IMPORTANT SAFETY INSTRUCTIONS

Read and follow all instructions before using your vacuum cleaner to prevent the risk of fire, electric shock, personal injury, or damage when using the vacuum cleaner. This guide does not cover all possible conditions that may occur. Always contact your service agent or manufacturer about problems that you do not understand. This appliance complies with the following EC Directives: -2006/95/EC Low Voltage Directive-2004/108/EC EMC Directive

This is the safety alert symbol.

This symbol alerts you to potential hazards that can kill or hurt you and others.

All safety messages will follow the safety alert symbol and either the word "WARNING" or "CAUTION."

These words mean:

WARNING

This symbol will alert you to hazards or unsafe practices which could cause serious bodily harm or death.

CAUTION

This symbol will alert you to hazards or unsafe practices which could cause bodily injury or property damage.

WARNING

- **Disconnect electrical supply before servicing or cleaning the unit or when cleaner is not in use.**
Failure to do so could result in electrical shock or personal injury.
- **Do not use vacuum cleaner to pick up anything that is burning or smoking such as cigarettes, or hot ashes.**
Doing so could result in death, fire or electrical shock.
- **Do not vacuum flammable or explosive substances such as gasoline, benzene, thinners, propane (liquids or gases).**
The fumes from these substances can create a fire hazard or explosion. Doing so could result in death or personal injury.
- **Do not handle plug or vacuum cleaner with wet hands.**
Doing so could result in death or electrical shock.
- **Do not unplug by pulling on cord.**
Doing so could result in product damage or electrical shock. To unplug, grasp the plug, not the cord.
- **Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.**
Failure to do so could result in electrical shock or personal injury.
- **Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Do not run vacuum cleaner over cord. Keep cord away from heated surfaces.**
Failure to do so could result in electrical shock or personal injury or fire or product damage.
- **Do not allow to be used as toy. Close attention is necessary when used by or near children.**
Personal injury or product damage could result.
- **Do not use the vacuum cleaner if the power cord or plug is damaged or faulty.**
If the power cord is damaged, it must be replaced by an approved LG Electronics Service Agent to avoid a hazard.
- **Do not use vacuum cleaner if it has been under water.**
Personal injury or product damage could result. In these cases, contact LG Electronics Service Agent to avoid hazard.
- **Do not continue to vacuum if any parts appear missing or damaged.**
Personal injury or product damage could result. In these cases, contact LG Electronics Service Agent to avoid hazard.
- **Do not use an extension cord with this vacuum cleaner**
Fire hazard or product damage could result.
- **Using proper voltage.**
Using improper voltage may result in damage to the motor and possible injury to the user. Proper voltage is listed on the bottom of vacuum cleaner.
- **Turn off all controls before unplugging.**
Failure to do so could result in electrical shock or personal injury.
- **Do not change the plug in any way.**
Failure to do so could result in electrical shock or personal injury or product damage. Doing so result in death. If plug does not fit, contact a qualified electrician to install the proper outlet.
- **Repairs to electrical appliances may only be performed by qualified service engineers.**
Improper repairs may lead to serious hazards for the user.
- **Do not plug in if control knob is not in OFF position.**
Personal injury or product damage could result. (Depending on model)
- **Keep children away and beware of obstructions when rewinding the cord to prevent personal injury**
The cord moves rapidly when rewinding. (Depending on model)
- **The hose contains electrical wires. Do not use it if it is damaged, cut or punctured.**
Failure to do so could result in death, or electrical shock. (Depending on model)

IMPORTANT SAFETY INSTRUCTIONS

CAUTION

- **Do not put any objects into openings.**
Failure to do so could result in product damage.
- **Do not use with any opening blocked: keep free of dust, lint, hair, and anything that may reduce air flow.**
Failure to do so could result in product damage.
- **Do not use vacuum cleaner without dust tank and/or filters in place.**
Failure to do so could result in product damage.
- **Do not use vacuum cleaner to pick up sharp hard objects, small toys, pins, paper clips, etc.**
They may damage the cleaner or dust bin.
- **Store the vacuum cleaner indoors.**
Put the vacuum cleaner away after use to prevent tripping over it.
- **This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.**
Children should be supervised to ensure that they do not play with the appliance.
- **Only use parts produced or recommended by LG Electronics Service Agents.**
Failure to do so could result in product damage.
- **Use only as described in this manual. Use only with LG recommended or approved attachments and accessories.**
Failure to do so could result in personal injury or product damage.
- **To avoid personal injury and to prevent the machine from falling when cleaning stairs, always place it at the bottom of stairs.**
Failure to do so could result in personal injury or product damage.
- **Use accessory nozzles in sofa mode.**
Failure to do so could result in product damage.
- **Make sure the filters (exhaust filter and motor safety filter) are completely dry before replacing in the machine.**
Failure to do so could result in product damage.
- **Do not dry the filter in an oven or microwave.**
Failure to do so could result in fire hazard.
- **Do not dry the filter in a clothes dryer.**
Failure to do so could result in fire hazard.
- **Do not dry near an open flame.**
Failure to do so could result in fire hazard.
- **Always clean the dust bin after vacuuming carpet cleaners or fresheners, powders and fine dust.**
These products clog the filters, reduce airflow and can cause damage to the cleaner. Failure to clean the dust bin could cause permanent damage to the cleaner.
(Depending on model)
- **Don't grasp the tank handle when you are moving the vacuum cleaner.**
The vacuum cleaner's body may fall when separating tank and body. Personal injury or product damage could result.
You should grasp the carrier handle when you are moving the vacuum cleaner. (Depending on model)
- **If after emptying the dust tank the indicator light is on (red), clean the dust tank.**
Failure to do so could result in product damage.
(Depending on model)

Thermal protector :

This vacuum cleaner has a special thermostat that protects the vacuum cleaner in case of motor overheating. If the vacuum cleaner suddenly shuts off, turn off the switch and unplug the vacuum cleaner. Check the vacuum cleaner for possible source of overheating such as a full dust tank, a blocked hose or clogged filter. If these conditions are found, fix them and wait at least 30 minutes before attempting to use the vacuum cleaner. After the 30 minute period, plug the vacuum cleaner back in and turn on the switch. If the vacuum cleaner still does not run, contact a qualified LG authorised Service Agent.

How to use

Assembling vacuum cleaner

1 The 2 position head (depending on model)

Push telescopic tube into
nozzle outlet.

2 Telescopic tube (depending on model)

- Press the spring latch to release.
- Pull out the tube to the desired length.
- Release spring latch to lock the tube in position.
- Push telescopic tube into hose handle firmly.

3 Connecting the flexible hose

- Push the end of the head on the flexible hose into the attachment point on the vacuum cleaner.
- To remove the flexible hose from the vacuum cleaner, press on the button situated on the head, then pull the head out of the vacuum cleaner.

CAUTION

- Suction power may be weakened when insignificant dusts are sucked. In this case, clean the filter.
- Make the dust box empty if dusts are filled to the maximum degree and then clean the filter when it becomes 5 times.

How to Use Emptying the dust chamber

Suction power may be weakened when insignificant dusts are sucked. In this case, clean the filter.

- Turn off the vacuum cleaner and unplug it.
- Your vacuum cleaner is equipped with both a dust chamber and a motor filters.
Press the button and pull the dust chamber forward.
Remove the dust chamber cap.
Clean the pleat-shaped and the circle-shaped filters.
- To reinstall the dust chamber, replace the dust chamber cap and push the dust chamber into the tank mount as far as it will go.

- Open the dust chamber cap.
- Remove two plates from the dust chamber.
- Wash both parts with softcloth. Gently rinse both parts under cold running water.

How to Use Operating the cleaner.

Cord reel button

Plug

1 How to Plug in and Use

- Pull out the power cord to the desired length and plug into the socket.
- Push the suction control switch of the hose handle in the direction of the position what you want.
- To stop it, push down the suction control switch in the direction of OFF.
- Press switch button to start the vacuum cleaner.
- To stop it, press the switch button again.
- Press the cord reel button to retract the power cord after use.

2 Adjusting the Suction level(depend on model)

- Adjust suction with the suction control switch in the hose handle.
- The flexible hose handle has a manual air flow regulator which allows you to adjust the suction level briefly.

3 Park System

- To store after vacuuming and pause while vacuuming.
- For deposit after vacuuming, for example to move a small piece of furniture or a rug, use the Park system to support the flexible hose and cleaning head.
 - Slide the hook on the large cleaning head into the slot on the rear of the dust chamber.

How to Use Cleaning the Filter

The reusable filters are situated under the dust chamber cap and you can use it permanently.

- Press the button and pull the dust chamber forward.
- Open the dust chamber cap.
- Remove the filters by rotating it counter-clockwise.
- **Clean the filters with the dusting brush under cold running water.**
- **Allow the filters to dry in a shaded location for a day.**
- Make the dust chamber empty if dusts are filled to the maximum degree and then clean the filter.

WARNING!

Gently rinse both parts separately under a cold running water until the water runs clear. **Do not use detergent or a washing machine or dishwasher.** Shake off excess water from the filter.

Do not tumble/spindry, microwave or place in oven or on direct heat. Ensure the filter is completely dry.

Re-assemble and place it back in your machine, filter frame.

If the filter is damaged, do not place them in the machine.

Please call the Helpline.

Do not use the net-shaped filter separately.

Do not use the wet filter to avoid clogging.

How to Use Cleaning the Exhaust Filter

- The exhaust filter is a washable and reusable HEPA filter.
- To change the exhaust filter, remove the filter cover on the body by release hook.
- Pull out the exhaust filter.
- Clean it with cold, running water.
Do Not use the brush
 - Using the brush will cause permanent damage and allow dust to bypass the filter.
- Allow exhaust filter to dry in a shaded location for a dry.
- The exhaust filter should be cleaned at least once a year.

How to Use Blower Function

Blower application

Application areas: Behind wall cabinets, heavy cupboards refrigerators and the corners of rooms, net and mesh on windows.

Notice: When you're using the Blower Function, don't pull the hose forcibly in case it fall off from the cleaner. Please move the cleaner and hose together.
LG vacuum cleaner comes with unique Blower attachment for your convenience. High air flow rate motor gives you the desired blowing effect to clean the hard-to-reach location & crevices.

When using the function of fanning, removal of the exhaust filter and cover. and then, fix up the blower cover.

5 How to attach

- Connect hose to Blower In right direction , and don't rotate hose when you're using the Blower Function!

6 Operate/Speed selection

- The flexible hose handle has a manual air flow regulator which allows you to adjust the suction level briefly.

7 Storage

- To remove blower cap make use of hose connected to cap, This is easy method.

How to use Using the Mop nozzle

Features

This nozzle picks up even dust inside through beating.
The bottom part can be separated to be cleaned.
Since the bottom does not stick to the surface, vacuuming is easy.

How to use

Follow the directions below for proper use.

Assembly

Connect the nozzle to the telescopic tube.

How to use Using the Mop and Mop Nozzle

Using the Mop

- ▶ When using the mop nozzle, please dry it first.
- ▶ Always using special mop of LG.
- ▶ Attach the mop to the bottom of the nozzle with the white surface upturned.
- ▶ When drying the mop in washing machine, set it to the weakest mode.
- ▶ Please see the installation diagram of mop board on the right if we use mop nozzle instead of mop.

NOTE: It will be electrical danger when using the mop with excess moisture, and will be harmful to the cleaner.
The mop can not be fixed when it deviates from the fixing place.
Mind that do not block the dust suction inlet when fixing the mop.

Using the Mop Nozzle

- ▶ Depending on different condition, connect or disconnect the mop.

Connecting method

1. Fix the mop according to the method showed on the diagram.

2. After the mop nozzle matches with the mop board, connect the mop nozzle from the top down. When you hear a sound of Ta Ta, it means the connection is ok.

Disconnecting method

3. Disconnect the mop board according to method showed below, and then take down the mop.

Use method of mop nozzle when the mop is not attached

To protect the attaching location of mop, it is recommend connect the mop nozzle according to the left diagram when mop is not used.

When the mop is not used, you couldn't use the method showed on the left diagram. If not, the mop nozzle will damage the attaching location of mop.

- ▶ Please clean the mop and mop nozzle as the following diagram.

Attention:

1. Use special Mop of LG

2. Dry the mop first, when using the mop nozzle

3. Attach the Mop to the Mop board of the Nozzle with the white surface upturned

How to use Using telescopic pipe

Using telescopic pipe

When clean the roof or some place where is too high, you can connect Telescopic pipe as picture shows.

How to use

Using accessory nozzles

Upholstery nozzle

1 Upholstery nozzle

Upholstery nozzle is for vacuuming upholstery, mattresses etc.

Dusting brush

2 Dusting brush

Dusting brush is for vacuuming picture frames, furniture frames, books and other irregular surfaces.

Crevice tool

3 Crevice tool

Crevice tool is for vacuuming in those normally hard-to-reach places such as reaching cobwebs or between the cushions of a sofa.

Troubleshooting

What to Do If Your Vacuum Cleaner Does Not Work

- Check that the vacuum cleaner is correctly plugged in correctly and that the electrical socket is working.

What to Do When Suction Performance Decreases

- Turn off the vacuum cleaner and unplug it.
- Check the telescopic tube, flexible hose and cleaning tool for blockages or obstructions.
- Check that the dust chamber is not full. Empty if necessary.
- Check that the motor filter light is not on. Clean the motor filter, if necessary.
- Check that the exhaust filter is not blocked. Clean the exhaust filter, if necessary.
- If you are still experiencing problems, please contact your local service centre.
To locate your nearest service centre you can visit our web site www.lge.com.au
