

SAFETY INSTRUCTIONS

Please read these instructions carefully before using the product.

⚠ WARNING

- To reduce the risk of explosion, fire, death, electric shock, injury or scalding to persons when using this product, follow basic precautions, including the following:

The following symbols are displayed on units.

- This symbol indicates that this appliance uses a flammable refrigerant. If the refrigerant is leaked and exposed to an external ignition source, there is a risk of fire.
- This symbol indicates that the Owner's Manual should be read carefully.
- This symbol indicates that service personnel should be handling this equipment with reference to the Installation Manual.
- This symbol indicates that information is available in the Owner's Manual or Installation Manual.

Technical Safety

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.
- Installation or repairs made by unauthorized persons can pose hazards to you and others.

Installation

- The information contained in the manual is intended for use by a qualified service technician who is familiar with the safety procedures and equipped with the proper tools and test instruments.
- Failure to read and follow all instructions in this manual can result in equipment malfunction, property damage, personal injury and/or death.
- The refrigerant and insulation blowing gas used in the appliance require special disposal procedures. Consult a service agent or a similarly qualified person before disposing of them.
- When the power cord is to be replaced, the replacement work shall be performed by authorized personnel using only genuine replacement parts.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified person in order to avoid a hazard.
- The appliance shall be installed in accordance with national wiring regulations.
- Means for disconnection must be incorporated in the fixed wiring in accordance with the wiring rules.
- This appliance must be properly grounded to minimize risk of electric shock.
- Do not cut or remove the grounding prong from the power plug.
- Attaching the earth wire to the power outlet cover screw does not ground the appliance unless the cover screw is metal, uninsulated, and the power outlet is grounded through house wiring.
- If you have any doubt whether the air conditioner is properly grounded, have the power outlet and circuit checked by a qualified electrician.
- This product is for home use only and using it for business purposes or in an unconventional environment may invalidate the warranty and make the product ineligible for repair.

Operation

- Do not modify or extend the power cable. Scratches or peeling insulation on the power cables may result in fire or electric shock, and should be replaced.
- Make sure that the power cable is neither dirty, loose, nor broken.
- Do not place any objects on the power cable.
- Do not place a heater or other heating appliances near the power cable.

- Take care to ensure that the power cable could not be pulled out or damaged during operation.
- Never touch, operate, or repair the air conditioner with wet hands.
- Do not insert hands or other objects through the air inlet or outlet while the air conditioner is operating.
- Make sure that children do not climb on or hit the outdoor unit.
- Be sure to use only those parts listed in the service parts list. Never attempt to modify the equipment.
- Do not touch the refrigerant pipe, water pipe or any internal parts while the unit is operating or immediately after operation.
- Do not leave flammable substances such as gasoline, benzene, or thinner near the air conditioner.
- Do not use the air conditioner for an extended period of time in a small place without proper ventilation.
- Be sure to ventilate sufficiently when the air conditioner and a heating appliance such as a heater are used simultaneously.
- Do not block the inlet or outlet of airflow.
- Cut off the power supply if there is any noise, smell, or smoke coming from the air conditioner.
- Contact an authorized service centre when the air conditioner is submerged by flood waters.
- In the event of a gas leak (such as Freon, propane gas, LP gas, etc.) ventilate sufficiently before using the air conditioner again.
- Cut off the power supply immediately in the event of a blackout or a thunderstorm.

Remote Control

- Remove the batteries if the remote control is not to be used for an extended period of time.
- Never mix different types of batteries, or old and new batteries for the remote control.
- Do not recharge or disassemble the batteries.

- Stop using the remote control if there is a fluid leak in the battery. If your clothes or skin is exposed to the leaking battery fluid, wash off with clean water.
- If the leaking battery fluid has been swallowed, rinse the inside of the mouth thoroughly and consult a doctor.
- Dispose of the batteries in a place where there is no danger of fire.

Maintenance

- Before cleaning or performing maintenance, disconnect the power supply and wait until the fan stops.
- Do not clean the appliance by spraying water directly onto the product.

Refrigerant

General

- Use only the refrigerant specified on the air conditioner label.
- Do not input air or gas into the system except the specified refrigerant.
- Do not touch the leaking refrigerant during installation or repair.
- Be sure to check for refrigerant leaks after installing or repairing the air conditioner.
- The appliance shall be stored so as to prevent mechanical damage from occurring.

R32 Only

- Any person who is involved with working on or breaking into a refrigerant circuit should hold a current valid certificate from an industry-accredited assessment authority, which authorizes their competence to handle refrigerants safely in accordance with an industry recognized assessment specification.

- Servicing shall only be performed as recommended by the equipment manufacturer. Maintenance and repair requiring the assistance of other skilled personnel shall be carried out under the supervision of the person competent in the use of flammable refrigerants.
- The appliance shall be stored in a well-ventilated area where the room size corresponds to the room area as specified for operation.
- Keep any required ventilation openings clear of obstruction.
- The appliance shall be stored in a room without continuously operating open flames (for example an operating gas appliance) and ignition sources (for example an operating electric heater).

⚠ CAUTION

- To reduce the risk of minor injury to persons, malfunction, or damage to the product or property when using this product, follow basic precautions, including the following:

Installation

- Transport the air conditioner with two or more people or use a forklift.
- Install the outdoor unit such that it is protected from direct sunlight. Do not place the indoor unit in a place where it is directly exposed to sunlight via the windows.
- Do not install the air conditioner in an area where it is directly exposed to sea wind (salt spray).
- Install the drain hose properly for the smooth drainage of water condensation.
- Install the air conditioner in a place where the noise from the outdoor unit or the exhaust fumes will not inconvenience the neighbours. Failure to do so may result in conflict with the neighbours.
- Safely dispose of packing materials such as screws, nails, plastic bags or batteries using proper packaging after installation or repair.
- Exercise caution when unpacking or installing the air conditioner.

Operation

- Make sure that the filter is installed before operating the air conditioner.
- Do not drink the water drained from the air conditioner.
- Do not place any object on the air conditioner.
- Do not let the air conditioner run for a long time when humidity is very high or when a door or a window has been left open.
- Do not expose people, animals, or plants to the cold or hot wind from the air conditioner for extended periods of time.
- Do not use the product for special purposes, such as preserving foods, works of art, etc. the air conditioner is designed for consumer purposes, and is not a precision refrigeration system. There is risk of damage or loss of property.

Maintenance

- Use a sturdy stool or ladder when cleaning, maintaining, or repairing the air conditioner at a height.
- Never use strong cleaning agents or solvents or spray water when cleaning the air conditioner. Use a soft cloth.
- Never touch the metal parts of the air conditioner when removing the air filter.
- To clean the interior, contact an authorized service centre or dealer. Using harsh detergents may cause corrosion or damage to the unit.

AIR CONDITIONER

Quick Guide

- In order to use the product safely and conveniently, please read the owner's manual before using the product.
- This manual may contain images or content that may be different from the model you purchased.
- This manual is subject to revision by the manufacturer.

Warranty and Service Information

The LG Air Conditioner (hereinafter referred as product) comes with 1 year warranty on all Parts (except indoor front grill, consumables, loose plastic parts, outdoor body case) in the first year from the date of purchase on producing the Tax paid invoice provided always that the warranty card bears the rubber stamp, date and signature of our Authorized Dealer showing the Additional warranty on compressor as specified below shall be on fulfilling the above mentioned conditions. Additional warranty of 9 years compressor shall depend upon model you have purchased as it vary from model to model.

9 YEAR ADDITIONAL WARRANTY ON INVERTER COMPRESSOR

The 9 year warranty on inverter compressor will continue even after the expiry of 1 year period from the date of purchase. This warranty covers Compressor only. Gas/Gas charging will be charge to customer. Gas charging is included only when compressor is defective & inoperative. During the additional warranty period, it does not cover any part such as PCB, electronics parts, condenser, evaporator, fan motor indoor/outdoor, capillary, suction line, electronics parts, etc. Standard visiting charges will be applicable within the municipal limit of town where LG Electronics India Pvt. Ltd. (LGEIL) has its Authorized Service centre, Service outside municipal limit will attract to and from traveling, other incidental expenses in addition to standard visiting charges, as prevailing from time to time. During the warranty period, only the parts replaced or repaired shall be free of costs, but service charges shall always be payable by the customer.

4 YEAR ADDITIONAL WARRANTY ON PCB. OFFER APPLICABLE ON DUAL INVERTER SPLIT MODELS ONLY

- The 4 year additional warranty on PCB will continue even after the expiry of 1 Year period from the date of purchase. This warranty covers the repair/replacement of the PCB
- Customer is required to pay the other charges as applicable at that time.

Common TERMS & CONDITION applicable for warranties as mentioned above

1. The warranty is confined to the first purchaser of the Air Conditioner only & is non-transferable.
2. Repairs & replacements will be carried out through the Authorized Service Centers of LG Electronics India Pvt. Ltd. (herein referred to as LGEIL). Customer may place their service call through the LG Customer care or through the dealer from whom the product has been purchased. In case the customer shifts the place of residence during warranty period, it is advised to contact our helpline.
3. It is strictly advised not to alter the installation position or shifting the Air-Conditioner from one premises to another on its own. Customer should inform LG for any such alterations so as to remain under warranty. It is recommended that any such alterations should be carried out by the LG Electronics Customer Care Center or its Authorized Service Franchisee/Sales & Service Dealer only.
4. It is strictly advised Not to Turn the Power on of the unit on as is basis or while assembling or disassembling so as to remain under warranty and to mitigate risk of FIRE or ELECTRIC SHOCK or damage to the product. The machine is to be operated only after complete assembly and inspection by authorized service personal.
5. Repair under warranty shall be carried out by an authorized service personnel only. The details of centralized helplines are attached.
6. For units installed beyond municipal limits of the jurisdiction of company's Authorized Service Center: it is responsibility of the purchaser to contact the nearest authorized service center and bring the unit to the authorized service center at its own cost and risk. All expense incurred in collecting the units or parts thereof from the company's authorized service center, as well as expenses incurred with deputing of service personnel/technician towards conveyance and other incidentals etc. will be borne by the customer. Local charges for transportation and handling charges may vary from location to location. Customers are advised to verify before. In case the customer desires to bring the unit on its own to the Authorized Service Center, the same shall be at its own risks & consequences.
7. The concerned authorized service center will advise the customer whether to effect the repairs at site or at the authorized service center.
8. Call registered with the centralized helpline/Authorized service center, wherein only cleaning of the unit/ parts in the unit due to dust accumulation on portions of the unit, are not to be considered as defects.

9. In case of repairs or replacement of any part/s of the unit, this warranty will thereafter continue and remain in force only for the unexpired period of the warranty. LGEIL may use the parts that are new or refurbished and equivalent to new in performance and reliability. The replacement of parts would be purely at the discretion of LGEIL alone. In case the replacement of the entire unit is being made, the same model shall be replaced and in the event such model has been discontinued, it shall be replaced with the model equivalent as deemed by LGEIL. The warranty on replacement model shall remain in force only for the unexpired period of the warranty based on original Purchase. Further if any replacement is provided to the end user, the Product or part replaced becomes the property of LGEIL and LGEIL shall have the discretion to replace parts with refurbished parts.
10. In case of any damage to the product/customer abuse/repairs by un-authorized personnel/s misuse detected/ by the Authorized Service Center personnel, the warranty conditions are not applicable and repairs will be done subject to availability of parts and on a chargeable basis only.
11. It is the sole responsibility of the customer to provide necessary support to the service personnel to reach to the location where the unit is to be installed or serviced.
12. This warranty shall not cover any consequential or resulting liability, damage or loss to property or life arising directly or indirectly out of any defect being noticed in the equipment during warranty period in the Air-Conditioner. The company's obligation under this warranty shall be limited to repair or providing replacement of defective parts only under the warranty period.
13. The company or its Authorized Service Center reserves the right to retain any part/s or component replaced at its discretion, in the event of a defect being noticed in the equipment during warranty period.
14. While the company will make every effort to carry out repairs at the earliest, it however is made expressly clear that the company is under no obligation to do so in a specified period of time.
15. In the event of any unforeseen circumstance, and spares not being available, the company's prevailing depreciation rules may apply on the purchaser to accept as a commercial solution in lieu of repairs.
16. If any coloured internal or external components are replaced, there will be commitment to ensure that the shades match with the original or other components. The replaced shades, patterns, tints may vary from the customer's unit due to continuous usage of the unit. Any matching components changed at customer's request will be chargeable basis except the component which actually needed.
17. Free Demo of the product, can be availed only once & within 3 months from the date of purchase.
18. Two (2) free preventive maintenance services (labor only) will be provided to customer during the first year warranty period irrespective whether the product is used or not. To avail these free services customer has to register the call at LG call center number.
19. Any extended warranty offered by LGEIL has to be supported by relevant proof.
20. LG reserves the right to withdraw any offer mentioned herein at its sole discretion at any point of time.
21. Warranty shall expire after the warranty period as mentioned above even if the product may not be in use for any time during the warranty period for any reason.
22. Only courts in state of Delhi and places where LGEIL has its branch office shall have the jurisdiction for settling any claims, disputes arising under the warranty.

Warranty is not applicable in any of the following cases where :

1. The warranty card is not completed properly at the time of purchase.
2. The completed warranty card is not presented to authorized service personnel at the time of service of the product.
3. The product is not operated according to instructions given in the Operating Instruction Booklet/ Owner's Manual.
4. The noise from the product is due to the location of the unit installed.
5. The cooling capacity of the product purchased is not sufficient for heat load of the location where the unit is installed.
6. The product is used for commercial purposes.
7. The product has failed under certain conditions like water logging, flood, fire, misuse etc.
8. Defects/malfunctions are caused by improper or reckless use, Mains Supply meter bypass (illegal connection), Improper ventilation, which shall be determined by the company personnel.
9. Any Installation or repair work is carried out by persons other than LG authorized service personnel.
10. The unit operated with voltage variation of more than $\pm 10\%$ of the rated voltage.
11. Any issue is caused by usage of 3rd party product like voltage stabilizer, power outlet socket, MCB, extension board etc.

12. Defects/malfunctions are caused which are beyond control like lightening, abnormal voltage, acts of God etc.
13. Defects/malfunction caused while in transit to service center or purchaser's residence.
14. Defects caused by rodents bite or by pests and vermin ants/insects/animals/birds etc.
