SP9 USB EQ update Guide

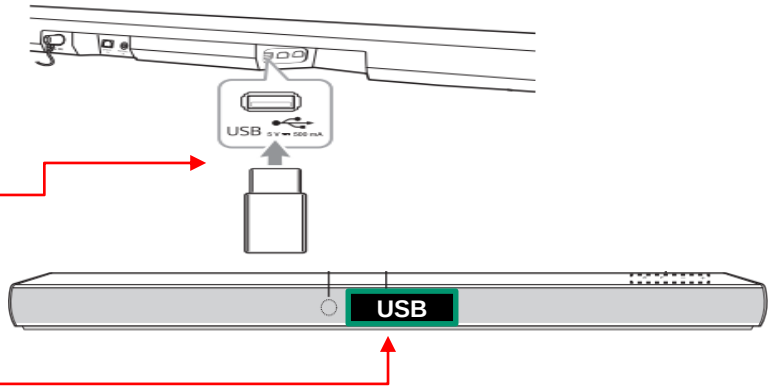

● Update Method

Step 1 : Download update files in LG Web Site. (For Pre Test, Please use attached file)

Step 2 : Format USB memory with FAT32 File System
※ These models can not support NTFS and ExFAT File System

Step 3 : Copy Update File to USB Memory

Model	Update Module	Update File name
SP9	MEQ	MEQ_SP9_WSB_210504A_161044.BIN

Step 4 : Insert USB memory (There is USB Port in the SET)
Step 5 : Change Function to USB with Function key.
(Remote controller or SET Function key)
Step 6 : It displays READ → REMOVE
Step 7 : Remove USB from Sound Bar
Step 8 : Update Starts automatically
It displays MQ-UPDATE → Update Finish
→ Automatically Power off
Step 9 : Power On

※ Caution:
- When downloading the file, you should neither unplug the USB device, change to the other function, nor power off the device.
- USB device must be unplugged when the downloading process is completed.
