

USER GUIDE

# LG-X210

# About this user guide

ENGLISH

Thank you for choosing LG. Please carefully read this user guide before using the device for the first time to ensure safe and proper use.

- Always use genuine LG accessories. The supplied items are designed only for this device and may not be compatible with other devices.
- This device is not suitable for people who have a visual impairment due to the touchscreen keyboard.
- Descriptions are based on the device default settings.
- Default apps on the device are subject to updates and support for these apps may be withdrawn without prior notice. If you have any questions about an app provided with the device, please contact a LG Service Centre. For user-installed apps, please contact the relevant service provider.
- Modifying the device's operating system or installing software from unofficial sources may damage the device and lead to data corruption or data loss. Such actions will violate your LG licence agreement and void your warranty.
- Some contents and illustrations may differ from your device depending on the region, service provider, software version, or OS version, and are subject to change without prior notice.
- Software, audio, wallpaper, images, and other media supplied with your device are licensed for limited use. If you extract and use these materials for commercial or other purposes, you may be infringing copyright laws. As a user, you are fully responsible for the illegal use of media.
- Additional charges may apply for data services, such as messaging, uploading, downloading, auto-syncing and location services. To avoid additional charges, select a data plan suitable to your needs. Contact your service provider to obtain additional details.

## Instructional notices

 <b>WARNING</b>	Situations that could cause injury to yourself and others, or damage to device or other property.

# Guidelines for safe and efficient use

Please read these simple guidelines. Not following these guidelines may be dangerous or illegal.

Should a fault occur, a software tool is built into your device that will gather a fault log. This tool gathers only data specific to the fault, such as signal strength, cell ID position in sudden call drop and applications loaded. The log is used only to help determine the cause of the fault. These logs are encrypted and can only be accessed by an authorised LG Repair centre should you need to return your device for repair.

## Exposure to radio frequency energy

Radio wave exposure and Specific Absorption Rate (SAR) information.

This mobile phone model LG-X210 has been designed to comply with applicable safety requirements for exposure to radio waves. These requirements are based on scientific guidelines that include safety margins designed to assure the safety of all persons, regardless of age and health.

- The radio wave exposure guidelines employ a unit of measurement known as the Specific Absorption Rate, or SAR. Tests for SAR are conducted using standardised methods with the phone transmitting at its highest certified power level in all used frequency bands.
- While there may be differences between the SAR levels of various LG phone models, they are all designed to meet the relevant guidelines for exposure to radio waves.
- The SAR limit recommended by the International Commission on Non-Ionizing Radiation Protection (ICNIRP) is 2 W/kg averaged over 10 g of tissue.
- The highest SAR value for this model phone tested for use at the ear is 0.535 W/kg (10 g) and when worn on the body is 0.903 W/Kg (10 g).

- This device meets RF exposure guidelines when used either in the normal use position against the ear or when positioned at least 5 mm away from the body. When a carry case, belt clip or holder is used for body-worn operation, it should not contain metal and should position the product at least 5 mm away from your body. In order to transmit data files or messages, this device requires a quality connection to the network. In some cases, transmission of data files or messages may be delayed until such a connection is available. Ensure the above separation distance instructions are followed until the transmission is completed.

## Product care and maintenance

- Always use genuine LG batteries, chargers and accessories approved for use with this particular device model. The use of any other types may void any approval or warranty applying to the device and may be dangerous.
- Some contents and illustrations may differ from your device without prior notice.
- Do not disassemble this unit. Take it to a qualified service technician when repair work is required.
- Repairs under warranty, at LG's discretion, may include replacement parts or boards that are either new or reconditioned, provided that they have functionality equal to that of the parts being replaced.
- Keep away from electrical appliances such as TVs, radios and personal computers.
- The unit should be kept away from heat sources such as radiators or cookers.
- Do not drop.
- Do not subject this unit to mechanical vibration or shock.
- Switch off the phone in any area where you are required to by special regulations. For example, do not use your phone in hospitals as it may affect sensitive medical equipment.

- Do not handle the phone with wet hands while it is being charged. It may cause an electric shock and can seriously damage your phone.
- Do not charge a handset near flammable material as the handset can become hot and create a fire hazard.
- Use a dry cloth to clean the exterior of the unit (do not use solvents such as benzene, thinner or alcohol).
- Do not charge the phone when it is on soft furnishings.
- The phone should be charged in a well ventilated area.
- Do not subject this unit to excessive smoke or dust.
- Do not keep the phone next to credit cards or transport tickets; it can affect the information on the magnetic strips.
- Do not tap the screen with a sharp object as it may damage the phone.
- Do not expose the phone to liquid or moisture.
- Use accessories like earphones cautiously. Do not touch the antenna unnecessarily.
- Do not use, touch or attempt to remove or fix broken, chipped or cracked glass. Damage to the glass display due to abuse or misuse is not covered under the warranty.
- Your phone is an electronic device that generates heat during normal operation. Extremely prolonged, direct skin contact in the absence of adequate ventilation may result in discomfort or minor burns. Therefore, use care when handling your phone during or immediately after operation.
- If your phone gets wet, immediately unplug it to dry off completely. Do not attempt to accelerate the drying process with an external heating source, such as an oven, microwave or hair dryer.
- The liquid in your wet phone, changes the colour of the product label inside your phone. Damage to your device as a result of exposure to liquid is not covered under your warranty.

## Efficient phone operation

### Electronics devices

All mobile phones may receive interference, which could affect performance.

- Do not use your mobile phone near medical equipment without requesting permission. Avoid placing the phone over pacemakers, for example, in your breast pocket.
- Some hearing aids might be disturbed by mobile phones.
- Minor interference may affect TVs, radios, PCs etc.
- Use your phone in temperatures between 0 °C and 40 °C, if possible. Exposing your phone to extremely low or high temperatures may result in damage, malfunction, or even explosion.

### Road safety

Check the laws and regulations on the use of mobile phones in the area when you drive.

- Do not use a hand-held phone while driving.
- Give full attention to driving.
- Pull off the road and park before making or answering a call if driving conditions so require.
- RF energy may affect some electronic systems in your vehicle such as car stereos and safety equipment.
- When your vehicle is equipped with an air bag, do not obstruct with installed or portable wireless equipment. It can cause the air bag to fail or cause serious injury due to improper performance.
- If you are listening to music whilst out and about, please ensure that the volume is at a reasonable level so that you are aware of your surroundings. This is of particular importance when near roads.

## Avoid damage to your hearing

To prevent possible hearing damage, do not listen at high volume levels for long periods.

Damage to your hearing can occur if you are exposed to loud sound for long periods of time. We therefore recommend that you do not turn on or off the handset close to your ear. We also recommend that music and call volumes are set to a reasonable level.

- When using headphones, turn the volume down if you cannot hear the people speaking near you, or if the person sitting next to you can hear what you are listening to.

### **NOTE**

- Excessive sound pressure from earphones and headphones can cause hearing loss.

## Glass Parts

Some parts of your mobile device are made of glass. This glass could break if your mobile device is dropped on a hard surface or receives a substantial impact. If the glass breaks, do not touch or attempt to remove it. Stop using your mobile device until the glass is replaced by an authorised service provider.

## Blasting area

Do not use the phone where blasting is in progress. Observe restrictions and follow any regulations or rules.

## Potentially explosive atmospheres

- Do not use your phone at a refueling point.
- Do not use near fuel or chemicals.
- Do not transport or store flammable gas, liquid or explosives in the same compartment of your vehicle as your mobile phone or accessories.

## In aircraft

Wireless devices can cause interference in aircraft.

- Turn your mobile phone off before boarding any aircraft.
- Do not use it on the ground without permission from the crew.

## Children

Keep the phone in a safe place out of the reach of small children. It includes small parts which may cause a choking hazard if detached.

## Emergency calls

Emergency calls may not be available on all mobile networks. Therefore you should never depend solely on your phone for emergency calls. Check with your local service provider.

## Battery information and care

- You do not need to completely discharge the battery before recharging. Unlike other battery systems, there is no memory effect that could compromise the battery's performance.
- Use only LG batteries and chargers. LG chargers are designed to maximise the battery life.
- Do not disassemble or short-circuit the battery.
- Keep the metal contacts of the battery clean.
- Replace the battery when it no longer provides acceptable performance. The battery pack may be recharged hundreds of times before it needs replacing.
- Recharge the battery if it has not been used for a long time to maximise usability.
- Do not expose the battery charger to direct sunlight or use it in high humidity, such as in the bathroom.
- Do not leave the battery in hot or cold places, as this may deteriorate battery performance.
- Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

- If you need to replace the battery, take it to the nearest authorised LG Electronics service point or dealer for assistance.
- Always unplug the charger from the wall socket after the phone is fully charged to save unnecessary power consumption of the charger.
- Actual battery life will depend on network configuration, product settings, usage patterns, battery and environmental conditions.
- Make sure that no sharp-edged items such as animal's teeth or nails, come into contact with the battery. This could cause a fire.

# Special Features

## Gesture shot

The Gesture shot feature allows you to take a picture with a hand gesture using the front camera.

### Taking the photos with a gesture

There are two methods for using the Gesture shot feature.

- Raise your hand, with an open palm, until the front camera detects it and a box appears on the screen. Then close your hand into a fist to start the timer, allowing you time to get ready.

OR

- Raise your hand, in a clenched fist, until the front camera detects it and a box appears on the screen. Then unclench your fist to start the timer, allowing you time to get ready.

## KnockON

The KnockON feature allows you to double-tap the screen to easily turn it on or off.

### Turning the screen on

- 1 Double-tap the centre of the Lock screen to turn the screen on.
- 2 Unlock the screen or access any of the available shortcuts or widgets.

## Turning the screen off

- 1 Double-tap an empty area of the Home screen.
- 2 The screen will turn off.

### NOTE

- For better recognition performance, tap on the centre of the screen, but not on the bottom or on the top of the screen.

## Knock Code

The Knock Code feature allows you to create your own unlock code using a combination of knocks on the screen. You can access the Home screen directly when the screen is off by tapping the same sequence on the screen.

### NOTE

- If you enter the wrong Knock Code 6 times, it will compulsorily take you to your Google account log in/backup PIN.
- Use the fingertip instead of finger nail to tap the screen for turning it on or off.

## Setting up the Knock Code feature

- 1 Tap  >  >  > **Security** > **Screen lock** > **Knock Code**.
- 2 Tap the squares in a pattern to set your Knock Code. Your Knock Code pattern can be 3 to 8 taps.

## Unlocking the screen using the Knock Code

You can unlock the screen by tapping the Knock Code pattern you already set, when the screen turns off.

**Basics**

# Accessories

These accessories are available for use with the your device.

- Travel Adaptor
- Quick Start Guide
- Stereo Headset
- USB Cable
- Battery

## NOTE

- Items described above may be optional.
- Always use genuine LG accessories. The supplied items are designed only for this device and may not be compatible with other devices.
- The items supplied with the device and any available accessories may vary depending on the region or service provider.

# Device layout

<b>Power/Lock Key</b>	<ul style="list-style-type: none"><li>· Turn your device on/off by pressing and holding this key.</li><li>· Short press to turn on/off the screen.</li></ul>
<b>Volume Keys</b>	<p><b>While screen is off:</b></p> <ul style="list-style-type: none"><li>· Long press <b>Volume Keys</b> to launch Camera.</li></ul> <p><b>On the Home screen:</b></p> <ul style="list-style-type: none"><li>· Control ringer volume.</li></ul> <p><b>During a call:</b></p> <ul style="list-style-type: none"><li>· Control your earpiece volume when playing audio/video.</li><li>· Control volume continuously.</li></ul>

 **NOTE: Proximity Sensor**

- When receiving and making calls, the proximity sensor automatically turns the backlight off and locks the touch screen by sensing when the phone is near your ear. This extends battery life and prevents you from unintentionally activating the touch screen during calls.

 **WARNING**

- Placing a heavy object on the device or sitting on it can damage the display and touch screen functions. Do not cover the proximity sensor with screen protectors or any other type of protective film. This could cause the sensor to malfunction.

# Turning Your Device On and Off

## Turning your device on

Press and hold the **Power/Lock Key** on the back of the device for a couple of seconds until the screen turns on.

## Turning your device off

- 1 Press and hold the **Power/Lock Key** on the back of the device until the device options menu appears.
- 2 Tap **Power off** > **OK** to confirm that you want to turn off the device.

# Installing the SIM card and battery

Insert the SIM card provided by the device service provider, and the included battery.

## WARNING

- Do not insert a memory card into the SIM card slot. If a memory card happens to be lodged in the SIM card slot, take the device to a LG Service Centre to remove the memory card.

## NOTE

- Only the Nano SIM cards work with the device.

- 1 To remove the back cover, hold the device firmly in one hand. With your other hand, lift off the back cover with your thumbnail as shown in the figure.

- 2 Slide the SIM card into the SIM card slot as shown in the figure. Make sure the gold contact area on the card is facing downward.

- 3 Insert the battery.

- 4 To replace the cover onto the device, align the back cover over the battery compartment and press it down until it clicks into place.

## Charging the battery

Charge the battery before using it for first time. Use the charger to charge the battery. A computer can also be used to charge the battery by connecting the device to it using the USB cable.

### **WARNING**

- Use only LG-approved chargers, batteries and cables. If you use unapproved chargers, batteries or cables, it may cause battery charging delay. Or this can cause the battery to explode or damage the device, which are not covered by the warranty.

The charger connector is located at the bottom of the device. Insert the charger and plug it into a power outlet.

**NOTE**

- Do not open the back cover while your device is charging.

## Optimizing battery life

Extend your battery's power by turning off features that you do not need to run constantly in the background. You can monitor how applications and system resources consume battery power.

### Extending your device battery life

- Turn off radio communications when you are not using. If you are not using Wi-Fi, Bluetooth® or GPS, turn them off.
- Reduce screen brightness and set a shorter screen timeout.
- Turn off automatic syncing for Gmail, Calendar, Contacts and other applications.
- Some applications you download may consume battery power.
- While using downloaded applications, check the battery charge level.

# Inserting the memory card

Your device supports up to a 32GB microSD card. Depending on the memory card manufacturer and type, some memory cards may not be compatible with your device.

## WARNING

- Some memory cards may not be fully compatible with the device. If you use an incompatible card, it may damage the device or the memory card, or corrupt the data stored in it.

## NOTE

- If you write and erase data too frequently, it will shorten the lifespan of memory cards.

- 1 Remove the back cover.
- 2 Insert a memory card with the gold-coloured contacts facing downwards.

- 3 Replace the back cover.

# Removing the memory card

Before removing the memory card, unmount it for safety.

- 1 Tap  >  >  > **Storage** > **Unmount SD card**.
- 2 Remove the back cover and pull out the memory card.

## WARNING

- Do not remove the memory card while the device is transferring or accessing information. This behavior can cause data to be lost or corrupted or can damage the memory card or the device. LG is not responsible for losses that result from the abuse or improper use of memory cards, including the loss of data.

# Touch screen tips

Here are some tips on how to navigate on your device.

## NOTE

- Do not press too hard; the touch screen is sensitive enough to pick up a light, yet firm tap.
- Use the tip of your finger to tap the option you want. Be careful not to tap any other buttons.

# Tap or touch

Tap or touch to activate your chosen item, link, shortcut, or letter on the on-screen keyboard.

## Touch and hold

Touch and hold an item on the screen by tapping it and not lifting your finger until an action occurs.

## Drag

Touch and hold an item for a moment and then, without lifting your finger, move your finger on the screen until you reach the target position. You can drag items on the Home screen to reposition them.

## Swipe or slide

To swipe or slide, quickly move your finger across the surface of the screen, without pausing when you first tap it (so you don't drag an item instead).

## Double-tap

Double-tap to zoom on a picture or a map.

## Pinch-to-Zoom

Use your index finger and thumb in a pinching or spreading motion to zoom in or out when using the browser, Maps, or when viewing pictures.

# Google account setup

The first time you open a Google application on your device, you will be required to sign in with your existing Google account. If you do not have a Google account, you will be prompted to create one.

## Creating your Google account

- 1 Tap  >  >  > **Accounts**.
- 2 Tap **Add account** > **Google** > **Or create a new account**.
- 3 Enter your first and last name, then tap **NEXT**.
- 4 Enter a username and tap **NEXT**. Your device will communicate with Google servers and check for username availability.
- 5 Enter your password and tap **NEXT**.
- 6 Follow the instructions and enter the required and optional information about the account. Wait while the server creates your account.

## Signing into your Google account

- 1 Tap  >  >  > **Accounts**.
- 2 Tap **Add account** > **Google**.
- 3 Enter your email address and tap **NEXT**.
- 4 Enter your password and tap **NEXT**.
- 5 After signing in, you can use Gmail and take advantage of Google services.

After signing in, your device will sync with your Google services, such as Gmail, Contacts, and Google Calendar. You can also use Maps, download applications from Play Store, back up your settings to Google servers, and take advantage of other Google services on your device.

# Locking and unlocking the device

Pressing the Power/Lock Key turns off the screen and puts the device into lock mode. The device automatically gets locked if it is not used for a specified period. This helps to prevent accidental taps and saves battery power.

To unlock the device, press the Power/Lock Key and swipe the screen in any direction.

## Changing the screen lock method

You can change the way that you lock the screen to prevent others accessing your personal information.

- 1 Tap  >  >  > **Security** > **Screen lock**.
- 2 Select a desired screen lock from None, Swipe, Pattern, Knock Code, PIN and Password.

### **NOTE**

- Create a Google account before setting an unlock pattern and remember the Backup PIN you created when creating your pattern lock.

## Smart Lock

You can use Smart Lock to make unlocking your device easier. You can set it to keep your device unlocked when you have a trusted Bluetooth device connected to it, when it's in a familiar location like your home or work, or when it recognises your face.

### Setting up Smart Lock feature

- 1 Tap  >  >  > **Security** > **Smart Lock**.
- 2 Before you add any trusted devices, trusted places, or trusted face, you need to set up a screen lock (Knock Code, Pattern, PIN or Password).

# Home screen

The Home screen is the starting point for many applications and functions. It allows you to add items like app shortcuts and Google widgets to give you instant access to information and applications. This is the default canvas and accessible from any menu by tapping .

## Getting to Know the Home Screen

1 **Status Bar**

2 **Widget**

3 **Application Icons**

4 **Location Indicator**

5 **Quick Button Area**

6 **Home Touch Buttons**

- 1 **Status Bar** – Shows the device status information, including the time, signal strength, battery status and notification icons.
- 2 **Widget** – Widgets are self-contained applications that can be accessed through the Apps drawer or on the Home screen. Unlike a shortcut, a Widget can function as an on-screen application.
- 3 **Application Icons** – Tap an icon (application, folder, etc.) to open and use it.
- 4 **Location Indicator** – Indicates which Home screen canvas you are currently viewing.
- 5 **Quick Button Area** – Provides one-touch access to the function in any Home screen canvas.

## 6 Home Touch Buttons

 <b>Back Button</b>	Returns to the previous screen. Also closes pop-up items, such as menus, dialog boxes and the on-screen keyboard.
 <b>Home Button</b>	Return to the Home screen from any screen.
 <b>Overview Button</b>	Displays recently used applications.

### Viewing other Home screen panels

The operating system provides multiple Home screen canvases to provide more space for adding icons, widgets and more.

- Slide your finger left or right across the Home screen to access additional canvases.

### Returning to recently used applications

Multitasking is easy with Android; you can keep more than one application running at the same time. There is no need to quit an application before opening another. Use and switch between several open applications.

Android manages each application, stopping and starting them as needed to make sure that idle applications don't consume resources unnecessarily.

- 1 Tap . A list of recently used applications will be displayed.
- 2 Tap the application you want to access. This does not stop the previous app from running in the background. Make sure to tap to back out of an app after using it.
  - To close an app from the recent apps list, swipe the app preview to the left or right.

## Customising the Home screen

You can customise your Home screen by adding apps and widgets and changing wallpapers.

### Adding items on your Home screen

- 1 Touch and hold the empty part of the Home screen.
- 2 In the Add Mode menu, touch and hold the item you want to add.
- 3 Drag it to the desired location and lift your finger.

#### NOTE

- To add an application icon to the Home screen from the Apps screen, touch and hold the application you want to add.

### Removing an item from the Home screen

While on the Home screen, touch and hold the icon you want to remove, and drag it to .

### Adding an app to the Quick Button Area

From the Apps screen or on the Home screen, touch and hold an application icon and drag it to the Quick Button Area. Then release it in the desired location.

### Removing an app from the Quick Button Area

Touch and hold the desired Quick Button, drag it to .

#### NOTE

- The **Apps Button**  cannot be removed.

## Notifications panel

Notifications alert you to the arrival of new messages, calendar events and alarms, as well as ongoing events, such as when you are on a call.

### Opening the notifications panel

Swipe down from the status bar to open the notifications panel. To close the notifications panel, swipe the screen upwards or tap .

- 1** Tap each quick setting button to toggle it on/off.
- 2** Current notifications are listed, each with a brief description. Tap a notification to view it.
- 3** Tap to clear all the notifications.

When a notification arrives, its icon appears at the top of the screen. Icons for pending notifications appear on the left, and system icons, such as Wi-Fi and battery strength are shown on the right.

### Indicator icons on the Status Bar

Indicator icons appear on the status bar at the top of the screen to report missed calls, new messages, calendar events, device status and more.

## Notification icons

## Status icons

The icons displayed at the top of the screen provide information about the status of the device. The icons listed in the table below are some of the most common ones.

Icon	Description
	No network signal available
	Airplane mode is on
	Connected to a Wi-Fi network
	Wired headset connected
	Missed call
	Bluetooth is on
	An alarm is set
	New text or multimedia message
	Wi-Fi hotspot is active

Icon	Description
	A song is currently playing
	Vibrate mode is on
	Battery fully charged
	Battery is charging
	The device is connected to a PC via a USB cable
	Downloading data
	Uploading data
	GPS is on

## NOTE

- The icon's location in the status bar may differ according to the function or service.
- The available options may vary depending on the region or service provider.

## Capturing a screenshot

Press and hold the **Volume Down Key** and the **Power/Lock Key** at the same time for 2 seconds to capture a screenshot of the current screen. To view the captured image, tap  >  >  > **Screenshot** folder.

## On-screen keyboard

You can enter text by using the on-screen keyboard. The on-screen keyboard appears on the screen when you tap an available text entry field.

## Using the keypad and entering text

Icon	Description
	Tap once to capitalise the next letter you type. Double-tap for all caps.
	Tap to enter a space.
	Tap to delete the previous character.

## Entering special characters

The on-screen keyboard allows you to enter special characters. For example, to input "á", touch and hold the "a" button until the pop-up appears and displays related special characters. Without lifting the finger, drag your finger to the desired special character. Once it's highlighted, lift your finger.

## NOTE

- A symbol at the top right corner of a key indicates that additional characters are available for that key.

# Transferring data between a PC and the device

You can copy or move data between a PC and the device.

## Transferring data using USB connection

- 1 Connect your device to a PC using the USB cable that came with your device.
- 2 Open the Notifications panel, tap the current connection type, and select **Media device (MTP)**.
- 3 A window will pop-up on your PC, allowing you to transfer the desired data.

## NOTE

- The LG Android Platform Driver must be installed on your PC to be able to detect the device.
- Check the requirements for using **Media device (MTP)**.

Items	Requirement
OS	Microsoft Windows XP SP3, Vista or higher
Window Media Player version	Windows Media Player 10 or higher

# Apps

# Installing or uninstalling apps

Play Store allows you to browse and search for free and paid applications.

## To open the Play Store app

Tap  >  > .

## To open a screen with details about an app

At any time while browsing in Play Store, tap an app to open its details screen.

The App details screen includes a description, ratings, comments, and related information about the app. From this screen, you can download, install, uninstall, rate the app, and more.

## To uninstall applications

- 1 Tap  >  >  > **Apps**.
- 2 Once all applications appear, scroll to and select the application you want to uninstall.
- 3 Tap **UNINSTALL**.

# Calls

You can enjoy clear calling across the region.

## Making a call

- 1 Tap  >  > .
- 2 Enter the number by using the dialer. To delete a digit, tap .
- 3 After entering the desired number, tap  to place the call.
- 4 To end the call, tap .

### **NOTE**

- To enter "+" to make international calls, touch and hold .

## Calling your contacts

- 1 Tap  > .
- 2 Scroll through the contact list. You can also enter the contact's name in the Search field.
- 3 In the list that is displayed, tap the contact you want to call.

## Answering and rejecting a call

- Swipe  to right to answer an incoming call.
- Swipe  to left to decline an incoming call.

## Making a second call

- 1 During your first call, tap  > **Add call** and enter the number.
- 2 Tap . Both calls are displayed on the call screen. Your initial call is locked and put on hold.
- 3 Tap the displayed number to toggle between calls. Or tap  > **Merge calls** to start a conference call.
- 4 To end all calls, tap .

### NOTE

- You are charged for each call you make.

## Viewing your call logs

- 1 Tap  >  > **RECENTS** tab.
- 2 View a list of all dialed, received and missed calls.

## Change your call settings

You can configure call settings, such as call forwarding, as well as other special features offered by your carrier.

- 1 Tap  > .
- 2 Tap  > **Settings** > **Calls** and configure the desired options.

# Contacts

You can add contacts on your device and synchronise them with the contacts in your Google Account or other accounts that support syncing contacts.

## Searching for a contact

- 1 Tap  > .
- 2 Tap  and enter the contact name using the keyboard. Matches are displayed as you begin to type.

## Adding a new contact

- 1 Tap  >  > .
- 2 Enter the new contact's number.
- 3 Tap  > **Add to contacts** > **Create new contact**.
- 4 Enter the desired information for the contact.
- 5 Tap  to save.

## Favourites contacts

You can classify frequently called contacts as favourites.

### Adding a contact to your favourites

- 1 Tap  > .
- 2 Tap a contact to view its details.
- 3 Tap the star at the top right of the screen. The star turns white.

### Removing a contact from your favourites list

- 1 Tap  >  > **FAVOURITES** tab.
- 2 Choose a contact to view its details.
- 3 Tap the white star at the top right of the screen. The contact is removed from your favourites.

## Creating a group

- 1 Tap  > .
- 2 Tap  > **Groups** > .
- 3 Enter a name for the new group.
- 4 Tap  and choose contacts you want to add to the group. Then tap **OK** on the top right corner.
- 5 Tap  to save the group.

### **NOTE**

- If you delete a group, the contacts assigned to that group will not be lost. They will remain in your contact list.

## Messaging

Your device combines text and multimedia messaging into one intuitive, easy to use menu.

### **NOTE**

- You may be charged for each message you send. Please consult with your service provider.

## Sending a message

- 1 Tap  >  > .
- 2 Tap , then select one or more entries from your Contacts list.

**OR**

Enter a contact name or contact number into the **Type name or number** field. As you enter the contact name, matching contacts appear. You can tap a suggested recipient and add more than one contact.

- 3 Tap the text field and start entering your message.

- 4 Tap  to open the options menu. Choose from any of the available options.
- 5 Tap  to attach the file that you want to share with message.
- 6 Tap  to send your message.

## Conversation view

Messages exchanged with another party are displayed in chronological order so that you can conveniently see and find your conversations.

## Changing your messaging settings

The messaging settings of your device are predefined to allow you to send messages immediately. You can change the settings based on your preferences.

- Tap  >  >  > **Settings**.

## Camera

You can use the camera or camcorder to take and share pictures and videos.

- Tap  >  > .

## Taking a photo

- 1 Frame your subject on the screen.
- 2 A square around the subject indicates that the camera has focused.
- 3 Tap  to take a photo. Your picture will be automatically saved to the Gallery.

## Camera options on the viewfinder

1		Tap to take a normal shot.
2		Tap to take a panoramic picture.
3		Indicates the number of pictures that can be taken and stored based on the current image size.
4		Tap to manage the camera's flash.
5		Tap to swap between the rear camera lens and the front camera lens.
6		Tap to view the last photo or video you recorded.
7		Tap to take a photo.
8		Tap to start recording.
9		Tap to open the camera settings menu.

### NOTE

- Be sure to clean the protective lens cover with a microfiber cloth before taking pictures. A lens cover with smudges from fingers can cause blurry pictures with a "halo" effect.

## Once you have taken a photo

Tap the image thumbnail on the screen to view the last photo you took.

	Tap to edit the photo.
	Tap to open the available sharing options.
	Tap to attach to your message.
	Tap to access additional options.

## Recording a video

- 1 Tap  >  > .
- 2 Frame your subject on the screen.
- 3 Tap  to start recording the video. The length of the recording is displayed on the bottom of the screen.

### NOTE

- Tap  to take pictures while recording video.

- 4 Tap  to pause recording video. You can resume recording by tapping .

OR

Tap  to stop recording. Your video will be automatically saved to the Gallery.

## After recording a video

Tap the video thumbnail on the screen to view the last video you recorded.

	Tap to open the available sharing options to share.
	Tap to attach to your message.
	Tap to access additional options.

# Gallery

The Gallery application presents the pictures and videos in your storage, including those you've taken with the Camera application and those you downloaded from the web or other locations.

- 1 Tap  >  > .
- 2 Tap an album to open it and view its contents. The pictures and videos in the album are displayed in chronological order.
- 3 Tap a picture in an album to view it.

## NOTE

- Depending on the software installed, some file formats may not be supported.
- Some files may not play properly due to their encoding.
- If the file size exceeds the available memory, an error can occur when you open files.

## Viewing pictures

The Gallery displays your pictures in folders. When an application, such as E-mail, saves a picture, the download folder is automatically created to contain the picture. Likewise, capturing a screenshot automatically creates the Screenshots folder.

Pictures are displayed by the date they were created. Select a picture to view it full screen. Scroll left or right to view the next or previous image.

## Editing photos

While viewing a photo, tap .

## Setting wallpaper

While viewing a photo, tap  > **Set picture as** to set the image as wallpaper or assign it to a contact.

## Zooming in and out

Use one of the following methods to zoom in on an image:

- Double-tap anywhere to zoom in.
- Spread two fingers apart on any place in the picture zoom in. Pinch in or double-tap the image to zoom out.

## Playing a video

- 1 Tap  >  > .
- 2 Select the video you want to watch.

## Video options

1		Tap to pause/resume video playback.
2		Tap to open the available sharing options.
3		Tap to attach to your message.
4		Tap to access additional options.
5		Tap to rewind 3 seconds.
6		Tap to go back to the beginning of the video.
7		Tap to fast-forward 3 seconds.
8		Tap to change the aspect ratio of the video screen.

## Deleting photos/videos

While viewing a photo, tap  > **Delete**.

## E-mail

You can use the Email application to read email from providers other than Gmail. The Email application supports the following account types: POP3, IMAP, Microsoft Exchange (for Enterprise users) and other accounts.

- Tap  >  > .

## Adding an account

The first time you open the Email application, a setup wizard opens to help you add an email account. You can also add your email account using the **Settings** app.

- Tap  >  >  > **Accounts** > **Add account**.

## Composing and sending email

- 1 Tap .
- 2 Enter an address for the message's intended recipient. As you enter text, matching addresses will be offered from your contacts.
- 3 Tap the **Cc/Bcc** field to copy or blind copy to other contacts/email addresses.
- 4 Tap the text field and enter your message.
- 5 Longpress the text field to edit selected words.
- 6 Tap  to attach the file you want to send with your message.
- 7 Tap  to send the message.

## Changing an email general settings

- Tap  > **Settings** > **General settings**.

# Clock

The Clock app gives you access to the Alarms, Clock, Timer and Stopwatch functions. Access these functions by tapping the tabs across the top of the screen or swiping horizontally across the screen.

- Tap  >  > .

## Alarm

The Alarm tab allows you to set alarms.

- 1 Tap .
- 2 Tap  to add a new alarm.
- 3 Adjust the settings as necessary and tap **OK**.

### NOTE

- You can also tap an existing alarm to edit it.

## Clock

The Clock tab allows you to easily check the current time in other cities around the world.

- 1 Tap .
- 2 Tap  and select the desired city.

## Timer

The Timer tab can alert you with an audible signal when a set amount of time has passed.

- 1 Tap .
- 2 Set the desired time on the timer.
- 3 Tap  to start the timer.

## Stopwatch

The Stopwatch tab allows you to use your device as a stopwatch.

- 1 Tap .
- 2 Tap  to initiate the stopwatch.
  - Tap  to record lap times.
- 3 Tap  to stop stopwatch.

## Calculator

The Calculator app allows you to perform mathematical calculations using a standard or scientific calculator.

- 1 Tap  >  > .
- 2 Tap the number buttons to enter numbers.
- 3 For simple calculations, tap the function you want to perform (+, -, x or ÷) followed by =.

## Calendar

The Calendar app allows you to track your schedule of events.

- 1 Tap  >  > .
- 2 Tap the date you want to add an event to. Then tap .

# Sound Recorder

The Sound Recorder app records audible files for you to use in a variety of ways.

## Recording a sound or voice

- 1 Tap  >  > .
- 2 Tap  to begin recording.
- 3 Tap  to end the recording.
- 4 Tap  to listen to the recording.

### NOTE

- Tap  to access your recordings. You can listen to your saved recordings.

## Downloads

Use this application to see what files have been downloaded through the applications.

- Tap  >  > .

## FM Radio

Your device has a built-in FM Radio so you can tune in to your favourite stations and listen on the go.

- Tap  >  > .

### NOTE

- You must plug in your earphones in order to use them as an antenna.

# Google apps

Google provides entertainment, social network, and business apps. You may require a Google account to access some apps.

To view more app information, access each app's help menu.

## NOTE

- Some apps may not be available depending on the region or service provider.

## Google

Search quickly for items on the Internet or your device.

## Chrome

Search for information and browse webpages.

## Gmail

Send or receive emails via the Google Mail service.

## Maps

Find your location on the map, search for locations, and view location information for various places.

## YouTube

Watch or create videos and share them with others.

## Drive

Store your content on the cloud, access it from anywhere, and share it with others.

## Play Music

Discover, listen to, and share music on your device.

## Play Movies & TV

Watch videos stored on your device and download various content to watch from the Play Store.

## Hangouts

Chat with your friends individually or in groups and use images, emoticons, and video calls while you are chatting.

## Photos

Manage photos, albums, and videos that you have saved on the device and uploaded to Google+.

## Google Settings

Configure settings for some features provided by Google.

## Voice Search

Search quickly for items by saying a keyword or phrase.

# Settings

# Access the Settings menu

The Settings app allows you to customise and personalise your device.

## Opening the settings app

- Tap  >  > .

# Wireless & networks

## Wi-Fi

You can use high-speed Internet access while within the coverage of the wireless access point (AP).

On the **Settings** screen, **Wi-Fi**.

- 1 Tap  to turn Wi-Fi on and start scanning for available Wi-Fi networks.
- 2 Tap a network to connect to it.
  - If the network is secured with a lock icon, you will need to enter a security key or password.
  - The status bar displays icons that indicate Wi-Fi status.

### **NOTE**

- If you are out of the Wi-Fi zone or have set Wi-Fi to Off, the device may automatically connect to the Web using data, which may incur data charges.

## Wi-Fi Direct

Wi-Fi Direct provides a direct connection between Wi-Fi enabled devices without requiring an access point.

- Tap  > **Advanced** > **Wi-Fi Direct**.

### **NOTE**

- When in this menu, your device is visible to other visible Wi-Fi Direct devices nearby.

## Bluetooth

Bluetooth is a short-range communications technology that allows you to connect wirelessly to a number of Bluetooth devices, such as headsets and hands-free car kits, and Bluetooth-enabled handhelds, computers, printers, and wireless devices.

### NOTE

- LG is not responsible for the loss, interception or misuse of data sent or received via the Bluetooth feature.
- Always make sure that you share and receive data with devices that are trusted and properly secured.
- If there are obstacles between the devices, the operating distance may be reduced.
- Some devices, especially those that are not tested or approved by Bluetooth SIG, may be incompatible with your device.

## Pairing your device with another Bluetooth device

- 1 On the **Settings** screen, tap **Bluetooth**.
- 2 Tap  to turn Bluetooth on and start scanning for available Bluetooth devices.
  - If you want to detect the visible devices in range additionally, tap  > **Refresh**.
- 3 Choose the device you want to pair with from the list. Once the pairing is successful, your device connects to the other device.

### NOTE

- Pairing between two Bluetooth devices is a one-time process. Once a pairing has been created, the devices will continue to recognise their partnership and exchange information.
- Please consult documentation included with Bluetooth device for information on pairing mode and passcode (typically 0 0 0 0 – four zeroes).

## Sending data via Bluetooth

- 1 Select a file or item such as a contact or media file.
- 2 Select the option for sending data via Bluetooth.
- 3 Search for and pair with a Bluetooth-enabled device.

### NOTE

- Due to different specifications and features of other Bluetooth-compatible devices, display and operations may be different, and functions such as transfer or exchange may not be possible with all Bluetooth compatible devices.

## Receiving data via Bluetooth

- 1 On the **Settings** screen, tap **Bluetooth**.
- 2 Tap  to turn Bluetooth on.
- 3 You will receive a request to accept a pairing attempt from the sending device. Be sure to select **ACCEPT**.

## Data usage

Displays the data usage and device data usage limit.

On the **Settings** screen, tap **Data usage**.

- Tap  to toggle your device data connection On or Off. This allows you to manage your device data usage. You can use a Wi-Fi network connection for data instead.

## Airplane mode

Allows you to use many of your device features, such as games, and music, when you are in an area where making or receiving calls or data use is prohibited. When you set your device to Airplane Mode, it cannot send or receive any calls or access online data.

On the **Settings** screen, tap **More** > **Airplane mode**.

## Default SMS app

This menu allows you to choose what messaging app to use as your default messaging app.

On the **Settings** screen, tap **More** > **Default SMS app**.

## Wi-Fi hotspot

You can also use your device to provide a device broadband connection. Create a hotspot and share your connection.

On the **Settings** screen, tap **More** > **Tethering & portable hotspot** > **Wi-Fi hotspot**.

- 1 Tap  to turn Wi-Fi hotspot on.
- 2 Tap Set up Wi-Fi hotspot to change the SSID, security type, password, and other hotspot options.

## USB tethering

Allows you to share the internet connection with your computer via a USB cable.

- 1 Connect your device to your PC with a USB cable.
- 2 On the **Settings** screen, tap **More** > **Tethering & portable hotspot** > **USB tethering**.
- 3 Tap  to turn USB tethering on.

## Bluetooth tethering

Allows you to connect to other devices via Bluetooth.

- On the **Settings** screen, tap **More** > **Tethering & portable hotspot** > **Bluetooth tethering**.
- Tap  to turn Bluetooth tethering on to share your connection via Bluetooth tethering.

## VPN

From your device, you can add, set up, and manage virtual private networks (VPNs) that allow you to connect and access resources inside a secured local network, such as your corporate network.

On the **Settings** screen, tap **More** > **VPN**.

## Mobile networks

This menu allows you to configure various device network settings.

On the **Settings** screen, tap **More** > **Mobile networks**.

## Device

### Display

- **Wallpaper** – Sets the wallpaper to use on your Home screen.
- **Lock screen wallpaper** – Allows you to set your Lock screen wallpaper.
- **Brightness level** – Adjust the screen brightness by using the slider.
- **Sleep** – Set the time delay before the screen automatically turns off.
- **Daydream** – Select the screen saver to display when the device is sleeping while docked and/or charging.
- **Font size** – Select the desired font size.
- **When device is rotated** – Set to switch orientation automatically when you rotate the device.

## Sound & notification

Allows you to change settings for various sounds on the device.

On the **Settings** screen, tap **Sound & notification**.

- **Sound** – Adjust the device's volume settings to suit your needs and environment.
- **Also vibrate for calls** – Enable to set the device to vibrate in addition to the ringtone when you receive calls.
- **Interruptions** – Allows you to set a schedule when to prevent interruptions from notifications. You can set to allow certain features to interrupt when Priority only is set.
- **Phone ringtone** – Allows you to set the ringtones for calls.
- **Default notification ringtone** – Allows you to set the default notification ringtones.
- **Other sounds** – Tap to set the Dial pad tones, Screen locking sounds, Touch sounds and Vibrate on touch.
- **When device is locked** – Allows you to choose if you want to show or hide notifications on the lock screen.
- **App notifications** – Allows you to set notifications for individual apps including preventing them from displaying notifications and setting priority.
- **Notification access** – Apps cannot read notifications.

## Storage

You can monitor the used and available internal memory in the device.

On the **Settings** screen, tap **Storage**.

## Battery

Displays the current battery status including the percentage of remaining charge and charging state.

On the **Settings** screen, tap **Battery**.

## Apps

Allows you to view details about the apps installed on your device, manage their data, and force them to stop.

On the **Settings** screen, tap **Apps**.

## Users

Add user to share the device with other people. Each user can have their own apps and content in their own space. Initial setup is required for new users to use device.

On the **Settings** screen, tap **Users**.

- **Add user** – Allows you to add and configure a new user for the device.

## Personal

### Location

Turn on location service, your device determines your approximate location using Wi-Fi and mobile networks. When you select this option, you're asked whether you consent to allowing Google to use your location when providing these services.

On the **Settings** screen, tap **Location**.

- **Mode** – Sets the how your current location information is determined.
- **Google Location History** – Allows you to choose your location information settings as accessed by Google and its products.

## Security

Use this menu to configure how to help secure your device and its data.

On the **Settings** screen, tap **Security**.

- **Screen lock** – Allows you to set a screen lock type to secure your device.
- **Owner info** – Allows you to display the owner information on the lock screen in case the device is lost.
- **Smart Lock** – Sets to keep your device unlocked with trusted device or a place. If you need more information, please refer to **Smart Lock** section in **Locking and unlocking the device**.
- **Encrypt phone** – Allows you to encrypt data on the device for security. You will be required to enter a PIN or password to decrypt your device each time you power it on.
- **Set up SIM card lock** – Sets the PIN to lock your SIM card and allows you to change the PIN.
- **Make passwords visible** – Enable to briefly show each character of passwords as you enter them so that you can see what you enter.
- **Device administrators** – View or deactivate device administrators.
- **Unknown sources** – Allow installation of non-Play Store applications.
- **Storage type** – Displays the current storage type.
- **Trusted credentials** – Allows applications to access your device's encrypted store of secure certificates and related passwords and other credentials. You use credential storage to establish some types of VPN and Wi-Fi connections. If you have not set a password for the secure credential storage, this setting is dimmed.
- **Install from phone storage** – Tap to install a secure certificate.
- **Clear credentials** – Deletes all secure certificates and related credentials and erases the secure storage's own password.
- **Trust agents** – Select apps to use without unlocking screen.
- **Screen pinning** – You can enable your device to only show a certain app's screen using screen pin.
- **Apps with usage access** – Allows you to enable or disable the apps that can view your device's app usage.

## Accounts

Use this menu to add, remove, and manage your Google and other supported accounts. You also use these settings to control how and whether all applications send, receive, and sync data on their own schedules and whether all applications can synchronise user data automatically.

Gmail™, Calendar, and other applications may also have their own settings to control how they synchronise data; see the sections on those applications for details.

On the **Settings** screen, tap **Accounts**.

- **Add account** – Tap to add new account.

## Language & input

Allows you to change the text input settings.

Select the language for the text on your device and for configuring the on-screen keyboard, including words that you've added to its dictionary.

On the **Settings** screen, tap **Language & input**.

## Backup & reset

Change the settings for managing your settings and data.

On the **Settings** screen, tap **Backup & reset**.

- **Back up my data** – Back up app data, Wi-Fi passwords, and other settings to Google servers.
- **Backup account** – Displays the account that is currently being used to back up information.
- **Automatic restore** – When reinstalling an app, restore backed up settings and data.
- **DRM reset** – Reset your all DRM licenses.
- **Factory data reset** – Reset your settings to the factory default values and delete all your data. If you reset the device this way, you are prompted to re-enter the same information as when you first started Android.

# System

## Date & time

Set your preferences for how the date and time is displayed.

On the **Settings** screen, tap **Date & time**.

## Accessibility

Use the Accessibility settings to configure accessibility plug-ins you have installed on your device.

On the **Settings** screen, tap **Accessibility**.

- **TalkBack** – Allows you to set up the TalkBack function which assists people with impaired vision by providing verbal feedback.
- **Switch Access** – Allows you to interact with your device using one or more switches that work like keyboard keys. This menu can be helpful for users with mobility limitations that prevent them from interacting directly with your device.
- **Captions** – Allows you to customise caption settings for those with hearing impairments.
- **Magnification gestures** – Allows you to zoom in and out by tripletapping the screen.
- **Large text** – Sets the font size.
- **High contrast text** – Enable to set the text to a darker contrast.
- **Power button ends call** – Enable so that you can end voice calls by pressing the Power/Lock Key.
- **Auto-rotate screen** – Enable to allow the device to rotate the screen depending on the physical device orientation (portrait or landscape).
- **Speak passwords** – Enable to allow voice confirmations of characters when entering passwords.
- **Accessibility shortcut** – Allows you quickly enable accessibility feature.
- **Text-to-speech output** – Sets the preferred speech engine and speech rate.

- **Touch & hold delay** – Allows you to set the touch and hold delay.
- **Color inversion** – Allows to invert the colours of the screen and content.
- **Colour correction** – Allows to correct the colours of the screen and content.

## Printing

Allows you to print the content of certain screens (such as web pages displayed in Chrome) to a printer connected to the same Wi-Fi network as your Android device.

On the **Settings** screen, tap **Printing**.

### Printing via wireless printer

- 1 Select the content such as images or documents.
- 2 Tap **⋮** > **Print** > **▼** > **All printers...**, and then select a printer.

## About phone

View legal information, check device status and software versions, and perform a software update.

On the **Settings** screen, tap **About phone**.

# Appendix

# Device software update

## LG device software update via Over-the-Air (OTA)

This feature allows you to conveniently update your device software to a newer version via OTA, without connecting using a USB data cable. This feature will only be available if and when LG makes a newer firmware version available for your device.

You should first check the software version on your device:

**Settings > About phone > System updates.**

### NOTE

- Your personal data from internal device storage—including information about your Google account and any other accounts, your system/application data and settings, any downloaded applications and your DRM licence—might be lost in the process of updating your device software. Therefore, LG recommends that you backup your personal data before updating your device software. LG does not take responsibility for any loss of personal data.
- This feature depends on your network service provider, region and country.
- LG reserves the right to make firmware updates available only for selected models at its own discretion and does not guarantee the availability of the newer version of the firmware for all handset models.
- To protect against an unexpected power off during updating your device software, due to insufficient battery power, you should always keep your battery fully charged. Also do not remove the battery during updating your device software.

# FAQ

This chapter lists some problems you might encounter when using your device. Some problems require you to call your service provider, but most are easy to fix yourself.

Message	Possible causes	Possible corrective measures
SIM card error	There is no SIM card in the device or it is inserted incorrectly.	Make sure that the SIM card is correctly inserted.
No network connection/ Dropped network	Signal is weak or you are outside the carrier network.	Move toward a window or into an open area. Check the network operator coverage map.
	Operator applied new services.	Check whether the SIM card is more than 6~12 months old. If so, change your SIM card at your network provider's nearest branch. Contact your service provider.
Codes do not match	To change a security code, must need to confirm the new code by re-entering it.	If you forget the code, contact your service provider.
	The two codes you entered do not match.	
No applications can be set	Not supported by service provider or registration required.	Contact your service provider.

Message	Possible causes	Possible corrective measures
Downloaded application causes a lot of errors.	Remove the application.	<ol style="list-style-type: none"> <li>1 Tap  &gt;  &gt; .</li> <li>2 Tap <b>Apps</b>.</li> <li>3 Tap the app &gt; <b>UNINSTALL</b>.</li> </ol>
Calls not available	Dialing error	New network not authorised.
	New SIM card inserted.	Check for new restrictions.
	Pre-paid charge limit reached.	Contact service provider or reset limit with PIN2.
Device cannot be turned on	On/Off key pressed too briefly.	Press the On/Off key for at least two seconds.
	Battery is not charged.	Charge battery. Check the charging indicator on the display.
Charging error	Battery is not charged.	Charge battery.
	Outside temperature is too hot or cold.	Make sure device is charging at a normal temperature.
	Contact problem	Check the charger and its connection to the device.
	No voltage	Plug the charger into a different outlet.
	Charger defective	Replace the charger.
	Wrong charger	Use only original LG accessories.
Number not allowed.	The Fixed dialling number function is on.	Check the Settings menu and turn the function off.

Message	Possible causes	Possible corrective measures
Impossible to receive/send SMS & photos	Memory full	Delete some data, such as applications or messages from your device to make more memory available.
Files do not open	Unsupported file format	Check the supported file formats.
No sound	Vibration mode	Check the settings status in the sound menu to make sure you are not in vibration or no interruptions mode.
Hangs up or freezes	Intermittent software problem	<p>If the screen freezes or the device does not respond when you try to operate it, remove the battery and reinsert it. Then power the device back on.</p> <p><b>OR</b></p> <p>Try to perform a software update through the website.</p>

# Anti-Theft Guide

You can set up your device to prevent other people from using it if it's been reset to factory settings without your permission. For example, if your device is lost, stolen, or wiped, only someone with your Google account or screen lock information can use the device.

All you need to make sure your device is protected is:

- **Set a screen lock:** If your device is lost or stolen but you have a screen lock set, the device can't be erased using the Settings menu unless your screen is unlocked.
- **Add your Google account on your device:** If your device is wiped but you have your Google account on it, the device can't finish the setup process until your Google account information is entered again.

After your device is protected, you'll need to either unlock your screen or enter your Google account password if you need to do a factory reset. This ensures that you or someone you trust is doing the reset.

## NOTE

- Do not forget your Google account and password you had added to your device prior to performing a factory reset. If you can't provide the account information during the setup process, you won't be able to use the device at all after performing the factory reset.

# More information

## Open source software notice information

To obtain the source code under GPL, LGPL, MPL, and other open source licenses, that is contained in this product, please visit

<http://opensource.lge.com>.

In addition to the source code, all referred license terms, warranty disclaimers and copyright notices are available for download.

LG Electronics will also provide open source code to you on CD-ROM for a charge covering the cost of performing such distribution (such as the cost of media, shipping, and handling) upon email request to [opensource@lge.com](mailto:opensource@lge.com). This offer is valid for three (3) years from the date on which you purchased the product.

## Trademarks

- Copyright ©2016 LG Electronics, Inc. All rights reserved. LG and the LG logo are registered trademarks of LG Group and its related entities. All other trademarks are the property of their respective owners.
- Google™, Google Maps™, Gmail™, YouTube™, Hangouts™ and Play Store™ are trademarks of Google, Inc.

## Declaration of conformity

Hereby, **LG Electronics** declares that this **LG-X210** product is in compliance with the essential requirements and other relevant provisions of Directive **1999/5/EC**. A copy of the Declaration of Conformity can be found at **<http://www.lg.com/global/declaration>**

## Contact office for compliance of this product

LG Electronics European Shared Service Center B.V.  
Krijgsman 1, 1186 DM Amstelveen, The Netherlands

## Disposal of your old appliance

- 1 This crossed-out wheeled bin symbol indicates that waste electrical and electronic products (WEEE) should be disposed of separately from the municipal waste stream.
- 2 Old electrical products can contain hazardous substances so correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health. Your old appliance may contain reusable parts that could be used to repair other products, and other valuable materials that can be recycled to conserve limited resources.
- 3 You can take your appliance either to the shop where you purchased the product, or contact your local government waste office for details of your nearest authorised WEEE collection point. For the most up to date information for your country please see [www.lg.com/global/recycling](http://www.lg.com/global/recycling)

## Disposal of waste batteries/accumulators

- 1 This symbol may be combined with chemical symbols for mercury (Hg), cadmium (Cd) or lead (Pb) if the battery contains more than 0.0005% of mercury, 0.002% of cadmium or 0.004% of lead.
- 2 All batteries/accumulators should be disposed separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
- 3 The correct disposal of your old batteries/accumulators will help to prevent potential negative consequences for the environment, animal and human health.
- 4 For more detailed information about disposal of your old batteries/accumulators, please contact your city office, waste disposal service or the shop where you purchased the product.
