Software Upgrade Instruction

USB/DISC Update

LG_BD_7001M60.ROM is an update file for Main Software.

Step 1: Creating Separate Firmware Update Device

You can create a firmware update files on your own media by saving them in the USB memory device or in CD/DVD.

[Option A] Creating a Firmware Update USB Device

To create a firmware update in a USB memory device, copy the update file(s) to the USB device.

Preparation:

The USB memory device should have at least 80MB of free space to save the firmware update files.

1. Insert a USB memory device into the PC.
2. Copy the latest version of firmware update files to the USB drive.

[Option B] Creating a Firmware Update CD/DVD

To create a firmware update in a CD/DVD, write the update file(s) to the CD+R/RW or DVD±R/RW disc using CD burning software.

Preparation:

To create a firmware update CD/DVD, prepare the following items according to your storage media:

CD	- CD-RW drive and CD burning software. (Both must be installed in your PC to create a firmware update CD.) - Blank recordable CD-R or CD-RW disc.
DVD	- DVD-RW drive and DVD burning software. (Both must be installed in your PC to create a firmware update DVD.) - Blank recordable DVD-R, DVD-RW, DVD+R, or DVD+RW disc.

1. Insert a blank recordable CD/DVD-R, CD/DVD-RW, DVD+R, or DVD+RW disc into the CD/DVD-RW drive.
2. Run the CD/DVD burning software, and select the [CD Data] or the [Burn DVD Data] option on the program.
3. Write the firmware update file(s) in the root directly of CD/DVD. For details, follow the operating instructions provided by the CD/DVD burning software provider.

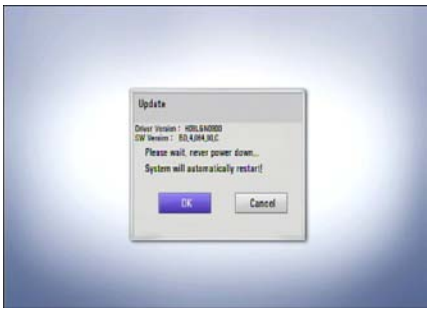

Software Upgrade Instruction

Step 2: Updating Firmware

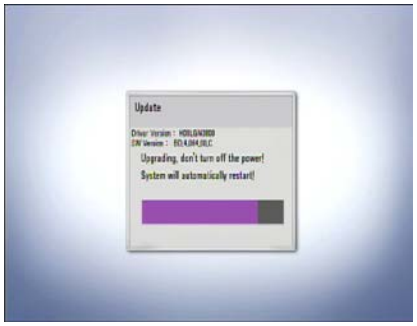

1) Turn on the player and wait until the Home Menu appears.
2) Insert USB memory or CD/DVD disc that contains the update file(s) of the latest firmware version into the player.

- USB memory device: Insert the USB memory device to a USB port on the front panel of the player.
- CD/DVD: Press OPEN/CLOSE button to open the disc tray. Load the disc and press OPEN/CLOSE button to close the disc tray.

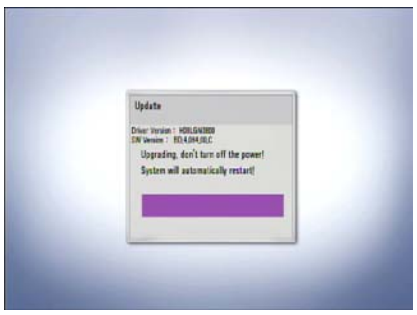

3) The UPDATE window appears displaying the versions of current firmware in white, and the versions saved in the USB memory device or CD/DVD in blue.

4) Press ENTER on the remote control to start the update. A status bar shows the progress of the firmware update.

-Updating Main Software will take about 3 minutes.
-Updating Driver will take about 1 minute.
-Updating both Main Software and Driver will take about 4 minutes

Please be patient during the software update!

5) When the update is completed, the power will turn off and on automatically.

6) Eject the firmware update device and turn the player back on.
