</p> <p>Potato 450 g 675 g 900 g</p> <p>Hot Milk 1/2 cup 2/3 cup 3/4 cup</p> <p>Butter 50 g 75 g 100 g</p> <p>Salt 7 ground black pepper</p> <p>Peel potatoes and cut into 2cm cubes. Place the potato into a microwave- safe dish with 2 tablespoons of water. Place a sheet of damp paper towel directly onto the surface and cover the dish with lid or plastic wrap loosely. After cooking allow potatoes to stand. Drain. Mash the potatoes until smooth. Stir in hot milk and butter. Season with salt and pepper.</p> | 1 - 3 | | | | | | | | | | | | | | | | | | | | | | | | |
| 3 | Fresh Vegetables Carrots, Broccoli, Cauliflower, Zucchini, Beans, Peas | 0.2 - 0.8 kg | Room | Prepare vegetables. Cut vegetables into even size pieces. Wash the vegetables and arrange in microwave- safe dish just large enough to contain the vegetables so they are no more than 2 - 3 layers deep. Add 2 tablespoons of water. Cover with lid or plastic wrap loosely. If cooking more than 1 kind of vegetable, place the harder vegetables around the outer edge of the dish with the softer vegetables in the centre. | 3 | | | | | | | | | | | | | | | | | | | | | | | | |
| 4 | Frozen Vegetables Carrots, Broccoli, Cauliflower, Beans, Peas | 0.2 - 0.8 kg | Frozen | Separate the vegetables into single pieces. Arrange the vegetables in a microwave- safe dish just large enough to contain them so they are no more than 2 layers deep. Add 2 tablespoon water. Cover with lid or plastic wrap loosely. If cooking more than 1 kind of vegetable, place the harder vegetables around the outer edge of the dish with the softer vegetables in the centre, | 3 | | | | | | | | | | | | | | | | | | | | | | | | |
| 5 | Fresh Soup | 2 - 6 serves | Room | <p>Pumpkin Soup</p> <table border="1"> <thead> <tr> <th>Ingredients</th> <th>2 serves</th> <th>4 serves</th> <th>6 serves</th> </tr> </thead> <tbody> <tr> <td>Pumpkin</td> <td>500 g</td> <td>750 g</td> <td>1 kg</td> </tr> <tr> <td>Brown onion</td> <td>1/2 small</td> <td>1 small</td> <td>1 medium</td> </tr> <tr> <td>Chicken stock</td> <td>2 cups</td> <td>3 cups</td> <td>4 cups</td> </tr> <tr> <td>Cream</td> <td>2 tbs</td> <td>1/4 tbs</td> <td>1/3 tbs</td> </tr> <tr> <td>Ground nutmeg, Salt & ground black pepper</td> <td colspan="3">To taste</td> </tr> </tbody> </table> <p>Peel & remove the seeds from the pumpkin. Finely chop the onion. Place the pumpkin, onion and stock into a heatproof, microwave- safe bowl. Cover with lid or two layers of plastic wrap loosely. After cooking, blend or process to desired consistency. Stir in cream, nutmeg and season with salt and pepper.</p> <p>For potato leek soup, replace the pumpkin with desire potatoes & replace the onion with leek.</p> <p>For carrot & sweet potato soup, replace the pumpkin with equal quantities of carrot and sweet potato. Omit the cream. Replace the nutmeg with ground cumin.</p> | Ingredients | 2 serves | 4 serves | 6 serves | Pumpkin | 500 g | 750 g | 1 kg | Brown onion | 1/2 small | 1 small | 1 medium | Chicken stock | 2 cups | 3 cups | 4 cups | Cream | 2 tbs | 1/4 tbs | 1/3 tbs | Ground nutmeg, Salt & ground black pepper | To taste | | | - |

SENSOR COOK MENU INSTRUCTIONS - DESSERTS

| Code | Menu | Weight Limit | Initial Temperature | Instructions | Standing Time (minutes) |
|------|--|----------------------|---------------------|--|-------------------------|
| 1 | Cake Packet Cake Mix | 1 packet | Room | Prepare the cake following the microwave instructions on the side of the packet, ignoring the cooking instructions. Place the cake, uncovered, onto a microwave- safe rack or upturned plate about 2cm off the turntable. At the end of the cooking time, remove the cake from the microwave oven, cover with a plate or piece of foil and stand for 5 minutes or until the sticky centre portion is completely cooked. | 5 |
| 2 | Brownies | About 10 brownies | Room | <p>100g butter 100g soft brown sugar 25g cocoa, sifted 50g self- raising flour, sifted 1 egg 1 table spoon milk 25g walnuts, finely chopped</p> <p>Icing 100g plain chocolate 1 table spoon black coffee walnut halves to decorate</p> <ol style="list-style-type: none"> Place the butter in a basin and melt on full for about 1- 1½ minutes. Mix together the sugar, cocoa and flour. Beat together the egg and milk. Stir into the flour mixture, together with the butter, walnuts and raisins. Spread in a greased and base- lined shallow dish measuring 18 x 28cm / 7 x 11 in. Cook uncovered. At the end of the cooking time, remove the brownies from the microwave. Stand or until cooled. For the icing, place the chocolate and coffee in a basin and cook on full for 3- 4 minutes. Spread the icing over the cake. When almost set cut the brownies into squares and top each portion with a piece of walnut. | 10 |
| 3 | Pudding Self- saucing sponge pudding 1 packet = 250- 260g | 1 packet | Room | Prepare the pudding following the microwave instructions on the side of the packet, ignoring the cooking instructions. Spoon the pudding batter into an 8- cup (2 litre) heatproof, microwave- safe bowl. Top with the sauce mix and boiling water. Place the cake, uncovered, onto a microwave- safe rack or upturned plate about 2cm off the turntable. At the end of the cooking time, remove the pudding from the microwave oven, cover with a plate or piece of foil and stand for 5 minutes or until the sticky centre portion is completely cooked. | 5 |
| 4 | Stewed Fruit | 0.2 - 1.0 kg | Room | Peel core and roughly chop the fruit. Sprinkle the fruit with 2- 4 tsp caster sugar. Cover with a lid or plastic wrap. At the end of the cooking time, allow to stand. | 1 - 3 |

REHEAT

To reheat DINNER PLATE

↓

1. Touch **STOP/CLEAR**.

2. Touch **DINNER PLATE** pad.
DINNER PLATE scroll in the display.

Then the oven will reheat food automatically by sensor system.

This feature allows you to reheat precooked room-temperature or refrigerated foods without selecting cooking times and power levels. This feature has 6 categories : dinner plate, rice, soup, casserole, risotto, pizza.

SENSOR REHEAT MENU INSTRUCTIONS

| Code | Menu | Weight Limit | Initial Temperature | Instructions | Standing Time (minutes) | | | | | | | | |
|---|--------------|------------------------------|---------------------|---|-------------------------|---------|-----------------|-------|---------------|-------|-------------------|-------|---|

Add apples, prunes and almonds. Mix well. Pack loosely down the centre of meat. Roll up tightly and secure with string. Sprinkle rind with salt. Place the meat on a small roasting rack fat side down in a deep heatproof, microwave- safe bowl. Halfway through the oven will beep and display turn over. Remove the dish from the microwave oven, carefully turn the meat over. Press start to continue cooking. At the end of the cooking time loosely cover the meat with foil and allow to stand 15- 20 minutes before serving.</p> | 15 - 20 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

AUTO COOK MENU INSTRUCTIONS - MEAT

| Code | Menu | Weight Limit | Initial Temperature | Instructions | Standing Time (minutes) |
|------|--------------------------------------|--------------|---------------------|--|-------------------------|
| 2 | Seasoned Meat | 1.0 - 2.0 kg | Refrigerated | <p><u>Apricot Lamb</u></p> <p>Loin of forequarter lamb (deboned) 1 packet dried apricots 250 ml apricot nectar 1 tbs cornflour</p> <p>Unroll meat. Place dried apricots down the centre 2 rows deep. Roll up tightly and secure with string. Mix apricot nectar with corn flour and heat for 3 - 4 minutes on HIGH or until boil. Allow to cool slightly. Pour apricot juice over the meat and marinade 1 - 2 hours. Remove meat from the marinade, place the meat on a small roasting rack fat side down in a deep heatproof, microwave- safe bowl. Halfway through the oven will beep and display turn food over. Remove the dish from the microwave oven, carefully turn the meat over. Press start to continue cooking. At the end of the cooking time loosely cover the meat with foil and allow to stand 15 - 20 minutes before serving.</p> | 15 - 20 |
| 3 | Roast Lamb | 1.0 - 2.0 kg | Refrigerated | <p>Brush both sides of the lamb with olive oil and season with salt and pepper. Shield the knuckle with foil, making sure the foil is secure & will not touch the interior oven walls when rotating. Place the lamb skin-side side down onto a microwave- safe roasting rack or upturned plate. Halfway through cooking the oven will beep and display turn food over. Remove the lamb from the microwave oven, turn the lamb over and remove the foil from the knuckle. Press start to continue cooking. At the end of the cooking time loosely cover the lamb with foil and allow to stand or place the lamb into a preheated oven 200°C for 5 - 10 mins to crispen the surface. Allow to stand 15 - 20 minutes before serving</p> | 15 - 20 |
| 4 | Roast Chicken | 1.0 - 2.5 kg | Refrigerated | <p>Wash and pat the chicken dry with paper towel. Brush both sides of the chicken with olive oil and season with salt and pepper. Tie the legs together with string. Shield the legs and wings with foil. Place chicken breast side down onto a microwave- safe roasting rack or upturned plate. Halfway through the oven will beep and display turn food over. Remove the chicken from the microwave oven, turn the chicken over and remove the foil from legs and wings. Press start to continue cooking. At the end of the cooking time, place the chicken into a preheated oven 200°C for 5- 10 mins to crispen the skin. Allow to stand 10 minutes before serving.</p> | 10 |
| 5 | Chicken Pieces (thigh or cutlets) | 0.2 - 0.8 kg | Refrigerated | <p>Brush the chicken pieces with olive oil and season with salt and pepper. Place chicken skin side up onto a microwave- safe roasting rack. At the end of cooking, remove the chicken from the microwave and allow to stand 2- 3 minutes or place into a preheated oven 200°C for 5 - 10 minutes to crispen the skin</p> | 2 - 3 |

AUTO REHEAT

Your oven's menu has been preprogrammed to automatically reheat food. Tell the oven what you want and how many items there are. Then let your microwave oven reheat your selections.

Be sure to close the door before selecting categories.

Example: To reheat two pies of pie, simply follow the step below.

STOP/
CLEAR

1. Touch **STOP/CLEAR**.

↓

AUTO REHEAT

2. Touch **AUTO REHEAT** three times.
SELECT MANU 1 TO 4
-- SEE COOKING
GUIDE BEHIND DOOR
will show in the display.

↓

1

3. Touch **1**.
PIE SELECT 1 TO 4
PIES will show in the display.

↓

2

4. Touch **2**.
2 PIES will show in the display.

The oven begins the cooking you selected without the need to touch **START**.

AUTO REHEAT MENU INSTRUCTIONS

| Code | Menu | Weight Limit | Initial Temperature | Instructions | Standing Time (minutes) |
|------|---|---------------|---------------------|--|-------------------------|
| 1 | Pie (meat pie, 1 pie = 190g) | 1 - 4 pies | Room | Place pie(s) between two sheets of non recycled paper towel on a microwave- safe plate. Note: If reheating pies from the fridge add extra 2- 6 minutes (depending on serving size) on 50% power . | 1 |
| 2 | Beverage (1 cup = 250 ml) | 1 - 4 cups | Room | Make sure the cup is microwave- safe. Place a wooden skewer or paddle pop stick into each cup to break the beverage surface. Heat uncovered. After heating stir well before serving. | |
| 3 | Frozen Muffin (1 muffin = 75 - 80 g) | 1 - 4 muffins | Frozen | Space the muffins evenly around the outer edge of the microwave turntable. | |
| 4 | Fresh Muffin (1 muffin = 75 - 80 g) | 1 - 4 muffins | Room | Space the muffins evenly around the outer edge of the microwave turntable. | |

QUICK DEFROST

Example: To defrost 0.5 kg meat.

1. Touch **STOP/CLEAR**.

2. Touch **QUICK DEFROST**.

Three Quick Defrost sequences are preset in the oven. The Quick Defrost feature provides you with the express defrosting method for 500g frozen foods. The oven automatically sets the defrosting time for each food.

NOTE:

The oven will beep during the DEFROST CYCLE. At this time open the door and turn over, separate, or rearrange the food.

Quick Defrost provides just enough defrosting that the foods can be used in recipes or for cooking.

There will be some ice crystals remaining.

QUICK DEFROST MENU INSTRUCTIONS

| Code | Menu | Weight Limit | Initial Temperature | Instructions | Standing Time (minutes) |
|------|-------------|--------------|---------------------|---|-------------------------|
| 1 | Minced Meat | 0.5 kg | Frozen | Use this function to defrost quickly for minced meet. Remove the meat completely from it's wrapping. Place the mince onto a microwave- safe rack over a plate or shallow dish. During the program the oven will beep and display 'turn food over'. At this point remove the mince from the microwave oven, remove any defrosted mince to a plate, cover and set aside. Turn the frozen mince over and return to the microwave oven. Press start to continue. At the end of the program remove the mince from the microwave oven, cover with foil and allow to stand 5- 20 minutes or until completely thawed. | 5 - 20 |

AUTO WEIGHT DEFROST

Three defrost sequences are preset in the oven. The defrost feature provides you with the best defrosting method for frozen foods. The cooking guide will show you which defrost sequence is recommended for the food you are defrosting.

With the Auto Weight Defrost feature, the oven automatically sets the defrosting time and power levels for you.

The oven automatically determines required defrosting times for each food item according to the weight you enter.

For added convenience, the Auto Weight Defrost includes a built-in beep mechanism that reminds you to check, turn over, separate, or rearrange.

Three different defrosting levels are provided.

- | | |
|---------------|-------------------|
| 1 Minced Meat | 4. Roast Beef |
| 2 Steak/Chops | 5. Whole Chicken |
| 3 Roast Lamb | 6. Chicken Pieces |
| | 7. Sliced Bread |

Example: To defrost 1.2 kg of Minced Meat, select Meat menu, enter the weight, and press START

1. Touch **STOP/CLEAR**.

2. Touch **AUTO DEFROST**.
SELECT MENU 1 TO 7
--SEE COOKING
GUIDE BEHIND DOOR
scrolls in the display.

3. Touch **1**.
MINCED MEAT ENTER
WEIGHT scrolls in the
display.

4. Enter the weight by
touching **[1]** and **[2]**.
1.2 KG TOUCH START
appears in the display.

5. Touch **START**.
Defrosting starts.

NOTE:

When you touch the **START** pad, the display changes to defrost time count down. The oven will beep twice during the **DEFROST** cycle. At each beep, open the door and turn, separate, or rearrange the food.

Remove any portions that have thawed.

Return frozen portions to the oven and touch **START** to resume the defrost cycle.

*For best results, remove fish, shellfish, meat, and poultry from its original closed paper or plastic package (wrapper). Otherwise, the wrap will hold steam and juice close to the foods, which can cause the outer surface of the foods to cook.

*For best results, shape your ground meat into the form of a doughnut before freezing. When defrosting, scrape off thawed meat when the beep sounds and continue defrosting.

*Place foods in a shallow container or on a microwave roasting rack to catch drippings.

*Food should still be somewhat icy in the center when removed from the oven.

AUTO WEIGHT DEFROST MENU INSTRUCTIONS

| Code | Menu | Weight Limit | Initial Temperature | Instructions | Standing Time (minutes) |
|------|----------------------|--------------|---------------------|---|-------------------------|
| 1 | Minced Meat | 0.1 - 2.0 kg | Frozen | Remove the meat completely from it's wrapping. Place the mince onto a microwave- safe rack over a plate or shallow dish. During the program the oven will beep and display turn food over. At this point remove the mince from the microwave, remove any defrosted mince to a plate, cover and set aside. Turn the frozen mince over and return to the microwave oven. Press start to continue. At the end of the program remove the mince from the microwave oven, cover with foil and allow to stand 5- 20 minutes or until completely thawed. | 5 - 20 |
| 2 | Steaks/ Chops | 0.1- 1.5kg | Frozen | Remove the meat completely from it's wrapping. Using thin strips of foil, shield the fatty areas with the foil, making sure the foil is secure. Place the meat onto a microwave- safe rack over a plate or shallow dish. During the program the oven will beep and display 'turn food over'. At this point remove the meat from the microwave, remove any defrosted steak or chops to a plate, cover and set aside. Turn the meat over and return to the microwave oven. Press start to continue. At the end of the program remove the meat from the microwave oven, cover with foil and allow to stand 5- 30 minutes or until completely thawed. | 5 - 30 |
| 3 | Roast Lamb | 1.0 - 2.0 kg | Room | Remove the lamb completely from it's wrapping. Using a piece of foil wrap the shank to prevent cooking. Place the lamb onto a microwave- safe rack over a plate or shallow dish. During the program the oven will beep and display 'turn food over'. At this point remove the lamb from the microwave oven and turn over. Press start to continue. At the end of the program remove the lamb from the microwave oven, cover with foil and allow to stand 5 - 45 minutes or until completely thawed. | 5 - 45 |
| 4 | Roast Beef | 1.0 - 2.0 kg | Frozen | Remove the beef completely from it's wrapping. Using strips of foil, shield fatty areas with foil to prevent cooking. Place the beef onto a microwave- safe rack, fat side down over a plate or shallow dish. During the program the oven will beep and display 'turn food over'. At this point remove the beef from the microwave oven and turn over. Press start to continue. At the end of the program remove the beef from the microwave oven, cover with foil and allow to stand 5- 45 minutes or until completely thawed. | 5 - 45 |

AUTO WEIGHT DEFROST MENU INSTRUCTIONS

| Code | Menu | Weight Limit | Initial Temperature | Instructions | Standing Time (minutes) |
|------|--|--------------|---------------------|--|-------------------------|
| 5 | Whole Chicken | 1.0 - 2.5 kg | Frozen | Remove the chicken completely from it's wrapping. Place a thin strip of foil down the centre of the breast. Place the chicken breast side down onto a microwave- safe rack over a plate or shallow dish. During the program the oven will beep and display 'turn food over'. At this point remove the chicken from the microwave oven and turn over. Press start to continue. At the end of the program remove the chicken from the microwave oven, cover with foil and allow to stand 5- 40 minutes or until completely thawed. | 5 - 40 |
| 6 | Chicken Pieces | 0.1 - 2.0 kg | Frozen | Remove the chicken pieces completely from it's wrapping. Place the chicken Pieces onto a microwave- safe rack over a plate or shallow dish. During the program the oven will beep and display 'turn food over'. At this point remove the chicken pieces from the microwave oven and turn over. Press start to continue. At the end of the program remove the chicken pieces from the microwave oven, cover with foil and allow to stand 5- 10 minutes hour or until completely thawed. | 5 - 10 |
| 7 | Bread Sliced, 1 piece = 30g | 1- 4 pieces | Frozen | Separate the frozen bread into single pieces. Place in a single layer directly on the microwave turntable. At the end of the program remove the bread from the microwave oven, stand 1/2 - 1 minute. | 1/2 - 1 |

WARNING: Do not use aluminum foil during cooking cycle.

COOKING TIPS

Meat

1. No special techniques are required. Meat should be prepared as with conventional cooking. Season if desired. Always thoroughly defrost meat before cooking.
2. Place the meat on a microwave roasting rack or microwave-proof plate and place on the turntable.
3. Cook according to the Meat Cooking Chart (below). Use the longer time for large meats and the shorter time for smaller meats. For thicker chops, use the longer time.
4. Turn the meat once halfway through the cooking time.
5. **Let stand** for 5-10 minutes wrapped in foil after cooking. The standing time is very important as it completes the cooking process.
6. Make sure meat, especially pork, is thoroughly cooked before eating.

Meat Cooking Chart

| Meat | Microwave Power | Cooking Time Per 0.5 kg |
|---|-----------------|-------------------------|
| BEEF | | |
| Standing/Rolled Rib | | |
| – Rare | 8 | 8 to 10 minutes |
| – Medium | 8 | 9 to 11 minutes |
| – Well-done | 8 | 10 to 13 minutes |
| Ground Beef (to brown for casserole) | HIGH(100%) | 5½-8½ minutes |
| Hamburgers, Fresh or defrosted (112 g each) | | |
| – 2 patties | HIGH(100%) | 2 to 4 minutes |
| – 4 patties | HIGH(100%) | 3 to 5 minutes |
| PORK | | |
| Loin, Leg | 8 | 12 to 16 minutes |
| Bacon | | |
| – 4 slices | HIGH(100%) | 2 to 3 minutes |
| – 6 slices | HIGH(100%) | 3 to 4 minutes |

NOTE: The times listed above are only a guide. Allow for difference in individual tastes and preferences. The times may also vary due to the shape, cut, and composition of the food.

Poultry

1. No special techniques are required. Poultry should be prepared as with conventional cooking. Season if desired.
2. Poultry should be thoroughly defrosted. Remove giblets and any metal clamps.
3. Prick the skin and brush lightly with vegetable oil unless the poultry is self-basting.
4. All poultry should be placed on a microwave roasting rack or a microwave-proof plate and placed on the turntable.
5. Cook according to the instructions in the Poultry Cooking Chart below. Turn over halfway through the cooking time. Because of its shape, poultry has a tendency to cook unevenly, especially in very bony parts. Turning during roasting helps to cook these areas evenly.
6. **Let stand** for 5-10 minutes wrapped in foil after cooking before carving. The standing time is very important, as it completes the cooking process.
7. Make sure poultry is thoroughly cooked before eating. Whole poultry is completely cooked when the juices run clear from the inside thigh when it is pierced with a sharp knife. Poultry pieces should be pierced with a sharp knife through the thickest part to ensure that the juices are clear and the flesh is firm.

Poultry Cooking Chart

| Poultry | Microwave Power | Cooking Time Per 0.5 kg |
|----------------|-----------------|-------------------------|
| CHICKEN | | |
| Whole | 8 | 10 to 14 minutes |
| Breast (boned) | 8 | 9 to 13 minutes |
| Portions | 8 | 10 to 16 minutes |
| TURKEY | | |
| Whole | 8 | 10 to 14 minutes |

NOTES:

- The times listed above are only a guide. Allow for difference in individual tastes and preferences. The times may also vary due to the shape, cut, and composition of the food.
- If whole poultry is stuffed, the weight of the stuffed bird should be used when calculating the cooking time.

COOKING TIPS (continued)

Fish

1. Arrange fish in a large shallow non-metallic dish or casserole.
2. Cover with pierced microwave plastic wrap or casserole lid.
3. Place the dish on the turntable.
4. Cook according to the instructions in the Fresh Fish Cooking Chart below. Flakes of butter can be added to the fish if desired.
5. Let stand as directed in the Cooking Chart before serving.
6. After standing time, check to see that the fish is thoroughly cooked. The fish should be opaque and flake easily.

Fresh Fish Cooking Chart

| Fish | Microwave Power | Cooking Time Per 0.5 kg | Butter | Standing Time |
|--------------------------------------|-----------------|-------------------------|--|----------------|
| Fish Fillets | HIGH | 4 to 7 minutes | Add 15 to 30 ml (1 to 2 tbsp.) lemon juice | 2 to 3 minutes |
| Whole Mackerel, Cleaned and Prepared | HIGH | 4 to 7 minutes | – | 3 to 4 minutes |
| Whole Trout, Cleaned and Prepared | HIGH | 5 to 8 minutes | – | 3 to 4 minutes |
| Salmon Steaks | HIGH | 5 to 7 minutes | Add 15 to 30 ml (1 to 2 tbsp.) lemon juice | 3 to 4 minutes |

To heat or reheat successfully in the microwave, it is important to follow several guidelines. Measure the amount of food in order to determine the time needed to reheat. Arrange the food in a circular pattern for best results. Room temperature food will heat faster than refrigerated food. Canned foods should be taken out of the can and placed in a microwavable container. The food will be heated more evenly if covered with a microwavable lid or plastic wrap and vented. Remove cover carefully to prevent steam burns. Use the following chart as a guide for reheating cooked food.

| Items | Cook time (at HIGH) | Special Instructions |
|--|--------------------------------|---|
| Sliced meat 3 slices (0.5 cm thick) | 1-2 minutes | Place sliced meat on microwavable plate. Cover with plastic wrap and vent. *Note: Gravy or sauce helps to keep meat juicy. |
| Chicken pieces 1 breast 1 leg and thigh | 2-3½ minutes 1½-3 minutes | Place chicken pieces on microwavable plate. Cover with plastic wrap and vent. |
| Fish fillet (230 g) | 2-4 minutes | Place fish on microwavable plate. Cover with plastic wrap and vent. |
| Lasagna 1 serving (300 g) | 4-6 minutes | Place lasagna on microwavable plate. Cover with plastic wrap and vent. |
| Casserole 1 cup 4 cups | 1-3½ minutes 5-8 minutes | COOK covered in microwavable casserole. Stir once halfway through cooking. |
| Casserole – cream or cheese 1 cup 4 cups | 1½-3 minutes 3½-5½ minutes | COOK covered in microwavable casserole. Stir once halfway through cooking. |
| Sloppy Joe or Barbecued beef 1 sandwich (½ cup meat filling) without bun | 1 -2½ minutes | Reheat filling and bun separately. Cook filling covered in microwavable casserole. Stir once. Heat bun as directed in chart below. |
| Mashed potatoes 1 cup 4 cups | 1-3 minutes 5-8 minutes | COOK covered in microwavable casserole. Stir once halfway through cooking. |
| Baked beans 1 cup | 1½-3 minutes | COOK covered in microwavable casserole. Stir once halfway through cooking. |
| Ravioli or pasta in sauce 1 cup 4 cups | 2½-4 minutes 7½-11 minutes | COOK covered in microwavable casserole. Stir once halfway through cooking. |
| Rice 1 cup 4 cups | 1½-3½ minutes 4-6½ minutes | COOK covered in microwavable casserole. Stir once halfway through cooking. |
| Sandwich roll or bun 1 roll | 15-30 seconds | Wrap in paper towel and place on glass microwavable rack |
| Vegetables 1 cup 4 cups | 1½-2½ minutes 4-6 minutes | COOK covered in microwavable casserole. Stir once halfway through cooking. |
| Soup 1 serving (230 g) | 1½-2½ minutes | COOK covered in microwavable casserole. Stir once halfway through cooking. |

| Vegetable | Amount | Cook time at HIGH | Instructions | Standing Time |
|---|--------------------------|--------------------------|--|----------------------------|
| Artichokes (230 g each) | 2 medium 4 medium | 5~8 10~13 | Trim. Add 2 tsp water and 2 tsp juice. Cover. | 2-3 minutes |
| Asparagus, Fresh, Spears | 450 g | 3~6 | Add 1/2 cup water. Cover. | 2-3 minutes |
| Beans, Green & Wax | 450 g | 7~11 | Add 1/2 cup water in 1 1/2 qt. casserole. Stir halfway through cooking. | 2-3 minutes |
| Beets, Fresh | 450 g | 12~16 | Add 1/2 cup water in 1 1/2 qt. covered casserole. Rearrange halfway through cooking. | 2-3 minutes |
| Broccoli, Fresh, Spears | 450 g | 4~8 | Place broccoli in baking dish. Add 1/2 cup water. | 2-3 minutes |
| Cabbage, Fresh, Chopped | 450 g | 4~7 | Add 1/2 cup water in 1 1/2 qt. covered casserole. Stir halfway through cooking. | 2-3 minutes |
| Carrots, Fresh, Sliced | 2 cups | 2~4 | Add 1/4 cup water in 1 qt. covered casserole. Stir halfway through cooking. | 2-3 minutes |
| Cauliflower, Fresh, Whole | 450 g | 7~11 | Trim. Add 1/4 cup water in 1 qt. covered casserole. Stir halfway through cooking. | 2-3 minutes |
| Flowerettes, Fresh | 2 cups | 2 1/2~4 1/2 | Slice. Add 1/2 cup water in 1 1/2 qt. covered casserole. | 2-3 minutes |
| Celery, Fresh, Sliced | 4 cups | 6~8 | Stir halfway through cooking. | 2-3 minutes |
| Corn, Fresh | 2 ears | 5~9 | Husk. Add 2 tbsp water in 1 1/2 qt. baking dish. Cover. | 2-3 minutes |
| Mushrooms, Fresh, Sliced | 230 g | 2~3 1/2 | Place mushrooms in 1 1/2 qt. covered casserole. Stir halfway through cooking. | 2-3 minutes |
| Parsnips, Fresh, Sliced | 450 g | 4~8 | Add 1/2 cup water in 1 1/2 qt. covered casserole. Stir halfway through cooking. | 2-3 minutes |
| Peas, Green, Fresh | 4 cups | 7~10 | Add 1/2 cup water in 1 1/2 qt. covered casserole. Stir halfway through cooking. | 2-3 minutes |
| Sweet Potatoes Whole Baking (170~230 g each) | 2 medium 4 medium | 5~10 7~13 | Pierce potatoes several times with fork. Place on 2 paper towels. Turn over halfway through cooking. | 2-3 minutes 2-3 minutes |
| White Potatoes, Whole Baking (170~230 g each) | 2 potatoes 4 potatoes | 5~8 10~14 | Pierce potatoes several times with fork. Place on 2 paper towels. Turn over halfway through cooking. | 2-3 minutes 2-3 minutes |
| Spinach, Fresh, Leaf | 450 g | 4~7 | Add 1/2 cup water in 2 qt. covered casserole. | 2-3 minutes |
| Squash, Acorn or Butternut, Fresh | 1 medium | 6~8 | Cut squash in half. Remove seeds. Place in 8 x 8-inch baking dish. Cover. | 2-3 minutes |
| Zucchini, Fresh, Sliced | 450 g | 4 1/2~7 1/2 | Add 1/2 cup water in 1 1/2 qt. covered casserole. Stir halfway through cooking. | 2-3 minutes |
| Zucchini, Fresh, Whole | 450 g | 6~9 | Pierce. Place on 2 paper towels. Turn zucchini over and rearrange halfway through cooking. | 2-3 minutes |

Never use metal or metal trimmed utensils in your microwave oven

Microwaves cannot penetrate metal. They will bounce off any metal object in the oven and cause arcing, an alarming phenomenon that resembles lightning.

Most heat resistant non metallic cooking utensils are safe for use in your microwave oven.

However, some may contain materials that render them unsuitable as microwave cookware. If you have any doubts about a particular utensil, there's a simple way to find out if it can be used in your microwave oven.

Place the utensil in question next to a glass bowl filled with water in the microwave oven.

Microwave at power HIGH for 1 minute. If the water heats up but the utensil remains cool to the touch, the utensil is microwave-safe. However, if the water does not change temperature but the utensil becomes warm, microwaves are being absorbed by the utensil and it is not safe for use in the microwave oven. You probably have many items on hand in your kitchen right now that can be used as cooking equipment in your microwave oven. Just read through the following checklist.

Dinner plates

Many kinds of dinner-ware are microwave-safe. If in doubt consult the manufacturer's literature or perform the microwave test.

Glassware

Glassware that is heat-resistant is microwave-safe. This would include all brands of oven tempered glass cookware. However, do not use delicate glassware, such as tumblers or wine glasses, as these might shatter as the food warms.

Plastic storage containers

These can be used to hold foods that are to be quickly reheated. However, they should not be used to hold foods that will need considerable time in the oven as hot foods will eventually warp or melt plastic containers.

Paper

Paper plates and containers are convenient and safe to use in your microwave oven, provided that the cooking time is short and foods to be cooked are low in fat and moisture. Paper towels are also very useful for wrapping foods and for lining baking trays in which greasy foods such as bacon are cooked. In general, avoid colored paper products as the colour may run. Some recycled paper products may contain impurities which could cause arcing or fires when used in the microwave oven.

Plastic cooking bags

Provided they are made specially for cooking, cooking bags are microwave safe. However, be sure to make a slit in the bag so that steam can escape. Never use ordinary plastic bags for cooking in your microwave oven, as they will melt and rupture.

Plastic microwave cookware

A variety of shapes and sizes of microwave cookware are available. For the most part, you can probably use items you already have on hand rather than investing in new kitchen equipment.

Pottery, stoneware and ceramic

Containers made of these materials are usually fine for use in your microwave oven, but they should be tested to be sure.

CAUTION

Some items with high lead or iron content are not suitable for cooking utensils.

Keeping an eye on things

The recipes in this book have been formulated with great care, but your success in preparing them depends on how much attention you pay to the food as it cooks. Always watch your food while it cooks. Your microwave oven is equipped with a light that turns on automatically when the oven is in operation so that you can see inside and check the progress of your food. Directions given in recipes to elevate, stir, and the like should be thought of as the minimum steps recommended. If the food seems to be cooking unevenly, simply make the necessary adjustments you think appropriate to correct the problem.

Factors affecting microwave cooking times

Many factors affect cooking times. The temperature of ingredients used in a recipe makes a big difference in cooking times. For example, a cake made with ice-cold butter, milk, and eggs will take considerably longer to bake than one made with ingredients that are at room temperature. All of the recipes in this book give a range of cooking times. In general, you will find that the food remains under-cooked at the lower end of the time range, and you may sometimes want to cook your food beyond the maximum time given, according to personal preference. The governing philosophy of this book is that it is best for a recipe to be conservative in giving cooking times. While overcooked food is ruined for good. Some of the recipes, particularly those for bread, cake, and custards, recommend that food be removed from the oven when they are slightly undercooked. This is not a mistake. When allowed to stand, usually covered, these foods will continue to cook outside of the oven as the heat trapped within the outer portions of the food gradually travels inward. If the food is left in the oven until it is cooked all the way through, the outer portions will become overcooked or even burnt. You will become increasingly skilful in estimating both cooking and standing times for various foods.

Density of food

Light, porous food such as cakes and bread cook more quickly than heavy, dense foods such as roasts and casseroles. You must take care when microwaving porous food that the outer edges do not become dry and brittle.

Height of food

The upper portion of tall food, particularly roasts, will cook more quickly than the lower portion. Therefore, it is wise to turn tall food during cooking, sometimes several times.

Moisture content of food

Since the heat generated from microwaves tends to evaporate moisture, relatively dry food such as roasts and some vegetables should either be sprinkled with water prior to cooking or covered to retain moisture.

Bone and fat content of food

Bones conduct heat and fat cooks more quickly than meat. Care must be taken when cooking bony or fatty cuts of meat that they do not cook unevenly and do not become overcooked.

Quantity of food

The number of microwaves in your oven remains constant regardless of how much food is being cooked. Therefore, the more food you place in the oven, the longer the cooking time. Remember to decrease cooking times by at least one third when halving a recipe.

Shape of food

Microwaves penetrate only about 2.5 cm into food, the interior portion of thick foods are cooked as the heat generated on the outside travels inward. Only the outer edge of food is cooked by microwave energy; the rest is cooked by conduction. The worst possible shape for a food that is to be microwaved is a thick square. The corners will burn long before the centre is even warm. Round thin foods and ring shaped foods cook successfully in the microwave.

Covering

A cover traps heat and steam which causes food to cook more quickly. Use a lid or microwave cling film with a corner folded back to prevent splitting.

Browning

Meats and poultry that are cooked fifteen minutes or longer will brown lightly in their own fat. Food that is cooked for a shorter period of time may be brushed with a browning sauce such as Worcestershire sauce, soy sauce or barbecue sauce to achieve an appetizing colour. Since relatively small amounts of browning sauce is added to food, the original flavour of the recipe is not altered.

Covering with greaseproof paper

Greaseproofing effectively prevents spattering and helps food retain some heat. But because it makes a looser cover than a lid or clingfilm, it allows the food to dry out slightly.

Arranging and spacing

Individual foods such as baked potatoes, small cakes and hors d'oeuvres will heat more evenly if placed in the oven an equal distance apart, preferably in a circular pattern. Never stack foods on top of one another.

Stirring

Stirring is one of the most important of all microwaving techniques. In conventional cooking, food is stirred for the purpose of blending. Microwaved food, however, is stirred in order to spread and redistribute heat. Always stir from the outside towards the centre as the outside of the food heats first.

Turning over

Large, tall foods such as roasts and whole chickens should be turned so that the top and bottom will cook evenly. It is also a good idea to turn cut up chicken and chops.

Placing thicker portions facing outwards

Since microwaves are attracted to the outside portion of food, it makes sense to place thicker portions of meat, poultry and fish to the outer edge of the baking dish. This way, thicker portions will receive the most microwave energy and the food will cook evenly.

Shielding

Strips of aluminium foil (which block microwaves) can be placed over the corners or edges of square and rectangular food to prevent those portions from overcooking. Never use too much foil and make sure the foil is secured to the dish or it may cause 'arcing' in the oven.

Elevating

Thick or dense foods can be elevated so that microwaves can be absorbed by the underside and centre of the foods.

Piercing

Foods enclosed in a shell, skin or membrane are likely to burst in the oven unless they are pierced prior to cooking. Such foods include yolks and whites of eggs, clams and oysters and whole vegetables and fruits.

Testing if cooked

Food cooks so quickly in a microwave oven, it is necessary to test it frequently. Some foods are left in the microwave until completely cooked, but most foods, including meats and poultry, are removed from the oven while still slightly undercooked and allowed to finish cooking during standing time. The internal temperature of foods will rise between 3°C and 8°C during standing time.

Standing time

Foods are often allowed to stand for 3 to 10 minutes after being removed from the microwave oven. Usually the foods are covered during standing time to retain heat unless they are supposed to be dry in texture (some cakes and biscuits, for example). Standing allows foods to finish cooking and also helps flavour blend and develop.

To Clean Your Oven

1 Keep the inside of the oven clean

Food spatters or spilled liquids stick to oven walls and between seal and door surface. It is best to wipe up spillovers with a damp cloth right away. Crumbs and spillovers will absorb microwave energy and lengthen cooking times. Use a damp cloth to wipe out crumbs that fall between the door and the frame. It is important to keep this area clean to assure a tight seal. Remove greasy spatters with a soapy cloth then rinse and dry. Do not use harsh detergent or abrasive cleaners. The glass tray can be washed by hand or in the dishwasher.

2 Keep the outside of the oven clean

Clean the outside of your oven with soap and water then with clean water and dry with a soft cloth or paper towel. To prevent damage to the operating parts inside the oven, the water should not be allowed to seep into the ventilation openings. To clean control panel, open the door to prevent oven from accidentally starting, and wipe a damp cloth followed immediately by a dry cloth. Press STOP after cleaning.

3 If steam accumulates inside or around the outside of the oven door, wipe the panels with a soft cloth. This may occur when the microwave oven is operated under high humidity conditions and in no way indicates a malfunction of the unit.

4 The door and door seals should be kept clean. Use only warm, soapy water, rinse then dry thoroughly.

DO NOT USE ABRASIVE MATERIALS, SUCH AS CLEANING POWDERS OR STEEL AND PLASTIC PADS.

Metal parts will be easier to maintain if wiped frequently with a damp cloth.

WARNING

Please ensure cooking times are correctly set as over cooking may result in FIRE and subsequent DAMAGE to the OVEN.

- 1 Do not attempt to tamper with, or make any adjustments or repairs to the door, control panel, safety interlock switches or any other part of the oven. Repairs should only be undertaken by a qualified service technician.
- 2 Do not operate the oven when empty. It is best to leave a glass of water in the oven when not in use. The water will safely absorb all microwave energy, if the oven is accidentally started.
- 3 Do not use the oven for the purpose of dehumidification. It can be the cause of serious damage of safety. (ex. Operating the microwave oven with the wet newspapers, clothes, toys, pet or portable electric devices, etc.)
- 4 Do not cook food wrapped in paper towels, unless your cook book contains instructions, for the food you are cooking.
- 5 Do not use newspaper in place of paper towels for cooking.
- 6 Do not use wooden containers. They may heat-up and char. Do not use ceramic containers which have metallic (e.g. gold or silver) inlays. Always remove metal twist ties. Metal objects in the oven may arc, which can cause serious damage.
- 7 Do not operate the oven with a kitchen towel, a napkin or any other obstruction between the door and the front edges of the oven, which may cause microwave energy leakage.
- 8 Do not use recycled paper products since they may contain impurities which may cause sparks and/or fires when used in cooking.
- 9 Do not rinse the turntable by placing it in water just after cooking. This may cause breakage or damage.
- 10 Small amounts of food require shorter cooking or heating time. If normal times are allowed they may overheat and burn.
- 11 Be certain to place the oven so the front of the door is 8 cm or more behind the edge of the surface on which it is placed, to avoid accidental tipping of the appliance.
- 12 Before cooking, pierce the skin of potatoes, apples or any such fruit or vegetable.
- 13 Do not cook eggs in their shell. Pressure will build up inside the egg which will burst.
- 14 Do not attempt deep fat frying in your oven.
- 15 Remove the plastic wrapping from food before cooking or defrosting. Note though that in some cases food should be covered with plastic film, for heating or cooking.
- 16 If the oven door is damaged, the oven must not be operated until it has been repaired by a qualified service technician.
- 17 If smoke is observed, keep the oven door closed and switch off or disconnect the oven from the power supply.
- 18 When food is heated or cooked in disposable containers of plastic, paper or other combustible materials look at the oven frequently to check if the food container is deteriorating.
- 19 Only allow children to use the oven without supervision when adequate instructions have been given so that the child is able to use the oven in a safe way and understands the hazards of improper use.
- 20 Liquids or other foods must not be heated in sealed containers since they are liable to explode.

Q What's wrong when the oven light will not glow?

- A There may be several reasons why the oven light will not glow.
Light bulb has blown.
Door is not closed.

Q Does microwave energy pass through the viewing screen in the door?

- A No. The holes, or ports, are made to allow light to pass; they do not let microwave energy through.

Q Why does the beep tone sound when a pad on the Control Panel is touched?

- A The beep tone sounds to assure that the setting is being properly entered.

Q Will the microwave oven be damaged if it operates empty?

- A Yes. Never run it empty or without the glass tray.

Q Why do eggs sometimes pop?

- A When baking, frying, or poaching eggs, the yolk may pop due to steam build up inside the yolk membrane. To prevent this, simply pierce the yolk before cooking. Never microwave eggs in the shell.

Q Why is standing time recommended after microwave cooking is over?

- A After microwave cooking is finished, food keeps on cooking during standing time. This standing time finishes cooking evenly throughout the food. The amount of standing time depends on the density of the food.

Q Is it possible to pop corn in a microwave oven?

- A Yes, if using one of the two methods described below:

- 1 Popcorn-popping utensils designed specifically for microwave cooking.
- 2 Prepackaged commercial microwave popcorn that contains specific times and power outputs needed for an acceptable final product.

FOLLOW EXACT DIRECTIONS GIVEN BY EACH MANUFACTURER FOR THEIR POPCORN PRODUCT. DO NOT LEAVE THE OVEN UNATTENDED WHILE THE CORN IS BEING POPPED. IF CORN FAILS TO POP AFTER THE SUGGESTED TIMES, DISCONTINUE COOKING. OVERCOOKING COULD RESULT IN THE CORN CATCHING FIRE.

CAUTION

NEVER USE A BROWN PAPER BAG FOR POPPING CORN. NEVER ATTEMPT TO POP LEFTOVER KERNELS.

Q Why doesn't my oven always cook as fast as the cooking guide says?

- A Check your cooking guide again to make sure you've followed directions correctly, and to see what might cause variations in cooking time. Cooking guide times and heat settings are suggestions, chosen to help prevent overcooking, the most common problem in getting used to a microwave oven. Variations in the size, shape, weight and dimensions of the food require longer cooking time. Use your own judgement along with the cooking guide suggestions to test food condition, just as you would do with a conventional cooker.

Warning

The wires in this mains lead are colored in accordance with the following codes
BLUE ~ Neutral
BROWN ~ Live
GREEN & YELLOW ~ Earth

As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug proceed as follows:

The wire which is colored BLUE must be connected to the terminal which is marked with the letter N or Colored BLACK.

The wire which is colored BROWN must be connected to the terminal which is marked with the letter L or colored RED.

The wire which is colored GREEN & YELLOW or GREEN must be connected to the terminal which is marked with the letter E or \perp .

If the supplied flexible main cord of this appliance is damaged, it be replaced using the special main cord part number : 2B72234J

The LG Express Guarantee

The specifically covers replacement and repair of any defective componentry of faults in manufacture for the period specified in the LG Guarantee Rosette above. However, LG accepts no liability where any goods fail to comply with this express guarantee because of any reasons beyond LG's control.

Faulty components will be replaced by LG at no cost to the owner. Similarly all workshop labour costs needed to restore the goods to their original working condition will be met by LG during the guarantee period.

This applies to work done in any approved LG Service Center and specifically excludes travel time, freight or any other related charges.

The conditions of this Express guarantee only apply if repairs are carried out by an approved LG Service Center in New Zealand.

This guarantee is not transferable except as provided by the Consumer Guarantee Act 1993.

Express Guarantee Service

LG guarantees the continued supply of spare parts for a period after the date of manufacture of not less than 3 years for magnetron and 2 years for cabinet and other cosmetic components.

If there is any conflict between this LG Express Guarantee and the provisions of the Consumer Guarantee Act 1993, the provisions of the Act shall apply.
