User's Guide

W1971SC
W2271SC
W2271TC

Make sure to read the **Important Precautions** before using the product.
Keep the User's Guide(CD) in an accessible place for future reference.

See the label attached on the product and give the information to your
dealer when you ask for service.

LG

This unit has been engineered and manufactured to ensure your personal safety, however improper use may result in potential electrical shock or fire hazards. In order to allow the proper operation of all safeguards incorporated in this display, observe the following basic rules for its installation, use, and servicing.

On Safety

Use only the power cord supplied with the unit. In case you use another power cord, make sure that it is certified by the applicable national standards if not being provided by the supplier. If the power cable is faulty in any way, please contact the manufacturer or the nearest authorized repair service provider for a replacement.

The power supply cord is used as the main disconnection device. Ensure that the socket-outlet is easily accessible after installation.

Operate the display only from a power source indicated in the specifications of this manual or listed on the display. If you are not sure what type of power supply you have in your home, consult with your dealer.

Overloaded AC outlets and extension cords are dangerous. So are frayed power cords and broken plugs. They may result in a shock or fire hazard. Call your service technician for replacement.

Do not Open the Display:
- There are no user serviceable components inside.
- There are Dangerous High Voltages inside, even when the power is OFF.
- Contact your dealer if the display is not operating properly.

To Avoid Personal Injury :
- Do not place the display on a sloping shelf unless properly secured.
- Use only a stand recommended by the manufacturer.
- Do not drop an object on or apply impact to the product. Do not throw any toys or objects on the product screen.
  It can cause injury to human, problem to product and damage the display.

To Prevent Fire or Hazards:
- Always turn the display OFF if you leave the room for more than a short period of time. Never leave the display ON when leaving the house.
- Keep children from dropping or pushing objects into the display's cabinet openings. Some internal parts carry hazardous voltages.
- Do not add accessories that have not been designed for this display.
- When the display is to be left unattended for an extended period of time, unplug it from the wall outlet.
- In the presence of thunder and lightning, never touch the power cord and signal cable because it can be very dangerous. It can cause electric shock.

On Installation

Do not allow anything to rest upon or roll over the power cord, and do not place the display where the power cord is subject to damage.

Do not use this display near water such as near a bathtub, washbowl, kitchen sink, laundry tub, in a wet basement, or near a swimming pool.
Displays are provided with ventilation openings in the cabinet to allow the release of heat generated during operation. If these openings are blocked, built-up heat can cause failures which may result in a fire hazard. Therefore, NEVER:

- Block the bottom ventilation slots by placing the display on a bed, sofa, rug, etc.
- Place the display in a built-in enclosure unless proper ventilation is provided.
- Cover the openings with cloth or other material.
- Place the display near or over a radiator or heat source.

Do not rub or strike the Active Matrix LCD with anything hard as this may scratch, mar, or damage the Active Matrix LCD permanently.

Do not press the LCD screen with your finger for a long time as this may cause some afterimages.

Some dot defects may appear as Red, Green or Blue spots on the screen. However, this will have no impact or effect on the display performance.

If possible, use the recommended resolution to obtain the best image quality for your LCD display. If used under any mode except the recommended resolution, some scaled or processed images may appear on the screen. However, this is characteristic of the fixed-resolution LCD panel.

Leaving a fixed image on the screen for a long time may cause damage to the screen and cause image burn-in. Make sure to use a screen saver on the product. Burn-in and related problems are not covered by the warranty on this product.

Do not shock or scratch the front and sides of the screen with metallic objects. Otherwise, it may cause damage to the screen.

On Cleaning

- Unplug the display before cleaning the face of the display screen.
- Use a slightly damp (not wet) cloth. Do not use an aerosol directly on the display screen because over-spraying may cause electrical shock.

On Repacking

- Do not throw away the carton and packing materials. They make an ideal container in which to transport the unit. When shipping the unit to another location, repack it in its original material.

On Disposal

- The fluorescent lamp used in this product contains a small amount of mercury.
- Do not dispose of this product with general household waste.
- Disposal of this product must be carried out in accordance to the regulations of your local authority.

■ **Before setting up the monitor, ensure that the power to the monitor, the computer system, and other attached devices is turned off.**

## Connecting the stand

1. Place the monitor face down on the cushion or soft cloth.

2. Assemble the Stand Body into the product in the correct direction as shown in the picture.

Stand Body   Hinge Body
3. Check the direction of the Stand Base and assemble it into the Stand Body.

Stand Base   Stand Body

4. Insert the Cable Deco Cover in the Stand Body in the correct direction.
Stand Base   Cable Deco Cover   Cable Deco Cover

5. Once assembled take the monitor up carefully and face the front side.

IMPORTANT
- This illustration depicts the general model of connection. Your monitor may differ from the items shown in the picture.
- Do not carry the product upside down holding only the stand base. The product may fall and get damaged or injure your foot.

Disassembling the stand

1. Place the monitor face down on the cushion or soft cloth.

2. Slide the Cable Deco Cover out from the stand body.

3. Press the hook, take off the stand base from stand body.

Hook

4. Please pull the stand body lightly to separate it from the hinge body.
■ **Before setting up the monitor, ensure that the power to the monitor, the computer system, and other attached devices is turned off.**

Positioning your display

1. Adjust the position of the panel in various ways for maximum comfort.

   ■ Tilt Range : -5˚~22˚
-5˚   22˚

ERGONOMIC

   ■ It is recommended that in order to maintain an ergonomic and comfortable viewing position, the forward tilt angle of the monitor should not exceed 5 degrees.

Using the Computer

1. Make sure to turn off the computer and product.
Connect signal input cable ① and power cord ② in order, then tighten the screw of the signal cable.

Ⓐ Connect DVI(Digital signal) Cable
Ⓑ Connect D-sub(Analog signal) Cable (PC)
Ⓒ Connect D-sub(Analog signal) Cable (Mac)

NOTE

Connecting the USB(Universal Serial Bus) Cable

1. You can use the monitor's webcam function by connecting the monitor and the PC with USB cable.

D Connect USB cable
USB Upstream port (1 unit): Connect it with the downstream port of the PC or laptop.
(Your computer must support USB.)

E Connect audio cable

NOTE
- For more information on USB, visit the following web site.(http://www.usb.org)
- With the USB cable unconnected, you will not have any trouble using the PC.

Using the Webcam function

To use the webcam function, your PC should meet the following minimum system requirements.

■ **Minimum system requirements**
- · Intel Pentium 4 1.6 GHz or AMD® equivalent processor (Intel® Pentium® D processor running at 3.0 GHz or better recommended)
- · Microsoft®Windows®XP Service Pack 2 (32/64-bit), Vista (32/64-bit)
- · 256MB RAM or higher (512MB RAM recommended)
- · 500MB HDD
- · CD-ROM
- · USB 2.0 interface
- · Window Vista Premium / XP SP2 with UVC patch

■ Please update **UVC patch** from http://www.microsoft.com before use.

Microphones

Webcam

1. To use the webcam function, connect the USB cable and install the programs on the webcam software CD.
2. The webcam software CD contains two programs.
Install the LG Webcam Viewer program first, and then the LG Webcam Driver files.
3. For more information about the programs, refer to the user guide in the webcam software CD.

Use this button to turn the display on or off.

This Indicator lights up blue when the display operates normally(On Mode). If the display is in Sleep Mode (Energy Saving), this indicator color changes to amber.

Screen Adjustment

Making adjustments to the image size, position and operating parameters of the display is quick and easy with the On Screen Display Control system. A short example is given below to familiarize you with the use of the controls. The following section is an outline of the available adjustments and selections you can make using the OSD.

NOTE
■ Allow the display to stabilize for at least 30 minutes before making image adjustments.

To make adjustments in the On Screen Display, follow these steps:

MENU ⟶ ▼ ▲ ⟶ **AUTO/SET** ⟶ ▼ ▲ ⟶ **MENU**

1 Press the MENU Button, then the main menu of the OSD appears.

2 To access a control, use the ▼ or ▲ Buttons. When the icon you want becomes highlighted, press the AUTO/SET Button.

3 Use the ▼ / ▲ Buttons to adjust the image to the desired level. Use the AUTO/SET Button to select other sub-menu items.

4 Press the MENU Button once to return to the main menu to select another function. Press the MENU Button twice to exit from the OSD.

The following table indicates all the On Screen Display control, adjustment, and setting menus.

On Screen Display(OSD) Selection and Adjustment

■■■ The OSD screen will appear when you press the ⌐ᵁᴎ button on the front of the monitor.

EZ ZOOMING	4:3 IN WIDE	PHOTO EFFECT

■ **MENU** : Exit
■ ▼ , ▲ : Move
■ **SET** : Select

Main menu		Description
EZ ZOOMING	**EZ ZOOMING**	To select the display resolution.
		When you select 'EZ ZOOMING' in OSD, display resolution goes one step down so characters and images look bigger. When you select EZ ZOOMING once again, it goes back to the original resolution.
		* This function is operated only if the 'forteManag-er' is installed to PC.
4:3 IN WIDE	**4:3 IN WIDE**	To select the image size of the screen.
		WIDE 4:3
		• **WIDE** : Switch to full screen mode according to input image signal.
		• **4:3** : Change the input image signal ratio to 4:3.
PHOTO EFFECT Use the AUTO/SET button to go to sub-menu. PHOTO EFFECT ▼ ← ▲ → SET MENU ▶ NORMAL	**PHOTO EFFECT**	To select the color of the screen.
		• **NORMAL**
		The PhotoEffect function is disabled.
		• **GAUSSIAN BLUR**
		This option is to add the effect to the screen that the dark and sharp image becomes brighter and more blurred.
		• **SEPIA**
		This option changes the screen to be Sepia tone. The Sepia tone is brown color tone.
		• **MONOCHROME**
		This option changed the screen to be Gray tone. The screen image is displayed with just white, black, gray colors.

NORMAL   GAUSSIAN BLUR   SEPIA   MONOCHROME

Check the following before calling for service.

No image appears

● **Is the power cord of the display connected?**	• Check and see if the power cord is connected properly to the power outlet.
● **Is the power indicator light on?**	• Press the Power button.
● **Is the power on and the power indicator blue or green?**	• Adjust the brightness and the contrast.
● **Is the power indicator amber?**	• If the display is in power saving mode, try moving the mouse or pressing any key on the keyboard to bring up the screen. • Try to turn on the PC.
● **Do you see an "OUT OF RANGE" message on the screen?**	• This message appears when the signal from the PC (video card) is out of horizontal or vertical frequency range of the display. See the 'Specifications' section of this manual and configure your display again.
● **Do you see a "CHECK SIGNAL CABLE" message on the screen?**	• This message appears when the signal cable between your PC and your display is not connected. Check the signal cable and try again.

Do you see a "OSD LOCKED" message on the screen?

● **Do you see "OSD LOCKED" when you push MENU button?**	• You can secure the current control settings, so that they cannot be inadvertently changed. You can unlock the OSD controls at any time by pushing the **MENU** button for several seconds: the message **"OSD UNLOCKED"** will appear.

Display image is incorrect

● **Display Position is incorrect.**	• Press the **AUTO/SET** button to automatically adjust your display image to the ideal setting. If the results are unsatisfactory, adjust the image position using the **H position and V position** icon in the on screen display.
● **On the screen background, vertical bars or stripes are visible.**	• Press the **AUTO/SET** button to automatically adjust your display image to the ideal setting. If the results are unsatisfactory, decrease the vertical bars or stripes using the **CLOCK** icon in the on screen display.
● **Any horizontal noise appearing in any image or characters are not clearly portrayed.**	• Press the **AUTO/SET** button to automatically adjust your display image to the ideal setting. If the results are unsatisfactory, decrease the horizontal bars using the **PHASE** icon in the on screen display. • Check **Control Panel --> Display --> Settings** and adjust the display to the recommended resolution or adjust the display image to the ideal setting. Set the color setting higher than 24 bits (true color).

IMPORTANT

- Check **Control Panel --> Display --> Settings** and see if the frequency or the resolution were changed. If yes, readjust the video card to the recommend resolution**.**
- If the recommended resolution (optimal resolution) is not selected, letters may be blurred and the screen may be dimmed, truncated or biased. Make sure to select the recommend resolution.
- The setting method can differ by computer and O/S (Operation System), and resolution mentioned above may not be supported by the video card performance. In this case, please ask to the computer or the video card manufacturer.

Display image is incorrect

● **The screen color is mono or abnormal.**	• Check if the signal cable is properly connected and use a screwdriver to fasten if necessary. • Make sure the video card is properly inserted in the slot. • Set the color setting higher than 24 bits (true color) at **Control Panel - Settings**.
● **The screen blinks.**	• Check if the screen is set to interlace mode and if yes, change it to the recommend resolution.

Have you installed the display driver?

● **Have you installed the display driver?**	• Be sure to install the display driver from the display driver CD (or diskette) that comes with your display. Or, you can also download the driver from our web site: http://www.lge.com.
● **Do you see an "Unrecognized monitor, Plug&Play (VESA DDC) monitor found" message?**	• Make sure to check if the video card supports Plug&Play function.

Installing the Wall mount plate

This monitor satisfies the specifications of the Wall mount plate or the interchange device.

1. Place the monitor face down on the cushion or soft cloth.

**2.** Separate the stand using a screwdriver as shown in the picture.
3. Install the Wall mount plate.

Wall mount plate(Separate purchase)
This is stand-type or wall mount type and is connectable with Wall mount plate.
Please refer to the installation guide for more details, which is provided when Wall mount plate is purchased.

Kensington Security Slot
Connected to a locking cable that can be purchased separately at most computer stores.
