ARC (Audio Return Channel)

An external audio device that supports SIMPLINK and ARC must be connected using HDMI IN eARC/ARC port.

When connected with a high-speed HDMI cable, the external audio device that supports ARC outputs SPDIF audio without additional audio cable and supports the SIMPLINK function.

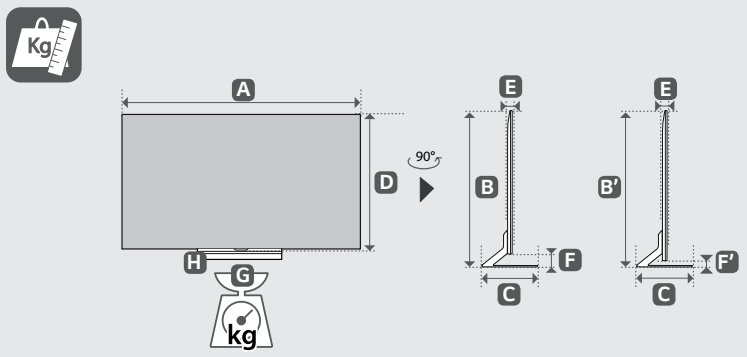

NOTE

- Do not look into the optical output ports, looking at the laser beam may damage your vision
- Audio with ACP (Audio Copy Protection)function may block digital audio output.

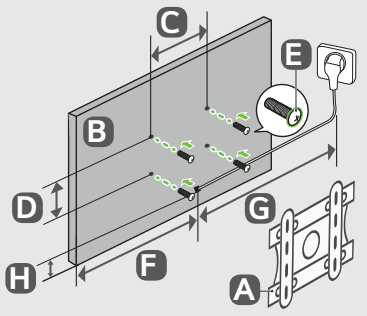

NOTE

- Some USB Hubs may not work, if a USB device connected using a USB Hub is not detected, connect it to the USB port on the TV directly.
- Connect the external power source if your USB is needed.
