Precautions on handling a battery

- This unit has a built-in valve regulated lead-acid rechargeable battery.(12 V/7.0 Ah)
- Do not use the battery in a closed room or near fire.
- Charge the battery under the charging condition specified.
- If any corrosion of the terminals, leakage or deformation of the case of the battery is found, do not use the battery.
- If the battery leaks, while protecting your hands or clothing, remove the battery from the device and should be extremely careful not to infect the skin or eyes.
- If the battery leaks and the liquid inside spills on the skin or clothing, immediately wash it off with plenty of clean water. If the liquid splashes into eyes, immediately flush the eyes with plenty of clean water and consult a doctor.
- Avoid mixed usage of batteries differing in type, manufacturer or history of use.
- Do not throw the battery in fire nor heat the battery.
- Do not short of battery terminals.
- Do not attempt to disassemble, remodel or destroy the battery.
- Do not place the battery near a child.
- The battery can be replaced. If you need to charge your battery more and more frequently, it might be time to replace it. The battery should be serviced by LG Electronics customer care center.
- Charge fully before storing a battery which has not been in use for a long period and turn ON/OFF switch off (OFF). Store the battery in a cool, dry place.
- During storage of the battery, charge it at least once every one month. If the battery is stored for a long period without being charged, its battery life may be shortened.
- The used battery must be recycled or disposed of separately from household waste.

The AUTO POWER On function can be set only when the unit is connected to an AC outlet. When the unit is being powered by the built-in battery only, the AUTO POWER On function is not available.

Declaration of Conformity

2. Pull the handle up.

3. Release the lock button to lock the handle in place.

Note

To retract the handle, press the button and push down.

Additional Information

Specifications

General

Power Requirements	Refer to the main label on the unit.
Power Consumption	Refer to the main label on the unit.
Dimensions (W x H x D)	Approx. 352.5 mm x 419.6 mm x 269.2 mm
Net Weight	Approx. 9.71 kg
Operating temperature	5 °C to 45 °C
Operating humidity	5 % to 60 %
Maximum operating altitude	2000 m
Bus Power Supply (USB)	5 V 500 mA
Amplifier (Total RMS output power)	50 W

Battery

Battery type	12 V/7.0 Ah (Valve Regulated Lead-Acid rechargeable battery)
Operating time	Approx. 15 hours (Based on fully charging the battery and continuous playback using 50 % volume level.) It may vary depending on the battery status and operational conditions.
Charging time	Approx. 9 hours It may vary depending on the battery status and operational conditions.

Design and specifications are subject to change without notice.
