- 1** MIC (Microphone) 1/2 jack
- 2** Disc tray
- 3**  (Remote sensor)
- 4** PORT. (Portable) IN jack
- 5** H/P (Headphone) jack

## Speaker Connection

## Rear Panel

- 1** Power cord
- 2** AUX IN 1/2 (L/R)
- 3** AUX OUT (L/R)
- 4** ANTENNA (FM)
- 4** SPEAKERS connector
- 5** SPEAKER LIGHTING  
Connect the speaker lighting cables.
- 6** Lighting LED

## Additional Information

### Specifications

Power Requirements	Refer to the main label on the unit.
Power Consumption	Refer to the main label on the unit. Networked standby : 0.5 W (If all network ports are activated.)
Dimensions (W x H x D)	Approx. 470 mm x 213 mm x 423 mm
Bus Power Supply (USB)	5 V  500 mA
Amplifier (Total RMS output power)	5,000 W RMS

Design and specifications are subject to change without notice.

## Additional Information

### Replacement of battery

### Caution

- When you use the multiple socket, it is advisable to use 15 A socket. 10 A socket may cause power off due to lack of power supply.
- Do not place objects on the speakers. It may cause the objects to fall and make property damage.
- Install the speakers on a firm surface not to slide. The vibration caused by the strong output can shake and move the speakers.
- Avoid turning up max volume in a small enclosed space. The powerful and intense output of the speakers can shake the ceiling and get the objects in the room falling.
- To protect from hearing damage, keep the sufficient distance from the speaker. The overwhelming sound from the speaker may cause a person's hearing damage.
- Allow more than 20 cm of free space between the main set and the speakers when you install the main set on the ground. High sound pressure from the speakers can make the set tremble to disturb the CD playback.
- Connect the power cord to wall outlet directly if possible. Or when you use an extension cable, it is highly recommended to use an extension cable of 110 V / 15 A or 230 V / 15 A, otherwise the unit may not operate properly because of the lack of power supply.
- Do not overload the extension cord with excessive electrical load.

### Note

- Do not look directly at the light emitting part when the LIGHTING is turned on.
- If the illumination brightness is glaring, switch on the room lights or turn off the LIGHTING of the unit.

### Grounding

(Except for devices which are not grounded.) Ensure that you connect the earth ground wire to prevent possible electric shock (i.e. a Audio with a three-prong grounded AC plug must be connected to a three-prong grounded AC outlet). If grounding methods are not possible, have a qualified electrician install a separate circuit breaker. Do not try to ground the unit by connecting it to telephone wires, lightning rods, or gas pipes.

### How to disconnect the wireless network connection or the wireless device

Turn off the unit by pressing the power button for more than 5 seconds.

### Declaration of Conformity

Hereby, LG Electronics declares that the radio equipment type Mini Hi-Fi System is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:

<http://www.lg.com/global/support/cedoc/cedoc#>

For consideration of the user, this device should be installed and operated with a minimum distance of 20 cm between the device and the body.

Frequency range	Output power (Max.)
2402 to 2480 MHz	10 dBm

### Controller App

Download the **Music Flow Bluetooth** App to your device. (Android only)

### LG Sound Sync (Wireless)
